

RE: Complaint of Disability Discrimination and Retaliation and Request for Help.

John King Jr.  
Secretary of the U.S. Department of Education  
1999 Bryan St., Suite 1620  
Dallas, Texas 75201-6801  
Tel. (214) 661-9600 Email ocr.dallas@ed.gov

I respectfully request the U.S. Department of Education to compel officials of the Sharyland Independent School District to accommodate my children's disability, Electrohypersensitivity and to follow the doctors' directions not to seat my children directly under the light or in close proximity to sources of radiation to prevent that my children's Electrohypersensitivity becomes as in my case, life-threatening or worse, on the ground that SISK officials are refusing to accommodate my children's disability until my children's Electrohypersensitivity is evaluated by medical experts; and on the ground that evidence on the record has proven beyond reasonable doubt the fact that SISK officials engaged in falsification of government records, in perjury and fraud on the Courts, and in disability discrimination and retaliation against my children and against myself to prevent expert medical evaluations for treatment for the pain and sickness that my children feel when exposed to wireless radiation to conceal that the microwave radiation at school is causing children Electrohypersensitivities and other severe disabilities that defeat the purpose of education; to conceal that the radiation exposures at school are responsible for the increasing number of children suffering of life-threatening and of terminal illnesses; and to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment as detailed herein.

I am suffering of a painful, debilitating and life-threatening Electrohypersensitivity, EHS. Exposure to the same radiation reaching children at school, including the radiation emitted by power lines, electric motors and transformers, fluorescent lights, cell phones and wireless computers cause me among other things, swelling of vital organs and of head, face and eyes; symptoms of heart attack and of stroke; and breathing, speech, concentration, hearing and memory problems. I have a history of life-threatening swelling of heart. The swelling inside my skull has been so severe as to displace an eye out of its socket. For the most part, I have been home bound for more than 5 years. I have been violently ill several times. I am in pain all the time. I use oxigen during crisis. Everyday is a different nightmare. My EHS has been recognized as a physical medical condition and as a disability by federal and State agencies and Courts. EHS is caused and aggravated by exposure to the same radiation reaching children at school and proves conclusively that the microwave radiation used inside schools is causing children EHS and other severe disabilities that defeat the purpose of education.

My children are also suffering of EHS, and their health is aggravating by unnecessary exposures to radiation and by lack of expert medical treatment for the pain and sickness that they feel when exposed to wireless radiation. An expert in radiation exposures in school, Dr. Samuel Milham, testified in federal Court that my children inherited my EHS, that the swelling, black spots and bloody lines on my childrens eyes were caused by the radiation at school; and that my children needed to avoid unnecessary exposures to radiation to prevent further aggravation of their EHS.

Attachments include letters of my childrens pediatrician requesting that my children not be seated directly under the light or in close proximity to sources of radiation; pictures of the effects caused on my childrens eyes by exposure to radiation; Declarations in which my children attest under penalty of perjury, that they want to be evaluated by my doctor for the pain and sickness that my children feel when exposed to wireless radiation, and detailing the aggravation of my childrens EHS.

Other attachments include the Physician Statement of Disability issued by the Texas Dept. of Aging and Disability Services and signed by my doctor stating as medical diagnosis "Highly sensitive to electricity" and describing some of the major life activities and functions substantially limited when exposed to radiation including receptive and expressive language; learning; mobility; capacity for independent living; economic self-sufficiency and ability to work; doctors letters detailing how my EHS is life-threatening; excerpts of a Decision of the Social Security Administration finding my electromagnetic sensitivity a severe impairment; and pictures of some of the effects caused by exposure to radiation and how the swelling inside the skull is pushing one of my eyes out of its socket, and a copy of a Grievance to the Texas State Bar against SISD counsel Ivan F. Perez citing to the evidence on the record proving SISD officials' fraud on the Courts to conceal the harm being caused on children by the microwave radiation at school.

On August 16, 2016 I requested SISD counsel, Mr. Ivan F. Perez, through his assistant (Lisa) to follow the doctors' directions to prevent further aggravation of my childrens health condition, specially the health of my youngest daughter, whos eyes get more swollen. Mr. Perez did not respond to my requests. On August 17, I made the same requests to Mr. Perez through his assistant, Ms. Melissa Escobedo. I requested to Ms. Escobedo that I wanted to contact my childrens teachers and principals directly instead through Mr. Perez. Mr. Perez did not respond to my requests. On August 18, 2016, I made the same requests to SISD Superintendent, Dr. Robert O'Connor through his assistant, Ms. Judis Ramirez. On August 23, 2016, Ms. Debra Alaniz who identified herself as in charge of Section 504 at SISD told me in essence that SISD officials were not to follow the doctors directions unless my children be evaluated by medical experts in EHS, as required by procedure and policy. I requested Ms. Alaniz to waive the requirements to prevent that my childrens EHS becomes as in my case, life-threatening or worse because evidence on the record has proven beyond reasonable doubt that SISD officials including Mr. Perez have committed falsification of government records, perjury and fraud on the Courts to prevent expert medical evaluations of my childrens EHS to conceal the harm being caused on other children by the radiation at school. SISD officials disability discrimination and retaliation against my children continues undeterred.

Specific, concrete, and undisputed evidence on the record has proven beyond reasonable doubt the collusion of SUSD officials with members of the judiciary and with others in falsification of government records, in perjury and fraud on the Courts, and in disability discrimination and retaliation against my children and against myself to prevent expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation, to conceal the harm being caused on children by the wireless radiation at school, and to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment. Grievance against Perez, pgs 4-6, Id.

In retaliation for denouncing their falsification of records to conceal the harm being caused on my children and on other children by the radiation at school, SUSD officials refused to follow the doctor's directions and to transfer my children to another school, and I filed Pro-se a federal law suit against SUSD officials. Jesus Mendoza et al, v. Sharyland Ind. School District et al, Case No. 7:11-cv-29 (S.D. TX. 2011), Docket 13; Grievance to the Texas State Bar against SUSD counsel, Ivan F. Perez, pg 4, Attached.

Taking advantage of my then wife's illiteracy, family violence, and of her mental or emotional instability, SUSD officials persuaded her to testify falsely in federal Court that my children are healthy children, and then persuaded her to file for divorce to deprive me of the right to make expert evaluations for the pain and sickness that my children feel when exposed to wireless radiation. Grievance against Perez, pg 4, Id.

During the same hearing in federal Court, SUSD officials did not deny their failed attempts to persuade my then wife to testify falsely in Court that I am mentally insane, to conceal the harm being caused on children by the radiation at school stating that they were not claiming that I am mentally insane but that I do not have the right to represent Pro-se my children in federal Court. The Court withdrew my kids from the case. Id.

During the same hearing, the former principal of my children's Elementary school made several false statements including that I did not submit a request to follow the doctor's directions for that school year. Id.

In retaliation for denouncing their disability discrimination against my children and against myself, SISD officials seated my children closer to sources of radiation. During that time, my then 6 year old daughter cried in pain almost everyday. At several times during that time, my child complained of pain while at school, telling me that she was hitting her head at school because she could not think, and that she wanted to call me so I could pick her up. Grievance against Perez, pg 5, Id.

On a hearing in federal Court, SISD officials admitted their falsification of government records, and their disability discrimination against my children and against myself to prevent a dangerous precedent for the wireless lobby. Grievance against Perez, pg 5, Id.

SISD officials committed more than 71 acts of perjury to the federal Court to conceal their disability discrimination and retaliation against my children and against myself to conceal that the wireless radiation at school is causing children EHS and other severe disabilities that defeat the purpose of education, and to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment. Grievance against Perez pg 6, Id.

In response to another federal law suit citing to the evidence on the record proving the irrational cruelty towards children and toward the disabled of U.S. Chief District Judge, Ricardo H. Hinojosa, and U.S. Magistrate Judge, Peter Ormsby, and proving their collusion with SISD officials and others to conceal the harm being caused on children by the radiation at school, Chief Judge Hinojosa and Judge Ormsby recused themselves admitting their collusion with SISD officials in the fraud on the Courts. Id.

After Chief Judge Hinojosa and Judge Ormsby recused themselves from the case against SUSD officials, the case was reassigned to U.S. District Judge Randy Crane. Judge Crane refused to recuse himself from the case, despite of conclusive evidence on the record proving his collusion with former Texas Attorney General, and now Governor of Texas in falsification of government records, in fabrication of evidence, and in fraud on this Court to conceal the legitimacy of Electrohypersensitivity as a physical health condition and as a disability, and despite that Judge Crane participated on the decision to make of the McAllen Ind. School District the first school district in the country to place more than 25,000 wireless into its school; on the decision to lower the academic requirements to conceal the harm being caused on our children's brains by the microwave radiation at school; and on the decision to compel parents to medicate children that became sick by the exposures to radiation at school to conceal that the switch from wired to wireless Internet at schools was not to improve education, but for private enrichment. Grievance pgs 112, 113. See 2nd Supplement to Criminal Complaint against the Governor of Texas, Greg Abbott and against the Texas Attorney General, Ken Paxton and Exhibits, available on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

Without consideration of the evidence proving as a matter of law the irrational cruelty towards children and towards the disabled of SUSD officials and of Chief Judge Hinojosa and Judge Ormsby, Judge Crane dismissed the law suit against SUSD officials to conceal the aggravation of my children's Electrohypersensitivity by unnecessary exposures to radiation at school; to prevent that parents of sick children be notified of the harm being caused by the radiation at school; and to conceal that the increasing number of children suffering of life-threatening and of terminal illnesses is caused by the radiation exposures at school. Id.

See Open Letter to Parents, Doctors and School Officials, and Open letter to the Judiciary detailing with scientific evidence some of the harm being caused on children by the microwave radiation at school. Attached.

Specific, concrete, and undisputed evidence on the record has proven as a matter of law that taking advantage of my then wife's illiteracy, <sup>SISD officials</sup> family violence and of her mental or emotional instability, persuaded her to commit perjury before the federal Court and to file for divorce to prevent expert medical evaluations for treatment of the harm caused on them by the wireless radiation at school. The same evidence proves as matter of law SISD officials collusion with members of the judiciary and with my then wife's divorce attorney in fraud on the Court to conceal the harm being caused on my children and on other children by the radiation at school. Grievance against Perez, pg 10, Attached.

My ex-wife's divorce attorney, Abel Hinojosa made my then wife to testify falsely before the then 92nd District Court Judge, and now Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr. that my children do not have symptoms of my Electrohypersensitivity. See Grievance to the Texas State Bar against Abel Hinojosa, Appx. 45 to 2nd Supplement to Criminal Complaint against Abbott and Paxton, Id.

Mr. Hinojosa removed from my children's medical records, records proving that he obtained by perjury on the 92nd District Court, orders to prevent expert medical evaluations for the pain and sickness that my children feel when exposed to wireless radiation. Appx. 45, Id.

Former Judge Rodriguez refused to consider undisputed evidence on the record proving Mr. Hinojosa's collusion with SISD officials in fraud on the federal Court and on the 92nd District Court to conceal the harm being caused on my children and on other children by the radiation at school. See Complaint to the Texas Commission on Judicial Conduct against former Judge Rodriguez, Appxs. 56, 57, Id.

Former 92nd District Court Judge, Jaime E. Tijerina refused to consider conclusive evidence on the record proving as a matter of law the collusion of SISD officials with Mr. Hinojosa and with Judge Rodriguez in fraud on the Courts to conceal my ex-wife's family violence, and to conceal the aggravation of my children's health condition by the radiation at school Appxs. 68-72, Id..

Judge Tijerina, to prevent expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation signed a Final Decree of Divorce stating falsely among other things that I waived my right to a jury trial, and that with my signature I gave my ex-wife the exclusive decision on my children's health and education; that I agreed to see my children only 24 hours per month, and that I agreed to pay child and medical support minimum wage. See Complaint to Texas Commission on Judicial Conduct Appxs 71,72 to 2nd Supp. to Criminal Complaint against Abbott and Paxton to the Special Prosecutions Division in Austin, Texas, Id.. See a copy of the fraudulent Final Decree of Divorce, Appxs. 20-27.

Evidence on the record proves the collusion of the former Commissioner of the Texas Dept. of Family and Protective Services, John Specia, and with his replacement, Henry Hank Withman, to conceal my ex-wife's ongoing violence against my children and to prevent expert medical evaluations for the pain and sickness that my children feel when exposed to wireless radiation and to conceal the fraud on the courts to conceal the harm being caused on children by the radiation at school. See Criminal Complaint against Paxton and against Whitman to the Special Prosecutions Division available on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

Evidence on the record has proven as a matter of law that to prevent expert medical evaluations for the pain and sickness that my children feel when exposed to wireless radiation, and as retaliation for denouncing the collusion of Greg Abbott with SISK officials and others in fraud on the Courts to conceal the harm being caused on children by the radiation at school, the Texas Attorney General, Ken Paxton, is attempting to enforce by incarceration the support orders on the Final Decree of Divorce, knowing that the support orders were obtained by fraud on the Court; knowing of my inability to comply with the fraudulent support orders; and knowing that because of my life-threatening EHS, incarceration is for me a death sentence. In essence, this is an attempt to silence with murder that the radiation at school is causing children EHS and other severe disabilities that defeat the purpose of education; to conceal that the lowering of academic requirements and the manipulation of grades is to conceal the harm being caused on our children's brains by the microwave radiation at school; to conceal that the increasing number of children suffering of life-threatening and terminal illnesses is caused by the radiation at school; and to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment as detailed on the Grievances to the State Bar against attorneys, and on the Complaints of Judicial Misconduct Appxs. 6-79, to the Criminal Complaint against Abbott and Paxton and available on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

For all these reasons, I respectfully request the U.S. Department of Education to compel SISK officials to follow the doctors' directions not to seat my children directly under the light or in close proximity to sources of radiation, and to provide any remedy that may be necessary to prevent that my children and other children's Electrohypersensitivity becomes as in my case, life-threatening or worse. If more evidence is necessary, I will be happy to oblige. Respectfully submitted,

*Jesus Mendoza* 26 Aug, 2016.  
Jesus Mendoza, 2202 E. 28th St. Mission, Texas 78574 Tel. (956)519 7140

# CONSENT FORM - FOR REVEALING NAME AND PERSONAL INFORMATION TO OTHERS

(Please print or type except for signature line)

Your Name: Jesus Mendoza

Name of School or Other Institution That You Have Filed This Complaint Against: \_\_\_\_\_

Sharyland Ind. School District

1106 N. Shary Rd. Mission, TX 78572 Tel. (956) 584 6400

- This form asks whether the Office for Civil Rights (OCR) may share your name and other personal information when OCR decides that doing so will assist in investigating and resolving your complaint.
- For example, to decide whether a school discriminated against a person, OCR often needs to reveal that person's name and other personal information to employees at that school to verify facts or get additional information. When OCR does that, OCR informs the employees that all forms of retaliation against that person and other individuals associated with the person are prohibited. OCR may also reveal the person's name and personal information during interviews with witnesses and consultations with experts.
- If OCR is not allowed to reveal your name or personal information as described above, OCR may decide to close your complaint if OCR determines it is necessary to disclose your name or personal information in order to resolve whether the school discriminated against you.

NOTE: If you file a complaint with OCR, OCR can release certain information about your complaint to the press or general public, including the name of the school or institution; the date your complaint was filed; the type of discrimination included in your complaint; the date your complaint was resolved, dismissed or closed; the basic reasons for OCR's decision; or other related information. Any information OCR releases to the press or general public will not include your name or the name of the person on whose behalf you filed the complaint.

NOTE: OCR requires you to respond to its requests for information. Failure to cooperate with OCR's investigation and resolution activities could result in the closure of your complaint.

## Please sign section A or section B (but not both) and return to OCR:

- If you filed the complaint on behalf of yourself, you should sign this form.
- If you filed the complaint on behalf of another specific person, that other person should sign this form.  
EXCEPTION: If the complaint was filed on behalf of a specific person who is younger than 18 years old or a legally incompetent adult, this form must be signed by the parent or legal guardian of that person.
- If you filed the complaint on behalf of a class of people, rather than any specific person, you should sign the form.

A. I give OCR my consent to reveal my identity (and that of my minor child/ward on whose behalf the complaint is filed) to others to further OCR's investigation and enforcement activities.

Jesus Mendoza

## OPEN LETTER TO PARENTS, TO DOCTORS, AND TO SCHOOL OFFICIALS.

Federal and State litigation has proven beyond reasonable doubt fraud on the Courts to conceal:

That the wireless devices used inside schools are exposing children to more than 250,000 uW/m2 of microwave radiation; that these radiation has caused harm to teachers, to fire fighters, to police officers, and to other adults; that the radiation at school is causing children Electrohyper-sensitivites, and brain, eye, blood, and DNA damage, and other severe harm that defeats the purpose of education; that the lowering of academic requirements and the manipulation of grades are to conceal the harm being caused on our childrens brains by the radiation at school; and to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment.

Below some of the undisputed evidence on the record proving the harm being caused on children by the microwave radiation at school.

uW/m2.

20	<u>Altpeter 1995,1997.</u> Sleep disorders, abnormal blood pressure, weakness, fatigue, limb pain, digestive problems, fewer school children promoted.
30-200	<u>Heinrich 2010.</u> Short term exposure caused headaches, irritation, and concentration problems in school children.
30-500	<u>Thomas 2010.</u> Short term exposure caused sleep problems in school children.
50	<u>Mohler 2010.</u> Chronic exposure caused sleep problems.
50-400	<u>Thomas 2008.</u> Adults exposed to short term cell phone radiation reported increase in headaches and in concentration problems.
60-100	<u>Buchner 2012.</u> Long term effects on immune system.
100	<u>Kolbun 1987.</u> Human sensation.
100-500	<u>Hutter 2006.</u> Headaches, concentration and sleeping problems.
100-1,100	<u>Navarro 2003.</u> Fatigue, headaches, sleeping problems.
150-2,100	<u>Aughner 2009.</u> Short term exposure, changes in mental state, prevented refined word choices, calmness, stupified, zoned-out.
165-4,400	<u>Oberfeld 2004.</u> Fatigue, depressive tendency, sleeping disorders, concentration problems, cardio-vascular problems, significan increase in breast cancer and brain tumors.
300-500	<u>Rassoul 2000.</u> Headaches, memory changes, depressive symptoms, sleeping problems.
500-1,000	<u>Khurana 2010.</u> Increased neuro, cardio symptoms and cancer.
500-1,000	<u>Kundi 2009.</u> Headaches, fatigue, concentration and sleeping problems.
638	<u>Papageorgio 2011.</u> Decreased cognitive function.
1,300	<u>Zwamborn 2003.</u> Decreased cognition and well being.
1,600	<u>Kolodinski 2006.</u> Memory, attention, motorrrfunction of school children.
2,100	<u>Ridervold 2008.</u> Reported increased headaches in only 45 minutes of exposure to cell phone radiation.
3,800	<u>Schuartz 1990.</u> Effects on heart function.

uW/m2

3,000	<u>Wolf 2004.</u> Ten times risk of cancer with short latency.
2,000-80,000	<u>Hoking 1996.</u> Two fold increase in leukemia in children.
2,000-80,000	<u>Hoking 2000.</u> Decreased survival in children with leukemia.
5,000	<u>Alberts 1997, Oscar and Hawkin 1997, Neilly and Lin 1986.</u> Breakdown of brain-blood barrier allowing entry of toxics into the nervous system.
5,000-10,000	<u>Avendaño 2012.</u> WiFi level laptop exposure for 4 hours caused decrease in sperm viability and DNA damage.
8,000-100,000	<u>Akoev 2002.</u> Changes in behavior.
10,000	<u>Elviti 2007.</u> 50 minutes of exposure caused loss of well being to electrosensitive patients.
10,000	<u>Pensson 1997.</u> Toxic leakage of the blood-brain barrier.
10,000	<u>Simonenko 1998.</u> Headaches, dizziness, irritability, fatigue, weakness, insomnia, chest pain, stomach and breathing problems.
10,000	<u>Novoselova 1999.</u> Affected functions of immune system.
13,000-57,000	<u>Dolk 1997.</u> Leukemia, skin melanoma, bladder cancer.
20,000	<u>Mann 1996.</u> Effects in immune system.
20,000	<u>Frey 1963, 1969, 1971, 1973, 1988; Justenson 1979; Olsen 1980; Wieske 1963; Lin 1978.</u> Microwave hearing-clicking, buzzing, chirping, hissing, or high-pitched tones. (Tinnitus)
20,000-40,000	<u>D'Inzeo 1988.</u> Effects in physical and behavioral functions.
25,000	<u>Wolke 1996.</u> Calcium concentration in heart muscle.
40,000	<u>Chiang 1989.</u> Altered white blood cells in school children.
40,000	<u>Tattersall 2001.</u> Effects in memory and learning.
40,000-	<u>Chiang 1989.</u> Memory impairments, slowed motor skills, and retarded learning in children.
150,000	<u>Boscolo 2001.</u> Immune function decreased.
50,000	<u>Belokrinskiy 1982.</u> Biochemical and histological changes in liver, kidney, and in brain tissue.
50,000	<u>Dumanisky 1974.</u> Impaired nervous system activity.
52,500	<u>Kewee 2001.</u> 20 minutes of exposure induced stress response.
60,000	<u>Phillips 1998.</u> DNA damage.
87,500	<u>Marinelli 2004.</u> 2-12 hours of exposure caused DNA breaks in leukemia cells, linked to tumor aggression.
100,000	<u>Belokrinskiy 1982.</u> Brain damage.
100,000	<u>Shutenko 1981.</u> Redistribution of metals in lungs, brain, heart, liver, kidney, muscles, spleen, bones, skin, and blood.
100,000	<u>Navakatikian 1994.</u> Changes in behavior.
100,000	<u>Richter 2000.</u> Increased risk of cancer with short latency.
150,000	<u>Polonga-Moraru 2004.</u> Eye damage.

EarthLink Wi-Fi Network 2007; Powerwatch.org.uk See Electro-magnetic Hypersensitivity by Dr. Erica Mallery-Blythe, 2014. The Criminal Complaints submitted to federal and State authorities that cite to the evidence on the record proving the fraud on the Courts to conceal the harm being caused on children by the radiation at school have been posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

Respectfully,

*Jesus Mendez*

## OPEN LETTER TO THE JUDICIARY

Dear Judge, scientific studies have proven that unlimited exposure to wireless radiation is causing children Electrohypersensitivities, and brain, eye, blood, and DNA damage, addiction, suicide, and other severe physical harm. Please consider the following facts during adjudication of claims of child misbehavior, since orders limiting the use of wireless devices can protect our children and can prevent recidivism.

- a) Use of wireless devices is exposing children to more than 250,000 uW/m<sup>2</sup> of microwave radiation, and exposure to 1,000-5,000 uW/m<sup>2</sup> of microwave radiation can cause brain damage even to adults. (1)
- b) The number of children with brain damage has increased from 1 in 10,000 to 1 in 50, and according to scientists the unrestricted use of wireless devices by children and pregnant women is bound to leave no child without brain damage, and by the time parents become fully aware of this danger, we are bound to lose many of our children. (2)
- c) Chronic exposure to wireless radiation can cause Electrohypersensitivities, and brain, eye, blood, and DNA damage, addiction, suicide, and other severe physical harm even to adults. (3)
- d) Addiction to wireless increase by 53% to 153% the risk of suicide and can cause the same behavioral problems caused by the use of drugs. (4)
- e) The radiation reaching children at school is increasing on children by 500% the risk of cancer, and by 450% the risk of dying to children suffering of life-threatening illnesses. (5)
- f) Evidence on the record has proven beyond reasonable doubt how those in charge of educating and protecting our children have committed fraud on the Courts to conceal the harm being caused on children by the radiation at school, and to conceal that the switch from wired to wireless Internet in schools was not to improve education but for private enrichment. (6)

Consideration of these facts during your efforts to protect our children is highly appreciated. Respectfully,

*Jesus Mendoza 26 Aug 2016*

OPEN LETTER TO PARENTS, DOCTORS, SCHOOL OFFICIALS, ATTORNEYS, LEGISLATORS,  
LAW ENFORCEMENT AGENCIES, AND TO THE JUDICIARY.

Electrohypersensitivity EHS, is caused and aggravated by exposure to the wireless radiation reaching children at school, and proves conclusively that the use of microwave technologies in schools is endangering and causing children harm so severe as to defeat the purpose of education. Symptoms of EHS include pain, and breathing, speech, hearing, vision, and memory problems; allergy, cold and flu symptoms; learning and behavioral impairments; swelling of vital organs; and symptoms of heart attack and of stroke. EHS CAN BE FATAL IF MISDIAGNOSED AND OR MISTREATED WITH DRUGS.

It is estimated that millions of children are suffering of EHS.. In many cases, doctors are misdiagnosing and mistreating with dangerous drugs symptoms that disappear with avoiding exposure to radiation. EHS is recognized as a medical condition and as a disability by federal and State agencies and by Courts.

Evidence on the record has proven beyond reasonable doubt that those in charge of educating and protecting our children have committed falsification of government records, perjury and fraud on the Courts, and disability discrimination and retaliation to conceal that the same radiation reaching children at school has caused harm to teachers, to fire fighters, to police officers, and to other adults; to conceal that this radiation is causing children EHS, and brain, eye, blood, and DNA damage and other severe harm that defeats the purpose of education; to conceal that the lowering of academic requirements and the manipulation of grades is to conceal the harm being caused on childrens' brains by the microwave radiation at school to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment; and to conceal that the Obama Administration is selling the future of our children and of our national security to the wireless lobby as detailed on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

I am suffering of a painful, debilitating and life-threatening Electro-hypersensitivity, EHS. Exposure to the same radiation reaching children at school, including the radiation emitted by power lines, electric motors and transformers, fluorescent lights, cell phones, wireless computers and other sources of radiation causes me among other things swelling of vital organs; swelling of face, head and eyes; symptoms of heart attack and of stroke; and breathing, speech, hearing, concentration, and memory problems. The swelling inside the skull has been so severe as to displace an eye out of its socket. For the most part, I have been home bound for more than 5 years. I have been violently ill several times. I am in pain all the time. I use oxygen during crisis. Everyday is a different nightmare. My EHS has been recognized as a medical condition and as a disability by federal and State agencies and by Courts. My children, to a lesser degree, are also suffering of EHS, and their health condition is aggravating by unnecessary exposure to wireless radiation, and by lack of expert medical treatment for the pain and sickness that they feel when exposed to wireless radiation. Id.

Federal and State litigation has proven beyond reasonable doubt the irrational cruelty of those in charge of educating and protecting our children, and how they committed fraud on the Courts to prevent expert medical care for my children, and to conceal that the radiation at school is responsible for the poor academic performance, for the thousands of visits to the school nurse, for the increasing number of children suffering of learning and behavioral impairments, for the thousands of student and teacher absences for health reasons, for the increasing number of children collapsing in class, and committing suicide, and for the increasing number of children suffering of life-threatening and of terminal illnesses as detailed on the Grievances against attorneys to the Texas State Bar; on the Complaints of Judicial Misconduct and on the Complaints to federal and State authorities posted on [wirelesswatchblog.org](http://wirelesswatchblog.org) Id. Respectfully,

*Jesus Mendoza*

**RE: Jesus Mendoza**

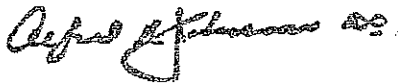

To Whom It May Concern:

The above patient is under my care. In case of emergency health care, please do not place this patient in close proximity to sources of electromagnetic radiation.

He is currently suffering from severe hypersensitivities to chemical fumes and odors along with electromagnetic sensitivity. Exposure to sources of radiation including power lines, electric motors, computers, fluorescent lights, and wireless devices, cause Mr. Mendoza severe pain, swelling of vital organs, breathing difficulties, speech impairment, and concentration and memory deficits.

If you have any questions regarding this please contact me.

Sincerely Yours,

Alfred R. Johnson, D.O.

Decision

SOCIAL SECURITY ADMINISTRATION  
Office of Hearings and Appeals

DECISION

IN THE CASE OF

Jesus Mendoza  
(Claimant)

(Wage Earner)

CLAIM FOR

Period of Disability,  
Disability Insurance Benefits, and  
Supplemental Security Income

(Social Security Number)

FINDINGS

After careful consideration of the entire record, the Administrative Law Judge makes the following findings:

1. The claimant meets the nondisability requirements for a period of disability and Disability Insurance Benefits set forth in Section 216(i) of the Social Security Act and is insured for benefits through the date of this decision.
2. The claimant has not engaged in substantial gainful activity since August 31, 2000, although he continues to engage in work activity.
3. The claimant's electromagnetic sensitivity is a severe impairment, based upon the requirements in the Regulations (20 CFR §§ 404.1521 and 416.921).

Exhibit A documents  
Mendoza et al., v. Sharyland ISD,  
Case No. 7:11-cv-29 (S.D. TX. 2011)

The pictures show the swelling caused by the speaker of a land-line phone after a 2-hour Court hearing by telephonic conference. On April 13, 2011, an expert in radiation exposures, Dr. Samuel Milham testified in Court that my children inherited my EHS, that the swelling, black spots, and bloody lines on my children's eyes were caused by the radiation at school, and that my children needed to be transferred to another school to prevent further aggravation of their health condition. I submitted the pictures to the Court in support of a motion for an extension of time to file a response to school officials' motion to dismiss the case.

RE: Grievance against attorney Ivan F. Perez.

STATE BAR OF TEXAS  
Office of the Chief Disciplinary Counsel  
P.O. Box 13287 Austin, Texas 78711  
Tel. (512)463 5533

I respectfully submit this Grievance against counsel for the Sharyland Ind. School District, Ivan F. Perez, on the ground that evidence on the record has proven beyond reasonable doubt the collusion of Mr. Perez with SISD officials, with the former Texas Attorney General, and now governor of Texas, Greg Abbott, with members of the judiciary, and with others, in falsification of government records, in perjury and fraud on the Courts, and in disability discrimination and retaliation against my children and against myself to conceal the aggravation of my children's Electrohypersensitivity by the radiation exposures at school, to conceal that the same radiation reaching children at school has caused harm to teachers, to fire fighters, to police officers and to other adults; to conceal that the radiation exposures at school are increasing by 500% the children's risk of cancer, and increasing by 450% the risk of dying to children suffering of life-threatening illnesses; to conceal that the microwave radiation at school is causing children Electrohypersensitivities, and brain, eye, blood and DNA damage and other severe physical harm that defeats the purpose of education; to conceal that the radiation exposures at school are responsible for the poor academic performance, for the increasing number of children suffering of learning and of behavioral impairments, for the thousands of visits to the school's nurse, for the thousands of student and teacher absences for health reasons, for the increasing number of children collapsing in class and committing suicide, and for the increasing number of children suffering of life-threatening and of terminal illnesses; to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment; to conceal that the lowering of academic requirements and the manipulation of grades is to conceal the harm being caused on our children's

brains by the microwave radiation at school; to conceal that taking advantage of the pervasive corruption in this area, the Obama Administration has chosen our children to start an extremely dangerous and suicidal experiment bound to cause severe physical harm even to generations to come; and to conceal that the future of our children and of our national security are being sold to the wireless lobby as proved by federal and State litigation and detailed herein and on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

I respectfully request the Office of the Chief Disciplinary Counsel to consider the evidence of Mr. Perez' irrational cruelty towards children and towards the disabled to determine whether he is entitled to practice law.

The Complaint of Judicial Misconduct against former 92nd District Court Judge, and now Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr.; the Complaint of Judicial Misconduct against former 92nd District Court Judge, Jaime E. Tijemina; the Grievance against Assistant Texas Attorney General, Norma Ortiz; the Grievance against attorney Abel Hinojosa, and this Grievance cite to specific, concrete, and undisputed evidence on the federal and State records proving as a matter of law, the collusion of Greg Abbott with SISD officials, with members of the judiciary, and with others in falsification of government records, in fabrication of evidence, in perjury and fraud on the Courts, and in disability discrimination and retaliation against my children and against myself to conceal that the radiation exposures at school are causing harm that defeats the purpose of education. The Complaints and Grievances are available on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

### DECLARATION

I certify under penalty of perjury that I am competent to make this Declaration, and that the facts stated herein are within my personal knowledge, and are true and correct.

I am suffering of a painful, debilitating, and life-threatening Electrohypersensitivity, EHS. Exposure to the radiation emitted by power lines, electric motors and transformers, fluorescent lights, video display screens, cell phones, wireless computers, Wi-Fi, radar, and by other sources of radiation cause me among other things, severe pain, and swelling of vital organs, of head, and of face and eyes; and breathing, speech, and concentration problems. The delayed effects of exposure to radiation have been catastrophic. With exception of some walks around the neighborhood during the year 2011, and walks to the next-door neighbors, I have been home bound since March 30, 2011. During the year 2012, I lost the ability to use electronic equipment to draft documents. I cannot stay inside my home but for a few minutes at a time. To ameliorate some of the symptoms of EHS I stay in a metal room placed in the middle of the lot, and I use shielding of the thoracic box most of the time, and at times, shielding of head at night. I use oxygen on crisis. I have been violently ill several times. I am in pain all the time. Everyday is a different nightmare. My EHS has been recognized as a medical physical health condition and as a disability by federal and State agencies and by Courts. EHS is caused and aggravated by exposure to the same radiation reaching children at school. EHS proves conclusively that the microwave radiation inside schools is causing children harm that defeats the purpose of education. My children are also suffering of EHS, and their health condition is aggravating by unnecessary exposures to radiation, and by lack of expert medical treatment of their EHS. (1)

(To try a radiation suit, on July 7, 2016, I walked about one and a half blocks away from my home)

In retaliation for denouncing their attempts to conceal the harm being caused on children by the radiation at school, officials of the Sharyland Ind. School District refused to follow the doctors' orders to seat my children not in close proximity to sources of radiation, and refused to transfer my children to another school, and I filed Pro-se a federal law suit to compel SISD officials to follow the doctors' orders, and to transfer my children to another school; and to compel SISD officials not to seat children on radiation hot spots, and to notify parents with sick children of the radiation power levels reaching children at school; to disable the Wi-Fi system at my children's elementary school; to make a risk study of the different types of radiation reaching children at school; and to produce the real unaltered students' grades, and the complete number of students and teachers reporting sickness. (2)

In response to the law suit, Mr. Perez and other SISD officials attempted to persuade my then wife to impeach in Court my mental stability, and taking advantage of her violence against my children, persuaded her to testify falsely in federal Court that my children are healthy children, and to file for divorce to deprive me of my parental rights to prevent expert evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation. On a hearing before U.S. Magistrate Judge, Peter Ormsby, Mr. Perez did not deny their attempts to persuade my then wife to impeach my mental stability to conceal the harm being caused on children by the radiation at school. During that hearing, Mr. Perez allowed my then wife to testify falsely that my children are healthy children, and allowed the now former principal of my children's elementary school, Pamela Montalvo, to testify <sup>falsely</sup> that I did not submit a request to follow the doctor's directions for that school year. (3)

In another hearing before Judge Ormsby, Dr. Samuel Milham, a world-class expert in radiation exposures in schools testified that my children inherited my Electrohypersensitivity; that the swelling, black spots and bloody lines on my children's eyes were caused by the radiation at school; and that my children needed to be transferred to another school to prevent further aggravation of their health condition. (4)

In retaliation for denouncing their falsification of records, and perjury before the Court to conceal the harm being caused on children by the radiation at school, Mr. Perez and SISD officials refused to follow the doctors' directions and to transfer my children to another school, and seated my children closer to sources of radiation aggravating the health condition of my then 6-year old child. During that time, my daughter complained of feeling pain while at school while hitting her head herself saying that she could not think, and that she wanted to call me so I could pick-her up from school. (5)

On a hearing before Judge Ormsby, Mr. Perez admitted his collusion with SISD officials in falsification of government records and in the retaliation against my children and against myself to prevent a dangerous precedent for the wireless lobby. (6)

Mr. Perez has denied more than 10 requests to follow the doctors' orders, and to transfer my children to another school, in retaliation for denouncing his collusion with my ex-wife's divorce attorney, Abel Hinojosa, with the then 92nd District Court Judge, and now Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr., and with others in perjury and fraud on the Courts to prevent expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation to conceal the harm being caused on children by the radiation at school. (7)

Despite of a duty to engage the evidence and claims of his collusion with other SISD officials in more than 7 acts of perjury to the federal Court to conceal the falsification of government records, and to conceal the harm being caused on children by the radiation at school, Mr. Perez failed to do so. (8)

Despite of a duty to engage the evidence and claims proving that the same radiation reaching children at school has caused harm to teachers, to fire fighters, to police officers, and to other adults, that these radiation exposures are increasing by 500% the children's risk of cancer, and increasing by 450% the risk of dying to children suffering of life-threatening illnesses, and are causing children Electrohypersensitivities, and brain, eye, blood, and DNA damage and other severe physical harm that defeats the purpose of education; that these radiation exposures are responsible for the poor academic performance, for the thousands of visits to the school nurse, for the thousands of student and teacher absences for health reasons, and for the increasing number of children suffering of life-threatening and of terminal illnesses, Mr. Perez failed to do so. (9)

Specific, concrete, and undisputable evidence on the federal record has proven beyond reasonable doubt the irrational cruelty towards children and towards the disabled of Mr. Perez and SISD officials, of Greg Abbott, of U.S. Chief District Judge, Ricardo H. Hinojosa; of U.S. Magistrate Judge, Peter E. Ormsby; of U.S. District Judge, Randy Crane; of former 92nd District Court Judge, and now Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr; of former 92nd District Court Judge, Jaime E. Tijerina; and of Mr. Abel Hinojosa. The same evidence has proven beyond reasonable doubt their collusion in felonious conduct to conceal the harm being caused on children by the radiation at school. (10)

Respectfully submitted,

*Jesus Mendoza*  
Jesus Mendoza

## EVIDENCE

1. See the Physician Statement of Disability issued by the Texas Dept. of Aging and Disability Services and signed by my doctor stating as medical diagnosis "Highly sensitive to electricity" and describing some of the major life activities and functions substantially limited when exposed to radiation, including receptive and expressive language; learning; mobility; capacity for independent living; economic self-sufficiency; and ability to work. Jesus Mendoza et al, v. Sharyland Ind. School District et al, Case No. 7:11-cv-29 (S.D. TX. 2011), Docket 13, Exhibit 1A; Docket 91, App 3-029; Docket 97, Exhs. 4.38, 5.12, 7.9.

The Social Security Administration found my electromagnetic sensitivity a severe impairment, Docket 13, Exh. 3; Docket 91, App 3-031, Id.

See doctors' letters explaining my EHS and my chemical sensitivity, my inability to stay inside buildings; how my EHS is life-threatening- and that the radiation inside buildings causes me swelling of vital organs, and breathing, speech, concentration and memory problems. Docket 13, Exh. 4; Docket Exh. 60, Exh. A; Docket 97, Exhs. 4.40, 5.13, 7.10, 7.11, A-1449, Id.

See pictures of some of the effects caused by exposure to radiation, including rashes, loss of skin, swelling of face and eyes, and how the swelling inside the skull is pushing one of my eyes out of its socket, Docket 13, Exh. 2; Docket 91, App 3-030; Docket 97, Exhs. 4.39, 7.12, 7.15, Id.

See medical records documenting a history of life-threatening swelling of heart, and of swelling of face and eyes, Docket 97, Exhs. 7.33, 7.34, 7.36, 7.38, 7.42, 7.44, 7.45, 7.46, Id.

See Court Order granting my motion to appear by phone as accommodation to my EHS, Docket 13, Exh. 8; Docket 91, Apps 3-043, 3-044, Id.

See letters from my children's pediatrician requesting that my children not be seated directly under the light or in close proximity to sources of radiation, Docket 13, Exh. 5; Docket 97, Exhs. 8.63, 8.66, A-1388, A1938, Id.

See pictures of the effects caused on my children's eyes by exposure to radiation, including swelling, black spots, and bloody lines, Docket 13, Exh. 6; Docket 26, Exhs. 6, 6A; Docket 97, Exh. 8.85, Id.

More than 400 pages of medical records document more than 60 visits of each child to the doctor with the same symptoms of EHS and of the same harm caused by the same radiation reaching children at school. Docket 57, pgs 3,4,63, Exhs. KI, IB, and KV; Docket 81, Sections 3-7, Id.

A world-class expert in radiation exposures in schools, Dr. Samuel Milham, testified before U.S. Magistrate Judge, Peter E. Ormsby, that my children inherited my EHS; that the swelling, black spots and bloody lines on my children's eyes were caused by the radiation at school, and that my children needed to be transferred to another school to prevent further aggravation of their EHS. Docket 57, pgs 8, 56; Docket 81, Section 3-1, Id.

The undisputed scientific evidence on the federal and State record proving that the same radiation reaching children at school has caused harm to teachers, to fire fighters, to police officers and to other adults; and proving that these radiation exposures are causing children EHS, and brain, eye, blood, and DNA damage and other harm that defeats the purpose of education is detailed on Docket 57; Docket 81, Sections 4,5,6,7,; Docket 97, Exhibits 1.1 to 1.15; 4.25 to 4.37; 6.4 to 6.29; 8.0 to 8.94; Exh. 9; Exh. 10; Docket 91, Apps 4-017 to 4-090, Sharyland ISD et al, Id, and on the Motion for Protective Orders filed on the 92nd District Court of Hidalgo County, Texas on Feb. 13, 2012, Case No. F-1591-11-A.

Docket 101 cites to undisputed evidence on the federal record proving SISD officials falsification of government records, and more than 7 acts of perjury to the federal Court to conceal their disability discrimination and retaliation against my children and against myself after I denounced their attempts to conceal the harm being caused on children by the radiation at school. Sharyland ISD et al, Id.

An Application for Protective Orders details the aggravation of my children's EHS, and includes my children's Declarations in which they describe under penalty of perjury the symptoms of their health condition, requesting to be evaluated for treatment of the pain and sickness that they feel when exposed to wireless radiation. The Application for Protective Orders describe how Child Protective Services and others have attempted to conceal my children's EHS, and is available on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

Evidence indicates that my children's pediatrician and eye doctor were intimidated to conceal the harm being caused on other children by the radiation at school. An FBI agent testified in federal Court that even they feared for their safety when investigating school officials' corruption in this area. The McAllen Monitor, Editorial, Sept. 13, 2013 at 7B.

2. Jesus Mendoza et al, v. Sharyland Ind. School District et al, Case No. 7:11-cv-29 (S.D. TX. 2011), Docket 13, pgs 73-77.
3. At no time during the federal litigation, Mr. Perez engaged or opposed evidence or claims proving his participation with SISD officials in the failed attempts to persuade my ex-wife to impeach my mental stability in Court; or in the manipulation of my ex-wife to testify falsely in Court that my children are healthy, and then to file for divorce to deprive me of my parental rights to prevent expert medical evaluations for the treatment that my children feel when exposed to radiation; or in the manipulation of Ms. Montalvo to testify falsely in federal Court that I did not submit a doctor's letter for that school year to conceal disability discrimination and retaliation against my children and against myself to conceal the harm being caused on children by the radiation at school. Docket 48, pgs 4-6, 32-35, 40-44, 52-54; Docket 57, pgs 7-10, 31, 49, 64, 65; Docket 62, pgs 5-7, 20; Docket 81, pgs 1b, 1c, 6, 7, 9, Sections 10-1 to 10-7; Docket 94, pgs 20, 30; Docket 97, pg 19; Docket 101, pgs 32, 33, Id.

See my ex-wife's Response to a Request for Admissions in which she admits among other things, her perjury before the federal Court (Admissions 95-100) and admits to her violence against my children; admits to my children's health problems; and to her attempts to conceal the aggravation of my children's EHS by the radiation at school, Docket 62, Exhibit A, Id; See Docket 81, Sections 10-1 to 10-7, Id.

By mistake, Mr. Perez submitted to the Court evidence proving that Ms. Montalvo's testimony in federal Court that I did not submit a request to follow the doctor's directions for that school year was false, and then SISD officials asked the Court to withdraw that evidence. Docket 97, pg 19; Docket 101, pgs 32, 33, Id.

Besides of proving Mr. Perez collusion with Ms. Montalvo to commit perjury before the federal Court, the evidence that Mr. Perez filed by mistake in federal Court corroborates his collusion with SISD officials in falsification of government records, and in disability discrimination and retaliation against my children and against myself to conceal that the radiation exposures at school are responsible for the poor academic performance, for the thousands of visits to the school nurse, for the thousands of student and teacher absences for health reasons, and for the increasing number of children suffering of life-threatening and of terminal illnesses. Docket 94, pgs 15, 22, 31, 32, 34, 35, 40, 46, 48-51; Docket 97, pgs 19, 20; Docket 101, pgs 32-35, 48, 57, 77, 78, Sharyland ISD et al, Id..

Greg Abbott, through his agents, interfered with my ability to file this evidence in federal Court within the Court's deadline. See Grievance against Assistant Texas Attorney General, Norma Ortiz, available on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

4. Docket 38, pgs 34,35; Docket 48, pgs 5,44,45,51; Docket 57, pgs 8,56; Docket 81, Section 3-1, Sharyland ISD et al, Id.
5. At no time, Mr. Perez has denied claims, or engaged or opposed evidence of his collusion with SISD officials in retaliation against my children after I denounced their attempts to conceal the harm being caused on children by the radiation at school. Docket 38, pgs 5,10,11,43,44; Docket 48, pg. 4; Docket 62, pgs 2,10,11,24,25; Docket 57, pgs 9,31, 32,48, 64; Docket 81, pg 3, Sections 2-4, 12-7; Docket 97, pg 19; Docket 98, Paragh. 15; Docket 101, pg 70, Id.
6. During a hearing before Judge Ormsby, I explained to the Court that Mr. Perez had admitted to me participating with school officials in falsification of government records, and had admitted to me that the reason he was denying my requests to follow the doctors directions to seat my children not in close proximity to sources of radiation, and to transfer my children to another school was to prevent a dangerous precedent. I explained to the Court that the dangerous precedent was for the wireless lobby. Mr. Perez did not engage or denied my claims. See Affidavit paragraphs. 31,32,33, Docket 97; Docket 101, pg. 68, Sharyland ISD et al, Id.
7. Sections 2-1 to 2-4 of Docket 81, cites to evidence on the record proving Mr. Perez refusal to follow the doctors' directions to seat my children not in close proximity to sources of radiation, and to transfer my children to another school. Up to this time, Mr. Perez has refused to follow the doctors orders, and has refused to transfer to another school, the child who is suffering the most severe reactions to the radiation at school. See some of my requests to Mr. Perez, Exhibits 5.1 to 5.20, Docket 97, Id.

At no time, Mr. Perez has engaged or opposed evidence or claims of his collusion with SISD officials, with my ex-wife's divorce attorney, Abel Hinojosa; with former 92nd District Court, and now Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr., and with others in falsification of government records, in perjury and fraud on the Courts, and on disability discrimination and retaliation against my children and against myself to prevent expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation, and to conceal the harm being caused on children by the radiation at school. Docket 48, pgs 4,5,33,40,44,48,52,53; Docket 62, pgs 4-7, 20; Docket 57, pg. 7; Docket 81, pg 9, Section 11-2; Docket 94, pgs 52-56; Docket 97, pgs 16,17; Docket 98 paragraphs. 26-27; Docket 101 pg 71, Sharyland ISD et al, Id.

At no time during the federal litigation, Mr. Perez engaged or opposed the evidence of his collusion with other SISD officials, with Judge Rodriguez, and with Mr. Hinojosa in fraud and perjury on the Courts to conceal the harm being caused on children by the radiation at school. See the unopposed sworn Application for Protective Orders detailing my ex-wife's violence against my children and her attempts to conceal the aggravation of my children's EHS by the radiation at school, and which Judge Rodriguez refused to rule on to conceal the collusion of Mr. Hinojosa with SISD officials, Docket 48, Exh. A, Id. See police report documenting my ex-wife's violence against myself when I was video recording my child crying in pain, Id.

See my ex-wife's Response to a Request for Admissions in which she admits to my children's health problems and admits that her testimony in federal Court that my children are healthy was false, Exhibit A, Docket 62, Id.

See Mr. Hinojosa's proposed Temporary Orders in which he sought in the 92nd District Court to deprive me of the right to transfer my children to another school and of the right to make expert medical medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation, Exhibits to Docket 57, Id;

See some of the medical records that Mr. Hinojosa removed from my children's records to conceal my ex-wife's perjury before the federal Court and before the 92nd District Court to conceal the aggravation of my children's EHS by the radiation at school, and to deprive me of my parental rights, Exhibits 3.4 to 3.7, Docket 97, Id.

See Mr. Hinojosa's Response to a Request for Production of Documents in which he refuses to produce the complete medical records of my children, Exhibits 4.1 to 4.9, Docket 97, Id.

See Grievance against Mr. Hinojosa and Complaint of Judicial Misconduct against Judge Rodriguez and against Judge Tijerina detailing their collusion with Mr. Perez and with other SISD officials in fraud on the Courts to conceal the harm being caused on children by the radiation at school. Available on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

8. Docket 101 cites to undisputed evidence on the record proving the collusion of Mr. Perez with SISD officials in more than 7 acts of perjury to the federal Court to conceal his falsification of government records to conceal the harm being caused on children by the radiation at school, Id.

The Grievance against Assistant Texas Attorney, Norma Ortiz cites to the evidence on the record proving Mr. Perez and others' irrational cruelty towards children and towards the disabled. Available on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

9. Docket 38; Docket 57; Docket 81, Sections 4,5,6,7; Docket 94; Docket 97 and Exhibits 1.1 to 1.15, 4.25 to 4.37, 6.4 to 6.29, 8.0 to 8.94, and Exhibits 9 and 10; Docket 91, Apps 4-017 to 4-090; Docket 101, pgs 12-33, 54-59, Sharyland ISD et al, Id.

10. Both, Chief District Judge Hinojosa and Judge Ormsby recused themselves from the case against SISD officials in response to another federal law suit citing to evidence on the record proving their irrational cruelty towards children and towards the disabled and proving their collusion with SISD officials, with Greg Abbott, with Judge Rodriguez, with Mr. Hinojosa and with others in falsification of government records, in perjury and fraud on the Courts, and in disability discrimination and retaliation to conceal the harm being caused on children by the radiation at school; to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment; to conceal that the lowering of academic requirements and the manipulation of grades was to conceal the harm being caused on our children's brains by the microwave radiation at school; to conceal that taking advantage of the pervasive corruption in this area, the Obama Administration is manipulating our Courts to conceal that our children have been chosen to start an extremely dangerous experiment bound to cause harm even to generations to come; and to conceal that the future of our children and of our national security are being sold to the wireless lobby.

Jesus Mendoza v. U.S. Chief District Judge, Ricardo H. Hinojosa et al, Case No. 1:14-cv-30 (S.D. TX. 2014), Dockets 11, 4, 14.

See Orders of Recusal, Dockets 105, 106, Sharyland ISD et al, Id.

After Chief Judge Hinojosa and Judge Ormsby recused themselves from the case against SISD officials, the case was reassigned to U.S. District Judge, Randy Crane, and to U.S. Magistrate Judge Dorina Ramos. Dockets 105, 106, Sharyland ISD et al, Id.

Apparently, Judge Ramos recused herself from the case, since conclusive evidence has proven her collusion with Chief Judge Hinojosa and with other members of the judiciary to conceal a fraud of millions of dollars of federal funds. See Statement of Interested Parties, Docket 91, Apps 3-284 to 3-318, Sharyland et al, Id. See Docket 4, Hinojosa et al, Id.

Judge Crane refused to recuse himself from the case against SISD officials despite of conclusive evidence proving as a matter of law his collusion with the former Texas Attorney General and now governor of Texas, Greg Abbott in falsification of government records; in fabrication of statements and of medical evidence; on disability discrimination and retaliation; and on fraud on the federal Court to conceal the legitimacy of Electrohypersensitivities as a medical condition and as a disability; and despite that evidence indicates

that Judge Crane participated with the Obama Administration on the decision to make of the McAllen Ind. School District, the first district in the country to place more than 25,000 wireless devices into its schools; on the decision to lower the academic standards and testing to conceal the harm being caused on our childrens' brains by the microwave radiation at school; and on the decision to compel parents to medicate children that became sick by the microwave exposures at school to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment. See Complaint of Violation of Civil Rights and Request to Investigate submitted to the FBI Public Corruption Task Force and to the Special Prosecutions Division in Austin, Texas, No. 10269-15, sections 10-14, 25; See Statement of Interested Parties, Id; See Grievance against Assistant Texas Attorney General, Norma Ortiz available on the Case Law section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

After Judge Crane refused to recuse himself from the law suit against SISD officials, and to prevent that SISD officials follow the doctors' orders not to seat my children in close proximity to sources of radiation; to prevent that I transferred my children to another school; to prevent that parents of sick children be notified of the harm being caused by the radiation at school; to prevent evaluations of the harm being caused on children by the several types of radiation reaching children at school; and to prevent that SISD officials disclose the real unaltered childrens' grades and the complete number of students and teachers reporting sickness, Judge Crane dismissed the case without consideration of evidence proving as a matter of law, Chief District Judge Hinojosa and Judge Ormsby irrational cruelty towards children and towards the disabled, and their collusion with SISD officials in falsification of government records, in perjury and fraud on the Courts, and on disability discrimination and retaliation to conceal the harm being caused on children by the radiation at school, and to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment. Id.

Two Judges from the federal Court in Brownsville, Texas and one Judge from the federal Court in Laredo, Texas recused themselves from the law suit against U.S. District Chief Judge, Ricardo H. Hinojosa and against the former Texas Attorney General, and now Governor of Texas, Greg Abbott and other who participated in the fraud on the Courts to conceal the harm and disabilities caused on children by the microwave radiation at school, and the case was reassigned to U.S. District Judge, Micaela Alvarez, who refused to recuse herself despite of presiding on the same Courthouse with Chief Judge Hinojosa, with Judge Ormsby, with Judge Ramos, and with Judge Crane. Hinojosa et al, Dockets 5,7,11, Id.

To prevent that school officials inform parents of the harm and disabilities being caused on children by the wireless radiation at school; to prevent a federal evaluation of the school children suffering of EHS; and to prevent that I file another law suit without the Courts' permission, Judge Alvarez found in essence that despite Defendants' irrational cruelty towards children, and of their arbitrary and vengeful retaliation against my children and against myself, and despite Defendants fraud on the Courts to conceal the harm being caused on children by the radiation at school, the Defendants were immune from suit, abrogating decades of federal case and statutory law, and abrogating the constitutional protections of millions of parents and children. Hinojosa et al, Dockets 18,21, Id.
