

RE: CRIMINAL COMPLAINT OF VIOLATION OF CHILDREN AND OF DISABLED  
CONSTITUTIONAL RIGHTS.

WILLIAM BARR,  
U.S. ATTORNEY GENERAL  
SPECIAL PROSECUTIONS, CIVIL RIGHTS DIVISION.  
950 Pennsylvania Ave. N.W.  
Washington, D.C. 20530-00-01.

Dear U.S. Attorney General,

I respectfully request your office and investigation and prosecution of this Criminal Complaint of Violation of Children and of Disabled Constitutional Rights.

The attached Request to Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr. to recuse himself from the prosecution of Raul Lopez, who has been charged with a mass shooting, cites to evidence on the record proving the criminal collusion of Mr. Rodriguez with the Governor of Texas, <sup>\*</sup>the Texas Lt. Governor, Dan Patrick, the Texas Attorney General, Ken Paxton, the Director of the Texas Rangers, Steven McCraw, and with federal agents and others on the attempts to conceal that bullying is provoking mass shootings and other tragedies. \*(Greg Abbott)

Specific, concrete and undisputed legal, medical, and scientific evidence on the record has proven that Paxton admitted in Court his attempts to conceal with my murder the collusion of Abbott with Mr. Rodriguez, and with members of the judiciary and others on the attempts to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal:

1. The first part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation

$$\begin{aligned}
 f(x) &= \int_0^x \frac{1}{\sqrt{1-t^2}} dt \\
 &= \arcsin x
 \end{aligned}$$

2. The second part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation

- i). That school children are being exposed to harmful radiation, including microwave radiation above the federal safety limits which causes harm even to healthy and strong adults;
- ii). That school children are being exposed to the same microwave radiation that has caused harm to teachers, to fire fighters, to police officers and to other adults;
- iii). That the radiation at school is increasing by more than 500% the children's risk of cancer and increasing by more than 450% the risk of dying to children suffering from life-threatening illnesses
- iv). That the radiation at school is causing children Electrohyper-sensitivity, and brain, eye, blood, nerve, heart, and DNA damage and other severe harm and disabilities that defeat the purpose of education.
- v). That the radiation at school is responsible for the poor academic performance, for the increasing number of children suffering from learning and behavioral disabilities, for the millions of visits to the school nurse, for the millions of student and teacher absences for health reasons, for the increasing number of children collapsing in class and committing suicide, and for the increasing number of children suffering from life-threatening and from terminal illnesses;
- vi). That the switch from wired to wireless Internet in schools was not to improve education, but for illicit enrichment;

- vii). That Greg Abbott and Dan Patrick lowered the academic standards in the State of Texas, and manipulated grades and the number of children with disabilities to conceal the harm being caused on our children's brains and bodies by the microwave radiation at school;
- viii). That Abbott and federal agents manipulated more than 25 Judges to commit fraud on their Courts to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are masking the harm being caused on children by the microwave radiation at school;
- ix). That taking advantage of the pervasive corruption in this area, Greg Abbott, Dan Patrick and the Obama Administration started with our children an extremely dangerous and suicidal experiment bound to cause harm even to the children of our children and even to generations to come;
- x). And to conceal that under the excuse of national security, the future of our children, the future of our country, and the future of our national security are being sold to the wireless lobby as detailed by specific, concrete, and undisputed legal, medical, and scientific evidence on the record cited on the Petition to Impeach 3 Federal Judges submitted to the U.S. House of Representatives, to the U.S. Attorney General, and to the U.S. Dept. of Education and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

Attached is evidence of the collusion of the U.S. Attorney for the Southern District of Texas, Ryan Patrick, the son of the Texas Lt. Governor, Dan Patrick, with U.S. District Judge, Ricardo H. Hinojosa, U.S. Magistrate Judge, Peter E. Ormsby, U.S. District Judge, Randall Crane, and U.S. District Judge, Micaela Alvarez in the malicious persecution of a doctor perceived to have the expertise to diagnose the harm being caused on children by the microwave radiation at school, to silence and to intimidate other doctors from denouncing the harm being caused on children by the radiation at school.

For all these reasons, and as accommodation to my disability, and to the disabilities of others similarly situated, I respectfully request an investigation and prosecution of the crimes against children and against the disabled detailed herein.

Your prompt response to this Criminal Complaint can save children's lives and can be a strong deterrent to the ongoing criminal activity against children and against the disabled.

Respectfully submitted,

 20 Sept, 2019.

**DISCLAIMER:**

Nothing in this Criminal Complaint, by implication or otherwise, conveys that I believe or advocate violence as evidenced by my years of litigation denouncing the atrocities being committed against children and against the disabled.

RE: RECUSAL REQUEST TO HIDALGO COUNTY CRIMINAL DISTRICT ATTORNEY,  
RICARDO P. RODRIGUEZ JR.

RICARDO P. RODRIGUEZ JR.

HIDALGO COUNTY CRIMINAL DISTRICT ATTORNEY.

Dear Mr. Rodriguez,

I respectfully request your recusal from the prosecution of Raul Lopez, Case Nos. CR-0083-17-B, CR-1762-18-B, on the ground that evidence on the record shows that your family and yourself, in collusion with the Governor of Texas, Greg Abbott, the Lt. Governor, Dan Patrick, the Texas Attorney General, Ken Paxton, the Texas Rangers and federal agents are attempting to conceal that bullying is provoking shooting and other tragedies; on the ground that I have children that can become innocent victims of bully provoked shootings; and on the ground that an honest and independent prosecutor is necessary to bring bullies and their sponsors to justice as explained herein.

Evidence proves that you are attempting to conceal that bullying provoked the Lopez mass shooting. Yourself and your sister (449th District Judge) attended and participated on the Conference "Active Threat, Active Shooter: When Despair Turns to Anger, on the Path to Violence" in which an expert explained to you how bullying is provoking mass shootings and other tragedies and that at least 75% of the mass shooters were provoked by bullying. Yet, you are not investigating or prosecuting the bully/es that provoked the Lopez tragedy despite that Lopez relatives have claimed that Lopez was bullied. See Active shooter protocols discussed at the latest DHR conference, Progress Times 8/9/2019, at III.

Other evidence proving your collusion to conceal that government sponsored bullying is provoking shooting and other tragedies includes the fact that neither your office, nor the Texas Rangers or the FBI investigated whether the child shoot dead by police after he brought a toy gun to school and the child that fell to his death from a school bus were proked by bullying. Another case of government sponsored bullying is the case of Micah Gary Joel Rolph, a teacher who was bullied by students and by school officials and even beaten by the school police to the complacence of the Texas Rangers and the FBI. Former RGC teacher alleges beating by school police, the McAllen Monitor Aug. 8, 2019.

As you are aware, bullying is so pervasive in this area that an FBI agent testified in federal Court that himself and others feared for their safety when they became victims of school officials' sponsored bullying.

The McAllen Monitor, Editorial Sept. 13, 2013 at 7B.

Abbot's office did not allow me to explain to parents, by phone on a Conference, how bullying is provoking the mass shootings and other tragedies and Abbott's Report does not include measures to prevent bullying. After two mass shootings within a month in the State of Texas, and to conceal that bullying is provoking mass shootings, Abbott's only specific proposed measure was to expedite execution of the mass shooters. Loaded issue, No special session on guns, The Monitor, Sept. 5, 2019 at 8A. (Evidencing the fraud on the Courts to conceal the cause of mass shootings).

During the Obama Administration I submitted a Complaint to the U.S. Attorney General and to the U.S. Dept. of Homeland Security detailing how federal agents, under the excuse of national security were concealing that bullying was provoking shooting and other tragedies. See The Root Cause of Mass Shootings: Government Sponsored Bullying, Exh. K attached herein.

For a fixed  $\epsilon > 0$ , let  $\mathcal{A}_\epsilon$  be the set of all  $\mathcal{A} \in \mathcal{A}$  such that  $\mathcal{A} \cap \mathcal{B}_\epsilon \neq \emptyset$ .

Evidence on the record has proven your collusion with Abbott, and with school officials and members of the judiciary in falsification of records, in perjury and in fraud on the Courts to conceal disability discrimination and retaliation against my children and against myself; to prevent expert medical care for my children's Electrohypersensitivity EHS; and to conceal that the wireless/microwave radiation at school is causing children EHS, and brain, eye, blood, nerve, heart and DNA damage and other severe harm and disabilities that defeat the purpose of education. Because of your fraud on your Court, the EHS of my youngest child is now as in my case, Life-threatening. See Exhs. A-J, attached herein.

As you are fully aware, I have been homebound for more than 7 years with life-threatening EHS. Exposure to the same microwave radiation reaching children at school causes me among other things, swelling of vital organs and symptoms of heart attack and of stroke. I have been violently ill several times. At times, I struggle to breathe even with oxygen. I am in pain all the time. This is a horrible way to die. My EHS has been recognized by federal and State agencies and by Courts as a physical medical condition and as a disability. EHS proves conclusively that the microwave radiation at school is causing children harm and disabilities that defeat the purpose of education. See Exhs. A-J. See [wearetheevidence.org](http://wearetheevidence.org)

The Texas Attorney General, Ken Paxton has admitted in Court the seriousness and legitimacy of my EHS and has admitted his attempts to conceal with my murder your collusion with Abbott, with school officials, and with members of the judiciary to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are masking the harm being caused on children by the microwave radiation at school.

To conceal the harm being caused on children by the radiation at school, your sister did not allow me to explain to parents of the Edinburg ISD how school children are being exposed to the same microwave radiation that has caused harm to teachers, to fire fighters and to police officers and to other adults.

I am not dealing with allegations. The specific, concrete, and undisputed legal, medical and scientific evidence proving your crimes against children and against the disabled is cited on the Petition to Impeach 3 Federal Judges submitted to the U.S. House of Representatives; to the U.S. Attorney General; and to the U.S. Dept. of Education which is posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

I can testify on a Court of law and under penalty of perjury to the facts proving your crimes against children and against the disabled.

(By phone, health permitting)

For all these reasons, and as accommodation to my disability, I am requesting your recusal from the case against Raul Lopez and to assign an independent prosecutor.

Respectfully submitted,

  
Jesus Mendoza  
2202 E. 28th St. Mission, Texas 78574 Tel. (956) 583-7012

**DISCLAIMER:**

Nothing in this Request, by implication or otherwise, conveys that I advocate or believe in violence, as evidenced by my litigation denouncing the atrocities against children and against the disabled. I believe that eventually, prosecutors with integrity will bring bullies and their sponsors to justice.

- B). The Physician Statement of Disability issued by the Texas Dept. of Aging and Disability Services detailing major life activities and functions substantially limited when exposed to radiation.
- C). Excerpts of a Decision of the Social Security finding my electro-magnetic sensitivity a medically determinable and severe impairment.
- D). Pictures showing some of the effects caused by exposure to radiation and chemicals, including life-threatening rashes and loss of skin and facial swelling; and how the swelling inside my skull is so severe as to push an eye out of its socket.
- E). Citation and description of more than 70 peer-reviewed scientific studies documenting the symptoms of EHS and of the harm being caused on children by the microwave radiation at school.
- F). Open Letter to the Judiciary detailing with legal, medical, and scientific evidence the harm being caused on children by radiation.
- G). Read the Fine Print detailing how cell phones and other wireless devices emit power levels of microwave radiation that cause harm even to adults, and how this radiation can cause harm even to the children of our children. Cell phones can emit more than 5 times the federal safety limits. Popular cellphones tested for radio-frequency radiation, the McAllen Monitor Aug. 25, 2019 at 11A.

**RE: Jesus Mendoza**

To Whom It May Concern:

The above patient has been under my care for many years. He is currently suffering from severe hypersensitivities to chemical fumes, odors, and a life-threatening electro-hypersensitivity. .

It is medically necessary that he be allowed to appear by phone for court. Please allow him to have phone conferencing as he is unable to tolerate the building. If this patient appears in person in court, his speech, concentration, memory, and hearing will be severely impaired. If he is confined inside a building or in other places where there is radiation, he could suffer irreversible harm including death.

Exposure to sources of radiation emitted by power lines, electric transformers and motors, computers, fluorescent lights, and wireless devices, causes Mr. Mendoza severe pain, swelling of vital organs, breathing difficulties; as well as speech, concentration, memory, and hearing deficits. Also, exposure to some chemicals, fumes, and odors can cause the same health effects as listed.

If you have any questions regarding this please, please feel free to contact my office.

Sincerely Yours,

Alfred R. Johnson, D.O.

## OPEN LETTER TO THE JUDICIARY.

Dear Judge, scientific evidence has proven that unlimited use of wireless devices is causing children Electrohypersensitivity EHS, brain damage, and other severe physical harm. Please consider the following facts when adjudicating cases of child misbehavior, since orders limiting the use of wireless devices can protect our children and can prevent recidivism.

- A) Use of cell phones is exposing children to microwave and ULF/ELF radiation at power levels exceeding the federal safety guidelines which cause harm even to adults. (1)
- B) Exposure to this radiation has caused harm to teachers, to fire fighters, to police officers and to other adults. (2)
- C) Use of wireless devices is exposing children to more than 250,000 uW/m<sup>2</sup> of microwave radiation, and exposure to less than 150,000 uW/m<sup>2</sup> of microwave radiation can cause EHS, and brain, eye, blood, nerve, heart, and DNA damage even to adults. (3)
- D) Chronic exposure to the radiation emitted by wireless devices increases by 500% the children's risk of cancer and increases by 450% the risk of dying to children suffering of life-threatening illnesses. (4)
- E) Addiction to wireless devices increases by more than 150% the risk of suicide and can cause the same problems caused by the use of drugs. (5)
- F) In my family, several children were born with brain damage. The common thing in these children is that their mothers were users of cell phones while pregnant. The number of children with brain damage has increased from 1 in 10,000 to 1 in 50, and experts warn that the use of microwave devices by children and pregnant women is bound to leave no child without brain damage, and that by the time parents become aware of this danger, we are bound to lose many children. (6)

Consideration of these facts during your efforts to protect our children is highly appreciated. If more evidence is necessary, I will be happy to oblige.

Respectfully, Jesus Mendoza Tel. (956) 583-7012

# Appendix 1. Electromagnetic hypersensitivity (EHS): excerpts from a summary by Dr Erica Mallery-Blythe<sup>80</sup>

EHS is characterized by an awareness of/adverse response to even extremely weak electromagnetic fields (far below current safety levels) of varying frequencies, intensities and waveforms. It has been demonstrated to be an “environmentally inducible bona-fide neurological syndrome”. It is a primary physical issue, not a psychological one. Conscious perception can vary with age, gender and physiology. Effects can occur even in those not experiencing symptoms at a cellular level, and it is possible that everybody could potentially develop EHS as every cell in our body is dependent on electrical signals.

**Common symptoms:** Headaches, dizziness, sleep disturbance, sensory up-regulation, dermatological issues, palpitations, visual/auditory disturbances, membrane sensitivity, muscle twitching, hyperactivity/fatigue, memory/concentration disturbance and anxiety (psychiatric symptoms such as anxiety and depression are likely to be secondary to the physiological effects rather than a primary cause).

**Exposure-induced:** EHS is a cumulative, exposure-triggered condition, and exposures are rising rapidly. If EHS is unmanaged and there is general deterioration, there will be reaction to an increasingly broad range of frequencies at increasingly low intensities. The number of devices triggering symptoms will increase, symptomatic distances will decrease and irreversibility will become more likely.

The number of people with EHS symptoms who have not yet linked them to exposure is likely to be far higher than the estimated 4–10% of the population reported by several countries. Given the ubiquity of exposure in all environments, it can be difficult for people to notice the association. **Extrapolated figures suggest that 50% of the population may be affected by 2017.** With enough exposure, it is possible that EHS could manifest in all members of the population. Many children are affected but undiagnosed. They are more likely to develop EHS since their exposure is higher and their systems are developing.

**Socioeconomic impact of EHS and human rights:** EHS is already affecting a very large number of people, many of whom are unable to work due to their condition, resulting in lost revenue. An extra burden is placed on healthcare agency resources due to inappropriate diagnosis and management of common symptoms. In more severe cases, individuals are forced to live in extreme isolation, poverty and poor health, with some living in cars and tents, which can also prove threatening to health and life, especially in extreme temperatures. They cannot access basic, life-sustaining public amenities, such as grocery stores and healthcare facilities, which constitutes a clear breach of their human rights.

*“I have been contacted on a daily basis by individuals with EHS, medical practitioners, school and parent groups, legal representatives, the media and political bodies looking for medical advice on EHS or the health effects of EMF in general. This is an increasingly demanding task and therefore I have founded a medical doctors’ organisation entitled PHIRE (Physicians’ Health Initiative for Radiation and Environment) in order to increase the available support for those requesting it” (<http://phiremedical.org/>).*

Dear Esteemed Legislators and Public Servants,

I commend you for addressing the concerns of your highly educated constituents about the health hazards of wireless technology in the classroom. Thank you for your careful consideration of H. 2030 and S. 2079 to ensure safe use of technology in our schools and classrooms.

Despite industry campaigns to create controversy in the peer reviewed literature via "creative study design"<sup>1</sup>, the current weight of the evidence demonstrates obvious harm from wireless technologies. The sum of quality, peer reviewed evidence amassed since the 1950's is so great, that denial of this evidence is like denying of the laws of gravity.

As a former medical school assistant professor and internist, I have spent the bulk of my 20-year career caring for extremely sick, hospitalized patients, and teaching medical students and residents clinical medicine. I have published in the peer reviewed literature, served as a peer

*Exh. J1*

reviewer, and taught hundreds of medical students and residents how to critically evaluate the medical literature. I have read extensively on the health impacts of electromagnetic fields (EMF's), and am highly qualified to opine on this topic.

This testimony, however, I write as the mother of two electrosensitive children who have been harmed by wireless technology, and are no longer able to attend school. By telling our story, I hope to prevent other children and their families from being harmed as we have: physically, socially, emotionally and mentally, and to give you an understanding of the human consequences of omnipresent Wi-fi and radiofrequency radiation (RFR) in our schools.

I am a law abiding, tax-paying resident of XXXXXXXXXX. Yet, **my children ages 6 and 9, with physician diagnosed electromagnetic intolerance, have absolutely no access to an education, in either public or private school.** In August 2017 both kids became ill in their respective classrooms, after only 3 days of school, and were unable to return. I am currently not able to find a school (without Wi-fi and not under a cell tower) that doesn't make them ill. As a result, they will need to be homeschooled this year, unless the school district reconsiders our request for 504 accommodations that was denied last month.

#### **My daughter:**

In May of 2016, my 2<sup>nd</sup> grade daughter reported immediate onset dizziness, nausea, and vertigo whenever the smart board was used in her classroom. With longer exposures (i.e. when the teacher screened movies on the smart board), she reported confusion, with very intense nausea and dizziness. As the year progressed, she developed short term memory loss and had marked behavioral changes. The first week of summer, she attended a camp under multiple cell towers, and after only 2 hours, she developed what was later recognized as acute radiation toxicity. She manifested all the school symptoms, plus more severe neuropsychiatric issues, many of which lasted for months, including: hyper-somnolence, akathisia, a tic disorder, extreme emotional lability/crying for no apparent reason, outbursts of anger and chronic dizziness. During this period, she was acutely sensitive to cell phone radiation/Wi-Fi/ cell towers/and other types of RFR. Of note, when levels of RFR were subsequently measured in her classroom, the power density was extremely high: 125,000  $\mu\text{W}/\text{M}^2$ , a level clearly associated with many ill health effects, including DNA damage, behavioral changes, and concentration difficulties). She has recovered, thankfully, but she remains sensitized to RFR when exposed. After only 3 days in school this year she was too dizzy and nauseous to return to the school she loved.

#### **My son:**

In December 2016, after starting a new school, my son developed new onset, autism-like behavioral changes that were progressive. With each passing week at the new school, he became progressively more aggressive and violent, attacking his sister many weeknights by punching and kicking her for no apparent reason. He also regressed developmentally and was no longer willing to dress/undress or wash himself. He had frequent headaches and severe difficulties with concentration most days after coming home from school. After two months of school, he began attacking other family members, including me, and his grandmother who lived with us. He had fits of rage in which he was very difficult to restrain physically. During these fits, he was often destructive. In February, he kicked a sliding glass shower door so hard it broke, and

later fell on my foot crushing several toes. In early March, after our daughter offhandedly mentioned that the school bus made her very dizzy, we decided to experiment and see if taking both kids off the bus would change anything. Both kids were angry about this decision, but shockingly, after 24 hours of not riding the bus, my son's violence and aggression stopped entirely. There was no further aggression in the home, apart from several episodes that occurred after heavy radiation exposures outside the home, and once the school year was over, my son was back to his normal, sweet self. After only 2 days of restarting school last month, my son immediately became aggressive towards his sister.

#### **Background:**

Both kids are developmentally normal and completely healthy. When they are exposed to RFR, they become very ill, both in different ways. We were only able to connect my son's behavior with RFR exposure because of his sister's observations. In 2016 we noticed that every time we would go to certain stores, like Home Depot or Target, my son would walk in the store behaving normally, but after a few minutes, he would go crazy: kicking, yelling, throwing himself on the floor. It got so bad that I made a point of never going to those places with him because it was too embarrassing. One day his sister said, "You understand what is happening here, right mom? Whenever I get dizzy in a store, he gets crazy – it's the radiation!" Indeed, as we subsequently observed our son in various environments, her observation was correct.

#### **We know RFR is the problem because our home is a white zone:**

Our home has been free of RFR since my daughter was diagnosed in 2016. We removed our Smart meter, cancelled the alarm service, exchanged Wi-fi for a wired ethernet connection, and made the other necessary changes to create an environment that would allow our daughter to heal from radiation toxicity. We do not use cell phones anywhere near the kids, and keep them in airplane mode most of the day. We bought low EMF<sup>2</sup> cars, that we personally measured before buying, to ensure the kids wouldn't be exposed to RF or heavy magnetic fields in the car. Since most Americans live in homes/drive cars that are electromagnetically polluted and kids carry phones that irradiate them 24/7, it is very difficult for parents to make a connection between behavioral changes and/or health issues and RFR. Simply put, parents never get to see what their kids are like when unexposed, even for even a few days.

#### **We are the tip of the iceberg:**

Had we not figured out that RFR was the cause of my son's behavioral changes and violent aggression, he undoubtedly would have ended up institutionalized and medicated. Possibly for life. Currently, there are many kids being medicated for psychiatric conditions, who may not have any medical problem aside from physiologic manifestations of non-ionizing radiation exposure(RFR).

#### **Next steps:**

Massachusetts has an incredible opportunity to lead the nation in creating solutions for safe technology use in school. You have seen the catastrophe of the opioid crisis, and I am grateful

for how quickly you developed the political will to address it. Wi-fi in schools is hazardous to the cells in every one of our children and staff members, regardless of whether they can "feel it" or not. I urge you to take swift political action to protect our school children and staff now, at the start of this school year. I assure you that it will be easier and more cost effective to act now, before the onslaught of lawsuits begins (filed by parents of injured children, teachers, and school bus drivers<sup>3</sup> injured at school and in the workplace), than after countless people are injured. We can connect you with experts to help your schools develop a short-term plan to reduce all non-emergency-related exposures in school, and long-term plans to remove Wi-fi and establish hard-wired infrastructure. Thank you for your careful consideration of this urgent health matter. Please report out of committee favorably and promptly H.230 An Act relative to best management practices for wireless in schools and public institutions of higher education and S.2079 An Act reducing non-ionizing radiation exposure in schools. Please don't hesitate to contact me if I can provide additional information.

<sup>3</sup> Bus drivers worldwide are being exposed to extremely high levels of RFR, quickly making bus driving a risky occupation because: 1) Passengers carry multiple cell phones, and operate them inside an enclosed metal space (the bus) which greatly amplifies the emitted radiation. 2) Cell phones, if used inside a vehicle that is moving rapidly, emit even greater amounts of RFR when searching for the next cell tower. 3) Some buses even have Wi-fi, again if in an enclosed metal space, which will reflect and amplify the RFR. Our children's school bus carried only elementary schoolers, with only 3 or 4 cell phones, but the result was a very high level of RFR for the driver and students. A similar bus carrying high schoolers would probably have 10 or 20 cell phones turned on at any given time, leading to extreme exposure levels for the driver. Please consider school bus policies that will protect the drivers and passengers, in addition to in-school policies.

RE: THE ROOT CAUSE OF SHOOTING TRAGEDIES: GOVERNMENT SPONSORED BULLYING.

JILLIAN PETERSON

JAMES DENSLEY  
Dept. of Criminal Justice  
Metropolitan State University.

Dear professors, this is in response to your article "What we've learned from studying mass shootings" which details your 2-year study founded by the US Nat. Inst. for Justice, a research arm of the US. Dept. of Justice.

According to my law and government professors, historically, and under the excuse of national security, federal and state agencies have used mobing to silence and retaliate against those who denounce injustice, and against their families. Mobing is also known as Bullying and Organized Stalking and Harassment, and also as Russian Roulette for the crazies that participate in bullying to see who gets killed.

More than 20 years of studying bullying has confirmed my professors claims and has confirmed that government-sponsored bullying is provoking many or most of the shooting tragedies. This is self-evident by the fact that the bullies are not prosecuted and by the swift intervention of federal and state agents to vanish the evidence showing the motive that provoked the tragedies, and to blame them on a mental, random problem.

During the Obama Administration I submitted a complaint to the US Attorney General and to the US Dept. of Homeland Security detailing how federal agents, under the excuse of national security were concealing that bullying was provoking shooting and other tragedies. Mendoza v Sharyland Ind. School District Case No. 7:11-cv-29 (S.D. TX. 2011) Dock. 91, App 3-308.

Although you point to bullying as the trauma that provokes the shooting tragedies, unless the root cause is clearly identified to our legislators and decision makers, these crimes against innocent people will continue unaddressed and undeterred. Respectfully,

**GOVERNMENT SPONSORED BULLYING IS THE MOST SERIOUS TERRORISM THREAT TO OUR DEMOCRACY, TO OUR COUNTRY AND TO OUR NATIONAL SECURITY. (A Summary)**

Bullying includes the same micro-aggressions used by the FBI, the CIA and the NSA to silence the disabled and to retaliate against those who denounce injustice, including flash mobs, high-speed tailgating and road harassment, and any conceivable aggression to isolate and bankrupt the victims emotionally, socially and economically. (Children have been picked-up dead from the pavement in this area). Government sponsored bullying includes attempts to derail the victims' daily activities, attempts to frame into a crime or into involuntary commitment, and attempts to provoke the target into suicide and/or violence.

Bullyies come from all walks of life, from students, teachers, pilots, pastors, doctors, attorneys, and even legislators and Judges. Many engage in bullying as a hobby, specially those with mental problems and who are easily deluded in believing that they are undercover agents. On many cases, the disabled and whistle blowers are selected for bullying target practice. Bullyies who "score" may be rewarded with money, drugs, raises, and even a night at a topless bar. Bullyies are promised immunity if caught breaking the law. As a bully stated: "With national security, we can get away with murder." To facilitate bullying, the target is demonized as a child molester, mentally insane and dangerous, unpatriotic, or as a spy and terrorist. Bullying is a copy cat of the mobing used by Hitler for oppression of the disabled and of the unpopular. Government organized bullying is not only the most serious terrorist threat, but has suverted our democracy into a police State and into a de facto oligarchy.

**DISCLAIMER:** Nothing in this Summary, either by implication or otherwise threatens or advocates violence. I believe that eventually, honest prosecutors and Courts will bring bullyies and their sponsors to justice.

RE: REQUEST TO RECUSE FROM THE CASE AGAINST DR. JORGE ZAMORA QUEZADA (Amended)

Ryan K. Patrick  
United States Attorney for the Southern District of Texas.  
1000 Louisiana Suite 2300 Houston, Texas 77002.

Dear Mr. Patrick, I respectfully request your recusal from the case against Dr. Jorge Zamora Quezada as accommodation to my children and to my disability and as accommodation to others similarly situated, on the ground that evidence on the record has proven the criminal conspiracy between your Dad, the Texas Lt. Governor, Dan Patrick, the Texas Governor, Greg Abbott, and the Texas Attorney General, Ken Paxton and others to conceal that a massive Medicaid and Medicare fraud are masking the harm being caused on our children by the microwave radiation at school; to conceal that the lowering of academic standards was to conceal the harm being caused on our children's brains and bodies by the microwave radiation at school and to conceal that the switch from wired to wireless Internet in schools was not to improve education, but for illicit enrichment; on the ground that Dr. Quezada belongs to a group of physicians perceived to have the expertise to diagnose the harm being caused on our children by the microwave radiation at school; and on the ground that the prosecution of Dr. Quezada is an attempt to intimidate and silence other doctors from diagnosing the harm being caused on our children by the microwave radiation at school and to conceal the massive Medicaid and Medicare fraud and other federal crimes being committed against children and against the disabled as detailed on the Petition to Impeach 3 Federal Judges submitted to the U.S. House of Representatives and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

Re: Request to refer Criminal Complaint and Request for Help to federal authorities.

Steven McCraw, Director of the Texas Rangers  
P.O. Box 4087 Austin, Texas 78773  
Tel. (512)424 7771

Dear Mr. McCraw, during our phone conversation of June 24, 2016, you declined jurisdiction over my Criminal Complaint and Request for Help submitted to your office on June 22, 2016, indicating that because Electrohypersensitivity, EHS, my Complaint and Request for Help should be referred to local and to federal authorities including the FBI and CIA.

As you are aware, the evidence on the record has proven the collusion of state and local authorities in retaliation against my children and against myself for denouncing their fraud on the courts to conceal that the microwave radiation in schools is causing children EHS, and brain, blood, and DNA damage and other severe harm that defeats the purpose of education.

As you are aware, the evidence on the record has proven that those participating in the retaliation and on the attempts to conceal the harm being caused on children by the radiation at school include the former Texas Attorney General and now Governor of Texas, Greg Abbott; the Texas Attorney General, Ken Paxton; the former Commissioner of Child Protective Services, John Specia; the Commissioner of CPS, Henry Hank Whitman; the Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr.; officers of the local police Dept.; school officials and others.

For these reasons, I respectfully request your office to refer this matter to the federal authorities that you indicated. Your prompt attention to this Request can save ongoing pain and suffering to children.

Respectfully submitted

OPEN LETTER TO THE UNITED STATES ATTORNEY FOR THE SOUTHER DISTRICT OF TEXAS, RYAN PATRICK.

RE: REQUEST FOR RESIGNATION FROM OFFICE.

Dear Mr. Patrick,

I respectfully request your resignation from office on the ground that specific, concrete, and undisputed evidence on the record proves your criminal collusion with your Dad, the Texas Lt. Governor, Dan Patrick, and with the Governor of Texas, Greg Abbott and others in intimidation and retaliation against doctors perceived with expertise to diagnose the harm caused on children by the microwave radiation at school to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal:

- a) That school children are being exposed to power levels of radiation that cause harm even to adults, including power levels exceeding the federal safety limits;
- b) That school children are being exposed to the same microwave radiation that has caused harm to teachers, to fire fighters, to police officers and to other adults;
- c). That the radiation at school is increasing by more than 500% the children's risk of cancer and increasing by more than 450% the risk of dying to children suffering from life-threatening illnesses;
- d). That the microwave radiation at school is causing children Electrohypersensitivity, and brain, eye, blood, nerve, heart, and DNA damage and other severe harm and disabilities that defeat the purpose of education;
