

## OPEN LETTER TO THE JUDICIARY.

Dear Judge, scientific evidence has proven that unlimited use of wireless devices is causing children Electrohypersensitivity EHS, brain damage, and other severe physical harm. Please consider the following facts when adjudicating cases of child misbehavior, since orders limiting the use of wireless devices can protect our children and can prevent recidivism.

- A) Use of cell phones is exposing children to microwave and ULF/ELF radiation at power levels exceeding the federal safety guidelines which cause harm even to adults. (1)
- B) Exposure to this radiation has caused harm to teachers, to fire fighters, to police officers and to other adults. (2)
- C) Use of wireless devices is exposing children to more than 250,000 uW/m<sup>2</sup> of microwave radiation, and exposure to less than 150,000 uW/m<sup>2</sup> of microwave radiation can cause EHS, and brain, eye, blood, nerve, heart, and DNA damage even to adults. (3)
- D) Chronic exposure to the radiation emitted by wireless devices increases by 500% the children's risk of cancer and increases by 450% the risk of dying to children suffering of life-threatening illnesses. (4)
- E) Addiction to wireless devices increases by more than 150% the risk of suicide and can cause the same problems caused by the use of drugs. (5)
- F) In my family, several children were born with brain damage. The common thing in these children is that their mothers were users of cell phones while pregnant. The number of children with brain damage has increased from 1 in 10,000 to 1 in 50, and experts warn that the use of microwave devices by children and pregnant women is bound to leave no child without brain damage, and that by the time parents become aware of this danger, we are bound to lose many children. (6)

Consideration of these facts during your efforts to protect our children is highly appreciated. If more evidence is necessary, I will be happy to oblige

Respectfully,

Tel. (956)583-7012
