

Re: Request to Protect Our Children.

John Cornyn
Senator of the United State of America

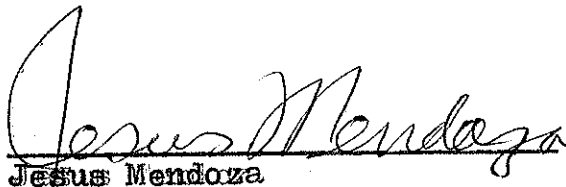

Dear Senator:

I respectfully request your office to request an Executive Order or introduce legislation to direct the U.S. Department of Education to determine the number of school children suffering of Electrohyper-sensitivities on the grounds stated on my Request to Protect Our Children to our President, Donald J. Trump attached herein.

I respectfully request your office to forward my Request to Protect Our Children and attachments to our President Donald J. Trump; to Presidential Advisers Ivanka Trump and Jared Kushner; to the Secretary of the U.S. Department of Education, Betsy DeVos, and to the U.S. Attorney General, Jeff Sessions.

Thank-you very much for your attention to this matter.

Respectfully submitted,

 9 Aug. 2017.
Jesus Mendoza

2202 E. 28th St. Mission, Texas 78574 Tel. (956)583-7012

Re: Request to Protect Our Children.

Donald J. Trump
President of the United States of America

Dear President:

I respectfully request your office an Executive Order or to introduce legislation to direct the U.S. Department of Education to determine the number of school children suffering of Electrohypersensitivities on the ground that federal and State litigation has proven beyond reasonable doubt that those in charge of educating and protecting our children have committed fraud on the Courts to conceal that school children are being exposed to power levels of radiation exceeding the federal safety limits; to conceal that the same microwave radiation reaching children at school has caused harm to teachers, to fire fighters, to police officers and to other adults; to conceal that the radiation exposures at school are causing children Electrohypersensitivities, and brain, eye, blood, nerve, heart, and DNA damage and other severe physical harm that defeats the purpose of education; to conceal that the radiation exposures at school are responsible for the poor academic performance and for the increasing number of children with brain damage and with learning and behavioral impairments, for the millions of visits to the school nurse and for the millions of student and teacher absences for health reasons, for the increasing number of children collapsing in class and committing suicide, and for

the increasing number of children suffering of life-threatening and of terminal illnesses; to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment; to conceal that the lowering of academic standards was to conceal the harm being caused on children's brains by the microwave radiation at school; to conceal that taking advantage of the pervasive corruption in this area, the Obama Administration started with our children an extremely dangerous and suicidal experiment bound to cause harm even to generations to come; and to conceal that the future of our children and of our national security are being sold to the wireless lobby as proven by specific, concrete, and undisputed evidence on the federal record and cited on the Petition to impeach and remove from office U.S. District Chief Judge Ricardo H. Hinojosa, U.S. District Judge Randy Crane, and U.S. District Judge Micaella Alvarez submitted to the U.S. House of Representatives and attached herein.

Respectfully submitted,

Jesus Mendoza

2202 E. 28th St. Mission, Texas 78574 Tel. (956)583-7012

Re: Petition to impeach and remove from office three federal Judges.

Dannell Issa, Chairman
of the U.S. House of Representatives
Sub-Committee on Courts
2138 Rayburn HOB
Washington, D.C. 20515.
Tel. (202)225-3951

Dear Congressman:

I respectfully request your office an investigation of this Petition and to initiate impeachment proceedings for removal of office of U.S. District Chief Judge Ricardo H. Hinojosa, U.S. District Judge Randy Crane, and U.S. District Judge Micaela Alvarez on the ground that federal and State litigation has proven beyond reasonable doubt their irrational cruelty towards children and their participation in falsification of government records, in disability discrimination and retaliation against children, and in fabrication of evidence, perjury and in fraud on the Courts to conceal that school children are being exposed to power levels of radiation exceeding the federal safety limits; to conceal that the same microwave radiation reaching children at school has caused harm to teachers, to fire fighters, to police officers and to other adults; to conceal that the radiation exposures at school are causing children Electrohypersensitivities, and brain, eye, blood, nerve, heart, and DNA damage and other severe physical harm that defeats the purpose of education; to conceal that the radiation exposures at school are responsible for the poor academic performance and for the increasing number of children

suffering of learning and of behavioral impairments, for the more than 1,500% of student reports of sickness - for the millions of visits to the school nurse and for the millions of student and teacher absences for health reasons, for the increasing number of children collapsing in class and committing suicide, and for the increasing number of children suffering of life-threatening and of terminal illnesses; to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment; to conceal that the lowering of academic standards was to conceal the harm being caused on children's brains by the microwave radiation at school; to conceal that the Obama Administration, taking advantage of the pervasive public corruption in this area, started with our children an extremely dangerous and suicidal experiment bound to cause harm even to generations to come; and to conceal that the future of our children and of our national security are being sold to the wireless lobby as detailed by specific, concrete, and undisputed evidence on the federal and State records and cited herein; and on the ground that removing from office the named federal Judges will be a strong deterrent to ongoing judicial corruption and to irrational and criminal cruelty against children as detailed herein.

Respectfully submitted,

Jesus Mendoza

2202 E. 28th St. Mission, Texas 78574 Tel. (956)583-7012

doubt the irrational and criminal cruelty against children.....46

ELECTROHYPERSENSITIVITY, EHS.

EHS is caused and aggravated by exposure to the same radiation reaching children at school. EHS proves conclusively that the use of wireless devices inside schools is causing children harm that defeats the purpose of education and that a massive medical malpractice is concealing the harm being caused on children by the microwave radiation at school.

I am suffering of a painful, debilitating and life-threatening EHS. Exposure to the same radiation reaching children at school, including the microwave radiation emitted by WiFi transmitters, cell phones, and wireless computers causes me among other things, swelling of vital organs; swelling of face, head and eyes; flu and allergy symptoms; rashes and loss of skin; symptoms of heart attack and of stroke; and breathing, speech, hearing, concentration and memory problems. The delayed effects of radiation exposures have been catastrophic. I have a history of life-threatening swelling of heart, and the swelling inside my skull has been so severe as to push an eye out of its socket. I cannot stay in my home, but for a few minutes at a time, and I stay in a metal room and in an underground room in the backyard. For the most part, I have been home-bound for more than 6 years. I have been violently ill several times. I am in pain all the time. At times, I struggle to breathe even with oxygen. Everyday is a different torture. My EHS has been recognized by federal and State agencies and by Courts as a physical medical condition and as a disability. (1a)

To a lower degree, my children are also suffering of EHS, and the falsification of government records, disability discrimination and retaliation, and the perjury and fraud on the Courts described herein have been to conceal that the microwave radiation at school is causing children EHS, and brain, eye, blood, nerve, heart, and DNA damage and other severe physical harm that defeats the purpose of education, to conceal that the switch from wired to wireless Internets in schools was not to improve education, but for private enrichment; to conceal that most doctors are misdiagnosing and mistreating our children with dangerous drugs, symptoms that disappear with avoiding microwave radiation; to conceal that the Obama Administration, taking advantage of the pervasive corruption in this area, started with our children an extremely dangerous and suicidal experiment bound to cause harm even to generations to come; and to conceal that the future of our children and of our national security are being sold to the wireless lobby. (1b)

Citations to more than 50 peer-reviewed scientific studies documenting the harm caused by the same microwave radiation reaching children at school are attached as Appendix 11.

Evidence on the record has proven beyond reasonable doubt irrational and criminal cruelty against children and fraud on the Courts to conceal the harm being caused on children by the microwave radiation at school.

The federal Complaint against Chief Judge Hinojosa and against others cites to evidence on the record proving the collusion of Chief Judge Hinojosa and Judge Ormsby with officials of the Sharyland Ind. School District, with Judge Crane, Greg Abbott and with others in falsification of government records, in disability discrimination and retaliation, and in perjury and fraud on the Courts to conceal the harm being caused on children by the radiation at school. The Complaint seeks recusal of Chief Judge Hinojosa and Judge Ormsby from the law suit against SUSD officials and states in part:

" Chief Judge Hinojosa and Judge Ormsby are not immune from law suit. This Complaint details their participation with named Defendants, SUSD officials and others to commit fraud on the Courts to conceal the harm being inflicted on school children by exposure to radiation to benefit the wireless lobby."

"35 This Complaint details that this judicial misconduct involves more than cash-for-favors corruption because it amounts to selling the health, minds and bodies of thousands if not millions of school children to the wireless vendor."

"36 This Complaint details malicious retaliation and cruelly irrational antagonism toward our children, exhibiting a serious mental disability which compels the Court to prevent that these triers of fact continue presiding before a Court."

"37 This Complaint seeks only prospective injunctive relief against Chief Judge Hinojosa and Judge Ormsby under 28 U.S.C. 1361 and under Bivens." Jesus Mendoza v. U.S. District Chief Judge Ricardo H. Hinojosa et al, Civil Case No. 1:14-cv-30 (S.D. TX. 2014) Docket 1, pg 16.

"This Complaint cites to specific, concrete, and undisputed evidence on the record demonstrating Judge Ormsby and Chief Judge Hinojosa's irrational cruelty towards children, towards my children and towards myself, demonstrating an irrational inability to recognize defendants fraud on the Court, demonstrating and irrational retaliation against my children and against myself and demonstrating Chief Judge Hinojosa and Judge Ormsby inability to recognize that their conduct defiles the integrity of the Court and of the judiciary, and and inability to recognize and accept that their misconduct violates the rights of children, including my children, my rights and the rights of parents similarly situated and violates the right to due process, bodily integrity, right to rear children, right of speech, right to impartial triers of fact, right to access and petition the Court, right to be free from disability discrimination and from retaliation for exercising those rights, and from conspiracies to violate those rights." Docket 1, pg 318, Id.

In response to the evidence proving their irrational and criminal cruelty against children and against the disabled, Chief Judge Hinojosa and Judge Ormsby recused themselves from the law suit against SISD officials, admitting their irrational and criminal cruelty against children and against the disabled, and admitting their collusion with others in the attempts to conceal the harm being caused on children by the radiation at school. Jesus Mendoza et al, v. Sharyland ISD et al, Civil Case No. 7:11-cv-29 (S.D. TX. 2011) Dockets 105, 106.

On April 30, of 2014, to prevent expert medical evaluations for treatment of the harm caused on my children by the radiation at school and to conceal the crimes being committed against children, the then 92nd District Court Judge, Jaime E. Tijerina defrauded his Court of a Final Decree of Divorce stating falsely among other things that I waived my right to a jury trial, and that with my signature, I gave my ex-wife the exclusive decision on my children's health and education; that I agreed to pay child and medical support minimum wage; and that I agreed to see my children only 24-hours per month. Mendoza v. Mendoza, Cause No. F-1591-11-F, 92nd District Court Hidalgo County, Texas.

On March of 2016, the Texas Attorney General, Ken Paxton filed a law suit on the 92nd District Court to enforce by incarceration the fraudulent support orders, knowing that the Final Decree of Divorce was obtained by fraud on the 92nd District Court to conceal the crimes being committed against children; knowing of my inability to comply with the fraudulent support orders; knowing that because of my life-threatening Electrohyper-sensitivity, incarceration is for me a death sentence; and knowing that this was an attempt to silence with murder Greg Abbott's fraud on the Courts to conceal the crimes being committed against children. The State of Texas v. Jesus Mendoza, Jesus Mendoza v. Ken Paxton, Cause No. F-1591-11-A 92nd District Court Hidalgo County, Texas.

After Abbott and Paxton refused to withdraw the law suit, I filed a Counter-Law suit against Paxton citing to the evidence on the record proving his collusion with Abbott, Chief Judge Hinojosa, Judge Ormsby, Judge Crane, Judge Alvarez and with others in the fraud on the Courts to conceal the crimes being committed against children. Id.

On Nov. 8, 2016, on a hearing before the 92nd District Court Judge Luis Singleterry on Paxton's Motion to enforce by incarceration the fraudulent support orders, and in which I was allowed to appear by phone, my Court appointed attorney read to the Court my doctor's letter detailing how my Electrohypersensitivity is life-threatening and stating that if I am confined inside a building or in other places where there is radiation, I am bound to suffer irreversible harm, including death. In response, Paxton counsel did not object to the admission of my doctor's letter as evidence and withdrew Paxton's Motion to enforce by incarceration the fraudulent support orders recognizing again, the legitimacy of my EHS as a physical medical condition and as a disability. Id.

Paxton defaulted on the Counter-Lawsuit admitting his collusion with Chief Judge Hinojosa, Judge Crane, Judge Alvarez, Greg Abbott and with others in the retaliatory attempts to enforce the fraudulent support orders to conceal with murder the crimes being committed against children. Id.

EHS PROVES CONCLUSIVELY THAT A MASSIVE MEDICAL MALPRACTICE IS CONCEALING THE HARM BEING CAUSED ON CHILDREN BY THE MICROWAVE RADIATION AT SCHOOL..

Despite of official recognition of EHS, and despite of more than 20,000 peer-reviewed scientific studies documenting the symptoms of EHS and of the harm caused by radiation, in most cases even outstanding and brilliant traditional doctors know nothing about the harm caused by microwaves and continue misdiagnosing and mismedicating symptoms that disappear with avoiding radiation even when treating the harm caused by radiation with dangerous drugs can be fatal, specially on children. (1c)

Some of the symptoms of EHS and of the harm caused by radiation include: Swelling of vital organs, and swelling of face, head and eyes; symptoms of heart attack and of stroke; chest pain and erratic blood pressure; symptoms of diabetes; flu and allergy symptoms; rashes, prickling, tingling, dryness and loss of skin; asthma; migraines; breathing, speech, hearing, memory, and concentration problems; nausea and dizziness; diarrhea; loss of appetite; digestive problems; pain or numbness of face, head, neck, arms, shoulders, hands, legs, feet; fatigue; tooth pain; muscle and joint pain; ringing of the ear and loss of hearing; dry, painful, and bloody eyes; inability to focus, blurred or loss of vision; learning, hyperactivity and behavioral problems; sensitivity to light or noise; and anxiety, irritability, frustration, aggressiveness, depression and suicidal tendencies. More severe reactions include nose and ear bleeding, internal bleeding; panic attacks, paralysis, seizures and unconsciousness. (1d)

The American Academy of Environmental Medicine has trained doctors to recognize symptoms that disappear with avoiding microwave radiation. (1e)

On April of 2014, Dafna Tachover, an Israeli attorney who is severely disabled by EHS, submitted to the Israeli Supreme Court a motion with affidavits and reports from over 100 children suffering of EHS and their parents. On July of 2014, the Israeli Supreme Court ordered the Israeli government to determine the number of Israeli children suffering from EHS after a government official admitted publicly that EHS is caused by radiation. Professor Stillian Gelberg, who heads the radiation Dept. in the Ministry of Environmental Protection admitted on a public hearing that EHS is caused by radiation. (2)

"Professor Gelberg has personally met with Gro Harlem Brundtland, the electrical sensitive former Director-General of the World Health Organization, and he has spoken about that meeting publicly. Dr. Brundtland 'twisted with pain' every time he came near her with a cell phone in his pocket, he said, even though she did not know he was carrying it." (3)

"Students in Canadian schools with Wi-Fi are now complaining of heart palpitations and feelings of weakness and fatigue in the classroom."

"Several students in one school board in Ontario have experienced sudden cardiac arrest, which is becoming increasingly common but poorly known outside of a narrow scientific community." (4)

"Teachers who complain of feeling ill in the classroom with Wi-Fi routers are often silenced. Many fear losing their jobs and are afraid to speak out. They suffer in silence until they are no longer able to tolerate the exposure and then go on temporary or permanent sick leave, which can become a significant expense to the school district." (5)

The Los Angeles School District has provided disability accommodations to teachers and students that became EHS by exposure to the microwave radiation at school. (6)

"The son cannot watch TV or use a computer since it makes him feel sick. Nor can he spend extended periods of time in an urban environment or with friends. He is a 9-year old and has a tough life ahead of him as electro-hypersensitive. The father received a severe radiation injury due to frequent use of cellular phones." (7)

"Being so severely electro-hypersensitive is like being a hermit in an infernal hell." (8)

Because of his severe EHS, Per Segerback has to live away from his family to avoid aggravation of his health condition. Segerback, once an elite telecommunications engineer worked with a group of 20 people designing advanced cell phone circuitry. All but two members of his group reported symptoms of EHS, but his symptoms were by far the most severe. Segerback was instrumental in creating policy to address EHS in Sweden. (9)

" 'Guys like me were so far ahead of society,' he says. We didn't know medicine. We didn't think what we were developing could harm anyone. It's hard to admit we've been wrong for so long.' " (10)

"Swedish EHS sufferers-- about 3 percent of the population, or some 250,000 people, according to government statistics--are entitled to similar rights and social services as those given to people who are blind or deaf. Today, local governments will pay to have the home of someone diagnosed with EHS electronically 'sanitized,' if necessary, through the installation of metal shielding." (11)

Peter Sullivan, who owes his fortune to wireless devices has found that they are dangerous. Sullivan worked as a software designer until he became severely Electrohypersensitive.

"I thought that anybody that talked about the health effects of EMF's was a complete idiot. I thought that they just were not science-y," Sullivan recalls. But then he got sick."

After his brilliant Stanford doctors failed to find what was wrong with him, Mr. Sullivan gave about \$1 million to researchers that the wireless lobby won't touch. They include retired Washington State University professor, Martin Pall, who has proposed a biological mechanism for EHS, and a Harvard neurology professor Martha Herbert, who has found links between exposure to radiation and brain damage on children. (12)

Alison Main, a Notre Dame alumna, the editor-in-chief of the 2000i Dome, who graduated summa cum laude and Phi Beta Kappa with an astounding network of friends and loved ones, and who became severely Electrohypersensitive stated:

"That was my life until a few years ago. And now, I am a EMF Refugee."

"In living my very dystopian novel, I've discovered a hidden network of EHS comrades around the globe. Former designers, lawyers, bankers, pilots, teachers, students: brilliant, accomplished, hard-working, highly educated individuals of all ages who have been forced to leave their career, school, home, family, friends and community, their financial worth, their entire reality, to go off the grid in order to heal. To seek peace within their bodies, to make the pain stop, to be able to breathe again, think again, sleep again, exist again." (13)

It is estimated that San Francisco may have more than 260,000 people with symptoms of EHS, and that Israel may have more than 800,000 people with EHS. (14)

The US Access Board and the Social Security Administration have recognized EHS as a physical medical condition and as a disability. (15)

The World Health Organization has classified ELF and microwave radiation, the same types of radiation reaching children at school, on the same category as lead, mercury, and DDT. (16)

Haifa, one of the largest cities in Israel has removed Wi-Fi from schools. (17)

On the year 2015, more than 50 scientists met in Paris to denounce that EHS is an emerging serious health problem specially for children. (18)

In France is illegal to expose children to microwave radiation in day-care centers and in other public places. (19)

Sweden, France, Germany and Cyprus and some US schools have banned or restricted the use of Wi-Fi in schools. (20)

The Maryland State Advisory Council has recommended reducing the use of Wi-Fi in schools. (21)

In Michigan, Massachusetts and Maine is a crime to intentionally cause harm by exposure to radiation. (22)

Law suits have been won in the US and in Europe for harm caused on people and on animals by exposure to radiation. (23)

A Texas Court found malicious attempts to chronically expose children to just one type of radiation of the several types reaching children at school. (24)

More than 100 organizations have banned or restricted the use of microwave devices. (25)

The American Academy of Pediatrics representing more than 60,000 doctors has warned Congress of the harm that can be caused on children by exposure to microwave radiation. (26)

More than 200 scientists have signed a Petition to the United Nations and to the World Health Organization requesting to warn the public of the harm that can be caused by microwave radiation on children and on pregnant women and requesting to train doctors to recognize the symptoms of EHS. (27)

More than 3,000 doctors have signed a document denouncing how the wireless lobby is concealing the harm being caused by microwave radiation on children, the sick and the elderly. (28)

"Smart Meters" emit high power levels of microwave radiation and of Dirty Electricity. The power company placed in schools thousands of these meters, and then quietly removed these meters from some communities after thousands of people reacted with symptoms of EHS. (29)

Joel Moskowitz, the Director of the Center for Family and Community Health at the University of California-Berkeley has denounced how the wireless industry has used its financial clout to suppress essential health research. " 'This is very much like tobacco back in the 1950s,' he concurs." " 'The industry has co-opted many researchers and has stopped funding many people who were finding evidence of harm.' " (30)

According to experts, the unrestricted use of microwave devices is responsible for the increased rate of illness and mortality. (31)

According to experts, the unrestricted use of microwave devices by children is bound to cause more harm than the harm caused by tobacco on adults, and implore not to expose children to wireless devices at school warning that this is an extremely dangerous and suicidal experiment bound to cause harm even to generations to come. (32)

Because of the harm being caused by the use of microwave devices, insurance companies are not covering the harm caused by wireless devices, and wireless corporations are warning investors that they do not have the means to cover potential massive liability of government investigations and law suits on claims of deception to conceal the harm caused by wireless devices. What the Telecom Industry Doesn't Tell You ... But Does Tell It's Investors, the Environmental Health Trust.

Google makes school officials to sign a waiver of liability for any harm caused by the use in classrooms of the wireless Google Virtual Reality.. Id.

In my family, we have several children born with brain damage. The common thing in these children is that their mothers were users of cell phones while pregnant. Experts are warning that the number of children has increased from 1 in 10,000 to 1 in 50; and that if we continue exposing children and pregnant women to microwave radiation, in a few years we may have no child left without brain damage, and that by the time parents become fully aware of this hazard we are bound to lose many children. Kerry Crofton PhD, A Wellness Guide for the Digital Age, pgs 14,15,39,58, (2014) See the fetal harm caused by microwave radiation, pgs 9,27,39,41, 42,137,275, Id; See Pages 18, 19 and Notes.

THE EVIDENCE PROVING THE CRIMINAL ATTEMPTS TO CONCEAL THE HARM BEING
CAUSED ON CHILDREN BY THE MICROWAVE RADIATION AT SCHOOL.

Below the undisputed evidence on the federal record proving beyond reasonable doubt the criminal attempts to conceal that school children are being exposed to 3 types of radiation,, each at occupational power levels and to levels exceeding the federal safety limits; proving that these exposures are depleting the childrens ability to tolerate employment exposures before these exposures start; proving that the same microwave radiation reaching children at school has caused harm to teachers, to fire fighters, to police officers and to other adults; proving that the radiation at school is causing children EHS, and brain, eye, blood, nerve, heart and DNA damage and other severe physical harm that defeats the purpose of education; and proving that the radiation at school is responsible for the more than 1000% of student sickness reports, for the poor academic performance, for the increasing number of children suffering of learning and of behavioral impairments, for the millions of visits to the school nurse, for the millions of student and teacher absences for health reasons, for the increasing number of children collapsing in class and committing suicide, and for the increasing number of children suffering of life-threatening and of terminal illnesses.

The operation of power lines, electric transformers and motors, Wi-Fi transmitters, walkie-talkies, cell phones, wireless computers and fluorescent lights in close proximity to student seating areas is exposing children to occupational power levels of Dirty Electricity, of ULF/ELF radiation, and of microwave radiation, and to power levels of radiation exceeding the federal safety limits. (34)

Exposure to occupational power levels or to power levels of radiation exceeding the federal safety limits causes harm even to adults. (35)

Scientific evidence has proven beyond reasonable doubt that the radiation reaching children at school causes severe physical harm even to adults. (36)

The cell phones and wireless computers used by students and teachers at school emit power levels of microwave radiation exceeding the federal safety limits. (37)

The walkie-talkies used inside school emit power levels of microwave radiation exceeding the federal safety limits. (38)

Exposure to the schools' Dirty Electricity is increasing 7-fold the teachers' risk of cancer, and amounts to exposing children to ionizing radiation. (39)

Exposure to the same microwave radiation reaching children at school has caused fire fighters symptoms of EHS and of other severe physical harm. (40)

The microwave radiation reaching children at school has caused severe physical harm to police officers. (41)

The operation of wireless devices inside schools is exposing children to more than 250,000 micro Watts per square meter of microwave radiation, and exposure to power levels below these levels causes EHS, and brain, eye, blood, nerve, heart, and DNA damage even to adults. (42)

Exposure to 1,000-5,000 micro Watts per square meter of microwave radiation causes brain damage even to adults. (43)

Addiction to the Internet causes atrophy and shrinkage of the brain on Children.

"It strikes me as a terrible shame that our society requires photos of brains shrinking in order to take seriously the common sense assumption that long hours in front of screens is not good for our children's health."

Dr. Aric Sigman, Fellow of the Royal Society of Medicine.
Cindy Russell MD, WiFi and the internet create shallow minds, Aug. 27, 2015.

Exposure to cell phone radiation is increasing by 500% the children's risk of brain cancer. Section I of the Bioinitiative Report (2012) pgs 4,5; Docket 97, Exh. 9, Sharyland ISD et al, Id.

Exposure to 2,000-8,000 micro Watts per square meter of microwave radiation decreases the chances of survival to children suffering of life-threatening illnesses. (44)

Exposure to power levels of ELF radiation below the power levels reaching children at school increases by 500% the children's risk of cancer and increases by 450% the risk of dying to children suffering of life-threatening illnesses. (45)

Addiction to cell phones increases by more than 156% the children's risk of suicide and can cause the same behavioral problems caused by the use of drugs.

Carleig Cooper, Cell Phones and the Dark Deception (2009) pg 97;
Lyn McLean, The Force (2009), pgs 55,66,67; Katie Singer, An Electronic Silent Spring (2014) pgs 106,108,124,184.

Exposure to 5,000 micro Watts per square meter of microwave radiation increases by more than 50% the risk on schoolgirls of suffering stillbirths, fetal abnormalities, or genetically damaged children. (49)

The harm caused by microwave radiation has a synergistic effect with the harm caused by toxics on the children's blood stream. (50)

It is estimated that exposing a child to 6 hours of microwave radiation at school amounts to placing the child 1-2 minutes a day inside a microwave oven. (51)

It is estimated that a child exposed to microwave radiation 6 hours a day, 5 days a week, until the child reaches college, the child is going to be exposed to 12,960 hours of highly-pulsed brain, body, and wall penetrating microwave radiation. (52)

The same brain, body and wall penetrating microwave radiation reaching children at school has been used by the military as a weapon to cause harm to the enemy's vital organs. (53)

"The WiFi systems in schools are typically hundreds of times more powerful than the home consumer systems you may be familiar with. They are also dozens of times more powerful than the cafe and restaurant systems you may have been exposed to. The WiFi systems in schools are necessarily more powerful than any microwave communication systems in any other setting because they are required to run hundreds of computers simultaneously. They are also exposing children - the most vulnerable to microwave radiation - to extended periods all day, for their entire childhood."

Letter of the American Academy of Environmental Medicine to the Los Angeles Unified School District dated March 19, 2013; Docket 97, Exh. 6.8, Sharyland ISD et al, Id. (54)

The evidence proving that the radiation exposures at school are causing student sickness reports to be more than 1000% per year.

My children's elementary school, John H. Shary, is like most schools, a low ceiling school where the sources of radiation are in close proximity to student seating areas. At Shary Elementary, within 5 months, and out of 694 students, 1,850 students went to the school nurse. During the same period, at Harry Shimotsu Elementary, a new high-ceiling school, where in most cases, the sources of radiation are not in close proximity to student seating areas, out of 677 students, 657 students went to the school nurse. At Shary Elementary, within 6 months, and out of 2,771 student absences, 1,748 students were absent for health reasons. The estimated number of student sickness reports on a school year at Shary Elementary is more than 1000%. SUSD officials refused to disclose the number of student absences for health reasons at Shimotsu Elementary.

(55)

With the exception of Shimotsu Elementary, the rest of the elementary schools at Sharyland ISD are low ceiling with the sources of radiation in close proximity to student seating areas. At Sharyland ISD, within 5 months and out of 9,473 students, 39,392 students went to the school nurse. During the same period and out of 38,912 student absences, 21,145 students were absent for health reasons. The estimated number of students reporting sickness on a school year at SUSD is more than 1500%. (56)

At Sharyland ISD,, within 8 months and out of 9,706 employee absences, 3,245 absences were for health reasons. During 3 years,, the rate of teachers reporting sickness at SISD was 29-39%. (57)

At Sharyland ISD,, many former and current students are suffering of life threatening and of terminal illnesses. (58)

SISD officials inflate scores to pass failing students to conceal the harm being caused on childrens brains by the microwave radiation at school. (59)

SISD officials to conceal the harm being caused on children by the radiation at school,, refused to disclose the complete number of students and teachers reporting sickness; the students' real-unaltered grades; and the number of children suffering disabilities and life-threatening and terminal illnesses. (60)

MOST TRADITIONAL DOCTORS ARE CLUELESS ABOUT:

The dramatic increase of children suffering of brain damage and of learning and of behavioral impairments. (61)

The dramatic increase in student absenteeism. (62)

The dramatic increase of children collapsing in class. (63)

The dramatic increase of children committing suicide. (64)

The dramatic increase of children dying of pain-killer overdose. (65)

The dramatic increase of children born with life-threatening and with severe disabilities. (66a)

The dramatic increase of children suffering of life-threatening and of terminal illnesses. (66b)

The dramatic increase of children suffering of Electrohyper-sensitivities. (66c)

THE EVIDENCE PROVING BEYOND REASONABLE DOUBT CHIEF JUDGE HINOJOSA, JUDGE CRANE, AND JUDGE ALVAREZ IRRATIONAL AND CRIMINAL CRUELTY AGAINST CHILDREN AND THEIR FRAUD ON THE COURTS TO CONCEAL THE HARM BEING CAUSED ON CHILDREN BY THE MICROWAVE RADIATION AT SCHOOL.

I filed Pro-se a law suit in federal Court in McAllen, Texas after officials of the Sharyland Ind. School District refused to follow the doctors orders to seat my children not in close proximity to sources of radiation in retaliation for denouncing their falsification of records and other attempts to conceal that they are exposing children to power levels of radiation exceeding the federal safety limits and to the same microwave radiation that has caused harm to teachers, to fire fighters, to police officers and to other adults to conceal that the radiation at school is causing children EHS, and brain, eye, blood, nerve, heart, and DNA damage and other severe physical harm that defeats the purpose of education. (67)

The case was assigned to Chief Judge Hinojosa and to U.S. Magistrate Judge Peter Ormsby who in turn refused to recuse themselves despite of undisputed evidence on the federal record proving their collusion with Judge Crane, Greg Abbott, the Commissioner of the Social Security and with others in falsification of government records, in fabrication of testimony and of medical evidence, and in disability discrimination and retaliation to conceal the harm caused on my children and on myself by exposure to radiation to deny my application for disability benefits; and to deny a doctor recommended shielding room for rehabilitation of my EHS. (68)

ON a hearing before Judge Ormsby on my Motion to compel SISD officials to follow the doctors orders in which I was allowed to appear by phone, my then wife testified falsely that my children were healthy children. During the hearing, SISD officials did not dispute the evidence proving their falsification of government records and other attempts to conceal the harm caused on children by the radiation at school; did not deny that taking advantage of my then wifes illlteracy, they persuaded her to comit perjury to the Court to conceal the harm caused on my children by the radiation at school; and did not deny their failed attempts to persuade my then wife to impeach in Court my mental stability, stating instead that they were not claiming that I was mentally insane, but that I did not have the right to represent Pro-se my children in Court. On cross-examination, my ex-wife admitted testifying in Court how my children scream in pain while asleep when there is an increase of radiation, and admitted placing on the trash, the pictures showing the swelling and bloody lines on my childrens eyes. (69)

On another hearing in which I was allowed to appear by phone, a world-class expert in radiation exposures at school, Dr. Samuel Milham testified before Judge Ormsby that my children inherited my EHS, that the swelling, black spots and bloody lines on my childrens eyes were caused by the radiation at school, and that my children needed to be transferred to another school to prevent aggnavation of their EHS. (70)

After the hearings before Judge Ormsby, SISD officials persuaded my then wife to file for divorce. To deny my Motions to protect my children and to prevent expert medical evaluations for treatment of the harm caused on my children by the radiation at school, the then 92nd District Court Judge and now Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr. refused to consider undisputed evidence on the record proving as a matter of law my ex-wife's violence against my children; proving her perjury before the federal Court and the 92nd District Court to conceal the aggravation of my children's EHS by the radiation exposures at school; and proving the collusion of my ex-wife's divorce attorney Abel Hinojosa with SISD officials in perjury and fraud on the Courts to conceal the harm being caused on children by the microwave radiation at school. (71)

To conceal the harm being caused on children by the radiation at school,, and to deny my Motions to compel SISD officials to follow the doctors' orders,, Chief Judge Hinojosa substituted the expert opinion of Dr. Millham with the testimony off my ex-wife despite of undisputed evidence on the federall record proving as a matter of law that her testimony was false. (72)

To warn me with sanctions if I pursued my claims of SISD officials' perjury and fraud on the Courts to conceal the harm being caused on children by the radiation at school and to prevent that I appealed his fraudulent rulings,, Chief Judge Hinojosa refused to consider undisputed evidence on the record proving as a matter of law: (72a)

The legitimacy of my children and of my EHS as physical medical conditions and as disabilities. (73)

That SISD officials committed falsification of records to conceal that school children are being exposed to power levels exceeding the federal safety limits; to 3 types of radiation, each at occupational levels; to the same microwave radiation that has caused harm to teachers, to fire fighters,, to police officers and to other adults; and to the same radiation that causes EHS, and brain, eye, blood, nerve, heart, and DNA damage and other severe physical harm that defeats the purpose off education. (74)

That the radiation exposures at school are responsible for the more than 1000% reports of student sickness, for the thousands of student visits to the nurse, for the thousands of students and teacher absences for health reasons, and for the increasing number of children suffering of life-threatening and of terminal illnesses. (75)

That to conceal the harm being caused on children by the radiation at school, and to conceal their disability discrimination against my children and against myself, SISD officials did not allow expert medical evaluations of the harm caused by the radiation reaching children at school; refused to disclose the location of the 50,000 - 100,000 Watts microwave antennas operated on SISD schools; and refused to disclose the complete number of students and teachers reporting sickness, and the number of children with disabilities and with life-threatening and terminal illnesses. (76)

That in retaliation for denouncing their attempts to conceal the harm being caused on children by the radiation at school, SISD officials refused to follow the doctors' orders. (77)

That to conceal the harm being caused on children by the radiation at school; to conceal their disability discrimination and retaliation against my children and against myself; and to conceal their perjury to the federal Court, SISD officials, Judge Rodriguez, and Mr. Pinojosa defrauded the 92nd District Court of orders to prevent expert evaluations of the harm caused on my children by the radiation at school. (78)

That in retaliation for denouncing in federal Court their falsification of government records to conceal the harm being caused on children by the radiation at school, SUSD officials seated my children closer to sources of radiation aggravating their health condition. (79)

And that to conceal SUSD officials' falsification of records, and their perjury and fraud on the Courts, Judge Ormsby refused to consider claims that have been proven as a matter of law by undisputed evidence and claims, including violations of my parental rights and violations of the right to be free from disability discrimination and retaliation. (80)

Other evidence proving Chief Judge Hinojosa's irrational and criminal cruelty against children includes the fact that he denied my Motions to compel SUSD officials to follow the doctors' orders and my Motion to Assign a Visiting Judge to the Case the same day that I filed the Objections to Judge Ormsby's recommendations, despite that the Objections were filed in mid-afternoon, and despite that the Objections include 54 pages of text and more than 40 pages of Exhibits that cite to more than 200 pages of undisputed evidence on the federal record proving the fraud on the Courts to conceal the harm being caused on children by radiation, and proving the collusion of Chief Judge Hinojosa with others in fraud on the Courts to conceal the harm caused on my children and on myself by radiation and to conceal a fraud of millions of dollars in federal funds. (81)

By mistake, in support of their Motion for Summary Judgment, SISD officials submitted to the Court stamped as their Exhibit my Petition to the SISD Board of Trustees for reconsideration of the denial of the Grievance which corroborates SISD officials' malicious attempts to conceal the harm being caused on children by the radiation at school. The 72-page Petition details with evidence SISD officials' falsification of government records to conceal that the radiation at school is responsible for the poor academic performance, for the more than 11,000% of student sickness reports, and for the increasing number of children suffering of life-threatening and terminal illnesses. (81a)

Emboldened by Chief Judge Hinojosa's irrational cruelty against children, Judge Ormsby allowed SISD officials to withdraw the Petition stamped as SISD Exhibit, and hung-up the phone on me on a hearing after SISD officials did not dispute the fact that the same evidence that they submitted to the Court proves their falsification of records and their perjury to the Court to conceal the disability discrimination and retaliation against my children and against myself to conceal the harm being caused on children by the radiation at school. (81b)

During the last Application to the Texas Dept. of Assistive and Rehabilitative Services for a doctor prescribed shielding room, Greg Abbott, through DARS Supervisor, Mr. Antonio Ocaña, interfered with my ability to file in federal Court my Petition stamped as SISD Exhibit. (82)

In response to another federal law suit against them and against others,, both,, Chief Judge Hinojosa and Judge Ormsby recused themselves from the case against SISD officials, admitting their irrational and criminal cruelty and antagonism against children, and admitting their collusion with SISD officials,, Judge Rodriguez,, Mr. Hinojosa,, Rick Perry,, Greg Abbott,, and with Justices of the 13th Court of Appeals in falsification of government records, in disability discrimination and retaliation against my children and against myself, and in perjury and fraud on the Courts to conceal that the microwave radiation is causing children EHS and other severe physical harm that defeats the purpose of education; to conceal that taking advantage of the pervasive public corruption in this area, the Obama Administration started with our children an extremely dangerous and suicidal experiment bound to cause harm even to generations to come; and to conceal that the future of our children and of our national security are being sold to the wireless lobby. (83)

In response to the law suit detailing Chief Judge Hinojosa and Judge Ormsby irrational and criminal cruelty against children, two federal Judges in Brownsville and one federal Judge in Laredo recused themselves and the case was re-assigned to Judge Alvarez,, who refused to recuse herself despite that she presides on the same Courthouse with Chief Judge Hinojosa,, and with Judge Ormsby,, Judge Ramos and Judge Crane. (84)

After Chief Judge Hinojosa and Judge Ormsby admitted their irrational and criminal cruelty against children, the case was re-assigned to Judge Crane who in turn refused to recuse himself despite that undisputed evidence on the federal record has proven beyond reasonable doubt his collusion with the then Texas Attorney General and now governor of Texas, Greg Abbott, in falsification of government records, in fabrication of testimony and of medical evidence, in disability discrimination and retaliation, and in fraud on his Court to conceal the harm caused by radiation and the legitimacy of EHS as a physical medical condition and as a disability, and to deny my application of a doctor prescribed shielding room for rehabilitation of my EHS. (85)

Judge Crane refused to recuse himself from the case against SISD officials despite that evidence indicates that he participated with the Obama Administration on the decision to make of the McAllen Ind. School District the first in the country to place on its schools more than 25,000 wireless devices; on the decision to compel parents to medicate the children that became sick by exposure to the microwave radiation at school; on the decision to lower the academic standards to conceal the harm being caused on children's brains by the microwave radiation at school; and on the decision to retaliate against those who denounced the injustice, and despite that Judge Crane has declared publicly his close friendship with Chief Judge Hinojosa. (86)

The law suit against SISD officials sought to compel SISD officials not to seat children on the schools' harmful radiation hot spots; to notify parents of sick children of the power levels of radiation reaching children at school; to make an assessment of the harm being caused on children by the radiation at school; to disclose the students' real, unaltered grades, and the complete number of students and teachers reporting sickness; and to produce SISD officials criminal records. (87)

To conceal the harm being caused on children by the microwave radiation at school and to dismiss the case against SISD officials, Judge Crane refused to consider undisputed evidence on the record proving beyond reasonable doubt Chief Judge Hinojosa and Judge Ormsby irrational and criminal cruelty against children and their collusions with SISD officials, Judge Rodriguez, Judge Tijerina, Mr. Hinojosa, Justices of the 13th Court of Appeals, Rick Perry, Greg Abbott and others in falsification of government records, in disability discrimination and retaliation against children, and in perjury and fraud on the Courts to conceal the crimes being committed against children. (88)

After Judge Rodriguez resigned to get elected Hidalgo County Criminal District Attorney, the then governor of Texas, Rick Perry appointed Jaime Tijerina to preside on the 92nd District Court. (89)

Judge Tijerina refused to consider undisputed evidence on the record proving the collusion of Judge Rodriguez with my ex-wife's divorce attorney, Abel Hinojosa and with SISD officials in perjury and fraud on the Courts to conceal the harm caused on children by the radiation at school, and refused to allow me to appear by phone to trial as accommodation to my disability. (90)

On April of 2014, to prevent expert medical evaluations for treatment of the harm caused on my children by the radiation at school and to conceal the crimes being committed against children, Judge Tijerina and Mr. Hinojosa forged a Final Decree of Divorce stating falsely among other things that I waived my right to jury trial, and that with my signature, I gave my ex-wife the exclusive decision on my children's health and education; that I agreed to pay child and medical support minimum wage; and that I agreed to see my children only 24-hours per month. (91)

My 1st Amended Complaint against Chief Judge Hinojosa details Judge Tijerina and Mr. Hinojosa fraud on the 92nd District Court. (92)

The federal law suit against Chief Judge Hinojosa, Judge Ormsby, Greg Abbott and others sought among other things to compel the 92nd District Court to allow me appearing by phone to Court as accommodation to my disability,, and to compel the U.S. Dept. of Education to determine the number of children suffering of EHS. To conceal the crimes being committed against children and to dismiss the case, Judge Alvarez prohibited that I filed another federal law suit without the Courts permission and found in essence that despite of the Defendants' irrational cruelty and antagonism against children and despite of their collusion in falsification of government records, in disability discrimination and retaliation against children and in perjury and fraud on the Courts to conceal the harm being caused on millions of children by the microwave radiation at school, the Defendants were immune from suit, abrogating the Americans with Disabilities Act,, the Rehabilitation Act, decades of federal statutory and case law, and the Constitutional protections of millions of parents and of their children. (93)

On March of 2016, the Texas Attorney General, Ken Paxton filed a law suit on the 92nd District Court to enforce by incarceration the support orders of the forged Final Decree of Divorce knowing that Judge Tijerina and Mr. Hinojosa forged the Final Decree of Divorce to conceal the crimes being committed against children; knowing of my inability to comply with the fraudulent support orders; knowing that because of my life-threatening Electrohypersensitivity, incarceration is for me a death sentence; and knowing that this was an attempt to silence with murder Greg Abbott's fraud on the Courts to conceal the crimes being committed against children. (94)

After Abbott and Paxton refused to withdraw the law suit, I filed a counter-law suit against Paxton citing to evidence on the record proving his collusion with Abbott and others in the attempts to silence with murder the crimes being committed against children. (95)

Paxton defaulted on the counter-law suit admitting his collusion with Abbott in the attempts to enforce the fraudulent support orders by incarceration to conceal with murder the harm being caused on millions of children by the microwave radiation at school. (96)

On Nov. 8,, 2016, on a hearing before the 92nd District Court Judge, Luis Singleterry on Paxton's Motion to enforce the fraudulent support orders with incarceration in which I was allowed to appear by phone, my Court appointed attorney read to the Court my doctor's letter detailing how my Electrohypersensitivity is life-threatening and stating that if I am confined inside a building or in other places where there is radiation, I am bound to suffer irreversible harm, including death. In response, Paxton's counsel did not object to the admission of my doctor's letter as evidence and withdrew Paxton's Motion to enforce by incarceration the fraudulent support orders recognizing the legitimacy of my EHS as a physical medical condition and as a disability. ((97))

At several times, the Commissioners of the Texas Dept. of Family and Protective Services, John Specia and Henry Whitman, through their agents, have refused to protect my children and have attempted to conceal my children's outcries for help to prevent expert medical evaluations for treatment of the harm caused on them by the radiation exposures at school, and to conceal the collusion of Greg Abbott's in fraud on the Courts to conceal the crimes being committed against children. Texas Dept. of Family and Protective Services, Cases Nos. 4301213; 43892258; and 44332190.

Undisputed evidence on the federal and State records has proven beyond reasonable doubt that former President Obama, despite of being aware of the harm being caused on children by the microwave radiation at school, initiated a program to use cell phones and wireless computers in 99% of our schools. The same evidence has proven beyond reasonable doubt the collusion of Chief Judge Hinojosa, Judge Crane, Judge Alvarez, Rick Perry, SISD officials, MISD officials, Judge Rodriguez, Judge Tijerina, Greg Abbott and others in perjury and fraud on the Courts to conceal that the microwave radiation at school is causing children EHS, and brain, eye, blood, nerve, heart, and DNA damage and other severe physical harm that defeats the purpose of education; to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment; to conceal that taking advantage of the pervasive corruption, the Obama Administration started with our children an extremely and dangerous experiment bound to cause harm even to generations to come; and to conceal that the future of our children and of our national security are being sold to the wireless lobby. (98)

Dr. George Carlo, an epidemiologist, lawyer, and chief scientist of the then largest research effort into wireless safety and Martin Schram, in their book Cell Phones, Invisible Hazards in the Wireless Age detail how FDA officials and then then top wireless lobbyist and former head of the FCC, Thomas Wheeler, committed research fraud to conceal that cell phones causes brain damage and other severe physical harm to children. (99)

"In the mid-2009, a detailed book warning of the risks of wireless technologies was sent to the US President, along with politicians and journalists. Entitled Public Health SOS, it was commissioned by the National Institute for Science, Law and Public Policy, an organization concerned with legislation to protect public health. The report outlined a range of health effects from EMR exposure and advised against the use of wireless technologies by individuals, local areas and cities." Lyn McLean, The Force, Living Safely in a World of Electromagnetic Pollution,, (2011) pg 139 (99)

While in office, President Obama recruited 100 school Superintendents to sign a pledge as part of Connected Initiative to replace students' backpacks and notebooks with cell phones and wireless computers. (100)

On Sept. 21, 2015, a federal Judge in San Francisco corroborated the fact that cell phones emit power levels of radiation above the federal safety limits. (101)

Even short doses of radiation above the federal safety limits causes harm even to adults. (102)

On Oct. 6, 2015, both, Greg Abbott and the then Secretary of the U.S. Dept. of Education, Arne Duncan appeared before hundreds of children in the Rio Grande Valley to promote the purchase and use in school cell phones and wireless computers,, equating the use of wireless devices with higher paying jobs. (103)

On Oct. 24, 2015, as part of the malicious attempts to conceal the harm being caused on children's brains by the microwave radiation at school, President Obama called for capping standardized testing at 2% of classroom time and said that government shares responsibility for turning tests into the be-all and end-all of American schools. (104)

"Learning is about so much more than just filling in the bubble," Obama said in a video released in Facebook. "So we're going to work with states, school districts, teachers, and parents to make sure we're not obsessing about testing," he said." (105)

Evidence indicates that as a reward for his fraud on the Courts to conceal the harm being caused on children by the microwave radiation at school, former President Obama is bound to be hired by the wireless lobby. (106)

To conceal the harm being caused on children by microwave radiation, at no time, Thomas Wheeler enforced the laws that prohibit exposing adults and children to power levels of radiation exceeding the federal safety limits.

ELECTROHYPERSENSITIVITY PROVES THAT THE MICROWAVES AT SCHOOL ARE CAUSING ON STUDENTS AND TEACHERS GREATER HARM THAN THE HARM CAUSED BY THE HOLOCAUST.

Marion Pritchard, who became a wartime rescuer of Jewish children described how one day while going to school she saw Nazis picking up kids by an arm or a leg or by the hair and throwing them into a truck; how two women coming down the street got so furious that they attacked the German soldiers; and how the soldiers picked the women up and threw them in the truck after the kids.

Marion Pritchard, Wartime Rescuer of Jews, Dies at 96, The New York Times, Dec. 24, 2016 at A14.

Barrie Trower, an expert in the harm caused by exposure to microwave radiation states:

"The Real Price of Intentional Ignorance and Greed. Those Consequences."

"Ten telephone calls a day would not be unusual for me. I even receive calls Christmas Day / Easter Sunday. Two calls which summarize those from women are illustrated below. Both are actual conversations.

"i. '.....my daughter had just died. I am holding her hand. She has just had her 11th birthday and she was number 11 to die since the transmitter for Wi-fi was put near her and others desk.....'"

"ii. '.....my child is one of the several with cancer / birth genetic problems. These only started after the transmitter was turned on. My worries are two-fold and take every second of my life. Will my child ever marry or find a partner and be happy? What will happen when I die? I know I will die worrying. Regardless of who is to blame, it is me, the Mother who carries the guilt and responsibility.....'" Trower, Id.

"In just two generations we could have more dead / sick infants than resulted from both World Wars. And these are not my figures, they come from Government advisors / research." Trower, Id.

"I referenced over 200 cancer / leukaemia clusters in schools (up to the time of data collection) from low level microwave transmitters in schools. There were many different types of cancers, leukaemias, miscarriages and breast cancers of staff. These continue, mostly only recorded locally, to this day." Id.

"Beyond Belief"

"The shocking truth is, not only was all of this known and documented long before wi-fi was ever put in front of children, but the dangerous biological effects were concealed (as they are to this day) from the general public, in order to protect industries profit." Id.

".....the United States Defence Intelligence Agency sent a 'document' to 'advanced nations' describing the problem and suggesting 'how to deceive the public.' " Id.

"In 2002, 36,000 Physicians and Scientists etc. signed the 'Freiburger Appeal'. Ten years hence, it has been re-launched . It specifically warns against the use of Wi-fi and the irradiation of children, adolescents and pregnant women. 'Freiburg' is an International Doctors' Appeal." "The reader will appreciate that collectively there are approximately 100,000 of the World's most knowledgeable professionals expostulating this same warning." Id.

"The Russian National Committee on Non-Ionization Radiation Protection in their research document 'Health Effects on Children and Teenagers' found;

85% increase in Central Nervous System Disorders

36% increase in epilepsy

11% increase in mental retardation

82% increase in blood immune disorders and Risk to Foetus." Id.

"In just two generations we could have more dead/sick infants than resulted from both World Wars. And these are not my figures, they come from Gover Government advisors/research." Id.

"I referenced over 200 cancer/leukaemia clusters in schools (up to the time of data collection) from low level microwave transmitters in schools. There were many different types of cancers, leukaemias, miscarriages and breast cancers of staff. These continue, mostly only recorded locally, to this day." Id.

"Beyond Belief"

"The shocking truth is, not only was all of this known and documented long before wi-fi was ever put in front of children, but the dangerous biological effects were concealed (as they are to this day) from the general public, in order to protect industries profit." Id.

".....the United States Defence Intelligence Agency sent a 'document' to 'advanced nations' describing the problem and suggesting 'how to deceive the public'." Id.

Evidence indicates the collusion of Abbott and Paxton with State and federal agencies in intimidation, extortion, bribery and retaliation to subvert the institutions in charge of educating and protecting our children; to conceal the harm being caused on children by the microwave radiation at school; to conceal that a massive medical malpractice is concealing the crimes being committed against children; and to conceal that the future of our children and of our national security are being sold to the wireless lobby..

In response to the pervasive corruption in this area, former FBI Director, James Comey formed the Public Corruption Task Force. In response to my Complaint of Violations of Civil Rights, ECTF Supervisory Special Agent, Rock Stone, without engaging the evidence proving the crimes being committed against children, claimed that in his more than 20 years of service, he never heard that radiation caused harm, and that if his supervisors sent the Complaint back to him, he was to find the same. (107)

On May 4, 2016, I submitted a Criminal Complaint and Request to Help my Children to the Director of the Texas Rangers, Steven McCraw. In Response, Mr. McCraw called me in the early hours of June 24, 2016, clearly in distress to tell me that my Criminal Complaint and Request to Help my children should be referred to local and federal authorities, including the FBI and CIA. (108)

Despite that police officer Sean De La Rosa falsified a police report to conceal my children and my EHS, the Chief of the Mission Police Dept. Robert Dominguez has refused to help and protect my children. (109)

On Sept. 2, 2016, in response to evidence proving the crimes being committed against children, Todd Bircher, Sargent of the Special Prosecutions Division in Austin, called me clearly in distress to tell me that my Criminal Complaint was not to be investigated. (110)

On Sept. 7, 2016, Ms. Tanya Oliveira, and attorney for the U.S. Dept. of Education called me to set for Sept. 12, a telephonic conference on my Complaint of Disability Discrimination and Request to Protect my Children. The next day, Ms. Oliveira called me clearly in distress to tell me that she was not to help my children unless I obtained a Court Order stating that I have the exclusive decision on my children's health and education. (111)

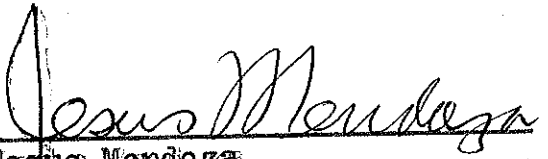

My children's doctors and eye doctors who at first were willing to help prevent that my children's EHS becomes as in my case, life-threatening or worse, have refused to produce my children's complete medical records and to refer my children to medical experts for evaluations and treatment of my children's EHS. (112)

On April of 2016, I filed on the 92nd District Court an Application for Protective Orders so my children can receive expert medical evaluations for treatment of their EHS. The Application for Protective Orders includes my children's Declaration in which they state under penalty of perjury that they want to see my doctor for the sickness that they experience when exposed to wireless radiation. 92nd District Court Judge, Luis Singleterry has not ruled on the Application for Protective Orders. (1113)

Impeachment and removal from office of the named federal Judges will be a strong deterrent to ongoing judicial irrational and criminal cruelty against children and will save the lives of millions of children.

For all these reasons, I respectfully request the U.S. House of Representatives that upon investigation of this Petition, to initiate impeachment proceedings for removal from office of Chief Judge Hinojosa, Judge Crane, and Judge Alvarez, and to refer this matter to any authority that may have jurisdiction over the crimes described herein.

Respectfully submitted,

 8 Aug. 2017.
Jesus Mendoza

DECISION

IN THE CASE OF

Jesus Mendoza
(Claimant)

CLAIM FOR

Period of Disability,
Disability Insurance Benefits, and
Supplemental Security Income

FINDINGS

After careful consideration of the entire record, the Administrative Law Judge makes the following findings:

2. The claimant has not engaged in substantial gainful activity since August 31, 2000, although he continues to engage in work activity.
3. The claimant's electromagnetic sensitivity is a severe impairment, based upon the requirements in the Regulations (20 CFR §§ 404.1521 and 416.921).

William F. Nail, Jr.
Administrative Law Judge

JOHNSON MEDICAL ASSOCIATES

Comprehensive Medicine | Traditional | Holistic | Alternative

October 28, 2016

RE: Jesus Mendoza

To Whom It May Concern:

The above patient has been under my care for many years. He is currently suffering from severe hypersensitivities to chemical fumes, odors, and a life-threatening electro-hypersensitivity. .

It is medically necessary that he be allowed to appear by phone for court. Please allow him to have phone conferencing as he is unable to tolerate the building. If this patient appears in person in court, his speech, concentration, memory, and hearing will be severely impaired. If he is confined inside a building or in other places where there is radiation, he could suffer irreversible harm including death.

Exposure to sources of radiation emitted by power lines, electric transformers and motors, computers, fluorescent lights, and wireless devices, causes Mr. Mendoza severe pain, swelling of vital organs, breathing difficulties; as well as speech, concentration, memory, and hearing deficits. Also, exposure to some chemicals, fumes, and odors can cause the same health effects as listed.

If you have any questions regarding this please, please feel free to contact my office.

Sincerely Yours,

Alfred R. Johnson, D.O.

The pictures show the facial swelling caused by exposure to the radiation emitted by the speaker of a land-line phone after a 2-hour phone hearing in federal Court in which a world-class expert in radiation exposures at school, Dr. Samuel Milham testified that my children inherited my Electrohypersensitivity; that the swelling, black spots and bloody lines on my children's eyes were caused by the radiation at school and that my children needed to be transferred to another school to prevent further aggravation of their health condition. Exhibit "A" to Docket 34, Mendoza et al, v. Sharyland ISD et al, Case No. 7:11-cv-29 (S.D. TX. 2011).

At no time during the litigation SUSD officials disputed the evidence of the legitimacy of my Electrohypersensitivity, or the evidence proving their falsification of government records, perjury and fraud on the Courts to conceal the harm being caused on children by the radiation at school. Docket 1101, Id.

OPEN LETTER TO PARENTS, TO DOCTORS, AND TO SCHOOL OFFICIALS.

Federal and State litigation has proven beyond reasonable doubt fraud on the Courts to conceal:

That the wireless devices used inside schools are exposing children to more than 250,000 uW/m² of microwave radiation; that this radiation has caused harm to teachers, to fire fighters, to police officers, and to other adults; that the radiation at school is causing children Electrohyper-sensitivites, and brain, eye, blood, and DNA damage, and other severe harm that defeats the purpose of education; that the lowering of academic requirements and the manipulation of grades are to conceal the harm being caused on our children's brains by the radiation at school; and to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment.

Below some of the undisputed evidence on the record proving the harm being caused on children by the microwave radiation at school.

uW/m²

20	<u>Altpeter 1995,1997.</u> Sleep disorders, abnormal blood pressure, weakness, fatigue, limb pain, digestive problems, fewer school children promoted.
30-200	<u>Heinrich 2010.</u> Short term exposure caused headaches, irritation, and concentration problems in school children.
30-500	<u>Thomas 2010.</u> Short term exposure caused sleep problems in school children.
50	<u>Mohler 2010.</u> Chronic exposure caused sleep problems.
50-400	<u>Thomas 2008.</u> Adults exposed to short term cell phone radiation reported increase in headaches and in concentration problems.

Jesus Mendez

OPEN LETTER TO THE JUDICIARY

Dear Judge, scientific evidence has proven that the unlimited use of wireless devices is causing children Electrohypersensitivities, and brain damage and other severe physical harm that defeats the purpose of education. Please consider the following facts during adjudication of claims of child misbehavior, since orders limiting the use of wireless devices can protect our children and can prevent recidivism.

- A) Use of cell phones is exposing children to two types of radiation, microwave and ULF/ELF radiation, each at power levels exceeding the federal safety guidelines. (1)
- B) Exposure to these power levels increases by 500% the children's risk of cancer; increases by 450% the risk of dying to children suffering of life-threatening illnesses; and can cause harm even to adults. (2)
- C) Use of wireless devices is exposing children to more than 250,000 uW/m² of microwave radiation, and exposure to 1,000-5,000 uW/m² of microwave radiation can cause brain damage even to adults. (3)
- D) The number of children with brain damage has increased from 11 in 10,000 to 1 in 50. (4)
- E) Chronic exposure to microwave radiation can cause Electrohypersensitivities, and brain, eye, blood, nerve, heart and DNA damage. (5)
- F) Addiction to wireless devices increases the risk of suicide from 53% to 156% and can cause the same problems caused by the use of drugs. (6)
- G) The unlimited use of wireless devices by children and pregnant women is bound to leave no child without brain damage, and by the time parents become aware of this hazard we are bound to lose many children. (7)
- H) Criminal Complaints have been submitted to federal and State authorities against those who are attempting to conceal the harm being caused on our children by exposure to radiation. See wirelesswatchblog.org

Consideration of these facts during your efforts to protect our children is highly appreciated. If more evidence is necessary, I will be happy to oblige.

Respectfully, Jesus Mendoza

2202 E. 28th St. Mission, Texas 78574 Tel: (956) 583-7012

EVIDENCE

- 1) On Oct. 2015, U.S. District Judge, Edward Chen corroborated the fact that cell phones emit power levels of microwave radiation exceeding the federal safety guidelines. L. Hardell and Carlberg, Mobile Phones, Cordless Phones, and the Risk of Brain Tumors, Int. Journal of Oncology 35 n 11 (July 2009): 5-17, (Cell phones emit more than 975 mG).
