

RE: Criminal Complaint, Request to Investigate, and Request for Help.

James B. Comey, Director of
The Federal Bureau of Investigations
935 Pennsylvania Ave. N.W. Washington, D.C. 20535.
Tel. (202)324-3000

I respectfully request your office to consider an FBI matter my Criminal Complaint and Request to Investigate, and my Request for Help, on the ground that federal intervention is necessary to prevent that my children and other children's Electrohypersensitivity becomes as in my case, life-threatening or worse; and on the ground that there is an ongoing retaliation against my children and against myself after I denounced how those in charge of educating and protecting our children have committed fraud on the Courts to conceal that the microwave radiation at schools is causing children Electrohypersensitivities and other severe physical harm that defeats the purpose of education, and to conceal that the switch from wired to wireless Internet was not to improve education, but for private enrichment as explained herein.

The Application for Protective Orders details the aggravation of my children's Electrohypersensitivity, EHS, by unnecessary exposures to wireless radiation, and includes my children's Declarations in which they attest under penalty of perjury that they want to be evaluated by my doctor for treatment of the pain and sickness that they feel when exposed to wireless radiation, and details the collusion of the former Texas Attorney General, and now governor of Texas, Greg Abbott with the former Commissioner of the Texas Dept. of Family and Protective Services, John Specia, and with the now Commissioner of the Texas Dept. of Family and Protective Services, Henry Hank Whitman, to prevent expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation. Posted at wirelesswatchblog.org

The Grievances against Assistant Texas Attorney General, Norma Ortiz; against counsel for the Sharyland Ind. School District, Ivan F. Perez; and against attorney Abel Hinojosa and the Complaints of Judicial Misconduct against former 92nd District Court Judge, and now Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr., and against former 92nd District Court Judge, Jaime E. Tijerina cite to evidence on the record that proves beyond reasonable doubt the collusion of Greg Abbott with school officials, with members of the judiciary and with others in falsification of government records, in perjury and fraud on the Courts, and in disability discrimination and retaliation against my children and against myself to prevent expert evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation and to conceal that the same radiation reaching children at school has caused harm to teachers, to fire fighters, to police officers and to other adults; to conceal that the radiation exposures at school are increasing by 500% the children's risk of cancer, and increasing by 450% the risk of dying to children suffering of life-threatening illnesses; to conceal that these radiation exposures are causing children Electromyosensitivities, and brain, eye, blood, and DNA damage and other severe physical harm that defeats the purpose of education; to conceal that these radiation exposures are responsible for the poor academic performance, for the increasing number of children suffering of learning and of behavioral impairments, for the thousands of visits to the school nurse, for the thousands of student and teacher absences for health reasons, for the increasing number of children collapsing in class and committing suicide, and for the increasing number of children suffering of life-threatening and of terminal illnesses; to conceal that the lowering of academic requirements and the manipulation of students' grades has been to conceal the harm being caused on our children's brains by the microwave radiation at school; to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment; to conceal that taking advantage of the pervasive corruption in this area, the Obama Administration has chosen our children to start an extremely dangerous

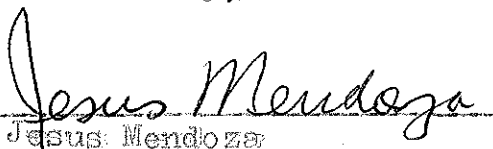

and suicidal experiment bound to cause harm ~~even to~~ generations to come; and to conceal that the future of our children and of our national security are being sold to the wireless lobby. These documents are posted on the Case Law section of wirelesswatchblog.org

The Grievance against Norma Ortiz details how the Texas Attorney General Ken Paxton, in retaliation for denouncing Greg Abbott's fraud on the Courts, to conceal the harm being caused on children by the radiation at school, is attempting to enforce by incarceration support orders on a Final Decree of Divorce that was obtained by fraud on the Court to deprive me of my right to make expert medical evaluations for treatment of the pain and sickness that my children feel when exposed to wireless radiation; knowing of my inability to comply with the fraudulent support orders; and knowing that because of my life-threatening Electrohypersensitivity, incarceration is for me a death sentence. Mr. Paxton, through an agent, has told me that even if it is criminal, he is to enforce by incarceration the fraudulent support orders. In essence, this is an attempt to silence with murder the harm being caused on my children and on other children by the radiation at school. Id.

For all these reasons, I respectfully request your office to intervene to prevent that my children and other children's Electrohypersensitivities become as in my case, life-threatening or worse, and to protect my children and myself from the retaliation for denouncing how those in charge of educating and protecting our children have committed fraud on the Courts to conceal that the radiation exposures at school are causing children severe harm, ~~defeating the purpose of education.~~

Your prompt attention to this matter can save children's lives. If more evidence is necessary, I will be happy to oblige.

Respectfully,

 8 Aug., 2016.
Jesus Mendoza
