

RE: Complaint against Officials of the Sharyland Ind. School District,  
and Request for Help.

Mike Morath, Commissioner  
Texas Education Agency  
1701 N. Congress Ave. Austin, Texas 78701  
Tel. (512)463 8985; Email, [complaintsmanagement@tea.texas.gov](mailto:complaintsmanagement@tea.texas.gov)

Dear Commissioner,

I respectfully request your office to compel SISD officials to follow the doctors' orders not to seat my children directly under the light or in close proximity to sources of radiation, on the ground that following the doctors' orders is necessary to prevent that my children's Electrohyper-sensitivity becomes as in my case, life-threatening or worse; and on the ground that SISD officials have refused to follow the doctors' orders in retaliation for denouncing their fraud on the Courts to conceal the harm being caused on children by the microwave radiation at school, and to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment as explained herein.

I am suffering of a painful, debilitating and life-threatening Electro-hypersensitivity EHS. Exposure to the same radiation reaching my children at school causes me among other things, symptoms of heart attack and of stroke; swelling of vital organs and of face, head and eyes, and breathing, speech, hearing, concentration and memory problems. For the most part, I have been home bound for more than 5 years. I cannot stay inside my home, but a few minutes at a time, and I stay on a metal room placed in the middle of the lot. I have been violently ill several times. I am in pain all the time. I use oxygen during crisis. Everyday is a different nightmare. My EHS has been recognized as a medical condition and as a disability by federal and State agencies and by Courts. EHS is caused and aggravated by the same radiation reaching children at school, and proves conclusively that the microwave radiation at school is causing children harm so severe as to defeat the purpose of education. See Grievance to the State Bar against SISD counsell, Ivan F. Perez, attached.

My children are also suffering of EHS and their condition is being aggravated by unnecessary exposures to radiation and by lack of expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation. See Request to follow the doctors' directions to SUSD Superintendent, Dr. Robert O'Connor which includes as Exhibits the doctors' letters, and details the aggravation of my children's EHS. The Request to Dr. O'Connor includes medical documentation of my life-threatening EHS, and pictures of face and eye swelling, and showing how the swelling inside the skull is pushing one of my eyes out of its socket. Attached.

An expert in radiation exposures at schools, Dr. Samuel Milham, testified in federal Court that my children inherited my EHS, that the swelling, black spots and bloody lines on my children's eyes were caused by exposure to the radiation at school, and that my children needed to be transferred to another school to prevent further aggravation of their EHS. My children's eyes continue to get swollen by unnecessary exposures to radiation. See pictures of my children's eyes, attached, Id.

Specific, concrete, and undisputed evidence on the federal and State records has proven beyond reasonable doubt and as a matter of law, the collusion of SUSD officials with the former Texas Attorney General and now governor of Texas, Greg Abbott, with members of the judiciary and with others in falsification of government records, in perjury and fraud on the Courts and in disability discrimination and retaliation against my children and against myself to conceal that the microwave radiation at school is causing children harm so severe as to defeat the purpose of education, and to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment as detailed on the Grievance against SUSD counsel, Mr. Ivan F. Perez, attached. Please See Criminal Complaints submitted to federal and State authorities posted on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

The same evidence on the record has proven beyond reasonable doubt the collusion of SUSD officials with Greg Abbott, with members of the judiciary and with others in fraud on the Courts to prevent expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation. See Grievance against Mr. Perez, Id.

Please be advised that in response to another request to follow the doctors' orders not to seat my children directly under the light or in close proximity to sources of radiation, SUSD officials seated my children closer to sources of radiation, aggravating the health condition of my youngest child. Id; See Criminal Complaints to federal and State authorities posted on the Case Law section of wirelesswatchblog.org

SUSD counsel, Mr. Evan Perez has now allowed me to contact directly SUSD officials and my children's teachers and principals to conceal the harm being caused on children and teachers by the radiation at school. Id.

For all these reasons, I respectfully request your office to compel SUSD officials to follow the doctors' orders not to seat my children directly under the light or in close proximity to sources of radiation, and to allow me to contact directly SUSD officials and my children's teachers and principals. Your prompt attention to this matter can save my children's lives. If more evidence is necessary, I will be happy to oblige.

Respectfully submitted,

 8 Aug., 2016  
Jesus Mendoza

2202 E. 28th St. Mission, Texas 78574 Tel. (956)519-7140

See Open Letter to Parents, Doctors, and School Officials, and Open Letter to the Judiciary detailing with scientific evidence some of the harm being caused on children by the microwave radiation at school. Next pages.

## OPEN LETTER TO PARENTS, DOCTORS, AND SCHOOL OFFICIALS

Federal and State litigation has proven the fact that the schools' wireless radiation is exposing children to more than 250,000 uW/m<sup>2</sup> (25,000 nW/cm<sup>2</sup>) of microwave radiation; that these exposures have caused harm to teachers, to fire fighters, to police officers, and to other adults; and that the same radiation reaching children at school is causing children Electrohypersensitivities, and brain, eye, blood, and DNA damage and other severe physical harm that defeats the purpose of education. Below, some of the scientific evidence and studies on the record proving the harm being caused on children by the different power levels of microwave radiation reaching children at school.

uW/m <sup>2</sup>	
20	<u>Altpeter 1995,1997</u> . Sleep disorders, abnormal blood pressure, weakness, fatigue, limb pain, digestive problems, fewer school children promoted.
30-200	<u>Heinrich 2010</u> . Short-term exposure caused headaches, irritation, and concentration problems in school children.
30-500	<u>Thomas 2010</u> . Short-term exposure caused sleep problems in school children.
50	<u>Mohler 2010</u> . Chronic exposure caused sleep problems.
50-400	<u>Thomas 2008</u> . Adults exposed to short-term cell phone radiation reported increase in headaches and in concentration problems.
60-100	<u>Buchner 2012</u> . Long term effects on immune system.
100	<u>Kolbun 1987</u> . Human sensation.
100-500	<u>Hutter 2006</u> . Headaches, concentration, and sleeping problems.
100-1100	<u>Navarro 2003</u> . Fatigue, headaches, sleeping problems.
150-2100	<u>Aughner 2009</u> . Short-term exposure, changes in mental state, prevented refined word choices, calmness, stupified, zoned-out.
165-4400	<u>Oberfeld 2004</u> . Fatigue, depressive tendency, sleeping disorders, concentration difficulties, cardio-vascular problems significant increase in breast cancer and brain tumors.
300-500	<u>Rassoul 2000</u> . Headaches, memory changes, depressive symptoms, sleeping problems.
500-1000	<u>Khurana 2010</u> . Increased neuro, cardio symptoms and cancer risks.
500-1000	<u>Kundi 2009</u> . Headaches, fatigue, concentration and sleeping problems.
638	<u>Papageorgio 2011</u> . Decreased cognitive function.
1300	<u>Zwamborn 2003</u> . Decreased cognition, well being.
1600	<u>Kolodinski 2006</u> . Memory, attention, motor function of school children.
1680-10530	<u>Magras &amp; Zenos 1997</u> . Irreversible infertility in mice.
2100	<u>Ridervold 2008</u> . Adolescents and adults to only 45 minutes to cell phone radiation reported increased headaches.
3800	<u>Schwartz 1990</u> . Effects on heart function

uW/m2	
3000	<u>Wolf 2004.</u> Ten times risk of cancer with short latency.
2000-80000	<u>Hoking 1996.</u> Two fold increase in leukemia in children.
2000-80000	<u>Hoking 2000.</u> Decreased survival in children with leukemia.
5,000	<u>Alberts 1997, Oscar and Hawkin 1997, Neilly and Lin 1986.</u> Breakdown of brain-blood barrier allowing entry of toxics into the nervous system.
5000-10000	<u>Avendaño 2012.</u> WiFi level laptop exposure for 4 hours caused decrease in sperm viability and DNA damage.
8000-100000	<u>Akoev 2002.</u> Changes in behavior.
10,000	<u>Eltiti 2007.</u> 50 minutes of exposure caused loss of well being in electrosensitive patients.
10,000	<u>Persson 1997.</u> Toxic leakage of the blood brain barrier.
10,000	<u>Simonenko 1998.</u> Headaches, dizziness, irritability, fatigue, weakness, insomnia, chest pain, stomach and breathing problems.
10,000	<u>Novoselova 1999.</u> Affected functions of immune system.
13000-57000	<u>Dolk 1997.</u> Leukemia, skin melanoma, bladder cancer.
20,000	<u>Mann 1996.</u> Effects in immune system.
20,000	<u>Frey 1963,1969,1971,1973,1988; Justenson 1979; Olsen 1980; Wieske 1963; Lin 1978.</u> Microwave hearing-clicking, buzzing, chirping, hissing, or high-pitched tones. (Tinnitus)
20000-40000	<u>D'Inzeo 1988.</u> Effects in physical and behavioral functions.
25,000	<u>Wolke 1996.</u> Calcium concentrations in heart muscle.
40,000	<u>Chiang 1989.</u> Altered white blood cells in school children.
40,000	<u>Tattersall 2001.</u> Effects in memory and learning.
40,000-	<u>Chiang 1989.</u> Memory impairment, slowed motor skills, and retarded learning in children.
150,000	<u>Boscolo 2001.</u> Immune function decreased.
50,000	<u>Belokrinskiy 1982.</u> Biochemical and histological changes in liver, kidney, and in brain tissue.
50,000	<u>Dumanisky 1974.</u> Impaired nervous system activity.
52,500	<u>Kewee 2001.</u> 20 minutes of exposure induced stress response.
60,000	<u>Phillips 1998.</u> DNA damage.
87,500	<u>Marinelli 2004.</u> 2-12 hours of exposure caused DNA breaks in leukemia cells, linked to tumor aggression.
100,000	<u>Belokrinskiy 1982.</u> Brain damage.
100,000	<u>Shutenko 1981.</u> Redistribution of metals in lungs, brain, heart, liver, kidney, muscles, spleen, bones, skin, blood.
100,000	<u>Navakatikian 1994.</u> Changes in behavior.
100,000	<u>Richter 2000.</u> Increased risk of cancer with short latency.
125,000	<u>Pyrpasoulou 2004.</u> Affected kidney development in rats.
150,000	<u>Polonga-Moraru 2004.</u> Eye damage.

## Open Letter to the Judiciary

Dear Judge, scientific studies have proven that unlimited exposure to wireless radiation is causing children Electrohypersensitivities, and brain, eye, blood, and DNA damage, addiction, suicide, and other severe physical harm. Please consider the following facts during adjudication of claims of child misbehavior, since orders limiting the use of wireless devices can protect our children and can prevent recidivism.

- a) Use of wireless devices is exposing children to more than 25,000 nW/cm<sup>2</sup> of microwave radiation, and exposure to 100-500 nW/cm<sup>2</sup> of microwave radiation can cause brain damage. (1)
- b) The number of children with brain damage has increased from 1 in 10,000 to 1 in 50. (2)
- c) Chronic exposure to wireless radiation can cause Electrohypersensitivities and brain, eye, blood, and DNA damage, addiction, suicide, and other severe physical harm even to adults. (3)
- d) Addiction to wireless increase the risk of suicide by 53% to 153% and can cause the same behavioral problems caused by use of drugs. (4)
- e) The schools' radiation is increasing by 500% on children the risk of cancer, and by 450% the risk of dying to children with life-threatening health conditions. (5)
- f) The unrestricted use of wireless devices by children and pregnant women is bound to leave no child without brain damage, and by the time parents become fully aware of this danger, we are bound to lose many of our children. (6)
- g) Conclusive evidence on the federal and State records has proven beyond reasonable doubt the collusion of school officials with members of the judiciary and others in fraud on the courts to conceal that the unlimited use of microwave technologies in schools is causing children harm that defeats the purpose of education. (7)

Consideration of these facts during your efforts to protect our children is highly appreciated. Should you have questions or need more evidence, I will be happy to oblige. Respectfully,

Jesus Mendoza

Re: Request for accommodations to disabilities and physical limitations.

Dr. Robert O'Connor, Superintendent  
Sharyland Ind. School District, 1106 N. Shary Rd. Mission, Texas 78572  
Tel. (956)580-5200

Dear Dr. O'Connor,

I respectfully request SISD to follow the doctors' directions to seat my children not directly under the light or in close proximity to sources of radiation. My Declaration details why it is imperative to follow the doctors' directions to prevent that my children's Electrohypersensitivity, EHS becomes as in my case life-threatening or worse, attached. Attached are letters of my children's doctor, and medical documentation detailing how my Electrohypersensitivity is life-threatening.

As detailed on my Declaration, it is more urgent that my child K [REDACTED] I. avoids unnecessary exposure to radiation as much as possible. To that effect, I am requesting that K [REDACTED] be transferred to Harry Shimotsu Elementary, or that SISD provides K [REDACTED] instruction at home.

K [REDACTED] has attended John H. Shary Elementary since pre-k, and this school year K [REDACTED] is to attend the same school for her fifth grade. However, the electric configuration at John Shary Elementary does not permit to follow the doctors' directions. At John H. Shary, the power lines, electric transformers/substations, electric motors, fluorescent lights, and Wi-Fi transmitters are located on the low ceiling of the school, and in close proximity to student seating areas. Harry Shimotsu Elementary is a high ceiling school, where in most cases, the sources of radiation are not located in close proximity to student seating areas.

Please note that SISD counsel, Mr. Ivan Perez has a personal conflict of interest to advise on this matter, since conclusive evidence on the record has proven his participation with some SISD officials and others in falsification of government records, perjury, disability discrimination, fraud on the Courts and on retaliation to conceal the aggravation of my children's Electrohypersensitivity, to deny my requests to follow the doctors' directions, and to transfer my children to another school, or to provide education instruction at home; to prevent that I withdraw my children from the school, and to prevent further evaluations and treatment for the harm caused on my children by radiation. Please See Complaint of Violation of Civil Rights submitted to federal and state authorities and posted at [www.gangstalkinghelp.org/mendoza](http://www.gangstalkinghelp.org/mendoza)

Thank-you very much for your prompt attention to this matter. If more information is needed, I will be happy to oblige. Respectfully,

*Jesus Mendoza 17 Dec. 2015.*  
Jesus Mendoza, 2202 E. 28th St. Mission, Texas 78574 Tel. (956)519-7140

Please acknowledge receipt.

DECLARATION  
SYMPTOMS OF MY CHILDRENS ELECTROHYPERSENSITIVITY

I am above the age of 18-years of age; I have personal knowledge of the facts contained herein; and I am competent to make this Declaration.

Page 101 of the book A Wellness Guide for the Digital Age by Kerry Crofton PhD, (2014) states in part: "Section I - Symptoms: Please check those that may affect you when you are exposed to wired, and/or wireless devices."

Of the 29 symptoms listed by Dr. Crofton, my child K [REDACTED] I. checked out: Abdominal pain; aggressive moods; anxiety or depressive disorders; dry or painful eyes; erratic blood pressure; excessive sweating at night; fatigue; headaches; heart palpitations/irregular heart beat; inability to focus; irritability; light-headedness/dizziness; memory loss; nausea; nightmares; pain/discomfort in the heart area; pain in the head, neck, or shoulders, back; ringing of the ears; sensitive to noise and/or light; sleep problems; skin rashes/bumps/dryness; tingling and/or numbness in the head, hands and/or feet; and vision problems. On page 101 of Dr. Crofton's book, K [REDACTED] wrote: "Done by K [REDACTED] 22 March 2015" K [REDACTED] has told me that some of these effects happen after exposure.

K [REDACTED] cried in pain almost every day during the time she was placed in a classroom in close proximity to sources of radiation, including a Wi-Fi transmitter and a Wi-Fi power booster. At one time, K [REDACTED] could not move some fingers and developed a tumor in one foot, and received speech therapy.

According to K [REDACTED], on March 31, 2015, she explained to a police officer that she went to the hospital with stomach and chest pain after her mother placed a Wi-Fi inside the house; that when by mistake she used a wireless lap top, she became sick with headaches, fever and dizziness, and missed two days of school; that she had pain on the legs, and on the head and dizziness when she had been watching the TV with Wi-Fi; that her friends who have been using wireless have been sick; that the child next-door is on medicine for life after using an X-BOX; and that the TV Wi-Fi measured the full range of the meter. The full range of the Acoustimeter AM-10 is 100,000 uW/m<sup>2</sup> of microwave radiation.. Request to City of Mission Police Dept. to amend police report No. 2015-00009069.

At several times, I have observed that after K [REDACTED] spends time around people using wireless devices, her eyes become more bloody, and at times the white of the eye becomes grey. Lately, she has been complaining more often of chest and stomach pain, of breathing problems, of pain on the legs, on the head, and of dizziness, of vision and perception problems, of a painful bubble on one ear, and of feeling something stuck on her throat. On August 4, 2015, K [REDACTED] told me that while on a room, she started having breathing problems, and then found that there were five people in the house with cell phones.

On March 31, 2015, my child I█████ B. checked out on page 101 of Dr. Crofton's book, aggressive moods; headaches; inability to focus; irritability; light-headedness; pain in the head; and then wrote next to the box on sleep problems: "I am told that I twitch at night but I don't feel it." On the same page, I█████ wrote: "Done by I█████ M█████ 3/31/15" Afterwards, realizing that very often he feels very tired, I█████ checked the box on 'fatigue'.

Some of the studies prescribed for I█████ by my child's pediatrician include a thyroid study and a grow factor for his abnormal weight loss. I█████ has vision problems, and was monitored at a cancer clinic for his abnormal white blood cells.

On June 30, 2015, my child K█████ V. checked out the same symptoms that K█████ checked out on page 101 of Dr. Crofton's book except: Dry or painful eyes; excessive sweating at night; ringing of the ears; sleep problems; skin rashes/bumps/dryness; tingling and/or numbness in the head, hands and/or feet; and vision problems. On the same page, my child wrote: "X K█████ Mendoza June 30th 2015"

K█████ has advised my other two children not to use wireless devices, because of the pain that she feels when using those devices.

K█████ has told me that for no reason, twice she tried to commit suicide by cutting her wrists.

In the past, K█████ was examined for speech, sleeping, and heart problems. Last year, K█████ told me that she was examined again for heart problems, and for painful breathing problems at the pediatric lung center. At one time, K█████ was hospitalized for stomach pain.

On or about July 11, 2015, at around 11:30 pm K█████ told me that she knew that her cell was causing her harm, and that she felt that she did not want to be here anymore.

On July 13, 2015, K█████ mother told my sister, while I was present that K█████ tried to commit suicide on July 12, by taking pain killers.

More than 400 pages of my children's medical records document more than 60 visits of each of my three children with the same symptoms of my Electrohypersensitivity, EHS.

On a letter dated August 24, 2009, my children's pediatrician, Dr. Ivelisse Santiago-Barouhas wrote underneath my children's names: "Please provide an area for students to sit on chairs/desks that are not located directly under the light." Attached

On a letter dated August 23, 2010, Dr. Santiago-Barouhas wrote below my children's names: "Please provide an area for students to sit on chairs/desks that are not located directly under the light or in close proximity to sources of radiation." Attached

On April 13, 2011, an expert in radiation exposures at school, Dr. Samuel Milham, testified in federal Court that my children inherited my EHS, that the swelling, black spots and bloody lines on my children's eyes were caused by the radiation at school, and that my children needed to be transferred to another school to prevent further aggravation of their health condition.

My three children exhibit swelling, black spots, and bloody lines on their eyes, and at times, they moan or scream in their sleep. K [REDACTED] has told me that she walks on her sleep.

With exception of aggressive moods, anxiety, or depressive disorders, the symptoms of my children's EHS include the symptoms of my life-threatening Electrohypersensitivity, and include swelling of heart and of other vital organs, symptoms of heart attack and stroke, painful breathing problems, and swelling, black spots, and bloody lines on my eyes, head and facial swelling and constant pain. With exception of some walks around the neighborhood during the year 2011, and of occasional walks to next-door neighbors, I have been home bound since March 30, 2011.

My EHS has been recognized by the Social Security, by the Texas Dept. of Aging and Disability Services, by some Courts and by other government entities. Under penalty of perjury,

Jesus Mendoza

Re: Statement of Disability.

OAG Case No.  
0013245588

Office of the Attorney General, Central File Maintenance  
P.O. Box 12048, Austin, TX. 78711-2048 Tel. (956) 630-2891

Dear Sir, Madam.

I am suffering of a painful, debilitating and life-threatening Electrohypersensitivity, and of Chemical hypersensitivity, CHS, neurological-immunological medical conditions. Exposure to the radiation emitted by power lines, electric transformers and motors, fluorescent lights, video display screens, cell-phones, wireless computers, radar and other types of radiation, cause me among other things, visible swelling of head, face and eyes, rashes, loss of skin, swelling of vital organs, internal bleeding, and breathing, hearing, speech and concentration problems. Exposure to some chemicals and odors cause me some of these effects. I have been violently ill several times, I passed out with severe pain and breathing problems several times, I am in pain all the time, and on crisis, I use oxygen. See Exhibit 1F.

See the Physician Statement of Disability issued by the Texas Dept. of Aging and Disability Services and signed by my doctor stating as diagnosis "Highly sensitive to electricity" and describing some of the functions substantially limited when exposed to radiation, including receptive and expressive

language, learning, mobility, capacity for independent living, and economic self-sufficiency. Exh. 1A, Attached.

See doctor's letters describing how my EHS is life-threatening. Exhs. 1B, 1C, & 1D Attached

See pictures of some of the visible effects caused by exposure to radiation, including rashes, loss of skin, eye and facial swelling and how the swelling inside the skull is displacing one eye out of its socket. Exhs. 2A, 2B, 2C, 2D, 2E.

On a Decision dated Oct. 23, 2003, the Social Security found my electromagnetic sensitivity a severe impairment; found that I could not perform any of my past relevant work; found that I had not engaged in substantial gainful activity since Aug. 31, 2000; and denied disability benefits claiming that I could find employment in remote parts of the country, without taking into consideration that by that time, I had lost my ability to drive long distances, and that employers in remote locations have to use more powerful wireless communication technologies. Excerpt of Decision attached as Exh. 3. Another application for disability benefits is pending.

With exception of some walks around the neighborhood during the year 2011, and occasional walks to the next-door neighbors, I have been home bound since March 29, 2011. I cannot stay inside my home, but for a few minutes at

a fine, and for many years, I have been staying on a van parked in the middle of the lot. Even the small amounts of radiation reaching the van aggravate my condition. Lately, I have been staying on a small metal room placed next to the van.

To mitigate some of the effects of these radiation exposures, I use among other things shielding of the thoracic box most of the time, and at times, grounding, and shielding of head at night. At times, I spend days bed-ridden.

Public and government entities that have recognized and accommodated my disability, EHS include:

the Texas Dept. of Aging and Disability Services, provides financial assistance to purchase equipment to accommodate my EHS including radiation detection equipment.

the Texas Dept. of Human Resources, food stamps and meals.

the University of Texas Pan American, access and help with research by phone.

State and federal Courts access to petition by phone.

Hidalgo County Appraisal District, disability homestead exception.

Mission Police Dept. making police reports by phone.

The following medical information is needed to determine this patient's eligibility for the In-Home and Family Support Program. The Program is intended to assist families in maintaining an individual with a physical disability IN THE HOME. PLEASE COMPLETE ALL ITEMS BELOW. If you have questions, please contact the caseworker at the address and phone number above.

I. MEDICAL DIAGNOSIS: Highly sensitive to electricity

II. APPROXIMATE DATE OF ONSET  
OF DISABLING CONDITION

Approx. Date of Onset  
1997

III. FUNCTIONAL LIMITATIONS (check all SUBSTANTIAL limitations that apply): When exposed

- Self-Care
- Receptive and Expressive Language
- Learning +L Severe
- Mobility - Severe
- Self-Direction
- Capacity for Independent Living - Yes, when in crisis
- Economic Self-Sufficiency - Self employed needs to avoid exposure to remain able to work
- Other (specify):

IV. EXPECTED DURATION OF DISABILITY: Unknown

V. PROGNOSIS: poor

VI. RECOMMENDATIONS/OTHER COMMENTS: Do you recommend a monitor to measure radiation around client's Environment?  Yes  No

These will greatly enhance his ability to prevent exposure increasing quality of life + make him able to work at home

**RE: Jesus Mendoza**

To Whom It May Concern:

The above patient is under my care. In case of emergency health care, please do not place this patient in close proximity to sources of electromagnetic radiation.

He is currently suffering from severe hypersensitivities to chemical fumes and odors along with electromagnetic sensitivity. Exposure to sources of radiation including power lines, electric motors, computers, fluorescent lights, and wireless devices, cause Mr. Mendoza severe pain, swelling of vital organs, breathing difficulties, speech impairment, and concentration and memory deficits.

If you have any questions regarding this please contact me.

Sincerely Yours,

Alfred R. Johnson, D.O.

Mendoza et al, v. Sharyland ISD,  
Case No. 7:11-cv-29. (S.D. TX. 2011)

The pictures show the swelling caused by the speaker of a land-line phone after a 2-hour Court hearing by telephonic conference. On April 13, 2011, an expert in radiation exposures, Dr. Samuel Milham testified in Court that my children inherited my EHS, that the swelling, black spots, and bloody lines on my children's eyes were caused by the radiation at school, and that my children needed to be transferred to another school. to prevent further aggravation of their health condition. I submitted the pictures to the Court in support of a motion for an extension of time to file a response to school officials' motion to dismiss the case.

FINDINGS

After careful consideration of the entire record, the Administrative Law Judge makes the following findings:

1. The claimant meets the nondisability requirements for a period of disability and Disability Insurance Benefits set forth in Section 216(i) of the Social Security Act and is insured for benefits through the date of this decision.
2. The claimant has not engaged in substantial gainful activity since August 31, 2000, although he continues to engage in work activity.
3. The claimant's electromagnetic sensitivity is a severe impairment, based upon the requirements in the Regulations (20 CFR §§ 404.1503 and 416.921).

RE: Grievance against attorney Ivan F. Perez.

STATE BAR OF TEXAS  
Office of the Chief Disciplinary Counsel  
P.O. Box 13287 Austin, Texas 78711  
Tel. (512)463 5533

I respectfully submit this Grievance against counsel for the Sharyland Ind. School District, Ivan F. Perez, on the ground that evidence on the record has proven beyond reasonable doubt the collusion of Mr. Perez with SISD officials, with the former Texas Attorney General, and now governor of Texas, Greg Abbott, with members of the judiciary, and with others, in falsification of government records, in perjury and fraud on the Courts, and in disability discrimination and retaliation against my children and against myself to conceal the aggravation of my children's Electrohypersensitivity by the radiation exposures at school, to conceal that the same radiation reaching children at school has caused harm to teachers, to fire fighters, to police officers and to other adults; to conceal that the radiation exposures at school are increasing by 500% the children's risk of cancer, and increasing by 450% the risk of dying to children suffering of life-threatening illnesses; to conceal that the microwave radiation at school is causing children Electrohypersensitivities, and brain, eye, blood and DNA damage and other severe physical harm that defeats the purpose of education; to conceal that the radiation exposures at school are responsible for the poor academic performance, for the increasing number of children suffering of learning and of behavioral impairments, for the thousands of visits to the school's nurse, for the thousands of student and teacher absences for health reasons, for the increasing number of children collapsing in class and committing suicide, and for the increasing number of children suffering of life-threatening and of terminal illnesses; to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment; to conceal that the lowering of academic requirements and the manipulation of grades is to conceal the harm being caused on our children's

brains by the microwave radiation at school; to conceal that taking advantage of the pervasive corruption in this area, the Obama Administration has chosen our children to start an extremely dangerous and suicidal experiment bound to cause severe physical harm even to generations to come; and to conceal that the future of our children and of our national security are being sold to the wireless lobby as proved by federal and State litigation and detailed herein and on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

I respectfully request the Office of the Chief Disciplinary Counsel to consider the evidence of Mr. Perez' irrational cruelty towards children and towards the disabled to determine whether he is entitled to practice law.

The Complaint of Judicial Misconduct against former 92nd District Court Judge, and now Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr.; the Complaint of Judicial Misconduct against former 92nd District Court Judge, Jaime E. Tijemina; the Grievance against Assistant Texas Attorney General, Norma Ortiz; the Grievance against attorney Abel Hinojosa, and this Grievance cite to specific, concrete, and undisputed evidence on the federal and State records proving as a matter of law, the collusion of Greg Abbott with SISD officials, with members of the judiciary, and with others in falsification of government records, in fabrication of evidence, in perjury and fraud on the Courts, and in disability discrimination and retaliation against my children and against myself to conceal that the radiation exposures at school are causing harm that defeats the purpose of education. The Complaints and Grievances are available on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

On or about August 18, 2015, I submitted by mail to Mr. Perez a Request to SISD Superintendent, Dr. Robert O'Connor to follow the doctors' directions not to seat my children directly under the light or in close proximity to sources of radiation. Mr. Perez secretary, Melissa Escobedo acknowledged receipt of my Request. At several times, Mr. Perez has not allowed me to contact directly SISD officials and my children's teachers and principals. I requested Ms. Escobedo to ask Mr. Perez if I was allowed to contact directly SISD officials and my children's principals and teachers. Mr. Perez did not respond to my messages, or to my requests.

The Request to Superintendent O'Connor to follow the doctors' directions details some of the aggravation of my children's EHS, and notes that Mr. Perez has a conflict of interest to advice on the matter, since conclusive evidence on the record has proven his participation with some SISD officials and with others in falsification of government records, perjury, disability discrimination, fraud on the Courts and on retaliation to conceal the aggravation of my children's EHS, to deny my requests to follow the doctors' directions and to transfer my children to another school, or to provide education instruction at home; to prevent that I withdraw my children from school; and to prevent further evaluations and treatment for the harm caused on my children by radiation. The Request to Superintendent O'Connor cites to a Criminal Complaint submitted to federal and State authorities detailing the collusion of SISD officials with the then Texas Attorney General, and now governor of Texas, Greg Abbott, with members of the judiciary, and with others in fraud on the Courts to conceal the harm being caused on children by the radiation at school, and to conceal that the switch from wired to wireless Internet in schools was not to improve education but for private enrichment. Dr. O'Connor did not answer to my requests.

My Request to follow the doctors' directions submitted to Mr. Perez includes my Statement of Disability that had been submitted with my Request for Review of child support orders to the Office of the Texas Attorney General detailing my inability to comply with the orders on a Final Decree of Divorce that had been obtained by fraud on the 92nd District Court to prevent expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation.

At several times, agents of the Texas Attorney General, Ken Paxton, told me that a motion was to be filed in Court to reduce the amount of child and medical support to zero or to the amount of money that I make, which in most cases, is less than \$100 per month.

Instead, on Feb. 2016, Paxton through his Assistant Norma Ortiz, filed a law suit to enforce by incarceration the fraudulent support orders, knowing that the support orders are part of the fraud on the Courts to prevent expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation to conceal the harm being caused on other children by the radiation at school; knowing of my inability to comply with the fraudulent support orders; and knowing that because of my life-threatening Electrohypersensitivity, incarceration is for me a death sentence. Paxton, through an agent, Mr. Conrado Rodriguez has told me that even if this is criminal, they will attempt to enforce by incarceration the fraudulent support orders. In essence, this is an attempt to silence with murder the collusion of Greg Abbott with SISD officials and with others, <sup>in</sup> the fraud on the Courts to conceal that the microwave radiation at school is causing children harm so severe as to defeat the purpose of education. See Grievance against Norma Ortiz, posted on Aug. 4, 2016 on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

## DECLARATION

I certify under penalty of perjury that I am competent to make this Declaration, and that the facts stated herein are within my personal knowledge, and are true and correct.

I am suffering of a painful, debilitating, and life-threatening Electrohypersensitivity, EHS. Exposure to the radiation emitted by power lines, electric motors and transformers, fluorescent lights, video display screens, cell phones, wireless computers, Wi-Fi, radar, and by other sources of radiation cause me among other things, severe pain, and swelling of vital organs, of head, and of face and eyes; and breathing, speech, and concentration problems. The delayed effects of exposure to radiation have been catastrophic. With exception of some walks around the neighborhood during the year 2011, and walks to the next-door neighbors, I have been home bound since March 30, 2011. During the year 2012, I lost the ability to use electronic equipment to draft documents. I cannot stay inside my home but for a few minutes at a time. To ameliorate some of the symptoms of EHS I stay in a metal room placed in the middle of the lot, and I use shielding of the thoracic box most of the time, and at times, shielding of head at night. I use oxygen on crisis. I have been violently ill several times. I am in pain all the time. Everyday is a different nightmare. My EHS has been recognized as a medical physical health condition and as a disability by federal and State agencies and by Courts. EHS is caused and aggravated by exposure to the same radiation reaching children at school. EHS proves conclusively that the microwave radiation inside schools is causing children harm that defeats the purpose of education. My children are also suffering of EHS, and their health condition is aggravating by unnecessary exposures to radiation, and by lack of expert medical treatment of their EHS. (1)

(To try a radiation suit, on July 7, 2016, I walked about one and a half blocks away from my home)

In retaliation for denouncing their attempts to conceal the harm being caused on children by the radiation at school, officials of the Sharyland Ind. School District refused to follow the doctors' orders to seat my children not in close proximity to sources of radiation, and refused to transfer my children to another school, and I filed Pro-se a federal law suit to compel SISD officials to follow the doctors' orders, and to transfer my children to another school; and to compel SISD officials not to seat children on radiation hot spots, and to notify parents with sick children of the radiation power levels reaching children at school; to disable the Wi-Fi system at my children's elementary school; to make a risk study of the different types of radiation reaching children at school; and to produce the real unaltered students' grades, and the complete number of students and teachers reporting sickness. (2)

In response to the law suit, Mr. Perez and other SISD officials attempted to persuade my then wife to impeach in Court my mental stability, and taking advantage of her violence against my children, persuaded her to testify falsely in federal Court that my children are healthy children, and to file for divorce to deprive me of my parental rights to prevent expert evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation. On a hearing before U.S. Magistrate Judge, Peter Ormsby, Mr. Perez did not deny their attempts to persuade my then wife to impeach my mental stability to conceal the harm being caused on children by the radiation at school. During that hearing, Mr. Perez allowed my then wife to testify falsely that my children are healthy children, and allowed the now former principal of my children's elementary school, Pamela Montalvo, to testify <sup>falsely</sup> that I did not submit a request to follow the doctor's directions for that school year. (3)

In another hearing before Judge Ormsby, Dr. Samuel Milham, a world-class expert in radiation exposures in schools testified that my children inherited my Electrohypersensitivity; that the swelling, black spots and bloody lines on my children's eyes were caused by the radiation at school; and that my children needed to be transferred to another school to prevent further aggravation of their health condition. (4)

In retaliation for denouncing their falsification of records, and perjury before the Court to conceal the harm being caused on children by the radiation at school, Mr. Perez and SISD officials refused to follow the doctors' directions and to transfer my children to another school, and seated my children closer to sources of radiation aggravating the health condition of my then 6-year old child. During that time, my daughter complained of feeling pain while at school while hitting her head herself saying that she could not think, and that she wanted to call me so I could pick-her up from school. (5)

On a hearing before Judge Ormsby, Mr. Perez admitted his collusion with SISD officials in falsification of government records and in the retaliation against my children and against myself to prevent a dangerous precedent for the wireless lobby. (6)

Mr. Perez has denied more than 100 requests to follow the doctors' orders, and to transfer my children to another school, in retaliation for denouncing his collusion with my ex-wife's divorce attorney, Abell Hinojosa, with the then 92nd District Court Judge, and now Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr., and with others in perjury and fraud on the Courts to prevent expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation to conceal the harm being caused on children by the radiation at school. (7)

Despite of a duty to engage the evidence and claims of his collusion with other SISD officials in more than 7 acts of perjury to the federal Court to conceal the falsification of government records, and to conceal the harm being caused on children by the radiation at school, Mr. Perez failed to do so. (8)

Despite of a duty to engage the evidence and claims proving that the same radiation reaching children at school has caused harm to teachers, to fire fighters, to police officers, and to other adults, that these radiation exposures are increasing by 500% the children's risk of cancer, and increasing by 450% the risk of dying to children suffering of life-threatening illnesses, and are causing children Electrohypersensitivities, and brain, eye, blood, and DNA damage and other severe physical harm that defeats the purpose of education; that these radiation exposures are responsible for the poor academic performance, for the thousands of visits to the school nurse, for the thousands of student and teacher absences for health reasons, and for the increasing number of children suffering of life-threatening and of terminal illnesses, Mr. Perez failed to do so. (9)

Specific, concrete, and undisputable evidence on the federal record has proven beyond reasonable doubt the irrational cruelty towards children and towards the disabled of Mr. Perez and SISD officials, of Greg Abbott, of U.S. Chief District Judge, Ricardo H. Hinojosa; of U.S. Magistrate Judge, Peter E. Ormsby; of U.S. District Judge, Randy Crane; of former 92nd District Court Judge, and now Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr; of former 92nd District Court Judge, Jaime E. Tijerina; and of Mr. Abel Hinojosa. The same evidence has proven beyond reasonable doubt their collusion in felonious conduct to conceal the harm being caused on children by the radiation at school. (10)

Respectfully submitted,

  
Jesus Mendoza

2202 E. 28th St. Mission, Texas 78574 Tel. (956)519 7140

## EVIDENCE

1. See the Physician Statement of Disability issued by the Texas Dept. of Aging and Disability Services and signed by my doctor stating as medical diagnosis "Highly sensitive to electricity" and describing some of the major life activities and functions substantially limited when exposed to radiation, including receptive and expressive language; learning; mobility; capacity for independent living; economic self-sufficiency; and ability to work. Jesus Mendoza et al, v. Sharyland Ind. School District et al, Case No. 7:11-cv-29 (S.D. TX. 2011), Docket 13, Exhibit 1A; Docket 91, App 3-029; Docket 97, Exhs. 4.38, 5.12, 7.9.

The Social Security Administration found my electromagnetic sensitivity a severe impairment, Docket 13, Exh. 3; Docket 91, App 3-031, Id.

See doctors' letters explaining my EHS and my chemical sensitivity, my inability to stay inside buildings; how my EHS is life-threatening- and that the radiation inside buildings causes me swelling of vital organs, and breathing, speech, concentration and memory problems. Docket 13, Exh. 4; Docket Exh. 60, Exh. A; Docket 97, Exhs. 4.40, 5.13, 7.10, 7.11, A-1449, Id.

See pictures of some of the effects caused by exposure to radiation, including rashes, loss of skin, swelling of face and eyes, and how the swelling inside the skull is pushing one of my eyes out of its socket, Docket 13, Exh. 2; Docket 91, App 3-030; Docket 97, Exhs. 4.39, 7.12, 7.15, Id.

See medical records documenting a history of life-threatening swelling of heart, and of swelling of face and eyes, Docket 97, Exhs. 7.33, 7.34, 7.36, 7.38, 7.42, 7.44, 7.45, 7.46, Id.

See Court Order granting my motion to appear by phone as accommodation to my EHS, Docket 13, Exh. 8; Docket 91, Apps 3-043, 3-044, Id.

See letters from my children's pediatrician requesting that my children not be seated directly under the light or in close proximity to sources of radiation, Docket 13, Exh. 5; Docket 97, Exhs. 8.63, 8.66, A-1388, A1938, Id.

See pictures of the effects caused on my children's eyes by exposure to radiation, including swelling, black spots, and bloody lines, Docket 13, Exh. 6; Docket 26, Exhs. 6, 6A; Docket 97, Exh. 8.85, Id.

More than 400 pages of medical records document more than 60 visits of each child to the doctor with the same symptoms of EHS and of the same harm caused by the same radiation reaching children at school. Docket 57, pgs 3,4,63, Exhs. KI, IB, and KV; Docket 81, Sections 3-7, Id.

A world-class expert in radiation exposures in schools, Dr. Samuel Milham, testified before U.S. Magistrate Judge, Peter E. Ormsby, that my children inherited my EHS; that the swelling, black spots and bloody lines on my children's eyes were caused by the radiation at school, and that my children needed to be transferred to another school to prevent further aggravation of their EHS. Docket 57, pgs 8, 56; Docket 81, Section 3-1, Id.

The undisputed scientific evidence on the federal and State record proving that the same radiation reaching children at school has caused harm to teachers, to fire fighters, to police officers and to other adults; and proving that these radiation exposures are causing children EHS, and brain, eye, blood, and DNA damage and other harm that defeats the purpose of education is detailed on Docket 57; Docket 81, Sections 4,5,6,7,; Docket 97, Exhibits 1.1 to 1.15; 4.25 to 4.37; 6.4 to 6.29; 8.0 to 8.94; Exh. 9; Exh. 10; Docket 91, Apps 4-017 to 4-090, Sharyland ISD et al, Id, and on the Motion for Protective Orders filed on the 92nd District Court of Hidalgo County, Texas on Feb. 13, 2012, Case No. F-1591-11-A.

Docket 101 cites to undisputed evidence on the federal record proving SISD officials falsification of government records, and more than 7 acts of perjury to the federal Court to conceal their disability discrimination and retaliation against my children and against myself after I denounced their attempts to conceal the harm being caused on children by the radiation at school. Sharyland ISD et al, Id.

An Application for Protective Orders details the aggravation of my children's EHS, and includes my children's Declarations in which they describe under penalty of perjury the symptoms of their health condition, requesting to be evaluated for treatment of the pain and sickness that they feel when exposed to wireless radiation. The Application for Protective Orders describe how Child Protective Services and others have attempted to conceal my children's EHS, and is available on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

2. Jesus Mendoza et al, v. Sharyland Ind. School District et al, Case No. 7:11-cv-29 (S.D. TX. 2011), Docket 13, pgs 73-77.
3. At no time during the federal litigation, Mr. Perez engaged or opposed evidence or claims proving his participation with SISD officials in the failed attempts to persuade my ex-wife to impeach my mental stability in Court; or in the manipulation of my ex-wife to testify falsely in Court that my children are healthy, and then to file for divorce to deprive me of my parental rights to prevent expert medical evaluations for the treatment that my children feel when exposed to radiation; or in the manipulation of Ms. Montalvo to testify falsely in federal Court that I did not submit a doctor's letter for that school year to conceal disability discrimination and retaliation against my children and against myself to conceal the harm being caused on children by the radiation at school. Docket 48, pgs 4-6, 32-35, 40-44, 52-54; Docket 57, pgs 7-10, 31, 49, 64, 65; Docket 62, pgs 5-7, 20; Docket 81, pgs 1b,1c,6,7,9, Sections 10-1 to 10-7; Docket 94, pgs 20,30; Docket 97, pg 19; Docket 101, pgs 32,33, Id.

See my ex-wife's Response to a Request for Admissions in which she admits among other things, her perjury before the federal Court (Admissions 95-100) and admits to her violence against my children; admits to my children's health problems; and to her attempts to conceal the aggravation of my children's EHS by the radiation at school, Docket 62, Exhibit A, Id; See Docket 81, Sections 10-1 to 10-7, Id.

By mistake, Mr. Perez submitted to the Court evidence proving that Ms. Montalvo's testimony in federal Court that I did not submit a request to follow the doctor's directions for that school year was false, and then SISD officials asked the Court to withdraw that evidence. Docket 97, pg 19; Docket 101, pgs 32,33, Id.

Besides of proving Mr. Perez collusion with Ms. Montalvo to commit perjury before the federal Court, the evidence that Mr. Perez filed by mistake in federal Court corroborates his collusion with SISD officials in falsification of government records, and in disability discrimination and retaliation against my children and against myself to conceal that the radiation exposures at school are responsible for the poor academic performance, for the thousands of visits to the school nurse, for the thousands of student and teacher absences for health reasons, and for the increasing number of children suffering of life-threatening and of terminal illnesses. Docket 94, pgs 15,22,31, 32,34,35,40,46,48-51; Docket 97, pgs 19,20; Docket 101, pgs 32-35, 48,57,77,78; Sharyland ISD et al, Id..

Greg Abbott, through his agents, interfered with my ability to file this evidence in federal Court within the Court's deadline. See Grievance against Assistant Texas Attorney General, Norma Ortiz, available on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

4. Docket 38, pgs 34,35; Docket 48, pgs 5,44,45,51; Docket 57, pgs 8,56; Docket 81, Section 3-1, Sharyland ISD et al, Id.
5. At no time, Mr. Perez has denied claims, or engaged or opposed evidence of his collusion with SISD officials in retaliation against my children after I denounced their attempts to conceal the harm being caused on children by the radiation at school. Docket 38, pgs 5,10,11,43,44; Docket 48, pg. 4; Docket 62, pgs 2,10,11,24,25; Docket 57, pgs 9,31, 32,48, 64; Docket 81, pg 3, Sections 2-4, 12-7; Docket 97, pg 19; Docket 98, Paragh. 15; Docket 101, pg 70, Id.
6. During a hearing before Judge Ormsby, I explained to the Court that Mr. Perez had admitted to me participating with school officials in falsification of government records, and had admitted to me that the reason he was denying my requests to follow the doctors directions to seat my children not in close proximity to sources of radiation, and to transfer my children to another school was to prevent a dangerous precedent. I explained to the Court that the dangerous precedent was for the wireless lobby. Mr. Perez did not engage or denied my claims. See Affidavit paragraphs. 31,32,33, Docket 97; Docket 101, pg. 68, Sharyland ISD et al, Id.
7. Sections 2-1 to 2-4 of Docket 81, cites to evidence on the record proving Mr. Perez refusal to follow the doctors' directions to seat my children not in close proximity to sources of radiation, and to transfer my children to another school. Up to this time, Mr. Perez has refused to follow the doctors orders, and has refused to transfer to another school, the child who is suffering the most severe reactions to the radiation at school. See some of my requests to Mr. Perez, Exhibits 5.11 to 5.20, Docket 97, Id.

At no time, Mr. Perez has engaged or opposed evidence or claims of his collusion with SISD officials, with my ex-wife's divorce attorney, Abel Hinojosa; with former 92nd District Court, and now Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr.; and with others in falsification of government records, in perjury and fraud on the Courts, and on disability discrimination and retaliation against my children and against myself to prevent expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation, and to conceal the harm being caused on children by the radiation at school. Docket 48, pgs 4,5,33,40,44,48,52,53; Docket 62, pgs 4-7, 20; Docket 57, pg. 7; Docket 81, pg 9, Section 11-2; Docket 94, pgs 52-56; Docket 97, pgs 16,17; Docket 98 paragraphs. 26-27; Docket 101 pg 71, Sharyland ISD et al, Id.

At no time during the federal litigation, Mr. Perez engaged or opposed the evidence of his collusion with other SISD officials, with Judge Rodriguez, and with Mr. Hinojosa in fraud and perjury on the Courts to conceal the harm being caused on children by the radiation at school. See the unopposed sworn Application for Protective Orders detailing my ex-wife's violence against my children and her attempts to conceal the aggravation of my children's EHS by the radiation at school, and which Judge Rodriguez refused to rule on to conceal the collusion of Mr. Hinojosa with SISD officials, Docket 48, Exh. A, Id. See police report documenting my ex-wife's violence against myself when I was video recording my child crying in pain, Id.

See my ex-wife's Response to a Request for Admissions in which she admits to my children's health problems and admits that her testimony in federal Court that my children are healthy was false, Exhibit A, Docket 62, Id.

See Mr. Hinojosa's proposed Temporary Orders in which he sought in the 92nd District Court to deprive me of the right to transfer my children to another school and of the right to make expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation, Exhibits to Docket 57, Id;

See some of the medical records that Mr. Hinojosa removed from my children's records to conceal my ex-wife's perjury before the federal Court and before the 92nd District Court to conceal the aggravation of my children's EHS by the radiation at school, and to deprive me of my parental rights, Exhibits 3.4 to 3.7, Docket 97, Id.

See Mr. Hinojosa's Response to a Request for Production of Documents in which he refuses to produce the complete medical records of my children, Exhibits 4.1 to 4.9, Docket 97, Id.

See Grievance against Mr. Hinojosa and Complaint of Judicial Misconduct against Judge Rodriguez and against Judge Tijerina detailing their collusion with Mr. Perez and with other SISD officials in fraud on the Courts to conceal the harm being caused on children by the radiation at school. Available on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

8. Docket 101 cites to undisputed evidence on the record proving the collusion of Mr. Perez with SISD officials in more than 7 acts of perjury to the federal Court to conceal his falsification of government records to conceal the harm being caused on children by the radiation at school, Id.

The Grievance against Assistant Texas Attorney, Norma Ortiz cites to the evidence on the record proving Mr. Perez and others' irrational cruelty towards children and towards the disabled. Available on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

9. Docket 38; Docket 57; Docket 81, Sections 4,5,6,7; Docket 94; Docket 97 and Exhibits 1.1 to 1.15, 4.25 to 4.37, 6.4 to 6.29, 8.0 to 8.94, and Exhibits 9 and 10; Docket 91, Apps: 4-017 to 4-090; Docket 101, pgs 12-33, 54-59, Sharyland ISD et al, Id.

10. Both, Chief District Judge Hinojosa and Judge Ormsby recused themselves from the case against SISD officials in response to another federal law suit citing to evidence on the record proving their irrational cruelty towards children and towards the disabled and proving their collusion with SISD officials, with Greg Abbott, with Judge Rodriguez, with Mr. Hinojosa and with others in falsification of government records, in perjury and fraud on the Courts, and in disability discrimination and retaliation to conceal the harm being caused on children by the radiation at school; to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment; to conceal that the lowering of academic requirements and the manipulation of grades was to conceal the harm being caused on our children's brains by the microwave radiation at school; to conceal that taking advantage of the pervasive corruption in this area, the Obama Administration is manipulating our Courts to conceal that our children have been chosen to start an extremely dangerous experiment bound to cause harm even to generations to come; and to conceal that the future of our children and of our national security are being sold to the wireless lobby.

Jesus Mendoza v. U.S. Chief District Judge, Ricardo H. Hinojosa et al, Case No. 1:14-cv-30 (S.D. TX. 2014), Dockets 1, 4, 14.

See Orders of Recusal, Dockets 105, 106, Sharyland ISD et al, Id.

After Chief Judge Hinojosa and Judge Ormsby recused themselves from the case against SISD officials, the case was reassigned to U.S. District Judge, Randy Crane, and to U.S. Magistrate Judge Dorina Ramos. Dockets 105, 106, Sharyland ISD et al, Id.

Apparently, Judge Ramos recused herself from the case, since conclusive evidence has proven her collusion with Chief Judge Hinojosa and with other members of the judiciary to conceal a fraud of millions of dollars of federal funds. See Statement of Interested Parties, Docket 91, Apps 3-284 to 3-318, Sharyland et al, Id. See Docket 4, Hinojosa et al, Id.

Judge Crane refused to recuse himself from the case against SISD officials despite of conclusive evidence proving as a matter of law his collusion with the former Texas Attorney General and now governor of Texas, Greg Abbott in falsification of government records; in fabrication of statements and of medical evidence; on disability discrimination and retaliation; and on fraud on the federal Court to conceal the legitimacy of Electrohypersensitivities as a medical condition and as a disability; and despite that evidence indicates

that Judge Crane participated with the Obama Administration on the decision to make of the McAllen Ind. School District, the first district in the country to place more than 25,000 wireless devices into its schools; on the decision to lower the academic standards and testing to conceal the harm being caused on our childrens' brains by the microwave radiation at school; and on the decision to compel parents to medicate children that became sick by the microwave exposures at school to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment. See Complaint of Violation of Civil Rights and Request to Investigate submitted to the FBI Public Corruption Task Force and to the Special Prosecutions Division in Austin, Texas, No. 10269-15, sections 10-14, 25; See Statement of Interested Parties, Id; See Grievance against Assistant Texas Attorney General, Norma Ortiz available on the Case Law section of wirelesswatchblog.org

After Judge Crane refused to recuse himself from the law suit against SISD officials, and to prevent that SISD officials follow the doctors' orders not to seat my children in close proximity to sources of radiation; to prevent that I transferred my children to another school; to prevent that parents of sick children be notified of the harm being caused by the radiation at school; to prevent evaluations of the harm being caused on children by the several types of radiation reaching children at school; and to prevent that SISD officials disclose the real unaltered childrens' grades and the complete number of students and teachers reporting sickness, Judge Crane dismissed the case without consideration of evidence proving as a matter of law, Chief District Judge Hinojosa and Judge Ormsby irrational cruelty towards children and towards the disabled, and their collusion with SISD officials in falsification of government records, in perjury and fraud on the Courts, and on disability discrimination and retaliation to conceal the harm being caused on children by the radiation at school, and to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment. Id.
