

THE EVIDENCE PROVING BEYOND REASONABLE DOUBT THE IRRATIONAL AND CRIMINAL CRUELTY AGAINST CHILDREN.

1a. Some of the undisputed evidence on the federal record proving the legitimacy of my EHS as a recognized physical medical condition and as a disability and proving my childrens EHS includes:

The Physician Statement of Disability issued by the Texas Dept. of Aging and Disability Services and signed by my doctor and stating as medical diagnosis "Highly sensitive to electricity" and describing some of the major life activities and functions substantially impaired when exposed to radiation including receptive and expressive language; learning; mobility; capacity for independent living; economic self-sufficiency; and ability to work. Jesus Mendoza et al, v. Sharyland Ind. School District Case No. 7:11-cv-29 (S.D. TX. 2011), Docket 13, Exh. 1A; Docket 91, App 3-029; Docket 97, Exhs. 4.38, 5.12, 7.9

The Social Security Administration has found my electromagnetic sensitivity a severe impairment. See Excerpts of Decision, Docket 13, Exh. 3; Docket 91, App 3-031, Id.

Doctors letters explain my EHS and my chemical sensitivity and how my EHS is life-threatening. Docket 13, Exh. 4; Docket 60, Exh. A; Docket 97, Exhs. 4.40, 5.13, 7.10, A-1449, Id.

Pictures show some of the effects caused by exposure to radiation, including rashes, loss of skin, swelling of face and eyes, and how the swelling inside my skull is pushing an eye out of its socket. Docket 13, Exh. 2; Docket 91, App 3-030; Docket 97, Exhs. 4.39, 7.12, 7.15, Id.

My medical records document a history of life-threatening swelling of heart and swelling of face and eyes. Docket 97, Exhs. 7.33, 7.34, 7.36, 7.38, 7.42, 7.44, 7.45, 7.46, Id.

At several times federal and State Courts have allowed me to appear by phone to judicial proceedings. See Court Order granting my motion to appear by phone as accommodation to my EHS, Docket 13, Exh. 8; Docket 91, Apps 3-043, 3-044, Id.

1b. More than 400 pages of my childrens medical records document more than 60 visits of each child to the doctor with the same symptoms of EHS and of the harm caused by the same radiation reaching children at school. Exhibits KI, LB, and KV to the unopposed Motion for Reconsideration of Denial of my Motion to compel SISD officials to follow the doctors' orders and not expose my children unnecessarily to radiation, Docket 57, Id.

See Addendum "A" citing to more than 50 peer-reviewed dosimetry scientific studies (with power levels of exposure to microwave radiation) documenting the harm caused by the same power levels of microwave radiation reaching children at school, Attached.

See doctors' letters requesting that my children not be seated directly under the light or in close proximity to sources of radiation, Docket 13, Exh. 5; Docket 97, Exhs. 8.63, 8.66, A-1388, A-1938, Sharyland ISD et al., Id.

See pictures of the effects caused by exposure to radiation on my children's eyes, including swelling, black spots, and bloody lines, Docket 13, Exh. 6; Docket 26, Exhs. 6, 6A; Docket 97, Exh. 8.85, Id.

A world-class expert in radiation exposures at school, Dr. Samuel Milham, testified before U.S. Magistrate Judge, Peter E. Ormsby that my children inherited my EHS; that the swelling black spots and bloody lines on my children's eyes were caused by the radiation at school; and that my children needed to be transferred to another school to prevent further aggravation of their health condition. Docket 38, pgs 5,34,35; Docket 57, pgs 8, 56; Docket 81, Section 3-1, Id.

Sweden, one of the first countries to use wireless devices has more than 250,000 people diagnosed with EHS, and San Francisco may have up to 260,000 individuals (35% of the population) with symptoms of EHS. James Geary, Disconnected, Popular Science, March 2010 pg 56, Docket 97, Exh. A-1217; Docket 101, pg 37; Magda Havas PhD, San Fco. EarthLink Wi-Fi Network (2007) pg 8; Docket 91, App 4-049; Lucinda Grant, The Electrical Sensitivity Handbook, pgs 16, 19, Docket 91, Apps 3-037, 3-040, Id.

Beth Sturdivant was the first person in the US to obtain Social Security disability benefits based on her EHS. Backyard Secret Exposed, pgs 172-174 (2013).

The US Architectural Access Board has recognized EHS and Chemical Sensitivity as disabling health conditions under the ADA.

The now former General Director of the World Health Organization, Dr. Gro Harlem Brundtland has declared her EHS. Docket 91, App 3-043, Sharyland ISD et al., Id.

10. On the Analysis of Health and Environmental Effects of Proposed San Francisco Earthlink Wi-Fi Network (2007), Dr. Magda Havas details with scientific studies how the harm caused by radiation and the symptoms of EHS are the same. Docket 91 Apps 4-042 to 4-090, Sharyland ISD et al., Id.

The Bioinitiative Reports (2007, 2012), prepared by world-class scientists and based on thousands of peer-reviewed scientific studies have proven beyond reasonable doubt that the same radiation reaching children at school has caused severe physical harm even to adults. Docket 91, Apps 4-017 to 4-041; Docket 97, Exh. 9, SUSD et al., Id.

"In the last few decades, it has been established beyond any reasonable doubt that bioeffects and some adverse health effects occur at far lower levels of RF and of ELF exposure where no heating (or induced currents) occurs at all; some effects are shown to occur at several hundred thousand times below the existing public safety limits where heating is an impossibility." Section I of the Bioinitiative Report pg 6; Docket 91, App 4-022, Id.

The EMF-Portal is an extensive database with an inventory of 22,066 publications of peer-reviewed scientific studies and 5,327 summaries of individual scientific studies of the harm caused even to adults by the same radiation reaching children at school.
<http://www.emf-portal.de> The Environmental Health Trust. See note 4, below.

"At the time of writing this, the beginning of 2006, there is far more scientific evidence regarding the dangers associated with EMF exposure (at power, radio and microwave frequencies) than there is of those associated with passive smoking. So why is there such a difference in official attitudes to the need for precaution? The history of smoking can be revealing in this context."

"We repeat that, in our view, the evidence against EMF exposure and health is far more damning than for the dangers of 'passive smoking.' Ailsa and Jean Phillips, The Powerwatch Handbook (2006) pg 236; Jesus Mendoza et al., v. U.S. District Chief Judge Ricardo H. Hinojosa et al., Case No. 1:14-cv-30 (S.D. TX. 2014) Docket 1, pg 227.

Carleigh Cooper on her book Cell Phones and the Dark Deception details how after her husband was injured by microwave radiation at work, more than 30 traditional medical specialists could not find what caused his symptoms of EHS which in turn resulted in deadly consequences. Docket 1, pg 262, Hinojosa et al., Id.

Dr. Devra Davis, on her book Disconnect (2010) details how even outstanding and brilliant scientists are in the dark or in denial of the harm being caused by exposure to microwave radiation.

"Errors in diagnosis and treatment of diseases are common in physicians ignoring the principles of environmental medicine. They should be aware that various tests developed since the early 1980s 'take the guess work out of the diagnosis' of chemical and electrical and electromagnetic hypersensitivity, writes Dr. William J. Rea in a new paper published in Reviews on Environmental Health. A practicing physician for 53 years, the American allergist, immunologist and thoracic surgeon has performed such tests on more than 30,000 patients in the last 35 years at the Environmental Health Center-Dallas (EHCD) he founded and still heads in Texas." Andre Feteux, Medical pioneer writes a history of environmental hypersensitivities. (2016)

Some of the Texas Medical Board malicious attempts to conceal the ongoing massive medical malpractice includes the failed attempts to deprive Dr. Rea of his medical license. Newsletter, Docket 91, App 3-316, Sharyland ISD et al., Id.

Changes in the Complete Blood Count provides irrefutable proof of the harm being caused on children by the microwave radiation at school.

"The digital Complete Blood Count (CBC), also called a hemogram, is a quantitative (volume) and qualitative (content) analysis of the various components of the blood, specially red corpuscles, white corpuscles, platelets, etc."

"Many scientific studies corroborate these observations and link them directly with a whole range of pathologies and health problems, including some of the deficiencies that cause diverse EHS symptoms." Donna Fisher, Dirty Electricity and Electromagnetic Radiation 2011, pgs 111,112.

Parents filed a federal law suit in Boston, after school officials in their attempts to conceal the harm being caused on children by the microwave radiation at school refused to accommodate the child's EHS, despite that the child was diagnosed with EHS and was exhibiting catastrophic symptoms of EHS, and despite that other children were exhibiting similar symptoms. See Arthur Fistenberg, the Cellular Phone Task Force Newsletter Aug. 19, 2015. See Page 22 and Notes.

"We don't want to believe that our new toys to which we are so attached -- and which bring in enormous profits -- could also cause our demise or that of our children. But science is not about belief. Governments' responsibility to their citizens should not be either."

Dr. David Servant-Scheriber, MD, PhD, Clinical Professor of Psychiatry, University of Pittsburgh; Adjunct Professor of General Oncology, MD Anderson Cancer Center, University of Texas; Lecturer, School of Medicine of Lyon, France; and author of Anticancer: A New Way of Life, Foreword, to Disconnect by Debra Davis, PhD, MPH, (2010).

Dr. Samuel Milham discovered that most of the twentieth century diseases of civilization, including cancer, cardiovascular disease, diabetes, and suicide, are caused by exposure to electromagnetic radiation. Samuel Milham, MD, MPH, Dirty Electricity (2010); Jesus Mendoza v. US Chief District Judge, Ricardo H. Hinojosa et al, Case No. 1:14-cv-30 (S.D. TX, 2014) Docket 1, pg 223.

"Firstenberg makes a compelling case that the major diseases of civilization -- heart disease, diabetes, and cancer -- are in large part related to the pollution of our world by electricity." Bradley Johnson, MD Amen Clinic, San Francisco. Arthur Firstenberg, The Invisible Rainbow (2017)

At several times, during phone conversations with former teachers and with other people suffering of EHS, they have detailed how they spent months or years to realize that their health condition was aggravated by exposure to radiation.

"Some EHS doctors claim that 80% of all illnesses are associated with electromagnetic radiation. They say that headaches, inflammation, insomnia, ADD/ADHD, neurological disorders and countless other conditions are caused or exacerbated by the escalating levels of radiation in our environment. Even autism, they say, has been shown to develop in children newly exposed to Wi-Fi."

"Our environment currently has about 10 billion times more RF radiation than it did in the 60s. 'If this environment is safe', Johansson says, 'we're talking about 15,000-25,000 papers -- in peer-reviewed scientific journals -- all being wrong. That has never happened before.'"

Olga Sheean, NO SAFE PLACE, A Letter to Mayor Gregor Robertson, June 15, 2015 pgs 12,15.

"Ignorance of the science is malpractice." John Kerry.

1e. Letter of the American Academy of Environmental Medicine to the Los Angeles School District, Docket 97, Exhs. 6.8, 6.9, Sharyland ISD et al, Id.

Id. The symptoms of EHS and of the harm caused by radiation are detailed by Dr. Havas' Open Letter to Parents, Teachers, School Boards Regarding Wi-Fi Networks in Schools, Docket 57, SISD Exhibit 168, 169; Lucinda Grant, The Electrical Sensitive Handbook, pgs 14-21, Docket 91, Apps 3-035 to 3-042; Section I of the Bioinitiative Reports (2007, 2012), Docket 91, Apps 4-017 to 4-041; San Fco. EarthLink Wi-Fi Network (2007) pgs 6-21, Docket 91, Apps 4-047 to 4-062; Docket 97, Exh. 9; The American Academy of Environmental Medicine, Electromagnetic and Radiofrequency Fields Effect on Human Health, Docket 97, Exhs. 7.80 - 7.86; The Guideline of the Austrian Medical Association for the diagnosis and treatment of EMF-related health problems and illnesses (EMF syndrome), Docket 97, Exhs. 7.87 - 7.99, Id.

During the Grievance process SISD officials removed from the Grievance record Dr. Havas Open Letter and other evidence proving that they are exposing children to power levels of radiation exceeding the federal safety limits, and then during the federal litigation, by mistake, produced a copy of these evidence. The two pages of Dr. Havas Open Letter were cross-marked from top to bottom. Docket 97, Exhs. A-857, A-1831, Id.

Lyn McLean, The Force, Living Safely in a World of Electromagnetic Pollution (2011) pgs 207-222;

Ann Louise Gittleman, Zapped (2010) pgs 32, 46, 47, 103, 104, 141, 142;

Gerald Goldberg, MD, Would You Put Your Head In A Microwave Oven? (2006).

Arthur Firstenberg, The Invisible Rainbow (2017) pgs 29-42, 275-322.

"In 2003, when I worked for the World Health Organization (WHO) in Geneva, the Director General Dr Gro Harlem Brundtland resigned because cell phone radiation was making her ill. Along with countless other doctors, researchers and scientists, Brundtland has stated that 'research shows deleterious effects' from the use of cell phones and other devices emitting radiation. "This is not an innocent technology,' she says. It's an inconvenient truth that we ignore because we're so far down the rabbit hole of wireless living." Olga Sheean, NO SAFE PLACE, A Letter to Mayor Gregor Roberson, 15 June, 2015, pg 3.

"There is a reason that those with EHS go largely unheard, beyond the fact that most are too incapacitated or depleted to fight the status quo. We're the 'canaries in the coal mine' - the harbingers of what's to come - and nobody wants to be bothered by facts that would burst their electronic bubble." pg 4, Id.

"Dr. Erica Mallery - Blythe, a former A&E doctor now specializing in EHS, says these effects occur even in those not experiencing symptoms, and many of us may be electro-hypersensitive [since] every cell in our body, in our brain or nervous system is dependent on electrical signals." pg 10, Id.

"Countless other doctors (such as Dr Dietrich Klinghardt and Dr Andrew Goldsworthy) confirm that EMR affects the blood cells of all individuals, ultimately damaging their nervous systems, brains, reproductive organs and physical health." Pg 10, Id.

"As Dr Mallery - Blythe points out: 'Electromagnetic hypersensitivity is a physiological issue, not a psychological one [and] it can be seen as either a sickness or a supersense, depending on the environment of the individual, although it is essentially both.'" pg 11, Id.

2. Arthur Firstenberg, President of the Cellular Phone Task Force, News Letter, April 27, 2014; Docket 97, Exh. 1.5, Sharyland ISD et al, Id; Jesus Mendoza v. U.S. District Chief Judge, Ricardo H. Hinojosa et al, Case No. 1:14-cv-30 (S.D. TX. 2014) Docket 14, pgs 17,18.

3. Id.

4. Dr. Magda Havas' Open Letter to school officials, to teachers, parents, school custodians and to students. Docket 97, Exhs. 6.4 - 6.6, Sharyland ISD et al, Id.

5. Id.

6. Anura Lawson was the first school teacher in the U.S. to be granted accommodations to her Electrohypersensitivity. According to Ms. Lawson school officials did not allow incident reports on children who were bleeding from ears and nose. Ms. Lawson is gathering signatures on a petition to remove Wi-Fi in classrooms throughout California. LAUSD Accommodates Teacher Who Fell Ill After Wireless Installed, PRLog Oct. 10, 2014. See Note 66c at Page 78.

On a letter to Ms. Lawson, the Los Angeles Unified School District states in part:

"...the Committee approved your request to have the Wi-Fi turned off in your classroom during the 2014-2015 school year." Letter by LAUSD Disability Coordinator-Reasonable Accommodation Program, Demetrious Patrick dated Sept. 18, 2014. LAUSD is accommodating students with EHS under the ADA, SEE Note 66c below.

- Other states attempting to protect children from the harm caused by microwave radiation include Colorado, Michigan, and California.

22. In the State of Michigan a malicious exposure to radiation that directly or indirectly causes a serious impairment of a body function is a felony punished with up to life imprisonment, and a malicious exposure to radiation that directly or indirectly causes a death is a felony punished with life imprisonment without parole. House Bill 45114.

In the State of Massachusetts it is a crime simple possession of a radiation device that can be used to cause physical harm, Chapter 170 of the Acts of 2004.

A Court-ordered study in Italy found that children living near the microwave antennas operated by Vatican Radio are being exposed to harmful radiation, and according to magistrates, the report justifies the investigation of 6 officials of Vatican Radio for manslaughter. Donna Fisher, Dirty Electricity and Electromagnetic Radiation (2011) pg 74,

23. A Court in Alaska found that an electrical technician was entitled to workman's compensation for the injuries caused on him by exposure to microwave radiation at work. AT & T v. John Orchitt, Fisher, Dirty Electricity pg 94, Id.

"In the context of base-station radiation reports relating to animals are of particular value since it cannot here be claimed that the effects are psychosomatic. Of particular interest is a publication on cattle, recording severely reduced milk yields, emaciation, spontaneous abortions, and stillbirths. When cattle are removed to pastures well away from the mast, their condition improves, but deteriorates once they are brought back. The adverse effects appeared only after GSM microwave antennae were installed on a tower formerly used to transmit only non-pulsed television and radio signals." G.J. Hyland, Physics and Biology of Mobile Telephony, The Lancet Vol 356 Nov. 25, 2000 pgs 1833-1836 Note 43; Motion for Protective Order Exhs 52-54, Mendoza v. Mendoza Cause No. F-1591-11-A 92nd District Court of Hidalgo, Texas.

Dr. Martin Graham co-authored the paper "Milk Production of Dairy Herd Decreased by Transient Voltage Events" Dr. Graham, emeritus professor of electrical engineering at UC Berkeley was an expert witness for dairy farmers who were suing the manufacturers of milking machines for reduction of milking production and health problems in their cows caused by the radiation emitted by the milking machines. Samuel Milham MD, MPH, Dirty Electricity (2011), pgs 67, 68.

Italian scientists found cancer promotion on animals exposed to radiation, Microwave News, Feb. 27, 2017.

"Twenty-nine high-profile lawsuits brought by people whose brain tumors were caused by their cell phones are finally moving toward trial. Six of these cases were originally filed in 2001 and 2002. Many of the plaintiffs are no longer alive." The Cellular Task Force, Newsletter dated 8/11/14

In allowing experts to testify DC Superior Court Judge Frederick H. Weisenberg wrote in part:

"Federal law is the supreme law of the land, but there is no constitutional provision that says federal facts are the supreme facts of the land. Federal law can preempt state law, but it cannot preempt scientific fact. The scientific truth, whatever it may be, lies outside of the FCC's regulation about what is 'safe' or 'unsafe.' Id.

A Court in Spain found Minerva Palomares, a University assistant, disabled by EHS, and a French Court found Marine Richards, a journalist, also disabled by EHS. Fini Manso, About the EHS verdict in Spanish media.

24. This case also imposes on school officials a duty to monitor the power levels of radiation reaching children at school, Houston Lightning & Power v. Klein Ind. School District, 739 SW2d 508 (TX. Ct. App 1987); Docket 81, Sections 9-1, 9-2, Sharyland ISD et al., Id

25. For a list that includes more than 200 of these entities See Governments and Organizations that ban or warn against wireless compiled by the President of the EHR Policy Institute, Janet Newton (www.emrpolicy.org) and by Debra Kopald (www.wirelessrighttoknow.com); Petition to Evaluate Radiation Health Effects in Schools submitted to the Chairman of the Texas Committee on Education, Dan Patrick, and to the Chairman of the Texas House of Representatives Committee on Education, Jimmie Don Aycock, Docket 97, Exhs 425-440, Sharyland ISD et al., Id.

For a list of schools that have removed or restricted the use of Wi-Fi to protect children see Jack O'Dwyer, Schools, Unions and PTA Actions.

Teacher Unions and Parent Teacher Organizations opposing the use of microwave technologies in schools include:

United Federation of Teachers, nurses and professionals working in New York City;

New York State Teachers Union, a federation of more than 11,200 local unions;

The National Education Association;

The Canadian Teacher Federation, 200,000 elementary and secondary school teachers;

United Teachers of Los Angeles, representing 40,000 teachers and staff;

Elementary Teachers Federation of Ontario— over 76,000 teachers;

The Ontario English Catholic Teachers Association, 45,000 teachers;

The British Columbia Teachers Federation;

31.. Samuel Milham MD, MPH, discovered that most of the twentieth century diseases of civilization, including cancer,, cardiovascular diseases,, diabetes and suicide are caused by electromagnetic field exposure. Dirty Electricity (2010); Docket 1,, pg 223,, Hinojosa et al,, Id.

Dr. Milham warns that because of the recent proliferation of microwave radiation emitted by cell phones and towers,, terrestrial antennas,, Wi-Fi and Wi-Max systems,, broadband internet over power lines,, and personal electronic equipment,, we may be facing a looming epidemic of morbidity and mortality.. Id..

32.. Docket 97,, Exhs 6.11 - 6.29,, Sharyland ISD et al,, Id.

1,200 people die each day in the U.S. from smoking. US officials urge end to youth tobacco use,, the McAllen Monitor,, March 9,, 2012 at 8A; Second-hand smoke kills more than 600,000 people world wide every year. Second-hand smoke kills 603,000 yearly,, the McAllen Monitor,, Nov. 26,, 2010 at 3A.

Scientific studies have proven that the same microwave radiation reaching children at school causes severe fetal harm,, Crofton (2014) pgs 9,,27,,39,,41,,42,,137,,275,, Id..

"Abstract"

"As stated by University Researchers,, Government Scientists and International Scientific Advisors; a minimum of 57.7% of schoolgirls exposed to low-level microwave radiation (Wi-Fi) are at risk of suffering stillbirth,, foetal abn abnormalities or genetically damaged children,, when they give birth.. Any genetic damage may pass to successive generations. Barrie Trower,, Humanity At The Brink Sept. 24,, 2013,, pg 2.

34. See maps and a picture of John Shary Elementary showing how placing on the low ceiling of the school, power lines, electric transformers and motors, and Wi-Fi transmitters is exposing children to occupational power levels of ELF and of Microwave radiation and of Dirty Electricity, and to power levels exceeding the federal safety limits. Docket 6, Exhs. 8,9,10; Docket 91, App 3-324; Docket 97, Exhs. A-481, A-853, A-861, 4.116, 4.117, Id.

More than 40 mG of ELF radiation and more than 250,000 uW/m² of microwave radiation were found in seating areas at John Shary Elementary. Docket 2, pg 6; Docket 6, pg 6; Docket 32, pgs 1,2, Id.

Occupational exposures are willingly taken by workers who may use protective gear, and take precautionary measures, including regular medical check-ups. Docket 57, pg16, Id.

The occupational power levels of ELF range from 2 to 10 mG; and the occupational power levels of microwave radiation start at 1,000 uW/m². EarthLink Wi-Fi Network pg 15; the Bioinitiative Report pgs 11,12; Docket 57, Exh. SISD 00056; Docket 91, Apps 4-027, 4-028, 4-056, Id.

The operation of power lines, electric transformers and motors in close proximity to student seating areas or bad wiring can expose children to 35-850 mG. Karl Riley, Tracing EMF's in Building, Wiring and Grounding (2007); Joe Hall, The Negative Effects of Electromagnetic Fields, Consumer Health Newsletter, 12/31/1997 V. 20 n 9, pgs 1-4; The Electromagnetic Field Litigation: A Growing Issue for Real Estate and Building Concerns, Buildings, Vol. 93, n. 3, March 1999; Docket 57, pgs 20-22, Sharyland ISD et al, Id.

The federal safety limits of exposure to ELF radiation is 904 mG, and 1000 uW/cm² for microwave radiation. "The amount of allowable energy into 1 gram of brain tissue is 1.6 W/Kg in the US. For the whole body exposure, the exposure is 0.8 W/Kg averaged over 30 minutes for the general public." The Bioinitiative Report (2007), pgs 8,28; Docket 91, Apps 4-024, 4-041, Id.

SISD officials removed from the Grievance record properly calibrated measurements of ELF radiation proving that the operation of power lines, and electric transformers and motors in close proximity to student seating areas is exposing students at John Shary and at other schools with low ceiling and similar electrical configuration to power levels of ELF radiation exceeding the federal safety limits. Docket 6, pg 6; Docket 113, pgs 27,28; Docket 32, pg 6; Docket 57, pg 36, Id.

See Measurement Data Sheets and Certificate of meter calibration proving that at John Shary and at other schools with low ceiling and with similar electrical configuration, students are being exposed to 1137-11383 mG of ELF radiation. Docket 6, Exhs. 11,12,12b; Exhs. A-740, A-742, A-744, Id.

In Houston Lighting & Power Co. v. Klein Ind. School District, a Texas Court found malicious the attempts to expose school children to 6-10 mG. SISD officials removed this evidence from the Grievance record. Docket 2, pgs 6,7; Docket 113, pgs 38,39; Docket 32, pgs 1,2, Docket 57, pg 24.

35. The Bioinitiative Report (2007), a document prepared by world-class scientists and doctors and based on thousands of scientific studies of the harm caused by exposure to the same radiation reaching children at school states in part: "These exposures can create tissue heating that is well known to be harmful in even very short-term doses." pg 6.

"In the last few decades, it has been established beyond any reasonable doubt that bioeffects and some adverse health effects occur at far lower levels of RF and ELF exposure where no heating (or induced currents) occurs at all." Section I of the Bioinitiative Report (2007) pg 6; Docket 91, App 4-022, Sharyland ISD et al, Id.

SISD officials attempted to remove this evidence from the Grievance record. Docket 13, pg 32; Petition for Reconsideration of Denial of Grievance submitted to SISD Board of Trustees, Docket 32, pg 5; Docket 97, Exhibit 8.25, Id.

The Analysis of Health and Environmental Effects of Proposed San Fco. EarthLink Wi-Fi Network by Magda Havas PhD, and Section I of the Bioinitiative Report (2012) cites to more than 100 peer-reviewed dosimetric studies (with power levels of radiation) documenting the harm caused by the same power levels of microwave radiation reaching children at school. Docket 13, pgs 24-27; Docket 32, Exh. 20; Unopposed Motion for Reconsideration of Denial of Motion to compel SISD officials to follow the doctors' orders not to seat my children in close proximity to sources of radiation, SISD Exhibits 00048-00060; and Exhibits A-11 to A-5, Docket 57; Docket 91, Apps 4-042-4-064; Id. Docket 97, Exhibit 9, Id.

More than 25,000 scientific studies prove beyond reasonable doubt that the microwave radiation reaching children at school is causing children EHS and other severe physical harm that defeats the purpose of education.

"Please be aware that the very voluminous scientific literature, now approaching 25,000 studies, concludes that pulse-modulated radiofrequency/microwave (RF/MW) radiation is hazardous at duration and exposure levels now commonly encountered in public buildings and homes."

"This figure is extrapolated from the 20,000 studies relevant to human adverse effects reviewed in 1990-1991 by ASTM-IEEE Committee that set US federal guidelines for respectively 6 and 30 minutes' human exposure. Committee Chair and Physicist John Osepchuk PhD consistently reports that his group reviewed approximately 20,000 such studies at that time." Susan Clarke, consultant and lecturer on the hazards of electromagnetic radiation.

36. "These exposures can create tissue heating that is well known to be harmful in even very short-term doses." Section I of the Biodemographic Report (2007) pg 6; Docket 91, App 4-022, Sharyland ISD et al., Id.

At no time during the federal litigation SISD officials disputed the evidence proving that they attempted to remove this evidence from the Grievance record to conceal the harm being caused on children by the radiation at school. Docket 13, pg 32; Docket 32, pg 5; Docket 97, Exh. 8.25. See unopposed Motion for Reconsideration of denial of my Motion to follow the doctors' orders not to expose my children unnecessarily to radiation, Docket 57, pgs 45-47, Id.

37. Thanks to the litigation efforts of Ellen Marks, the Director of the California Brain Tumor Association, on Sept. 2015, a federal Judge in San Francisco corroborated the fact that cell phones emit power levels of radiation exceeding the federal safety limits. Bay City News, Sept. 22, 2015.

The federal safety limits of exposure to microwave radiation is 1,000 uW/cm² and 904 mG to ELF radiation. For microwave radiation "The amount of allowable energy into 1 gram of brain tissue is 1.6 W/kg in the US. For the whole body exposure, the exposure is 0.8 W/Kg averaged over 30 minutes for the general public." The Biodemographic Report (2007) pgs 8,28; Docket 91 Apps 4-024, 4-041, Id.

Cell phones can emit up to 975 mG. L. Hardell and Carlberg, Mobile Phones, Cordless Phones and the Risk for Brain Tumors, International Journal of Oncology 35, n 1 (July 2009): 5-17; Docket 57, pgs 16,58, Id.

See the power levels of microwave radiation emitted by cell phones in Watts per Kilogram (W/Kg). Docket 91, Apps 3-341 to 3-345, Id.

The federal safety limits of radiation exposure in the US apply only to healthy strong adults.

Dr. Gerald Goldberg, an expert in the harm caused by radiation and author of the book "Would You Put Your Head In a Microwave Oven?" warns that exposure to the highly pulsed radiation emitted by cell phones could have a powerful effects on children's nervous system and could be shutting down on children, multiple body systems. Docket 91, App 3-061, Sharyland ISD et al., Id.

38. The Safety Training Manual of the walkie-talkies used inside schools describes how these devices can emit power levels of microwave radiation exceeding the federal safety limits and explains why these devices should not be used in proximity to children. Docket 6, Exh. 13; Docket 97, Exh. 8.78, A-746, Sharyland ISD et al., Id.

At no time SISD officials disputed evidence or denied claims proving that they removed this evidence from the Grievance record to conceal the harm being caused on children by the radiation at school. Docket 6, pg 4; Docket 13, pg 28; Docket 32, pg 6; Docket 57, pgs 40, 41, 46, 47; Docket 97, Exh. 8.26, Id.

39. Dirty Electricity includes the radiation created by the operation of transformers, fluorescent lights and "Smart Meters" and the microwave radiation absorbed by power lines and dumped into classrooms to create hazardous "hot spots" of radiation on student and teacher seating areas. Docket 13, pgs 14, 15; Docket 26, pgs 2, 3; Docket 32, pg 13; EarthLink pg 19; Docket 91 App 4-060, Id.

"Teachers who never taught in these 'dirty' rooms had a 1.8-fold risk of cancer while those who taught in these rooms had a 5.1-fold risk of cancer, and those who taught in these rooms and had been employed at this school for more than 10 years had a 7.1-fold risk of cancer." EarthLink pg 19; Docket 91, App 4-060, Id

On his book, Dirty Electricity, Dr. Milham describes school officials attempts to conceal the harm being caused on students and teachers by exposure to Dirty Electricity at school under the excuse of national security. Chapter 8, Id.

"A number of very different types of cancer had elevated risk in the La Quinta school study, in the California school employees study, and in other teacher studies. The only other carcinogenic that acts like that is ionizing radiation." pg 68, Id.

40. Docket 13, pg 31; EarthLink pg 16, Docket 91, App 4-057.

The Brief of the International Association of Fire Fighters to the U.S. Supreme Court describes how exposure to the same microwave radiation reaching children at school and the microwave radiation emitted by the several 50,000-100,000 Watts transmitters operated on SISD schools caused fire fighters symptoms of EHS and of other severe physical harm. Case No. 04-1515.

EarthLink pg 16; Docket 57, SISD Exhibits 465-470; Docket 91, Apps 3-335 to 3-340, 4-057, Sharyland ISD et al, Id.

At no time SISD officials during the federal litigation disputed evidence or denied claims that they attempted to remove this evidence from the Grievance record and refused to disclose the location of the microwave transmitters to conceal the harm being caused on children by the radiation at school. Docket 13, pgs 26,27,31; Docket 32, pgs 4,5; Docket 57, pgs 33,46, Id.

41. Out of 55 police officers that were exposed to the same microwave radiation emitted by wireless laptops, 53 officers suffered of test testicular cancer. At no time SISD officials disputed evidence or denied claims that they removed this evidence from the Grievance record to conceal the harm being caused on children by the radiation at school. Docket 13, pgs 38,39; Docket 32, pg 2; Docket 57, pg 38, Id.

By the time police officers sought Congressional funding for the study of the harm caused by their radar guns, the number of police officers with testicular cancer had increased to 168. The wireless lobby derailed the funding for the study. Docket 91, App3-332, Id.

A study has proven that in only 4 hours of exposure to the microwave radiation emitted by a wireless laptop caused DNA damage to human sperm. Letter of the American Academy of Environmental Medicine to Los Angeles Unified School District, pg 1; Docket 97, Exh. 6.8; The Bioinitiative Report (2012), Exh. 9, Docket 97, Id.

42.. According to experts, the indoor operation of Wi-Fi transmitters, cell phones, and wireless computers exposes users and non-users to more than 250,000 uW/m² (25,000 nW/cm²) of microwave radiation. Letter of Dr. Hans-Christoph Scheiner and six medical doctors in behalf of the German Environmental Initiative to airline executives, Kerry Crofton, PhD Radiation Rescue (2009), pgs 385-390; Docket 32, pg 11, Exh. 3; Docket 97, Exhs. 8.21, 8.45, 8.46, 8.47, Id.

SISD officials removed this evidence from the Grievance record, Id.

The Analysis of Health and Environmental Effects of Proposed San Francisco EarthLink Wi-Fi Network by Magda Havas, PhD describes how the operation of a wireless computer can expose the user to 350,000-410,000 uW/m² (35-41 uW/cm²) of microwave radiation. EarthLink pgs 7, 14; Docket 91, Apps 4-048, 4-055, Id.

Dr. Havas cites to more than 50 peer-reviewed dosimetric studies (with power levels of exposure) documenting that exposure to the same power levels of microwave radiation reaching children at school can cause EHS, and brain, eye, blood, nerve, and DNA damage even to adults. EarthLink pgs 6-15; Docket 91, Apps 4-047 - 4-056, Id.

SISD officials attempted to remove this evidence from the Grievance record. Docket 113, pgs 26,27; Docket 32, pgs 4,5; Docket 57, pg 33; Docket 97, Exhs. 8.24, 8.25, Id.

The Bioinitiative Report (2012) adds to the thousands of scientific studies more than 1,800 studies firmly establishing the evidence of the harm caused by exposure to the same radiation reaching children at school, including studies documenting brain, cardio vascular, nerve, sperm and DNA damage, and includes a study documenting that cell phone radiation increases by 500% the children's risk of brain tumors, Lennart Hardell et al, and studies corroborating the legitimacy of EHS, Lyskov et al, 1995; lyskov et al, 1998; Sandstrom et al, 1994; Sandstrom et al, 1995; Sandstrom et al, 1997; Sandstrom et al, 2003.

Section I of the Bioinitiative Report (2012), Docket 97, Exh.9, Id.

Section I of the Bioinitiative Report (2012) cites to more than 100 peer-reviewed dosimetric studies (with power levels of exposure) of the harm caused by the same power levels of microwave radiation reaching children at school, including brain, eye, blood, nerve, cardiovascular and DNA damage. Id.

"As stated by University Researchers, Government Scientists and International Scientific Advisors; a minimum of 57.7% of schoolgirls exposed to low-level microwave radiation (Wi-fi) are at risk of suffering stillbirth, foetal abnormalities or genetically damaged children, when they give birth. Any genetic damage may pass to successive generations. Trower, pgs 2-4, Id.

43. "This was significantly found and described by Alberts 1997, Oscar and Hawkins 1997, Neilly and Lin 1986, Salford, Brun, Persson 1994, 1997, 2003, Aubineau and Toere 2002, 2003 Schirmacher 1999, 2000 and many others." Letter of Dr. Hans-Christoph Scheiner and six medical doctors in behalf of the German Environmental Initiative to airline executives, Docket 32, pg 1, Exh. 3; Docket 97, Exhs. 8.21, 8.46, Id.

SISD officials removed this evidence from the Grievance record, Id.

44. Hoking, 1996, 2000; Petition to Texas Senator Dan Patrick and to Texas Representative Jimmie Don Aycock to evaluate the health effects caused on children by the radiation at school. Docket 97, Exhs 4.25, 4.33, Id.

Undisputed evidence on the federal record indicates that Patrick, Aycock, the former governor of Texas, Rick Perry, the former Texas Attorney General and now governor of Texas Greg Abbott, officials of the McAllen Ind. School District, and the Obama Administration were the architects of legislation to lower the academic standards in the State of Texas to conceal the harm caused on children's brains by the microwave radiation at school; to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment; and to conceal that the Obama Administration was selling the future of our children and of our national security to the wireless lobby. Docket 1, pgs 222-291, Jesus Mendoza v. U.S. Chief Judge Ricardo H. Hinojosa et al, Case No. 1:14-cv-30 (S.D. TX. 2014).

45. Two studies are powerful evidence proving that exposure to power levels of ELF radiation below the levels reaching children at school is causing children harm that defeats the purpose of education.

Children recovering in ELF environments between 11 and 2 mG have a 280% increased risk of dying;

Children recovering in ELF environments of 2 mG and above have a 300% increased risk of dying;

Children recovering in ELF environments of 3 mG and above have a 450% increased risk of dying.

Folliant DE Pollock BH Mezei G Iriye R Silva JM Epi KL Kheifets L Lind MP Kavet R. 2006. Magnetic field exposure and long-term survival among children with leukemia, British Journal of Cancer 94 1161-1164;

Svendson AL Weinkopf T Kaatsch P Schuz J. 2007. Exposure to magnetic fields and survival after diagnosis of childhood leukemia: a German cohort study. Cancer Epidemiol Biomarkers Prev 16(6) 1167-1171.

Section I of the Bioinitiative Report (2007) pgs 8, 9, Docket 91, Apps 4-024, 4-025, Sharyland ISD et al, Id.

SISD officials removed these studies from the Grievance record, Docket 32, pg 15, Appendix 10c; Docket 97, Exhs. 8.35, 8.74, Id

Use of cell phones increases by 500% the children's risk of cancer, Section I of the Bioinitiative Report (2012) pg 4, 5; Docket 97, Exh. 9, Id

49. Barrie Thower, Humanity at the Brink, Sept. 24, 2013 pg 2.

50. At school, children are being exposed to more than 250,000 uW/m² of microwave radiation. Docket 81, Section 4-4, Sharyland ISD et al, Id

SISD attempted to remove this evidence from the Grievance record. Docket 81, Section 12.4, Id.

Exposure to 1,000-5,000 uW/m² of microwave radiation breaks the blood-brain barrier allowing toxics in the blood stream like mercury, lead, pesticides, medication, etc to enter the brain. SISD officials removed this evidence from the Grievance record. Docket 32, Pg 1; Docket 81, Sections 5-1 to 5-4; Section 12-1, Id.

Mercury is the most toxic heavy metal in the world. Crofton, ph 286.

The EPA "Action Level" on lead in water is 15 parts per billion.

"When the school's water was retested in December without letting the water run, 53 outlets had a level above the E.P.A. threshold. Fourteen had levels over 1,000 parts per billion, including a fountain with a lead concentration of 3,680 parts per billion, and a classroom with a lead level of 32,500 parts per billion." City Changes How It Tests for Lead in Schools' Water, and Finds More Metal, The New York Times Feb. 4, 2017 at A16.

"About 535,000 children a year nationwide test positive for lead in the blood, which can cause brain damage and other developmental delays." Renting to Own a Tainted Home, The New York Times, Dec. 27, 2016 at A1.

"Further, EMF/RF adds synergistic effect to the damage observed from a range of toxic chemicals." The Environmental Academy of Medicine on a letter dated Jan. 12, 2012 to the California Public Utilities Commission.

The harm caused by microwaves when compounded with toxics in the blood stream are detailed by Carleigh Cooper, Cell Phones and the Dark Deception (2009) pg 97; Lyn McLean, The Force, (2009) pgs 55,66,67; Katie Singer, An Electronic Silent Spring (2014) pgs 106,108,124,184.

53. Next page.

54. "To install this system in Los Angeles risks a widespread public health question that the medical system is not yet prepared to answer." Id.

"81. There is a simple solution, use a cable and a plug to deliver the internet, or fibre optic cable.

"82. With all of this evidence pointing to mental, physical and long term disorders, (cancers - mutant newborns)), is this honestly worth the risk to our next generations for the sake of just a few meters of wire and a plug. As shown, the dangers of low levels, below thermal microwaves, have been known to government for 50 years. I was educated in microwave technology by the Military (United Kingdom) in the early 1960s and even then we were instructed of these dangers.. Nothing has chaged to suddenly make microwaves safe." Trower, Paraghs. 81,82,, Id.

The manual of the schools' Wi-Fi systems states in part:

"This type of modulation had formerly been classified and permitted only in military products." Docket 57, SISD Exhibits 455; Docket 91, App 3-325, Id.

Research pictures show the penetration of this highly pulsed microwave radiation into children's brains. Docket 91, App 3-351; Docket 97, Exh. 7.79, Id.

James G. Flynn, an expert in military microwave warfare on his article "Imprisoning Children and Teachers in Microwaved Classrooms Is a Crime Beyond Belief!" states in part:

"The US military have long known that THE most harmful radio/microwave frequencies to man are those within the band 900 MHz (900 million to 5 billion Hertz), for they penetrate all organs and organ systems of the body, thus putting all human organs systems at risk. This is precisely why these frequencies are used in M/W weapons of war!"

"Inconceivably, precious children and their teachers are forced - every moment they are at school - to sit in classrooms with powerful industrial-grade Wi-Fi routers above their heads that emit the more dangerous 'pulsed' form of M/W radiation on frequencies which the US Military knows are lethal to all human organs and organ systems: 2.4 GHz or both 2.4 and 5.8 GHz! W-Fi routers emit their pulsed non-thermal radiation in all directions constantly, 24/7/365, blanketing entire areas ranging in distance from just hundreds of feet out to encompass a school's entire property!"

"Non-industry scientists know that the harmful biological and health effects of low-level pulsed radiation are cumulative. It is not a question of IF a student or teacher will be harmed, but how much accumulated radiation over how many months and/or years can their individual bodies endure before they succumb to serious illness?"

"Since its inception in 1948, the World Health Organization has experienced almost constant turmoil and challenges. No longer enjoying secure funding from governments, it now relies on voluntary contributions from governments and other sources. Currently, the Bill & Melinda Gates Foundation is one of the biggest voluntary contributors to WHO! Radiation regulatory agencies, electric power utilities, and the wireless/telecom industries have meticulously studied, learned from and improved upon the extremely successful, deceitful tactics employed by the tobacco industry for so many profitable decades."

" "These are unprecedented, unbelievable times in America's history. One can only presume that President Obama himself, and his entire administration, are deliberately being kept ignorant of the systemic corruption that is ongoing within the US' regulatory family of agencies, most notably the FCC and IEEE's internal committee, ICES. Enabling this corruption, the remaining few media conglomerates chose to remain largely silent. If Americans are to survive this unprecedented Crime Against Humanity, they must wake up and act- before it is too late!"
We're Being Cooked! March 25,, 2016.

Barrie Trower, another expert in military microwave warfare, on his Declaration under penalty of perjury to a federal Court stated in part:

"When I realized that similar frequencies and powers that were used as weapons during the Cold War were being used as WI-FI in schools, I decided to come out of retirement and travel around the world free of charge and explain exactly what the problem is going to be in the future."

"During the Cold War, the Russian Embassy microwaved the United States Embassy in Moscow with low level microwaves for many years from across the road; why and how is outside the scope of this Declaration. After many changes of staff for multiple cancers / Leukaemias and other illnesses to both male and female employees and their children, the late John R. Goldsmith, MD., was invited to investigate the matter. His investigative report on this incident showed that continuous long term low levels microwaves were responsible for those illnesses. Goldsmith, J.R., Radiofrequency Epidemiology, Environmental Health Perspectives, Vol 105, at 1585, Supp 6, Table 8, Dec (1997). Dr. Goldsmith held 11 Professorships and was the World Health Organization (WHO) representative in Europe."

Declaration of Barrie Trower to Morrison et al, v. Portland Public Schools, Civil Action No. Cv-739-MO (U.S. Dist. Oregon) pgs 3,4.

The same radiation used by 5G wireless technologies has been used as weapon by the military to cause immediate painful Electrohypo-sensitivity of the skin. The Internet of Things Poses Human Risks: Scientists Question the Safety of Untested 5G Technology at International Conference, Teton Village, WY - 03/09/2017.

"Replicated research shows that Millimeter waves -- used by the Department of Defense in crowd control weapons - interacts with human skin and eyes." Id.

55. To conceal the harm being caused on children by the microwave radiation at school Abbott made grading so complicated that even he cannot understand it. Lawmakers: New curriculum may be too complicated, the Monitor 3/27/14 at 4B.

611.

"Autism in children is doubling every five years, paralleling the rise of EMR, and there is now a 1-in-50 chance of a child developing or being born with autism in North America." Sheean, NO SAFE PLACE, pg 5, Id.

The incidence of chronic neurological illnesses is rapidly increasing, with autism in children doubling every five years, according to Dr Dietrich Klinghardt. And he knows why. 'The only thing that parallels the exponential increase in chronic neurological illnesses is the increased exposure to manmade electromagnetic fields - largely in the high-frequency range from cell phone radiation, the Tetra network ... Smart meters...' Sheean pg 14, Id.

"With credentials, expertise and medical specializations too extensive to list, Dr Klinghardt is a recognized authority on EHS and the many diseases (ALS, Parkinson's MS, autism etc) exploding out of control, due to the widespread proliferation of radiation. He has identified biomarkers of EHS, adding considerably to the research carried out over the past 80 years - most of it showing biological damage being done by EMR.

'As a scientist, you don't have to look very far' he says."

Sheean, Id.

"Electromagnetic radiation breaks down the all-important blood-brain barrier, causing the death of neurons, which can result in early dementia and Alzheimer's disease." Sheean pg 5, Id.

" 'EMFs provoke major effects in the brain,' says oncologist Dr Dominique Belhomme. 'The most important of these is the opening of the blood-brain barrier. This allows mercury, organochlorines and other pollutants to enter the brain, where they cause various neurodegenerative diseases.' "

Sheean pg 12, Id.

"Every hour of entertainment programming a child watches in the first three years of life increases his odds of exhibiting attention issues at school age 7 by 10%," Web Attack Stemmed From Game Tactics, The Wall Street Journal Oct 24, 2016 at B4.

Despite of lowering the academic standards, students still perform poorly in school. More than 76,000 Texas Students Fail Tests on 3rd Try, The Monitor, Sept. 5, 2014 at 6B.

"The 2015 Nations's Report Card found that 93% of African-American high school seniors couldn't perform math proficiently and 83% couldn't read at grade level." The numbers were only slightly better for Hispanic and poor white 12th-graders. Inexplicably, U.S. public schools produce such results while spending more money per pupil than nearly every other country on earth." Letters to the Editor, The Wall Street Journal Nov. 2, 2016 at A12.

"As the Obama administration was carrying out its main education initiative, 'Race to the Top,' the United States was sliding further downward, falling from a tie for the 26th to a tie for the 31st among the OECD's 35 nations, coming out ahead of only Greece, Chile, Turkey and Mexico." Trump's Education Pick: A Win for Public-School Parents, The Wall Street Dec. 13, 2016 at A17.

"For years, Texas public education has been riled with low graduation rates, low test scores, and failing schools;..." School Choice: Benefits for Texas and RGW, The Monitor Feb. 5, 2017 at 7B.

"One thing I think we can all agree on is that the college readiness rate of our high school graduates is pitifully low. The latest ACT College Readiness Report for Texas shows only 27 percent of our graduates meeting college readiness standards in all the subjects tested (English, reading, math and science)." "We can't keep lowering academic requirements and expect students to be ready for college, careers and life." The CEO of the Texas Association of Business, Bill Hammond, The Real Cost of Education, the monitor Oct. 19, 2015 at 11A; Math Matters - At Least it Sh Should in Texas, Nov. 27, 2016 at 7B. See also, College Enrollment Rates Dropping, Especially Among Low-Income Students, Nov. 25, 2015 at 8A, Id.

A steep dip in student math scores comes as the country's employers demand workers with ever-stronger skills in mathematics to compete in the global economy. Nationwide Test Shows Dip In Students' Math Abilities, The NY times Oct. 28, 2015 at A12.

"Too many high-school graduates in the U.S. have to take remedial courses classes in basic courses such as math and English before they can enroll in college freshman courses." Letter to the Editor, What Should Betsy DeVos Do at Education? The Wall Street Journal Dec. 13, 2016 at A16.

"Today six million children under the age of 18, or 15% of the nation's youth, are diagnosed with ADHD;" The Ritalin Generation, The Wall Street Journal, Sept. 12, 2016 at A15.

According to a former Dean of the UT-RGV Medical School, one in 5 American adults will have a diagnosable mental health condition in any given year; 50 percent of Americans will meet the criteria for a diagnosable mental health condition sometime in their life, and half of those people will develop the condition by age 14; of those diagnosed with depression, only half are receiving adequate treatment; and if untreated, 20 percent will complete suicide. Mental Health in the RGV, the Valley Town Crier, June 3, 2015 at 6.

"There are days when in our crisis department it seems like they are running an emergency room because so many patients coming in," said Dr. Ricardo Irizarry, medical director of the Texas Tropical Behavioral Health Edinburg Service Area. It is Ok to Talk About it, The Monitor, Nov. 15, 2015 at 1A, 10A.

Nationwide, 17% of college students were diagnosed with or treated for anxiety problems during the past year, and 13.9% were diagnosed or treated for depression. College Students Flood Mental-Health Centers, the WSJ, Oct. 11, 2016 at D1.

"According to the Centers for Disease Control, the rate for men 70 and older in the U.S. is more than double the overall suicide rate." Suicide Rate Among Older Men Is Overlooked Tragedy, the Monitor June 30, 2017 at 6C.

The latest academic assessment shows that countries that restricted the use of wireless in schools and applied rigorous consistent academic standards like Canada and France, top the charts of the smartest students. What the U.S. Can Learn From Other Nations' Schools, The New York Times, Dec. 8, 2016 at A3.

"Generally speaking, the smartest countries tend to be those that... helped schools establish cultures of constant improvement; and applied rigorous consistent standards across all classrooms." Id.

"Some of other reforms Americans have attempted nationwide in the past years, including smaller class sizes and an upgrade of classroom technology, do not appear on the list of things that work." Id.

"As we drift toward a world in which more good jobs will require Americans to think critically - and to repeatedly prove their abilities before and after they are hired - it is hard to imagine a more pressing national problem." Id.

"Your president-elect has promised to make America great again, Mr. Schleicher said. But he warned, 'He won't be able to do that without fixing education.'" Andreas Schleicher, who oversees the PISA 69 countries test at the Organization for Economic Cooperation and Development, Id.

"The first round of results of the STAAR test are disappointing, but indicative of what happens when commitment to academic standards and transformative education are lowered." Drew Sheberle, the Greater Austin Chamber of Commerce senior president for education and policy, The Monitor, Declining Texas Standardized Scores Raises Concerns, July 12, 2017 at 6B.

62. "Officials say that as many as 7.5 million children miss a month or more of school each year, putting them at risk of falling behind and dropping out." White House to tackle chronic absenteeism in schools with mentorship for students, the Monitor Feb. 20, 2016 at 4B.

See College enrollment rates dropping especially among low-income students, the Monitor, Nov. 25, 2015, at 8A.

63. Because a dramatic increase of children collapsing in class and because traditional physical examinations are not sufficient for detecting cardiac abnormalities on students participating in sports, Senate Bill 155 requires students to receive an electrocardiogram. Senator Hinojosa Pre-Files for Upcoming 85th Legislative Session, the Valley Town Crier, Nov. 16, 2016 at A-11.

Waiting for advance medical care personnel to arrive results in only 5-7% survival. Workplace Safety: Sudden Cardiac Arrest Victims in the Workplace, Texas Border, April 2017 at 9.

Scientists are clueless about the dramatic increase of deaths by heart failure. Heart Disease Pushes Up Death Rate, The Wall Street Journal, Dec. 8, 2016 at A3; Eight Rules to Become a Smarter Patient, The WSJ Dec. 13, 2016 at A11.

The Russian NCNIRP addressing the urgent problem of cell phone use by children cites studies showing that since 2000 the rate of nervous system disorders among 15 to 17 year olds has increased by 85%, epilepsy has increased by 36%, mental retardation by 11%, and blood and immune disorders by 82%. The Cellular Phone Task Force, May 28, 2011.

64. Valley teens are dying off suicide at twice the rate as other age groups. Advocates Warn About Suicides During Holidays, The McAllen Monitor Dec. 15, 2015 at 1A.

Suicides Climb After Year of Declines, The Wall Street Journal April 22, 2016 at A3.

Suicides Outnumber Traffic Deaths for Adolescents, The New York Times, Nov. 4, 2016, at A3.

Millions of children attempt suicide every year in the U.S., Many Suicides Are Preceded by Failed Attempts, The New York Times, Nov. 8, 2016 at D5.

Unseen Suicide Attempts by Young Latinas, the McAllen Monitor Aug. 8, 2016 at 10A.

A mother who lost a child to suicide questions society and media's avoidance of addressing suicide. "We reached out to the media and they don't want to touch the subject" she said. Saying Yes to Life, the Monitor Sept. 10, 2015 at 1D.

The City of Edinburg; City of McAllen, McAllen ISD and the Hidalgo County Commissioners Court have all proclaimed Sept. 10, as Suicide Awareness Day. Id. at 3D.

Recent legislation requires school staff suicide training. Id.

Several teachers have died by suicide. Chris Ardis, Today is World Suicide Prevention Day, the Valley Town Crier at 6.

At several times, Ms. Ardis has denounced that officials of the McAllen ISD have refused to disclose the number of students committing suicide.

65. Because of the catastrophic effects caused by prescription drugs, more doctors are pushing to deprescribe. Medication Overload, The Wall Street Journal, Oct. 11, 2016 at D1, D4.

"The rate of U.S. children hospitalized for prescription-opioid overdoses and poisonings more than doubled in 2012, according to a new study that call for stronger action to protect young people." Opioids Sickening More Children, The Wall Street Journal, Nov. 1, 2016 at A3.

"As the opioid epidemic continues to devastate communities around the country, the study was the latest attempt to identify a starting point on the path to excessive use." New Study of Opioid Use Finds a Disparity in How Doctors Prescribe Drugs, The New York Times, Feb. 16, 2017 at A12.

"The Food and Drug Administration, concerned about death and overdose risks from narcotic painkillers taken with certain anti-anxiety or sedative drugs, on Wednesday issued its most serious safety warning about the drug combinations." FDA Warns About Pairing Painkillers, Anxiety Drugs, The Wall Street Journal, Sept. 1, 2016 at 3A.

"The rate of U.S. children hospitalized for prescription - opioid overdoses and poisonings more than doubled over a period ended in 2012," Opioids Sickening More Children, The WSJ Nov. 1, 2016 at A3.

Painkillers overdose deaths have increased by 33% in the past 5 years across the country, with some states seeing jumps of nearly 200%. Overdose Deaths Up Greatly in Past 5 Years, the Monitor, Dec. 18, 2016 at 9A.

"Drug overdoses have become the leading cause of injury deaths in the United States,..." Sudden Rise in Overdoses for One City in a Nationwide Epidemic of Opioid Abuse, The New York Times, Feb. 14, 2017 at A11.

"Doctors don't even know what they're doing is a habit." Dr. Michael L. Barnett, Assistant Professor of Health Policy and Management at Harvard T.H. Chan School of Public Health, New Study of Opioid Use Finds Disparity in How Doctors Prescribe Drugs, the New York Times, Feb. 16, 2017 at A12.

Sharp Rise Is Reported in Older Americans use of Psychotropic Drugs, The NY Times, Feb. 14, 2017.

"As towns large and small struggle with the opioid epidemic, some counties prescribe six times the amount of painkillers - opioids such as oxycodone and morphine - as others, the report from the Centers for Disease Control and Prevention (CDC) says." Doctors rely less on opioids but prescriptions remain high, USA Today, July 7, 2017 at 2A.

66a. See Note 58, Above.

It is estimated that just in the State of Texas about 600 children are born with brain damage each month and that about the same number are born with heart damage, which in many cases becomes deadly.

"A lot of things that get a lot more press." Dr. Michael Blanco, Cardiologist at San Angelo Community Medical Center, Open Hearts, Texas Co-op Power, Feb. 2017, pgs 9-11; See Note

Traditional doctors are also clueless about the dramatic increase in adult death rate. Death Rates Are Rising Among Middle-Aged White Americans, Study Finds, the NY Times Nov. 15, 2015 at A15; Death Rate in U.S. Rise for First Time in a Decade, June 1, 2016 at A10, Id; White Deaths Exceed Births, The Wall Street Journal, Nov. 30, 2016 at A3.

Not surprisingly, the same actors that participated on the fraud on the Courts to conceal the severe disabilities caused on children by the microwave radiation at school, are now advocating to deny these children educational services. Disability Cuts to Children, the Monitor, June 21, 2016 at 4B; Court Clears Way for State to Make Children's Therapy Cuts, Sept. 24, 2016 at 5B; Helping Children with Disabilities in the Classroom, Feb. 26, 2017 at 7B.

66b. See Note 58, Above.

66c. One phone conversation, an Official of the Los Angeles School District explained to me that because of the increasing number of children complaining of Electrohypersensitivities, the school district is preparing to accommodate those disabilities under the Americans with Disabilities Act.

67.. Jesus Mendoza et al, v. Sharyland Ind. School District et al, Case No. 7:11-cv-29 (S.D. TX. 2011), Dockets 2,6,13,26,32.

68. Undisputed evidence on the federal record has proven the collusion of Chief Judge Hinojosa with Judge Ormsby, Judge Crane, U.S. Magistrate Judge Dorina Ramos, the Commissioner of the Social Security and Greg Abbott in falsification of government records, in fabrication of testimony and of medical evidence, and in disability discrimination and retaliation to conceal the harm caused on my children and on myself by exposure to radiation; to deny my applications for disability benefits and for rehabilitation of my EHS; and to conceal their collusion with U.S. District Chief Judge Robert Holmes Bell and U.S. Magistrate Judge Joseph Scoville in the fraud on the Courts to conceal that other members of the judiciary committed a fraud of millions of dollars in federal funds while giving law degrees to those affiliated to government agencies. Unopposed Motion to Assign a Visiting Judge to the Case, Docket 4; Statement of Interested Parties, Docket 91, Apps 3-284 to 3-318, Sharyland ISD et al, Id; Unopposed Motion to Recuse Judge Crane, Docket 25 and Exhibits, Mendoza v. Moron et al, 7:05-cv-184 (S.D. TX. 2005); Unopposed Motion to Recuse Chief Judge Hinojosa, Docket 20 and Exhibits Mendoza v. Astrue Case No. 7:05-cv-1133 (S.D. TX. 2005). Chief Judge Hinojosa and Judge Ramos declined and invitation by the Judicial Council to dispute evidence of their fabrication of testimony to conceal the harm caused on my children and on myself by radiation. U.S. Ct. of App. 5th Cir. Nos. 04-05-372-0089,90.

69. During the hearing before Judge Ormsby SISD officials did not deny that taking advantage of my ex-wife's illiteracy attempted to persuade her to impeach my mental stability in Court to conceal the harm being caused on children by the radiation at school stating instead that they were not claiming that I am mentally insane, but that I did not have the right to represent my children Pro-se in Court. During the same hearing, the principal of my children's elementary school Pamela Montalvo testified falsely before Judge Ormsby that I did not submit a doctor's letter for that school year. At no time during the litigation SISD officials disputed evidence or claims proving my ex-wife and Ms. Montalvo perjury to the Court. Docket 38, pgs 4,5; Docket 48, pgs 4, 32-35, 40-44, 48, 52-54; Docket 57, pgs 7-10, 31,49,64,65,; Docket 62, pgs 5-7, 20; Docket 81, pgs 1b, 1c, 6,7,9, Sections 10.1 to 10-7; Docket 94, pgs 20,30; Docket 97, pg 19; Docket 101, pgs 32,33, Sharyland et al, Id.

70.. Docket 38, pgs 5,34,35; Docket 57, pgs 8,56; Docket 81, Section 3-1, Id. Dr. Samuel Milham is a physician-epidemiologist specializing in public health. In 1997, Dr. Milham was awarded the Ramazzini prize for his pioneering work in describing the harm caused by the same radiation reaching children at school. See Motion to Present Expert Witness,, Docket 17, Id.

71. At no time during the federal litigation SUSD officials disputed the evidence or claims proving their collusion with Judge Rodriguez and with Mr. Hinojosa in perjury and fraud on the federal and on the 92nd District Court to conceal the harm being caused on children by the radiation at school. Docket 48, pgs 4,5,40,44,48,52,53; Docket 62, pgs 4-7, 20; Docket 57, pg 7; Docket 81, pg 9, Section III-2; Docket 94, pgs 52-56; Docket 97, pgs pgs 16,17; Docket 98, (Affidavit) Paragraphs. 23-27; Docket 101, pg 71, Id.

72. The undisputed evidence submitted to Chief Judge Hinojosa proves conclusively that SISD officials manipulated my ex-wife to commit perjury to the federal Court to conceal the harm being caused on children by the radiation at school and to conceal their disability discrimination and retaliation against my children and against myself.

On the Reports and Recommendations to deny my Motions to compel SISD officials to follow the doctors' orders, to dismiss my childrens' claims, and to dismiss my claims against the SISD Board of Trustees, submitted to Chief Judge Hinojosa, Judge Ormsby wrote:

"Contrary to Plaintiffs dire description of their symptoms, Mrs. Mendoza testified that the children are in good health. She denied that the children have constant pain, heart abnormalities, problems with their eyes, or other chronic symptoms. She also stated that they have no problems around electrical equipment." Docket 41, pg 15, Sharyland ISD et al., Id.

"At the preliminary injunction hearing, Mrs. Mendoza testified that she does not believe that the children have electrical sensitivity (or any significant medical problems), and she disagrees with Plaintiffs efforts to transfer them to another school. Mrs. Mendoza stated that Plaintiff filed this action without consulting her, and she was not even aware that a law suit had been filed on her childrens' behalf until she was contacted by counsel for Defendants." Docket 58, pg 8 Note 4, Id.

The evidence submitted to Chief Judge Hinojosa includes my ex-wifes Response to a Request for Admissions in which she admits to the 92nd District Court my childrens' health problems and her perjury to the federal Court; admits her violence against my children and her refusal to allow expert medical evaluations for treatment of my childrens' EHS; and admits meeting with SISD officials to discuss my childrens' health problems without notifying me, and admits testifying in federal Court how my children scream in their sleep when meters show increased levels of radiation inside the house at night. Docket 62, Exh. "A" Admissions 80,82,83,84,87,91,92, 95-104, 106, 189; Docket 81, Sections 10-1 to 10-7, Id.

My Objections to Judge Ormsbys recommendation to deny my Motions to compel SISD officials to follow the doctors' orders details to Chief Judge Hinojosa the undisputed evidence on the record proving SISD officials' manipulation of my ex-wife to commit perjury to the Court to conceal the harm being caused the harm being caused on children by the radiation at

My Objections submitted to Chief Judge Hinojosa cite to undisputed evidence on the record including more than 400 pages of medical records and peer reviewed scientific studies documenting more than 60 visits of each child to the doctor with the same symptoms of EHS and of the harm caused by exposure to the same microwave radiation reaching children at school. Docket 48, pgs 28,29, Exhs. 51,55,56; Docket 62, pg 6; Docket 81, pgs 1,4,6,7,9, Sections 2-1, 3-3, 4-1 to 4-8, 5-1 to 5-4, 6-1, 6-2, 7-1, 7-2, Sharyland ISD et al., Id.

The Summary of my children's medical records documenting the harm caused on them by the radiation at school were submitted as Exhibits KI, II, and KV to my unopposed Motion for Reconsideration of my Motion to compel SUSD officials to follow the doctors' orders. Id.

My Objections to Judge Ormsby's recommendation to deny my Motions to compel SUSD officials to follow the doctors' orders submitted to Chief Judge Hinojosa details Judge Ormsby's false statements and omissions of relevant and material facts, including that during the hearing, my ex-wife admitted that my children scream in pain while asleep when exposed to radiation, and admitted placing on the trash the pictures showing the swelling on my children's eyes. Docket 48, pg 53, Id.

My Objections submitted to Judge Hinojosa include a copy of a Police Report and a copy of my sworn Application to protect my children that had been submitted to Judge Rodriguez. The sworn Application for Protective Orders details my ex-wife's violence against my children and her attempts to conceal the aggravation of my children's EHS by the radiation exposures at school and how she was promised to win the divorce case for a fixed fee even if her violence against my children was proved in Court. Docket 48, pgs 32,40,48, Exhibit "A".

The Police Report details my ex-wife's violent attempts to prevent that I video recorded my youngest child crying in pain. Exh. 8, Id.

My Objections to Judge Ormsby's recommendation to dismiss my children's claims and to dismiss my claims against the SUSD Board of Trustees that was submitted to Chief Judge Hinojosa adopts by reference my Motions to compel SUSD officials to follow the doctors' orders, and my Petition for Reconsideration of Denial of Grievance that had been submitted to the SUSD Board of Trustees (Dockets 2,6,32); my 1st Amended Complaint (Docket 13); my response to SUSD officials Motion to Dismiss and my Motion for Sanctions against SUSD officials (Docket 38) and my Motion for Reconsideration of the denial of my Motion to compel SUSD officials to follow the doctors' orders and to Deny SUSD officials Motion for Sanctions (Docket 57), Docket 62, pg. 25, Sharyland ISD et al., Id.

These filings and my Objections to Judge Ormsby's recommendation to deny my Motion for Reconsideration of the Denial of my Motions to compel SUSD officials to follow the doctors' orders cite to Chief Judge Hinojosa undisputed evidence on the record proving that they are exposing children to power levels of radiation exceeding the federal safety limits and to the same microwave radiation that has caused harm to teachers, to fire fighters, to police officers and to other adults; proving that these radiation exposures are responsible for the poor academic performance, for the more than 1000% of student reports of sickness, and for the children suffering of life-threatening and terminal illnesses; proving that in retaliation for denouncing their falsification of government records to conceal the harm being caused on children by the radiation at school, SUSD officials refused to follow the doctors' orders and to transfer my children to another school; and proving that in retaliation for denouncing in Court, the attempts to conceal the harm caused on children by the radiation at school, their disability discrimination and retaliation against my children and against myself, and their perjury to the Court, SUSD officials seated my children closer to sources of radiation aggravating their health condition. Id; Docket 81, 101, Id.

My Objections submitted to Chief Judge Hinojosa point to undisputed evidence on the record proving that to conceal the disability discrimination and retaliation against my children and against myself, the principal of my children's elementary school, Pamela Montalvo made false statements to the Court, including that I did not submit a doctor's letter for that school year.. Docket 48, pgs 33,34.

See my Request for that school year to the SUSD Board of Trustees to follow the doctor's orders and to transfer my children to another school including as Exhibit the doctor's letter requesting to seat my children not in close proximity to sources of radiation, Docket 32, Exhs. 6a, 7a, 7b, 7c, Id.

72a. Without engaging the undisputed evidence proving SISD officials' falsification of government records, disability discrimination and retaliation against my children and against myself, and their perjury and fraud on the Courts to conceal the harm being caused on children by the radiation at school, on his recommendation to Chief Judge Hinojosa to deny my Motions to compel SISD officials to follow the doctors' orders, Judge wrote:

"Plaintiff must refrain from wasting the Courts time and resources and re-arguing the same matters. The undersigned will recommend that the District Court consider appropriate sanctions if Plaintiff does not cease such wasteful and burdensome litigation tactics." Docket 75, pg 3, Note 1, Sharyland ISD et al., Id.

To prevent that I appealed the fraudulent recommendations and rulings, Judge Ormsby wrote:

"Plaintiff should neither be provided free hearing transcripts, transcripts, nor should he be permitted to appeal without paying the filing fee." Docket 74, pg 1, Id.

"Lacking any legitimate basis, Plaintiffs attempt to pursue an interlocutory appeal is frivolous and not taken in good faith." Docket 74, pg 7, Id.

Despite of the undisputed evidence on the record proving the collusion of Judge Ormsby with SISD officials, with Judge Rodriguez and with my ex-wife's divorce attorney Abel Hinojosa in perjury and fraud on the Courts to conceal the disability discrimination and retaliation against my children and against myself to conceal the harm being caused on children, Chief Judge Hinojosa dismissed my children's claims and my claims against the SISD Board of Trustees, and denied my Motions to compel SISD officials to follow the doctors' orders. Dockets 49, 50, 63, 82, 84, 86, 87, Id.

73. The evidence proving the legitimacy of my EHS as a physical medical condition and as a disability remains undisputed on the federal record. See Note 11, Above.

At no time SISD officials denied their malicious attempts during the Grievance process to discredit the legitimacy of my EHS, and did not deny their failed attempts to persuade my then wife to impeach my mental stability in federal Court to conceal the harm being caused on children by the radiation at school. Docket 81, pg 2. Section 11-3, Id.

74. My Objections to Judge Ormsby recommendation to deny my Motions to compel SISD officials to follow the doctors' orders point to Chief Judge Hinojosa the undisputed evidence on the record proving SISD officials falsification and attempts to falsify government records to conceal that they are exposing children to the same radiation that causes severe physical harm even to adults. Docket 48, pgs 8-31; Docket 81, pgs 5,6, Sections 4, 5,6,7,8,9,12, Sharyland ISD et al., Id.

My filings adopted by reference to my Objections submitted to Chief Judge Hinojosa (Docket 48 pg 25) also point out to Judge Hinojosa to the undisputed evidence on the record proving SISD falsification of records and attempts to falsify government records to conceal the harm being caused on children by the radiation at school, Docket 2,6,32, 57, pgs 10-50 and Exhibits A1, A2, A3, A4, A5, Id. See Notes above.

75. At John Shary, my children's elementary school, out of 694 students, within 5 months 1850 children visited the nurse's office. Within 7 months, at John Shary, out of 2771 absences, 1748 children were absent for health reasons. At SISD, out of 9,473 students, within 5 months 39,392 students visited the nurse's office. During the same period, out of 38,912 absences, 21,21,145 students were absent for health reasons. Within 8 months at SISD, out of 9,706 employee absences, 3,245 absences were for health reasons. Petition for Reconsideration of Denial of Grievance submitted to the SISD Board of Trustees and submitted to Chief Judge Hinojosa on my Objections to Judge Ormsby Recommendation to dismiss my children's claims and to dismiss my claims against the SISD Board of Trustees, Docket 32, pg 11, Docket 48, pg 25; and Docket 57, pgs 11,12,13, Id.

My objections to Judge Hinojosa point to undisputed evidence on the record proving SISD attempts to conceal that many students at SISD are suffering of life-threatening and of terminal illnesses. Docket 81, Section 8-3, See Notes above.

76. My Objections to Judge Ormsby's recommendation to deny my Motions to compel SISD officials to follow the doctors' orders cites to Chief Judge Hinojosa to undisputed evidence on the record proving that to conceal the harm being caused on children by the radiation at school, SISD officials:

Did not allow further measurements of the radiation reaching children at school, Docket 32, pgs 7,8; Dkt 48, pgs 31, 39; Dkt 57 pg 40; Docket 62, pg 2; Docket 81, Section 4-7, Sharyland ISD et al, Id;

Refused expert evaluations of the harm caused by the radiation reaching children at school, Docket 32, pg 8; Docket 48, pg 41; Docket 57, pgs 6,40,51; Docket 62, pg 22; Docket 81, Sections 4-7, 4-8, Id.

Refused to disclose the location of the 50,000 - 100,000 Watts microwave transmitters operated on SISD schools, Docket 32, pg 8; Docket 48, pgs 41,46; Docket 57, pg 46; Docket 81, Section 12-6, Id.

Removed from the Grievance record evidence proving that a Texas Court has placed a duty on school officials to measure and monitor the power levels levels of radiation reaching children at school, Docket 32, pgs 11,2; Docket 48, p 15; Docket 57, pg 24; Docket 81, Sections 8-1, 8-2, 8-3, 9-1, 9-2, Id.

And that on a hearing, without disputing the evidence or claims proving their attempts to conceal the harm caused on children by the radiation at school, SISD officials admitted in Court that they had not measured the radiation reaching children at school because of cost, Docket 48, pg 39; Docket 57, pg 8; Docket 81, Section 8-2, Id.

My Objections submitted to Judge Hinojosa cite to undisputed evidence on the record proving SISD officials attempts to conceal that the same microwave radiation reaching children at school has caused harm to firefighters and is causing children harm that defeats the purpose of education. Docket 32, pg 8; Docket 48, pgs 41, 46; Docket 57, pg 46; Docket 81, Section 12-6, Id.

At no time during the federal litigation SISD officials disputed evidence or claims proving that to conceal the harm being caused on children by the radiation at school, they refused to allow further measurements of radiation on student seating areas; refused to disclose the power levels of radiation emitted by the wireless devices used inside schools; and refused to disclose the power levels of radiation reaching children at school, which were necessary to corroborate the school's dosimetry model. Docket 13, pgs 18,30,31,36,37,38; Docket 32, pg 8; Docket 57, pg 40, Id.

In *Houston Lightning & Power Co. v. Klein Ind. School District*, the Court placed a duty on school officials to measure the radiation reaching children at school. SISD officials removed this evidence from the record. Docket 2, pgs 6,7,; Docket 13, pgs 38,39; Docket 32, pgs 1,2; Docket 57, pg 24, Id.

A dosimetry model is vital to corroborate the harm being caused on children by the radiation at school.

"What is unique about microwave radiation is its ability to deeply penetrate into tissue and to cook or heat them up."

"The health consequences from low level exposure to microwave radiation can be catastrophic."

"What distinguishes microwave radiation is a pattern of injury that it produces, which is recognizable from the dosimetric and scientific studies."

"A dosimetry model can be an invaluable tool to help the individual see the correlation between radiation exposure and disease."

"The value of the use of a dosimetry model is that it clearly shows what type of damage to expect."

"Any organization or company that works with radiation is required to monitor the level of exposure using this technique." Dr. Gerald Goldberg, Docket 13, pgs 43,44, Id. See Dr. Goldberg's letter validating the power levels of radiation found on student seating areas, Docket 91, App 3-061, Id.

Together, the San Fco. EarthLink Wi-Fi Network (2007) and Sections I of the Bioinitiative Report (2012) cite to more than 100 peer-reviewed dosimetric studies (with power levels of exposure) documenting that the power levels of microwave radiation at school are causing children EHS, and brain, eye, blood, nerve, cardiovascular and DNA damage and other severe physical harm that defeats the purpose of education. Docket 91, Apps 4-042 to 4-064; Docket 97, Exh. 9, Sharyland ISD et al, Id.

77%. My Objections to Judge Ormsby's recommendation to deny my Motions to compel STSD officials to follow the doctors' orders submitted to Chief Judge Hinojosa cite to undisputed evidence on the record proving that in retaliation for denouncing their attempts to conceal the harm caused on children by the radiation at school, STSD officials denied more than 8 of my requests to follow the doctors' orders not to seat my children in close proximity to sources of radiation. Docket 81, pgs 3, 5, Sections 2-1, 2-2, 2-3, Sharyland ISD, Id.

Other requests to follow the doctors' orders denied by STSD officials were submitted to the Court on Docket 97, Exhs. 5.11 to 5.20, Id.

78. My Objections to Judge Ormsby's recommendation to deny my Motions to compel STSD officials to follow the doctors' orders submitted to Chief Judge Hinojosa cites to undisputed evidence on the record proving the collusion of STSD officials with Judge Rodriguez, and with my ex-wife's divorce attorney, Abel Hinojosa in perjury and fraud to the 92nd District Court and to the federal Court to deprive me of my parental rights; to prevent that I transferred my children to another school; to prevent expert medical evaluations for treatment of the harm caused on my children by the radiation at school; to conceal the disability discrimination and retaliation against my children and against myself; and to conceal that the radiation exposures are causing children harm that defeats the purpose of education.

Docket 48, pgs 4,5,6,40,43,44, 52-54; sworn Application for Protective Orders and Police Report submitted to Judge Rodriguez, Docket 48, Exhs. "A" and 8, Sharyland ISD et al, Id.

My Objections point to Judge Hinojosa how despite of the collusion of STSD officials to conceal my ex-wife's family violence and the aggravation of my children's health condition, Child Protective Services and the Texas Rangers have refused to help my children, Docket 48, pgs 4,5,6, Id.

Docket 57, pgs 31,49,64,65. See proposed Temporary Orders submitted by Mr. Hinojosa to Judge Rodriguez in which Mr. Hinojosa attempts to deprive me of my parental rights to prevent that I transferred my children to another school and to prevent expert medical evaluations for treatment of the harm caused on my children by the radiation at school, Exhibit to Docket 57, Id.

Docket 62, pgs 4,5,6,7,20. Exhibit "A" to Docket 62 is my ex-wife's Response to a Request for Admissions in which she admits her violence against my children, my children's health problems, and her perjury to the federal Court to conceal the aggravation of my children's EHS by the radiation at school, evidencing the collusion of STSD officials with Judge Rodriguez and Mr. Hinojosa in fraud on the Courts to conceal the harm being caused on children by the radiation at school. Id.

Docket 81, pgs 1b,1c,6,7,9. Docket 81, Sections 10-1 to 10-7; 11-2; and 12-8 cite to undisputed evidence on the record proving STSD officials collusion with Judge Rodriguez and Mr. Hinojosa in perjury and fraud on the Courts to conceal the harm being caused on children by the radiation at school, Id.

Undisputed evidence on the record proves beyond reasonable doubt that to conceal SUSD officials perjury and fraud on the Courts to conceal the harm being caused on children by the radiation at school, Judge Rodriguez:

Refused to rule on two unopposed Applications for Protective Orders detailing my ex-wife's violence against my children and detailing her attempts to conceal the aggravation of my children's EHS by the radiation at school. Clerk's Record 89-110 (Orig. Clk's R. dated Jan. 27, 2015); Clerk's Record 38-51 (1st Supp to Clk's R. dated Feb. 7, 2015), Mendoza v. Mendoza, Cause No. F-1591-11-A, 92nd District Court, Hidalgo County Texas.

Judge Rodriguez gave my ex-wife as Temporary Orders the decision on my children's health and education, despite that my ex-wife admitted to Judge Rodriguez her violence against my children, her inability to understand EHS and her attempts to conceal my children's EHS by the radiation exposures at school; and despite that my ex-wife's attorney, Mr. Hinojosa admitted to Judge Rodriguez the legitimacy and seriousness of my EHS. Reporters Record Vol. 3, Id.

Judge Rodriguez did not allow me to appear by phone to Court anymore as accommodation to my disability after Mr. Hinojosa did not dispute evidence proving that he removed records from my children's medical records to conceal my ex-wife's perjury to the federal Court; to conceal that my ex-wife's testimony to Judge Rodriguez that my children do not have symptoms of my EHS are false; and to conceal Mr. Hinojosa's collusion with SUSD officials in perjury and fraud on the Courts to conceal the harm being caused on children by the radiation at school. Unopposed Application for Protective Orders Clerk's Record 59-198 (2nd Supp Clk's R. dated April 10, 2015), Reporters Record Vol. 4, Id.

Undisputed evidence on the record has proven beyond reasonable doubt that to conceal SUSD officials' perjury and fraud on the Courts to conceal the harm being caused on children by the radiation at school, Mr. Hinojosa removed from my children's medical records, records documenting that two days before my ex-wife testified before Judge Rodriguez that my children do not have symptoms of my EHS, my children's pediatrician prescribed 5 medical studies on one child for the same symptoms of EHS and of the harm caused by radiation; records documenting 34 visits of my child to the doctor with the same symptoms of EHS; records documenting a child's hospitalization with stomach problems, and an evaluation for heart problems; and records documenting on two children the same blood injuries caused by the same radiation reaching children at school. 2nd Supp Clk's R. 73, 157-173, Id. See copy of some of those medical records, Docket 97, Exhs. 3.3, 3.4, 3.5, 3.6, 3.7, Sharyland ISD et al., Id.

At no time during the federal litigation SISD officials disputed the evidence or claims proving their collusion with Judge Rodriguez and with Mr. Hinojosa in perjury and fraud on the Courts to conceal the harm being caused on children by the radiation at school. Docket 94, pgs 52-56; Docket 97, pgs 16-18; Affidavit Paragraphs 23-27, Docket 98; Docket 101, pg 71, Sharyland ISD et al, Id.

See Mr. Hinojosa's Response to a Request for Production of documents in which he refuses to produce my children's complete medical records and refuses to disclose his attorney fees, Docket 97, Exhs. 4.1 to 4.9, Id.

Judge Rodriguez's sister was elected ~~as~~ Judge of a juvenile Court after she did not allow me on a school meeting to explain to parents the harm being caused on children by the microwave radiation at school. See Requests to resign to Judge Rodriguez and to Judge Rodriguez-Bentancourt at wirelesswatchblog.org

79. After the hearings in which SISD officials did not dispute evidence or claims of their falsification of government records and perjury to conceal their disability discrimination and retaliation against my children and against myself, I made another request to SISD to follow the doctors' orders and not seat my children in close proximity to sources of radiation. In retaliation, SISD officials seated my children closer to sources of radiation aggravating further their health condition, and I filed a Motion for Sanctions against SISD officials. Despite of undisputed evidence and claims proving SISD officials retaliation against my children and against myself, Chief Judge Hinojosa denied my Motion for Sanctions. Motion for Sanctions, Docket 38, pgs 5,10,11,43,44, Exhs. B,C, and D; Docket 48, pgs 3,4,34; Docket 62, pgs 2,10,11,24,25; Docket 81, pgs 3,5, Sections 2-4, 12-7, Id.

80. To deprive me of my right to protect my children, and despite of the evidence on the record proving the collusion of Judge Ormsby with SISD officials, with Judge Rodriguez and with Mr. Hinojosa in falsification of government records, in disability discrimination and retaliation, and in perjury and fraud on the Courts, Chief Judge Hinojosa refused to consider claims that have been proven as a matter of law by undisputed evidence on the record including my claims of violations of Due Process, of disability discrimination and retaliation, and of violation of parental rights. Docket 81, pgs 1a,1b,1c, 2-10, Dockets 82-87, Id.

81. Dockets 47,48,49,50,51,52, Sharyland ISD et al, Id.

Undisputed evidence on the federal record has proven beyond reasonable doubt the collusion of Chief Judge Hinojosa, Judge Ramos, Judge Ormsby, Judge Crane, Rick Perry, Greg Abbott, and the commissioner of the Social Security in falsification of government records, in fabrication of testimony and of medical evidence, and in disability discrimination, retaliation and fraud on the Courts to conceal the harm caused on my children and on myself by exposure to radiation; to deny a doctor recommended shielding room for rehabilitation off my EHS, and to deny my disability benefits; and to conceal a fraud of millions of dollars in federal funds. See Note 68, Above.

After I filed the law suit against SISD officials, and to avoid confronting the evidence proving his retaliation and fraud on his Court to conceal the harm caused on my children and on myself by radiation, Chief Judge Hinojosa cancelled an Order for a hearing to Disclose Interested Parties.

An entry on the Courts Docket Sheet dated 2/7/2011 states:

" FILED IN ERROR: ORDER for Initial Pretrial and Scheduling conference and Order to Disclose Interested Persons. Initial conference set for 4/11/2011 at 02:30 PM before Chief Judge Ricardo H. Hinojosa. Parties notified.(bgarces,) Modified on 2/7/2011 (bgarces,) Entered: 02/07/2011)"

" INITIAL PRETRIAL CONFERENCE cancelled. Filled in error. (bgarces,) (Entered: 02/07/2011)" Docket 5, Sharyland ISD et al, Id.

81a. After SUSD officials, by mistake submitted to the Court stamped as their Exhibit a copy of my Petition to SUSD Board of Trustees, I pointed to the Court that the Petition and Exhibits corroborate my claims of SUSD officials' falsification of government records, disability discrimination and retaliation against my children and against myself, and their perjury and fraud on the Courts to conceal the harm being caused on children by the radiation at school. Docket 94, pgs 12,13,22,31,32,34,35,40,46,48,49, 50,51; Docket 97, pgs 19,20; Docket 101, pgs 34,35,48,57,66,77, Sharyland and ISD et al, Id; Docket 1, pgs 104-113, Hinojosa et al, Id.

Docket 101 points to the Court the fact that the same evidence that SUSD officials submitted by mistake to the Court and the same evidence that they submitted to the Court in support of their Motion for Summary Judgment, proves SUSD officials' more than 7 acts of perjury to the Court to conceal their falsification of government records, their disability discrimination and retaliation against my children and against myself; and to conceal the harm being caused on children by the radiation at school. Id.

81b Docket 1, pgs 104-113, Hinojosa et al Id.

82. Pages 206-216 detail the collusion of Abbott with SUSD officials to conceal the legitimacy of my EHS as a physical medical condition and as a disability and to conceal the harm being caused on children by the microwave radiation at school. Docket 1, Hinojosa et al, Id.

The irrational and criminal cruelty described herein, as in other atrocities against children, may be fueled or exacerbated by the use of opioids. It is well documented that the atrocities that led to the holocaust were fueled or exacerbated by the use of opioids, and the use of opioids is now epidemic. How Hitler's Henchmen Were Kept Hopped Up, The Third Reich was fuelled by hard drugs, a new book says, The New York Times, Dec. 10, 2016 at C1.

The use of psychotic drugs is also epidemic, and in some populations, the rates are extraordinary. One in 6 American Adults Say They Have Taken Psychiatric Drugs, a Report Finds, The New York Times Dec. 13, 2016, at A22.

83.. My hand-written, 334 pages Original Complaint and 33 Exhibits, and the Statement of Interested Parties cite to undisputed evidence on the record proving beyond reasonable doubt the Defendants' irrational and criminal cruelty and retaliation against children and their collusion to conceal the crimes being committed against children. Docket 11, and Exhibits, and Docket 4, 14, Hinojosa et al., Id.

84.. Dockets 5,7,11, Id.

85.. My EHS was first diagnosed by Dr. William Rea on June 6, of 2000 at the Environmental Health Center in Dallas, Texas, and I made an Application for rehabilitation of my EHS with the Texas Rehabilitation Commission, now the Texas Dept. of Assistive and Rehabilitative Services, DARS. On the year 2001, a TRC supervisor, Mr. Antonio Ocafia promised me before my Texas Representative Kino Flores, a shielding room as soon as another doctor confirmed my EHS and recommended a shielding room for rehabilitation of my EHS. After another doctor diagnosed my EHS and recommended a shielding room for rehabilitation of my EHS, Mr. Ocafia denied my Application for rehabilitation technology. Unopposed Motion to Recuse Judge Crane, Docket 25, Jesus Mendoza v. Dr. David Moron et al, Case No. 7:05-cv-184 (S.D. TX. 2005).

On March of 2003, my mother sought my involuntary commitment to a State hospital acting on the misbelief that I was neglecting medical care for the swelling of my eyes and face, and acting on the misbelief that the hospital was able to cure EHS. The same day I was taken to the emergency room with chest pain and breathing problems.* The next day, I presented to Dr. David Moron a copy of Dr. Rea's diagnosis of my EHS. Dr. Moron claimed that because he never heard about EHS, then I was delusional. The next day I was subjected to another mental evaluation by a doctor familiar with EHS, Dr. Cannelus Carallampus who concluded that the only problem I had was to explain to people that electricity causes me harm. I was released immediately afterwards. Id.

After Dr. Moron refused to include the findings of Dr. Carallampus on my medical records I filed a federal law suit to amend my medical records and to compel DARS to provide the doctor recommended shielding room for rehabilitation of my EHS. Id.

* The radiation exposures inside the buildings caused me life-threatening swelling of heart as documented by the medical records of the emergency room. Docket 25, Moron et al, Id.

At no time during the federal litigation, the then Texas Attorney General, Greg Abbott disputed the evidence on the record proving that he, through his agents, to conceal the harm caused by exposure to radiation and the legitimacy of EHS as a physical medical condition and as a disability, and to deny the doctor recommended shielding room, removed from my Application record among other evidence:

The Decision of the Social Security finding my electromagnetic sensitivity a severe impairment; pictures showing swelling of face and eyes, and how the swelling inside the skull is pushing an eye out of its socket; Affidavits of persons attesting to my mental stability and to my reactivity to electricity; and an interview of the then President of the World Health Organization in which she declares her EHS. Id.

Despite that Dr. Morom did not dispute my right to amend my medical records, and to conceal Abbott's falsification of government records, disability discrimination and retaliation and to dismiss the case, Judge Crane wrote:

"Plaintiff's claims that Ms. Murray's determination that Plaintiff was eligible for rehabilitation services on his mental disability but not on his alleged electrical sensitivity violated his due process rights and right to be free from stigma." At no time I have claimed or testified that I have a mental disability. Unopposed Motion to Recuse Judge Crane, Docket 25, pg 9, Id.

"Plaintiff also submitted a letter from Dr. William Rea requesting a testing environment free from electromagnetic fields that could affect the outcome of Plaintiff's tests for other disorders." Docket 18, pg 2, Morom et al, Id.

Nowhere on his letter, Dr. Rea states that I have other disorders. Dr. Rea states:

"I have evaluated this patient medical condition and it is important that the patient have a proper testing environment in order to attain maximum potential from this patient. The testing area should be devoid of any chemicals and any appliance that may emit electromagnetic fields that could significantly affect the outcome of this patient's tests." Docket 25, pg 10, Id.

See Dr. Rea's letter, Docket 16, Exhibit 11, Id.

86. In disclosing that her brother, Judge Crane, participated on her decisions as Trustee of the McAllen Ind. School District, Debbie Crane-Alliseda stated:

"Between Scott, Ernie, my dad (and) Randy... They would write all my speeches for me before I'd go to debates (at the board meetings)" she told the crowd. "Then, they'd tell me what I was going to say. All I had to do do at debates was remember to say, 'My name is Debbie Crane-Alliseda and this is what I believe in.' And they would make sure I knew what I believed in." Four to vie to fill Scott Crane's seat, The McAllen Monitor, Feb. 15, 2015 at 1B, 3B.

Apparently, after realizing the seriousness of the incriminating statements, Mrs. Crane-Alliseda attempted to retract her statements. Id.

The evidence proving the collusion of Greg Abbott with the Obama Administration, with MISD officials and with others to place more than 25,000 wireless devices in MISD schools; to compel parents to medicate children who became sick by exposure to the microwave radiation at school; to lower the academic standards to conceal the harm being caused on children's brains by the microwave radiation at school; and to retaliate against those who denounced the injustice is detailed on the federal law suit against Chief Judge Hinojosa and others. Docket 1, pgs 220-291, Hinojosa et al., Id.

Judge Crane has disclosed his close friendship with Chief Judge Hinojosa. Honoring the legacy of Scott Crane, the McAllen Monitor, July 15, 2017 at 1A, 8A.

87.. Docket 113, pgs 72-76, Sharyland ISD et al, Id.

88.. To grant STSD officials Motion for Summary Judgment, and to conceal the fraud on the Courts to conceal the harm being caused on children by the radiation at school, Judge Crane refused to consider undisputed evidence and claims proving that the evidence STSD officials submitted to the Court by mistake, and the evidence that they submitted to the Court in support of their Motion for Summary Judgment proves STSD officials falsification of government records and more than 7 acts of perjury to the Court to conceal their disability discrimination and retaliation against my children and against myself to conceal that the radiation at school is causing children EHS and brain, eye, blood, nerve, heart, and DNA damage and other severe physical harm that defeats the purpose of education; to conceal that the radiation exposures at school are responsible for the poor academic performance, for the thousands of reports of student and teacher sickness, for the increasing number of children suffering of life-threatening illnesses, and for the increasing numbers of children collapsing in class and committing suicide; to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for private enrichment; to conceal that the lowering of academic standards was to conceal the harm being caused on children's brains by the microwave radiation at school; to conceal that taking advantage of the pervasive corruption in the State of Texas, Greg Abbott and the Obama Administration started with our children an extremely dangerous and suicidal experiment bound to cause harm even to generations to come; and to conceal that the future of our children and of our national security are being sold to the wireless lobby.

Dockets 91,92,93,94,95,96,97,98,99,100,101,105,106, 108,109, Sharyland ISD et al; Dockets 11,4,14, Hinojosa et al, Id.

Evidence on the record proves beyond reasonable doubt the collusion of Judge Crane with Justices of the 13th Court of Appeals in fraud on the Courts to conceal the harm being caused on children by the microwave radiation at school.

While the Travis County District Attorney and a grand jury were investigating claims that 13th Court of Appeals Chief Justice, Rogelio Valdez misappropriated court funds for personal use, an appellate Court attorney filed a law suit against Justice Valdez claiming retaliation for denouncing the theft. The law suit was transferred to McAllen Division and assigned to Judge Crane who in turn stopped attempts by the Appellate Court attorney to compel Chief Justice Valdez to produce more evidence of the theft of Court funds. Grand jury inquiries made concerning chief Justice, the Monitor, April 9, 2015 at 6B; Valdez Keeps records requests at bay, the Monitor, April 11, 2015 1B,5B.

"In the course of the civil lawsuit, Anderson's attorney has pointed to 10 instances he says show that Valdez allegedly posted the same travel expenses to both his political campaign and the appellate court local fund. Documents showing alleged double-postings are contained in exhibits filed in the court record." Valdez keeps records request at bay, at 5B, Id.

My law suit against Chief Judge Hinojosa and others cites to the evidence on the record proving Chief Justice Valdez and other Justices fraud on the 13th Court of Appeals to conceal the collusion of Judge Rodriguez, Judge Tijerina, Judge Bobby Flores, Judge Bafalles, Abbott, and Mr. Hinojosa with SISD officials in disability discrimination and retaliation against my children and against myself to conceal the harm being caused on children by the microwave radiation at school. Docket 1, pgs 9-13, 137, 174,176,177, 182-217, Hinojosa et al, Id.

Undisputed evidence on the record has proven beyond reasonable doubt that to conceal the collusion of JP Ismael "Mello" Ochoa, Judge Carlos Ortega, Dr. Berdo Montano, and 370th District Court Judge Noe Gonzales to forge an "Agreed Motion to Dismiss" to conceal a fraud of more than \$4,000 and to conceal the aggravation of my EHS when I was compelled to attend a trial under penalty of arrest, Chief Justice Valdez, and Justices Rose Vella, Dori Contreras Garza, Linda Reyna Yanes, Gina M. Benavides, and Nelda W. Rodriguez committed fraud on the 13th Court of Appeals. Docket 1, pgs 182-187; Docket 4, pgs 11-13; Id; Docket 91, Apps 3-294 to 3-296, Sharyland ISD et al, Id.

An article on the Monitor described how after JP Ochoa pleaded guilty to receiving thousands of dollars in bribes, 370th District Judge, Noe Gonzalez sentenced JP Ochoa to probation.

The Texas Commission of Judicial Conduct "admonished" Judge Gonzalez for allowing an attorney to pay himself more than \$1 million from a receivership account. State District judge sanctioned. The Monitor, Sept. 5, 2014 at 1A, 7A.

Former 13th Court of Appeals Justice, Linda Yaffes sentenced a former school Board Trustee to probation for transporting 1,200 pounds of marijuana. Former trustee gets probation for transporting marijuana, the Monitor Jan. 29, 2016 at 1^B.

Undisputed evidence on the record has proven beyond reasonable doubt that to conceal the collusion of SISD officials, Judge Rodriguez, Judge Bañales, and Mr. Hinojosa in the fraud on the 92nd District Court to conceal the harm being caused on children by the radiation at school, and to deny my Petition for Writ of Mandamus, Justices Rose Vella, Gina Benavides, and Gregory Perkes committed fraud on the 13th Court of Appeals. Petition for Writ of Mandamus No. 13-12-00253; Docket 1, pgs 188-205, Hinojosa et al., Id.

Undisputed evidence on the record has proven beyond reasonable doubt that to conceal the collusion of SISD officials with Judge Tijerina and Mr. Hinojosa in the forging of a Final Decree of Divorce to prevent expert medical evaluations for treatment of the harm caused on my children by the radiation at school, and to deny another Petition for Writ of Mandamus and to deny the appeal, Chief Justice Valdez, and Justices Garza, and Longoria committed fraud on the 13th Court of Appeals. Petition for Writ of Mandamus No. Appeal No. 13-14-00420

(Despite of undisputed evidence proving that Judge Tijerina and Mr.

Hinojosa forged a Final Decree of Divorce to conceal the aggravation of my children's EHS by the radiation at school Justices Nelda V. Rodriguez, Dori Contreras Garza and Gina M. Benavides denied my Motion to Assign Visiting Judges to the Petition and denied the Petition for Writ of Mandamus to compel the 92nd District Court to grant my Motion for protective Orders.)

According to a Monitor article, charges of driving while intoxicated against Justice Longoria were dismissed "in the interest of justice".

"Jaime E. Tijerina of Mission has been elected to membership in the Fellows of the Texas Bar Foundation."

"Election is a mark of distinction and recognition of Tijerina's contributions to the legal profession." Texas Bar Foundation honors Jaime Tijerina, The Advance News Journal April 20, 2016.

Justice Dori Contreras Garza announced her intention to run for Chief Justice after Chief Justice Valdez announced his retirement. Contreras to seek chief spot on appeals court, the Monitor, March 29, 2017 at 1B.

"After nearly 15 years of serving with Chief Justice Valdez as a justice, it is with great pleasure and enthusiasm that I seek election to follow the legacy of fairness that the 13th Court of Appeals enjoys." Id.

Former 92nd District Court Judge, Jaime E Tijerina will run for Justice on the 13th Court of Appeals. Tijerina to run for 13th Court of Appeals, the Monitor, April 25, 2017 at 3A.

"I believe in God, my country and my community here in South Texas," Tijerina said in a Monday news release." Id.

"I feel it is now my duty to step up and fight for what is right here at home." Id.

The corruption of SUSD officials continues unaddressed and undeterred.

To avoid embarrassing litigation and publicity, SUSD officials settled claims of retaliation against those who denounced a theft of more than 1.6 million dollars of school funds. Sharyland ISD approves settlement for former employee, the Monitor July 9, 2015, at 1B; Sharyland district reaches agreement with administrator in grievance hearing, Jan 30, 2016, 1d; Sharyland ISD moves forward with settlement, April 19, 2016, 1d.

In some of the attempts to avoid prison time for felony fraud charges, Ken Paxton attempted to remove the trial Judge and defunded the State prosecutors. Attorney general's criminal cases transferred to different county, The Monitor Junello, 2017 at 4A; Unpaid bills put trial of Texas attorney general in limbo, March 30, 2017 at 8a, 1d.

"It is outrageous that the prosecution should be derailed by the defendant somehow, or the defendant's supporters or friends, defunding the prosecution." said Joe Turner, a veteran Austin attorney. the Monitor, March 30, 2017, at 7A, 1d.

"In 2015, Paxton accepted a \$100,000 contribution for his legal bills from the head of a company his office was investigating for Medicaid fraud despite internal agency rules that prohibit such gifts. His office at the time said Paxton was aware of the policy but that no rules were violated." Texas attorney general donors include conservative group, the Monitor, July 6, 2017 at 3A.

In a well published case of school officials retaliation, after a jury awarded the plaintiff's millions of dollars in damages, Judge Crane dismissed the case, allowing the school Board of Trustees to settle for pennies on the dollar. See also, Two trustees, city worker plead guilty to extortion, Jan 13, 2016 at 1A, 6A.

The irrational and criminal cruelty described herein, as in other atrocities against children, may be fueled or exacerbated by the use of illegal drugs. The Third Reich was fueled by hard drugs, a new book says, How Hitler's Henchmen Were Kept Hopped Up, The New York Times Dec. 10, 2016 at C1.

Evidence on the federal record proves that the pervasive corruption in South Texas extends to federal agents and prosecutors.

After a jury found that FBI agents committed perjury on their attempts to frame him with heroin possession, a Mexican Mafia member filed 20 causes of action against 50 FBI agents, several unknown U.S. Customs and Border Protection agents, U.S. Marshalls agents, DPS troopers, Hidalgo County Sheriff J.E. Eduardo Guerra and several more federal government agents. Mexican Mafia member sues feds over wrongful arrest, the Monitor, Dec. 21, 2015 at 1A, 4A.

"Cantu's lawyer said in this instance the government acted like a gang against his client, arresting him and attempting to put him away for life knowing he had done nothing wrong." 4A, Id..

"I believe if the government's attorney looked at the evidence more carefully, the charges should have been dropped earlier, Friedman said." Id.

The evidence presented herein demonstrates that as in other cases, federal and State law enforcement and investigative agencies, under the excuse of national security are attempting to conceal the harm being caused on children by the microwave radiation at school.

"A unit run by President Barack Obama's political staff inside the Environmental Protection Agency operates illegally as a 'rogue law enforcement agency' that has blocked independent investigations by the EPA's inspector general for years, a top investigator says." EPA accused of blocking independent investigations, the Monitor May 7, 2014 at 6B.

"Under the heavy cloak of national security, the Office of Homeland security repeatedly rebuffed and refused to cooperate with the OIG's request for information or cooperation." Patric Sullivan, EPA assistant inspector for investigations. Id.

During his tenure as Texas Attorney General, Greg Abbott refused to allow the production of a police report identifying those engaged in a retaliatory harassment and investigation. City of Mission Police Report No. 2013-00015805; Docket 1, pg 214, Hinojosa et al, Id.

Under the treath of national security, school officials intimidated Dr. Samuel Milham to not make more measurements of radiation reaching students and teachers at school..Samuel Milham MD, MPH, Dirty Electricity, (2010) pg 611.

89. After committing fraud on the 92nd District Court to prevent expert medical evaluations of the harm caused on my children by the radiation at school, Judge Rodriguez received thousands of dollars to get elected Hidalgo County Criminal District Attorney and was hired to represent school districts. Judge resigns, announces run at DA Guerra, the Monitor, Aug. 30, 2013 at 1B, 8B; Guerra: DA's race against old ally 'will be a hurtful campaign,' the Monitor, Nov. 8, 2013 at 1B, 8B; Mission attorney to head 92nd state District Court, the Monitor, Oct. 4, 2013 at 3B; Docket 1, pgs 295, 297, 312, Docket 14, pg 31, Hinojosa et al., Id.

"The ethics commission found Rodriguez violated the state's election code on 12 contributions that totaled \$10,830 that came from area lawyers, whose employers or law firm was not identified in the campaign finance report." Judge Orderedd to pay 500, Ricardo Rodriguez Jr. faced charges of not fully disclosing campaigns contributions in 2010. The Monitor, July 16, 2012 at 1A; Docket 1, pg 297, Docket 14, pg 43, Hinojosa et al., Id.

90. Some of the undisputed evidence on the record that Judge Tijerina refused to consider is detailed on my Motion for reconsideration of the denial of my Motion for Protective Orders, and of the denial of my Motion to appear by phone to Court, and my Motion to Disqualify Mr. Hinojosa as my ex-wife's attorney which includes my Declaration under penalty of perjury detailing the collusion of Judge Rodriguez and Mr. Hinojosa with SISD officials in fraud on the Courts to conceal the harm caused on children by the radiation at school. Clerk's Record 236-274 (Clk's R. dated 1/27/2015); Clk's R. 207, (Clk's R. dated 4/10/2015), Mendoza v. Mendoza Cause No. F-1591-11-A, 92nd District Court, Hidalgo County, Texas. Docket 14, pgs 31-45, Hinojosa et al., Id.

See Motion to Appear by Phone to Judicial Proceedings (Clk's R 24-49, (Clk's R. dated 1/27/2015), and Motion for Protective Orders, Clk's R. 59-1198 (Clk's R. date 4/10/2015), Id.

The divorce case was set for Jury trial on March, 3, 2014. Docket Control Order, Clk's R. 77 (Clk's R. dated 2/17/2015), Id.

According to the Court Coordinator, Judge Tijerina did not make preparations for the Jury Trial set for March 3, 2014.

The day of trial, Judge Tijerina did not allow me to appear by phone, and denied my motion to appear by phone to Court, my motion for protective orders, and my motion to disqualify Mr. Hinojosa as my ex-wife's counsel. Clk's R. 275, 276, 277, (Clk's R. dated 1/27/2015), Id; Hinojosa et al., Id.

91. Clks R. 278-299 (Clks R. dated 1/27/2015), Mendoza, Id; Docket 14, pgs 41,42,43, Hinojosa et al, Id.

Former Judge Jaime E. Tijerina is working as inhouse counsel for the city of Mission. On a phone conversation, Judge Tijerina did not deny his collusion with SISD officials and Mr. Hinojosa to forge the Final Decree of Divorce to prevent expert medical evaluations for treatment of the harm caused on my children by the radiation at school to conceal the harm being caused on other children by the radiation at school, telling me instead that he did not want to have the conversation again.

92. Docket 14, pgs 31-44,61, Hinojosa et al, Id.

93. Dockets 18,21, Hinojosa et al, Id.

My Complaint submitted to Judge Alvares cites to specific concrete and undisputed evidence on the record proving beyond reasonable doubt:

The collusion of Chief Judge Hinojosa, Judge Ormsby, SISD officials, Judge Rodriguez and Mr. Hinojosa in falsification of government records, more than 7 acts of perjury, and in disability discrimination and retaliation against my children and against myself to conceal that the radiation at school is causing children EHS and brain, eye, blood, nerve, heart, and DNA damage and other severe physical harm that defeats the purpose of education. Docket 1, pgs 1-131; Docket 14, pgs 2-65, 66-73, Hinojosa et al, Id.

The collusion of Chief Judge Hinojosa, Judge Ormsby, Judge Crane, Judge Ramos, Rick Perry, Greg Abbott, SISD officials, MISD officials, Justices of the 13th Court of appeals and others with the Obama Administration to conceal the harm being caused on children by the microwave radiation at school. Docket 1, pgs 132-333; Docket 4; Docket 14,

The irrational and criminal cruelty described herein, as in other atrocities against children may be fueled or exacerbad by the use of illegal drugs. See How Hitler's Henchmen Were Kept Hopped Up, The Third Reich was fueled by hard drugs, a new book says, the New York Times, Dec. 10, 2016 at C1.

Other evidence of Judge Alvarez irrational cruelty, and corruption.

In another civil law suit dismissed by Judge Alvarez a child "...argued Guilleromo Arriaga, 39, a former Donna coach, snuck into her room and had sex with her multiple times, according to court documents." Donna school district hit by another lawsuit, the Monitor, Jan. 26, 2016 at 1B, B.

An article in the Monitor described how teachers committed sexual assaults against children with impunity at the McAllen Ind. School District, and in other article the Monitor describes how school districts conceal these sexual assaults. Public information scarce about possible teacher misconduct, Feb 6, 2017, at 4A.

In another law suit, Judge Alvarez silenced claims of intimidation by local authorities.

"Garcia insisted his clients had faced intimidation."

"Because we're terrified," he told the judge. "They're afraid for their safety because the police chief..." Alvarez did not let him continue." Federal judge sets another hearing for BorderFest feud, the Monitor, Jan. 27, 2016 at 1A, 6A.

To conceal school officials corruption and retaliation, Judge Alvares dismissed a law suit brought by 29 former and current employees.

"I had to read her order multiple times because this was clearly wrong," Peña said. "I was in shock of how she misapplied the law."

"She is 100 percent wrong," Peña said. "Anytime someone working for the government suppresses fundamental right, it's actionable cause of action under 1983 as long as you can prove the elements," Peña said."

"They keep doing the same thing because nobody stops them," Peña said. "Then we wonder why we are making all the news about being the most corrupt in Texas and in the country. It's because no one does anything." La Joya ISD retaliation law suit thrown out, the Monitor, July 23, 2015, at 1B, 6B.

94. Clks R. 26-37, The State of Texas v. Jesus Mendoza, Jesus Mendoza v. Ken Paxton, Cause No. F-1591-11-A, 92 nd District Court, Hidalgo Texas.

95. Clks R. 165-182, Id.

96. At no time during the litigation, Paxton opposed my Motions to Appear by Phone to Court, my Motions to Dismiss or my motion for default Judgment, or my Motion for Jury Trial. Clks R. 131, 145, 150, 157, 317, 321, Id.

97. After someone destroyed the Reporter's Record, the 13th Court of App ordered a hearing on the 92nd District Court. After a hearing on July 27, 2017 in which I was allowed to appear by phone as accommodation to my EHS, the Court Reporter issued a Supplement of Transcript of the Proceedings corroborating the facts that had been proved on the hearing of Nov. 8, 2017. During the hearing, Paxton attempted to conceal that he admitted to the legitimacy and seriousness of my disability EHS, when in response to a doctor's letter describing my life-threatening EHS and my inability to be inside buildings or in other places where there is radiation without suffering severe physical harm and even death, Mr. Paxton withdrew his Motion to enforce by incarceration the fraudulent support orders.

112.. My Complaint against Chief Judge Hinojosa details the retaliation against doctors that have denounced the massive medical malpractice to conceal the harm caused by microwave radiation. Docket 1, pgs 242,243,259,260,264, Hinojosa et al, Id.

In just over a year, more than 60 doctors who denounced the massive medical malpractice to conceal the harm caused by microwave radiation have disappeared or found dead under suspicious circumstances.
Erin Elizabeth, Holistic Doctor Death Series: Over 60 Dead In Just Over a Year, March 12, 2016.

My Complaint against Chief Judge Hinojosa cites to evidence on the record documenting the pervasive public corruption and violence in this area, how even Abbott has admitted this corruption, and how even FBI agents feared for their safety when investigating corruption of school officials in this area. Docket 1, pgs 234,235,292-313, Id.

113.. Cause No. P-0135-16-A.

After officials of the McAllen Ind. School District placed a massive amount of powerful microwave transmitters on the low ceiling of schools, the increased radiation caused an exodus of students and teachers. After MISD officials failed in their attempts to defraud the tax payer of 298 million dollars to renovate the schools into high ceiling schools, MISD officials went door to door trying to recruit back students.

"We lost students the last few years in McAllen, and we're trying to figure out exactly why." MISD Board of Trustees Conrado Alvarado. McAllen ISD officials hit the streets for students, the Monitor May 22, 2016 at 1B.

The former FBI Director James Comey ignored my Requests to Protect my Children. wirelesswatchblog.org.

Comey's FBI Public Corruption Task Force is looking the other way to school officials corruption in exchange for selling the future of our children and of our national security to the wireless vendors, while terrorising those who denounce injustice, and launching investigations against the lowest bidders of multi-million government projects to allow higher bidders to take the contracts.

Impeachment and removal from office of the named federal Judges will be a strong deterrent to ongoing judicial corruption and will save the lives of millions of children.

Evidence indicates that federal agents are using the pervasive public corruption for extortion, intimidation and manipulation of the State Courts to conceal the crimes being committed against children.

During the time I was in federal Court on my claims against some Judges for their retaliation for denouncing their fraud of millions of dollars in federal funds, a government professor at the University of Texas in Edinburg told me that he was also a victim of retaliatory harassment for denouncing the pervasive corruption.

During that time, the professor told me that a FBI investigation had resulted in indictment of 98 individuals which included most of the State and County Judges presiding on the Courthouse in Edinburg, and some attorneys, and public officials for bribery and other corruption.

A day after I attempted to make a criminal complaint with the local FBI office against the Judges that committed fraud of federal funds, 3 identified FBI agents were caught attempting to place contraband on my car. The evidence of the failed retaliatory framing attempts was not disputed during the federal litigation. See Docket 91, Apps 3-288, 3-289, Sharyland ISD et al., Id; Docket 4, pgs 5,6, Hinojosa et al., Id.

The same day that the government professor, an attorney, and some family members were to testify before U.S. Magistrate Judge Dorina Ramos on my claims of retaliation for denouncing the fraud of millions of dollars in federal funds, Judge Ramos cancelled the hearing, impairing my ability to reassemble witnesses. Docket 91, App 3-288, Sharyland ISD et al., Id; Docket 4, pg 5, Hinojosa et al., Id.

During the years 2003-2004, in response to undisputed evidence on the record proving Judge Ramos and Chief Judge Hinojosa's fabrication of testimony to conceal the retaliation for denouncing the fraud of millions of dollars in federal funds, FBI agent Rafael Uribe explained to me that the prosecution of the 98 indicted individuals was still pending, and that while under the supervision of Judge Ramos, she ordered him to commit perjury on a hearing before her Court to conceal that federal agents allowed a federal criminal to escape.

During the time I was making filings and serving documents on the federal Court, one of my former neighbors and prosecutor, Terry Leonard and others engaged in intimidation and retaliatory harassment against myself.
