PARENTS'  
ALERT  
(2020)

PARENTS' ALERT 2020 are fliers and Letters to the Editor that collectively cite to specific, concrete, and undisputed evidence on the record proving how those in charge of educating and protecting our children manipulated more than 25 Judges to conceal:

- i). That school children are being exposed to radiation that causes harm to adults, including radiation above the federal safety limits and to the same wireless/microwave radiation that has caused harm to teachers, to fire fighters, and to police officers and to other adults;
- ii). To conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal that the microwave radiation at school is causing children Electrohypersensitivity and other catastrophic harm and disabilities that defeat the purpose of education
- iii). To conceal that government sponsored bullying is provoking mass shootings and other acts of terrorism against children, and others;
- iv). To conceal that government sponsored bullying and technologies used by the military, including wireless/radiation surveillance are being used to silence and retaliate whistle blowers and others;
- v). And to conceal that under the excuse of national security, the future of our children, and the future of our country and of our national security are being sold to the wireless lobby.

SHARING THIS INFORMATION WITH PARENTS, SCHOOL OFFICIALS, DOCTORS, ATTORNEYS, JUDGES, LEGISLATORS, AND WITH LOCAL, STATE AND FEDERAL AUTHORITIES CAN SAVE LIVES, SPECIALLY CHILDREN'S LIVES.

FEDERAL AND STATE LITIGATION HAS PROVEN THAT UNDER THE EXCUSE OF NATIONAL SECURITY, THOSE IN CHARGE OF EDUCATING AND PROTECTING OUR CHILDREN MANIPULATED MORE THAN 25 JUDGES TO CONCEAL THAT SCHOOL CHILDREN ARE BEING EXPOSED TO POWER LEVELS OF RADIATION ABOVE THE FEDERAL SAFETY LIMITS AND TO THE SAME MICROWAVE RADIATION THAT HAS CAUSED HARM TO TEACHERS, TO FIRE FIGHTERS, TO POLICE OFFICERS AND TO OTHER ADULTS, AND TO CONCEAL THAT THE MICRO-WAVE RADIATION AT SCHOOL IS CAUSING CHILDREN ELECTROHYPERSENSITIVITY, AND BRAIN, EYE, BLOOD, NERVE, HEART, AND DNA DAMAGE AND OTHER SEVERE HARM AND DISABILITIES THAT DEFEAT THE PURPOSE OF EDUCATION AS DETAILED ON THE PETITION TO IMPEACH 3 FEDERAL JUDGES SUBMITTED TO THE U.S. HOUSE OF REPRESENTATIVES, TO THE U.S. ATTORNEY GENERAL, TO THE U.S. DEPT. ## PARENTS' ALERT

Evidence on the record proves that under the excuse of national security, federal agents manipulated more than 25 Judges to conceal that the microwave radiation reaching children at school is causing children Electrohypersensitivity, and brain, eye, blood, nerve, heart, and DNA damage and other severe harm and disabilities that defeat the purpose of education.

According to my government and law professors, the most serious threat to our country and to our democracy, are those in charge of national security, because they are recruited from the cream and the crop of hate groups; because under the excuse of national security, they manipulate the Judiciary, the Legislative, and even the Executive to pursue private and corrupt agendas; and because they use unlimited resources, unlimited secrecy and unlimited depravity and cowardice to silence and to retaliate against those who denounce injustice.

In essence, we are dealing with paranoid, schizophrenic psychopaths:- with the same mentality that tortured to death millions of men, women and children in concentration camps; with the same mentality that manipulated the Courts to conceal the millions killed by asbestos, tobacco and DDT; and with the same mentality that engaged in terrorism, including poisoning children's milk, injecting pregnant women and toddlers with Plutonium, and burning alive more than 50 children in Waco, Texas.

This is the same mentality that under the excuse of national security is manipulating the Courts to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are concealing that children are being tortured, maimed and killed by the microwave radiation at school, and to conceal that the future of our children and of our national security are being sold to the wireless lobby as detailed by the evidence cited on the Petition to Impeach 3 Federal Judges and Criminal Complaints submitted to the U.S. House of Representatives, to the U.S. Attorney General, and to the U.S. Dept. of Education and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

PARENTS: ALERT ✓

BEING SO SEVERELY ELECTRO-HYPERSENSITIVE IS LIKE BEING A HERMIT IN AN INFERNAL HELL. San Foo. EarthLink Wi-Fi Network (2007) pg 25.

SHARING THIS INFORMATION CAN SAVE CHILDREN'S LIVES.

OUR CHILDREN CANNOT DEFEND THEMSELVES FROM THIS ATROCITY.

I have been home bound for more than 7 years with a life-threatening Electrohypersensitivity EHS, a physical medical condition and a disability. Exposure to the same radiation reaching children at school, including the radiation emitted by power lines, electric motors and transformers, fluorescent lights, Wi-Fi transmitters, cell phones, cell towers, wireless computers, and other sources of radiation causes me among other things, pain; swelling of vital organs and swelling of eyes, face and head; symptoms of heart attack and of stroke; flu and allergy symptoms; rashes and loss of skin; joint and muscle pain; extreme weakness and fatigue; internal bleeding; and stomach, sleeping, vision, hearing, speech, memory, concentration and breathing problems.

The delayed effects of exposure to radiation have been catastrophic. I have a medical history of life-threatening swelling of heart; my rashes and loss of skin have been life-threatening; and the swelling inside my skull has been so severe as to push an eye out of its socket. I have been violently ill several times. I collapsed several times. At times, I struggle to breathe even with oxygen. I cannot be taken to a hospital for emergency health care. I am in pain all the time. THIS IS A HORRIBLE WAY TO DIE.

My Electrohypersensitivity has been recognized by federal and State agencies and by Courts as a physical medical condition and as a disability.

ELECTROHYPERSENSITIVITY EHS, PROVES CONCLUSIVELY THAT THE MICROWAVE RADIATION AT SCHOOL IS CAUSING CHILDREN HARM AND DISABILITIES THAT DEFEAT THE PURPOSE OF EDUCATION.

Despite that EHS is recognized by federal and State agencies and Courts; despite of the thousands of peer-reviewed scientific studies proving the harm caused by radiation; despite that children, teachers, doctors, and attorneys are suffering from EHS; and despite that EHS is reaching epidemic proportions, most doctors are in the dark or in denial of the harm caused by radiation, and continue misdiagnosing, mismeicating, and mistreating the symptoms of EHS and of the harm caused on children by the microwave radiation at school. See [wearetheevidence.org](http://wearetheevidence.org)

**RE: Jesus Mendoza**

To Whom It May Concern:

The above patient has been under my care for many years. He is currently suffering from severe hypersensitivities to chemical fumes, odors, and a life-threatening electro-hypersensitivity. .

It is medically necessary that he be allowed to appear by phone for court. Please allow him to have phone conferencing as he is unable to tolerate the building. If this patient appears in person in court, his speech, concentration, memory, and hearing will be severely impaired. If he is confined inside a building or in other places where there is radiation, he could suffer irreversible harm including death. .

Exposure to sources of radiation emitted by power lines, electric transformers and motors, computers, fluorescent lights, and wireless devices, causes Mr. Mendoza severe pain, swelling of vital organs, breathing difficulties; as well as speech, concentration, memory, and hearing deficits. Also, exposure to some chemicals, fumes, and odors can cause the same health effects as listed.

If you have any questions regarding this please, please feel free to contact my office.

Sincerely Yours,

Alfred R. Johnson, D.O.

DECISION

IN THE CASE OF

Jesus Mendoza  
(Claimant)

CLAIM FOR

Period of Disability,  
Disability Insurance Benefits, and  
Supplemental Security Income

FINDINGS

After careful consideration of the entire record, the Administrative Law Judge makes the following findings:

2. The claimant has not engaged in substantial gainful activity since August 31, 2000, although he continues to engage in work activity.
3. The claimant's electromagnetic sensitivity is a severe impairment, based upon the requirements in the Regulations (20 CFR §§ 404.1521 and 416.921).

# Appendix 1. Electromagnetic hypersensitivity (EHS): excerpts from a summary by Dr Erica Mallery-Blythe<sup>80</sup>

EHS is characterized by an awareness of/adverse response to even extremely weak electromagnetic fields (far below current safety levels) of varying frequencies, intensities and waveforms. It has been demonstrated to be an “environmentally inducible bona-fide neurological syndrome”. It is a primary physical issue, not a psychological one. Conscious perception can vary with age, gender and physiology. Effects can occur even in those not experiencing symptoms at a cellular level, and it is possible that everybody could potentially develop EHS as every cell in our body is dependent on electrical signals.

**Common symptoms:** Headaches, dizziness, sleep disturbance, sensory up-regulation, dermatological issues, palpitations, visual/auditory disturbances, membrane sensitivity, muscle twitching, hyperactivity/fatigue, memory/concentration disturbance and anxiety (psychiatric symptoms such as anxiety and depression are likely to be secondary to the physiological effects rather than a primary cause).

**Exposure-induced:** EHS is a cumulative, exposure-triggered condition, and exposures are rising rapidly. If EHS is unmanaged and there is general deterioration, there will be reaction to an increasingly broad range of frequencies at increasingly low intensities. The number of devices triggering symptoms will increase, symptomatic distances will decrease and irreversibility will become more likely.

The number of people with EHS symptoms who have not yet linked them to exposure is likely to be far higher than the estimated 4–10% of the population reported by several countries. Given the ubiquity of exposure in all environments, it can be difficult for people to notice the association. **Extrapolated figures suggest that 50% of the population may be affected by 2017.** With enough exposure, it is possible that EHS could manifest in all members of the population. Many children are affected but undiagnosed. They are more likely to develop EHS since their exposure is higher and their systems are developing.

**Socioeconomic impact of EHS and human rights:** EHS is already affecting a very large number of people, many of whom are unable to work due to their condition, resulting in lost revenue. An extra burden is placed on healthcare agency resources due to inappropriate diagnosis and management of common symptoms. In more severe cases, individuals are forced to live in extreme isolation, poverty and poor health, with some living in cars and tents, which can also prove threatening to health and life, especially in extreme temperatures. They cannot access basic, life-sustaining public amenities, such as grocery stores and healthcare facilities, which constitutes a clear breach of their human rights.

*“I have been contacted on a daily basis by individuals with EHS, medical practitioners, school and parent groups, legal representatives, the media and political bodies looking for medical advice on EHS or the health effects of EMF in general. This is an increasingly demanding task and therefore I have founded a medical doctors organisation entitled PHIRE (Physicians’ Health Initiative for Radiation and Environment) in order to increase the available support for those requesting it” (<http://phiremedical.org/>).*

Summary for the Public

Ms. Sage

## SECTION 1

### SUMMARY FOR THE PUBLIC

Cindy Sage, MA  
Sage Associates  
USA

Prepared for the BioInitiative Working Group  
August 2007

These proposals reflect the evidence that a positive assertion of safety with respect to chronic exposure to low-intensity levels of ELF and RF cannot be made. As with many other standards for environmental exposures, these proposed limits may not be totally protective, but more stringent standards are not realistic at the present time. Even a small increased risk for cancer and neurodegenerative diseases translates into an enormous public health consequence. Regulatory action for ELF and preventative actions for RF are warranted at this time to reduce exposures and inform the public of the potential for increased risk; at what levels of chronic exposure these risks may be present; and what measures may be taken to reduce risks.

### C. Problems with Existing Public Health Standards (Safety Limits)

Today's public exposure limits for telecommunications are based on the presumption that heating of tissue (for RF) or induced electric currents in the body (for ELF) are the only concerns when living organisms are exposed to RF. These exposures can create tissue heating that is well known to be harmful in even very short-term doses. As such, thermal limits do serve a purpose. For example, for people whose occupations require them to work around radar facilities or RF heat-sealers, or for people who install and service wireless antenna tower, thermally-based limits are necessary to prevent damage from heating (or, in the case of power-frequency ELF from induced current flow in tissues). In the past, scientists and engineers developed exposure standards for electromagnetic radiation based what we now believe are faulty assumptions that the right way to measure how much non-ionizing energy humans can tolerate (how much exposure) without harm is to measure only the heating of tissue (RF) or induced currents in the body (ELF).

In the last few decades, it has been established beyond any reasonable doubt that bioeffects and some adverse health effects occur at far lower levels of RF and ELF exposure where no heating (or induced currents) occurs at all; some effects are shown to occur at several hundred thousand times below the existing public safety limits where heating is an impossibility.

**It appears it is the INFORMATION conveyed by electromagnetic radiation (rather than heat) that causes biological changes - some of these biological changes may lead to loss of wellbeing, disease and even death.**

Effects occur at non-thermal or low-intensity exposure levels thousands of times below the levels that federal agencies say should keep the public safe. For many new devices operating with wireless technologies, the devices are exempt from any regulatory standards. The existing standards have been proven to be inadequate to control against harm from low-intensity, chronic exposures, based on any reasonable, independent assessment of the scientific literature. It means that an entirely new basis (a biological basis) for new exposure standards is needed. New standards need to take into account what we have learned about the effects of ELF and RF (all non-ionizing electromagnetic radiation and to design new limits based on biologically-demonstrated effects that are important to proper biological function in living organisms. It is vital to do so because the explosion of new sources has created unprecedented levels of artificial

# Popular cellphones tested for rad

BY SAM ROE  
CHICAGO TRIBUNE

The Apple iPhone 7 was set to operate at full power and secured below a tub of clear liquid, specially formulated to simulate human tissue.

With the push of a button, a robotic arm swung into action, sending a pencil-thin probe dipping into the tub. For 18 minutes, it repeatedly measured the amount of radiofrequency radiation the liquid was absorbing from the cellphone.

This test, which was paid for by the Tribune and conducted according to federal guidelines at an accredited lab, produced a surprising result: Radiofrequency radiation exposure from the iPhone 7 — one of the most popular smartphones ever sold — measured over the legal safety limit and more than double what Apple reported to federal regulators from its own testing.

The Federal Communications Commission, which is responsible for regulating phones, states on its website that if a cellphone has been approved for sale, the device "will never exceed" the maximum allowable exposure limit. But this phone, in an independent lab inspection, had done exactly that.

The Tribune tested three more brand-new iPhone 7s at full power, and these phones also measured over the exposure limit. In all, 11 models from four companies were tested, with varying results.

The Tribune's testing, though limited, represents one of the most comprehensive independent investigations of its kind, and the results raise questions about whether cellphones always meet safety standards set up to protect the public.

After reviewing the lab reports from the Tribune's tests, the FCC said it would take the rare step of conducting its own testing over the next couple of months.

We take seriously any claims on non-compliance with the RF (radiofrequency) exposure standards and will be obtaining

Lead technical engineer Jay Moulton places a cellphone in the testing position at the lab, in San Marcos, Calif., 2018.

and testing the subject phones for compliance with FCC rules," agency spokesman Neil Grace said.

The Tribune set out a year ago to explore an important question: Are cellphones as safe as manufacturers and government regulators say?

Though it's unclear whether radiofrequency radiation from cellphones can increase cancer risk or lead to other harm, that question is increasingly pressing given the widespread use of cellphones today. Many children and teenagers may face years of exposure.

The newspaper's testing was not meant to rank phone models for safety — only 11 models were examined, and in most cases just one device was tested. Nor is it possible to know whether any of the cellphones that tested above limits could cause harm. Two of the phone manufacturers, including Apple, disputed the Tribune's results, saying the lab used by the newspaper had not tested the phones the same way they do

But the results of the Tribune's investigation contribute to an ongoing debate about the possible risks posed by radiofrequency radiation from cellphones, and they offer evidence that existing federal standards may not be adequate to protect the public.

Industry officials and manufacturers emphasize that before a new model can be brought to market, a sample phone must be tested and comply with an exposure standard for radiofrequency radiation. But manufacturers are allowed to select the testing lab and only a single phone needs to pass in order for millions of others to be sold.

Companies testing a new phone for compliance with the safety limit also are permitted to position the phone up to 25 millimeters away from the body — nearly an inch — depending on how the device is used. That's because the testing standards were adopted in the 1990s, when people frequently carried cellphones on belt clips.

testing the subject phones compliance with FCC rules," agency spokesman Neil Grace

The Tribune set out a year ago to explore an important question: Are cellphones as safe as manufacturers and government regulators say?

Though it's unclear whether radiofrequency radiation from cellphones can increase cancer risk or lead to other harm, that question is increasingly pressing given widespread use of cellphones. Many children and teenagers may face years of exposure.

The newspaper's testing was meant to rank phone models for safety — only 11 models were examined, and in most cases just one device was tested. Nor is it possible to know whether any of the cellphones that tested above the safety limit could cause harm. Two of the phone manufacturers, including Apple, disputed the Tribune's results, saying the lab used the newspaper had not tested phones the same way they do

But the results of the Tribune's investigation contribute to an ongoing debate about the possible risks posed by radiofrequency radiation from cellphones, and they offer evidence that existing federal standards may not be adequate to protect the public.

Industry officials and manufacturers emphasize that before a new model can be brought to market, a sample phone must be tested and comply with an exposure standard for radiofrequency radiation. But manufacturers are allowed to select the testing lab — and only a single phone needs to pass in order for millions of others to be sold.

Companies testing a new phone for compliance with the safety limit also are permitted to position the phone up to 25 millimeters away from the body — nearly an inch — depending on how the device is used. That's because the testing standards were adopted in the 1990s, when people frequently carried cellphones on belt clips.

In one phase of the Tribune testing, all phones were positioned at the same distance from the simulated body tissue that the manufacturers chose for their own tests — from 5 to 15 millimeters, depending on the model. Apple, for instance, tests at 5 millimeters.

But people now often carry phones closer to the body, in their pockets, which increases their potential exposure to radiofrequency radiation.

To assess this kind of exposure, the Tribune asked its lab to conduct a second phase of testing, placing the phones 2 millimeters away from the simulated body — closer than any of the manufacturers' own tests and far less than the maximum distance allowed by the FCC.

The 2-millimeter distance was chosen to estimate the potential exposure for an owner carrying the phone in a pants or shirt pocket. Under those conditions, most of the models tested yielded results that were over the expo-

sure limit, sometimes far exceeding it.

At 2 millimeters, the results from a Samsung Galaxy S8 were more than five times the standard.

The Government Accountability Office, Congress' research arm, recommended in 2012 that the FCC reassess the exposure limit and its testing requirements, saying that because phones weren't measured while against the body, authorities could not ensure exposures were under the standard.

Seven years later — after a lengthy period of public comment — the FCC came to its conclusion. The agency announced this month that the existing standard sufficiently protects the public and should remain in place.

Few other government officials have acted in recent years to address the possible risks of radiofrequency radiation from cellphones. But in California, the state Public Health Department in 2017 issued rare guidance on how concerned consumers could reduce exposure.

Among other advice: Don't carry cellphones in pockets.

Apple, Samsung respond

When informed of the Tribune's test results and provided with the laboratory's 100-page lab report, Apple disputed the findings, saying they were not performed in a way that properly assesses iPhones.

The Tribune's tests were conducted by RF Exposure Lab, a facility in San Marcos, Calif., that is recognized by the FCC as accredited to test for radiofrequency radiation from electronic devices.

For 15 years, the lab has done radiation testing for wireless companies seeking government approval for new products.

Lab owner Jay Moulton said all the Tribune's tests were done in accordance with detailed FCC rules and guidelines.

"We're not doing anything extraordinary or different here," Moulton said. Any qualified lab "should be able to grab a phone off the shelf and test it to see if it meets requirements."

# FCC Cell Phone Safety Limit Enforcement Probed

10.01.2017 by emily Category [Electromagnetic Health Blog](#)

## Press Release

Below is an inquiry letter sent by attorneys Swankin & Turner to the Federal Communications Commission (FCC) on behalf of the National Institute for Science, Law & Public Policy and Environmental Health Trust questioning the adequacy of the FCC's enforcement of its existing cell phone radiation limits.

### Swankin & Turner Inquiry Letter to the Federal Communications Commission (PDF)

The letter suggests as many as 75% of cell phones on the market today may possibly exceed the FCC's exposure limit.

Examples of how cell phone commonly exceed the safety limit were provided in Exhibit A to the letter. The Swankin & Turner inquiry letter to the FCC raised other equally important issues regarding FCC oversight of cell phones and wireless transmitting devices, including how the FCC considers its current safety limit to protect children given the psSAR assessment methodology the FCC uses was never intended to protect children.

Children absorb twice as much radiation into the brain compared to adults, but the FCC evidences no concern, and young children are using cell phones emitting a level of microwave radiation established for a grown adult.

Swankin & Turner Partner, James S. Turner, Esq., asked,

***"Given the well established greater absorption of radiation in children, and the fact that cell phone manufacturers do not presently offer cell phone models with a low psSAR for children, my clients wish to know how well the FCC considers its present guidelines to protect children."***

Additional issues raised in the inquiry letter relate to the adequacy of the FCC's oversight of the pre-market psSAR assessment process, and post-market psSAR surveillance, as well as regarding the respective roles of the FCC and FDA with regard to cell phone safety and regulation. Clarity was requested on where exactly responsibility for assuring devices conform to the 1.6 W/kg psSAR limit resides.

No acknowledgment of receipt or reply from the FCC has been received four months after the inquiry was submitted to the FCC's General Counsel, Howard Symons, Esq. and Associate Chief Counsel in the Office of Engineering and Technology, Bruce Romano, Esq., with copies to all FCC Commissioners, including FCC Chairman, Tom Wheeler.

The National Institute for Science, Law and Public Policy and Environmental Health Trust suggest media investigate this. Thank you for your attention.

## Press Release

### Health Policy Groups Question FCC's Allowing Manufacturer Violation of Its Cell Phone Microwave Radiation Exposure Limit

*Majority of cell phones on market may exceed FCC's stated  
RF safety limit of 1.6 W/kg, experts warn*

**Washington, D.C., January 10, 2017.** The Federal Communications Commission (FCC)'s General Counsel, Howard Symons, Esq., and Associate Chief Counsel in the Office of Engineering and Technology, Bruce Romano, Esq., have offered no acknowledgement or reply to an inquiry posing questions about whether the FCC is adequately enforcing its existing cell phone radiation safety limits.

The [inquiry letter to the FCC](#) from Swankin & Turner in Washington, D.C. was sent September 9, 2016 on behalf of the National Institute for Science, Law & Public Policy (NISLAPP) and the Environmental Health Trust (EHT). Now four months later, the FCC's lack of reply to important questions contained in the letter raises serious concerns of regulatory responsibility and competency.

The inquiry letter to the FCC suggests as many as 75% of cell phones on the market today may possibly exceed the FCC's exposure limit of 1.6 W/kg peak spatial Specific Absorption Rate (psSAR), due to a +/-30% margin of error (or uncertainty factor) in the Institute of Electrical and Electronic Engineers (IEEE) methodology for assessing psSAR (on which the FCC's exposure limits are substantially based). Any phone with a psSAR of greater than 1.231 W/kg with the 30% uncertainty factor could theoretically exceed the 1.6 W/kg FCC limit.

Examples of how various popular phones brands, and wireless transmitting devices (WTDs) such as tablets, may easily exceed the FCC's limit, with psSARs as high as 2.08 W/kg, were included with the letter as Exhibit A.

The inquiry letter to the FCC from Swankin & Turner also posed other questions regarding FCC oversight of cell phone and wireless transmitting devices, including how the FCC considers its current safety limit to protect children if the psSAR assessment methodology the FCC uses was never intended to protect children.

L. Lloyd Morgan, Senior Research Fellow, Environmental Health Trust, says, "We urge the media, all cell phone users and public health officials to contact the FCC, as well as members of Congress, demanding a response to this important letter of inquiry. It appears many cell phones on the market should never have been certified."

Camilla Rees, Senior Policy Advisor, National Institute for Science, Law & Public Policy, says, "The FCC has failed to protect children, despite scientific evidence there is significantly greater absorption of cell phone radiation in the brain and bone marrow of the skull in children, compared to adults. So the question of how the FCC considers its safety limits to protect children calls for an immediate and urgent reply. An entire generation looks to be at risk."

Dr. Devra Davis, PhD, President of the scientific and policy research organization, Environmental Health Trust, adds, "The issues raised in this inquiry letter highlight the FCC's failures to protect public health. We urge FCC leadership in the new Administration to come to the table with integrity to see that the important questions raised here are answered thoroughly, and that steps are taken to assure compliance with the FCC's psSAR microwave radiation safety limit."

# OPEN LETTER TO THE JUDICIARY.

Dear Judge, scientific evidence has proven that unlimited use of wireless devices is causing children Electrohypersensitivity EHS, brain damage, and other severe physical harm. Please consider the following facts when adjudicating cases of child misbehavior, since orders limiting the use of wireless devices can protect our children and can prevent recidivism.

- A) Use of cell phones is exposing children to microwave and ULF/ELF radiation at power levels exceeding the federal safety guidelines which cause harm even to adults. (1)
- B) Exposure to this radiation has caused harm to teachers, to fire fighters, to police officers and to other adults. (2)
- C) Use of wireless devices is exposing children to more than 250,000 uW/m<sup>2</sup> of microwave radiation, and exposure to less than 150,000 uW/m<sup>2</sup> of microwave radiation can cause EHS, and brain, eye, blood, nerve, heart, and DNA damage even to adults. (3)
- D) Chronic exposure to the radiation emitted by wireless devices increases by 500% the children's risk of cancer and increases by 450% the risk of dying to children suffering of life-threatening illnesses. (4)
- E) Addiction to wireless devices increases by more than 150% the risk of suicide and can cause the same problems caused by the use of drugs. (5)
- F) In my family, several children were born with brain damage. The common thing in these children is that their mothers were users of cell phones while pregnant. The number of children with brain damage has increased from 1 in 10,000 to 1 in 50, and experts warn that the use of microwave devices by children and pregnant women is bound to leave no child without brain damage, and that by the time parents become aware of this danger, we are bound to lose many children. (6)

Consideration of these facts during your efforts to protect our children is highly appreciated. If more evidence is necessary, I will be happy to oblige.

Respectfully,

*Jesus Mendoza*

OREGON SENATE BILL 283 DECLARES AN EMERGENCY TO PREVENT OR REDUCE THE HARM THAT CAN BE CAUSED ON CHILDREN BY THE MICROWAVE RADIATION AT SCHOOL.

"Senate Bill 283 directs the Oregon Health Authority to ensure a study of peer-reviewed, independently-funded scientific studies on the impact of exposure to microwave radiation, particularly exposure to children that results from use of wireless network technologies in schools." David Morrison, Wireless Education Action, News Letter dated June 25, 2019.

"The bill also '...directs the Oregon Health Authority to develop recommendations to schools in this state for practices and alternative technologies that reduce students' exposure to microwave radiation that Oregon Health Authority report identifies as harmful.'" id;

"The first Education Committee hearing (scroll down to SB 283) on March 27th, 2019 included Dr. Paul Dart from Eugene, Dr. Paul Heroux from McGill University in Montreal, a 14 year old minor with microwave sickness acquired in school, David Morrison, a parent & Cindy Franklin, California Brain Tumor Association." id;

Legislators were informed of cancer clusters in schools, and heard testimony from teachers, and students sickened by microwave exposure. For over 60 years, thousands of studies, (by all branches of the U.S. military and NASA), showing biological effects of microwave radiation have been ignored by regulatory agencies prior to introducing wireless devices to the market. Brain cancer is now the leading cause of death for adolescents

"The American Cancer Society, the California Medical Association, the American Academy of Pediatrics, h<sup>n</sup>udreds of scientists and medical professionals internationally have issued warnings against using radiation emitting devices in schools." id;

"In addition to the brief summary above, since 2013, commercial insurance companies no longer insure for 'harm from hazardous effects' of wireless technology. The commercial insurance policy held by Portland Public Schools contains the disclaimer." id.

SHARING THIS INFORMATION WITH PARENTS, SCHOOL OFFICIALS, DOCTORS, ATTORNEYS AND LEGISLATORS CAN SAVE CHILDREN'S LIVES.

OUR CHILDREN CANNOT DEFEND THEMSELVES FROM THIS ATROCITY.

Dear Esteemed Legislators and Public Servants,

I commend you for addressing the concerns of your highly educated constituents about the health hazards of wireless technology in the classroom. Thank you for your careful consideration of H. 2030 and S. 2079 to ensure safe use of technology in our schools and classrooms.

Despite industry campaigns to create controversy in the peer reviewed literature via "creative study design"<sup>1</sup>, the current weight of the evidence demonstrates obvious harm from wireless technologies. The sum of quality, peer reviewed evidence amassed since the 1950's is so great, that denial of this evidence is like denying of the laws of gravity.

As a former medical school assistant professor and internist, I have spent the bulk of my 20-year career caring for extremely sick, hospitalized patients, and teaching medical students and residents clinical medicine. I have published in the peer reviewed literature, served as a peer

---

<sup>1</sup> Many industry funded studies are of short duration, and/or low levels of radiation exposure. Short duration studies would not be powered to prove an endpoint like cancer, which takes a long time to develop in a given patient.

reviewer, and taught hundreds of medical students and residents how to critically evaluate the medical literature. I have read extensively on the health impacts of electromagnetic fields (EMF's), and am highly qualified to opine on this topic.

This testimony, however, I write as the mother of two electrosensitive children who have been harmed by wireless technology, and are no longer able to attend school. By telling our story, I hope to prevent other children and their families from being harmed as we have: physically, socially, emotionally and mentally, and to give you an understanding of the human consequences of omnipresent Wi-fi and radiofrequency radiation (RFR) in our schools.

I am a law abiding, tax-paying resident of XXXXXXXXXX. Yet, my children ages 6 and 9, with physician diagnosed electromagnetic intolerance, have absolutely no access to an education, in either public or private school. In August 2017 both kids became ill in their respective classrooms, after only 3 days of school, and were unable to return. I am currently not able to find a school (without Wi-fi and not under a cell tower) that doesn't make them ill. As a result, they will need to be homeschooled this year, unless the school district reconsiders our request for 504 accommodations that was denied last month.

#### My daughter:

In May of 2016, my 2<sup>nd</sup> grade daughter reported immediate onset dizziness, nausea, and vertigo whenever the smart board was used in her classroom. With longer exposures (i.e. when the teacher screened movies on the smart board), she reported confusion, with very intense nausea and dizziness. As the year progressed, she developed short term memory loss and had marked behavioral changes. The first week of summer, she attended a camp under multiple cell towers, and after only 2 hours, she developed what was later recognized as acute radiation toxicity. She manifested all the school symptoms, plus more severe neuropsychiatric issues, many of which lasted for months, including: hyper-somnolence, akathisia, a tic disorder, extreme emotional lability/crying for no apparent reason, outbursts of anger and chronic dizziness. During this period, she was acutely sensitive to cell phone radiation/Wi-Fi/ cell towers/and other types of RFR. Of note, when levels of RFR were subsequently measured in her classroom, the power density was extremely high: 125,000  $\mu\text{W}/\text{M}^2$ , a level clearly associated with many ill health effects, including DNA damage, behavioral changes, and concentration difficulties). She has recovered, thankfully, but she remains sensitized to RFR when exposed. After only 3 days in school this year she was too dizzy and nauseous to return to the school she loved.

#### My son:

In December 2016, after starting a new school, my son developed new onset, autism-like behavioral changes that were progressive. With each passing week at the new school, he became progressively more aggressive and violent, attacking his sister many weeknights by punching and kicking her for no apparent reason. He also regressed developmentally and was no longer willing to dress/undress or wash himself. He had frequent headaches and severe difficulties with concentration most days after coming home from school. After two months of school, he began attacking other family members, including me, and his grandmother who lived with us. He had fits of rage in which he was very difficult to restrain physically. During these fits, he was often destructive. In February, he kicked a sliding glass shower door so hard it broke, and

later fell on my foot crushing several toes. In early March, after our daughter offhandedly mentioned that the school bus made her very dizzy, we decided to experiment and see if taking both kids off the bus would change anything. Both kids were angry about this decision, but shockingly, after 24 hours of not riding the bus, my son's violence and aggression stopped entirely. There was no further aggression in the home, apart from several episodes that occurred after heavy radiation exposures outside the home, and once the school year was over, my son was back to his normal, sweet self. After only 2 days of restarting school last month, my son immediately became aggressive towards his sister.

#### **Background:**

Both kids are developmentally normal and completely healthy. When they are exposed to RFR, they become very ill, both in different ways. We were only able to connect my son's behavior with RFR exposure because of his sister's observations. In 2016 we noticed that every time we would go to certain stores, like Home Depot or Target, my son would walk in the store behaving normally, but after a few minutes, he would go crazy: kicking, yelling, throwing himself on the floor. It got so bad that I made a point of never going to those places with him because it was too embarrassing. One day his sister said, "You understand what is happening here, right mom? Whenever I get dizzy in a store, he gets crazy – it's the radiation!" Indeed, as we subsequently observed our son in various environments, her observation was correct.

#### **We know RFR is the problem because our home is a white zone:**

Our home has been free of RFR since my daughter was diagnosed in 2016. We removed our Smart meter, cancelled the alarm service, exchanged Wi-fi for a wired ethernet connection, and made the other necessary changes to create an environment that would allow our daughter to heal from radiation toxicity. We do not use cell phones anywhere near the kids, and keep them in airplane mode most of the day. We bought low EMF<sup>2</sup> cars, that we personally measured before buying, to ensure the kids wouldn't be exposed to RF or heavy magnetic fields in the car. Since most Americans live in homes/drive cars that are electromagnetically polluted and kids carry phones that irradiate them 24/7, it is very difficult for parents to make a connection between behavioral changes and/or health issues and RFR. Simply put, parents never get to see what their kids are like when unexposed, even for even a few days.

#### **We are the tip of the iceberg:**

Had we not figured out that RFR was the cause of my son's behavioral changes and violent aggression, he undoubtedly would have ended up institutionalized and medicated. Possibly for life. Currently, there are many kids being medicated for psychiatric conditions, who may not have any medical problem aside from physiologic manifestations of non-ionizing radiation exposure(RFR).

#### **Next steps:**

Massachusetts has an incredible opportunity to lead the nation in creating solutions for safe technology use in school. You have seen the catastrophe of the opioid crisis, and I am grateful

for how quickly you developed the political will to address it. Wi-fi in schools is hazardous to the cells in every one of our children and staff members, regardless of whether they can "feel it" or not. I urge you to take swift political action to protect our school children and staff now, at the start of this school year. I assure you that it will be easier and more cost effective to act now, before the onslaught of lawsuits begins (filed by parents of injured children, teachers, and school bus drivers<sup>3</sup> injured at school and in the workplace), than after countless people are injured. We can connect you with experts to help your schools develop a short-term plan to reduce all non-emergency-related exposures in school, and long-term plans to remove Wi-fi and establish hard-wired infrastructure. Thank you for your careful consideration of this urgent health matter. Please report out of committee favorably and promptly H.230 *An Act relative to best management practices for wireless in schools and public institutions of higher education* and S.2079 *An Act reducing non-ionizing radiation exposure in schools*. Please don't hesitate to contact me if I can provide additional information.

Respectfully,

<sup>3</sup> Bus drivers worldwide are being exposed to extremely high levels of RFR, quickly making bus driving a risky occupation because: 1) Passengers carry multiple cell phones, and operate them inside an enclosed metal space (the bus) which greatly amplifies the emitted radiation. 2) Cell phones, if used inside a vehicle that is moving rapidly, emit even greater amounts of RFR when searching for the next cell tower. 3) Some buses even have Wi-fi, again if in an enclosed metal space, which will reflect and amplify the RFR. Our children's school bus carried only elementary schoolers, with only 3 or 4 cell phones, but the result was a very high level of RFR for the driver and students. A similar bus carrying high schoolers would probably have 10 or 20 cell phones turned on at any given time, leading to extreme exposure levels for the driver. Please consider school bus policies that will protect the drivers and passengers, in addition to in-school policies.

**DOCTORS' MOST GUARDED SECRET.**

The most guarded secret of traditional/conventional doctors is the fact that their medical practice is not based on a precise science, meaning that in many cases, even after complete lab testing and examinations, they are incapable of finding the root cause of even the most common symptoms, signs and illnesses, and meaning that in many cases, diagnosis, medication and treatments are based on probabilities, on trial and error, and at times, on wild guesses. Furthermore, a medical practice that ignores the harm caused by exposure to wireless/microwave radiation meets the definition of medical malpractice and Medicaid and Medicare fraud. This massive medical malpractice and massive Medicaid and Medicare fraud are conclusively proven by Electrohypersensitivity as detailed herein.

It is a fact that cell phones and other wireless devices used by most people emit power levels of wireless/microwave radiation above the federal safety limits. It is a fact that exposure to these levels of radiation causes EHS and other severe physical harm even to healthy and strong adults. It is a fact that chronic exposure to levels of radiation below the federal safety limits causes EHS and other catastrophic harm even to adults. It is a fact that the symptoms of EHS mimic the symptoms and signs of common illnesses. It is also a fact that EHS is reaching epidemic proportions. See [wearetheevidence.org](http://wearetheevidence.org) EHS is diagnosed and treated by doctors with expertise in environmental medicine and after lab testing and/or review of the patient's medical history and of symptoms and signs secondary to exposure to radiation. It is a fact that even expert conventional doctors are not trained in the harm caused by radiation. Id. Then, it is a fact that most traditional doctors are incapable of relating the patients' symptoms and signs to exposure to radiation, and which can be aggravated by toxics found on the blood stream, including pain killers and other prescribed medication, and specially on children including the unborn. *mercury in vaccines*

OPEN LETTER  
TO DONALD J. TRUMP, PRESIDENT  
OF THE UNITED STATES OF AMERICA

Dear President Trump, this is an urgent request to protect our children, to protect our country, and to protect our national security. Specific, concrete, and undisputed evidence on the record has proven that the same way federal agents committed fraud on the Courts to conceal that wireless/radiation surveillance and bullying are used to retaliate against whistle blowers, is the same way federal and State agents are manipulating the Courts to conceal that government sponsored bullying is provoking mass shootings and other tragedies and to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal:

- i). That school children are being exposed to harmful radiation, including radiation above the federal safety limits and to the same wireless/microwave radiation that caused harm to teachers, to fire fighters, to police officers and to other adults;
- ii). To conceal that the wireless/microwave radiation at school is causing children Electrohypersensitivity, and brain, eye, blood, nerve, heart and DNA damage and other catastrophic harm and disabilities that defeat the purpose of education;
- iii). And to conceal that under the excuse of national security, the future of our children, the future of our country, and the future of our national security, are being sold to the wireless lobby as detailed on the Petition to Impeach 3 Federal Judges and on other Criminal Complaints submitted to federal authorities and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

Received on Feb. 7, 2020.

Dear Inspector General, I respectfully request your office to investigate and prosecute this Complaint of Criminal Violation of children, and of the disabled civil rights, on the ground that the U.S. Attorney General, William Barr refused to consider specific, concrete, and undisputed medical, scientific, and legal evidence on the record proving the collusion of the Trump Administration with the Governor of Texas, Greg Abbott, with federal and State agents and prosecutors, and with members of the judiciary to conceal:

- i). That a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal that the wireless/microwave radiation at school is causing children Electrohypersensitivity and other severe and catastrophic harm and disabilities that defeat the purpose of education; (See [wearetheevidence.org](http://wearetheevidence.org))

RE: REQUEST TO CEASE AND DESIST FROM COMMITTING CRIMES AGAINST CHILDREN,  
AGAINST THE ELDERLY, AGAINST THE DISABLED AND AGAINST WHISTLE BLOWERS.

WILLIAM BARR,  
U.S. ATTORNEY GENERAL.

Dear U.S. Attorney General, I respectfully request your office to cease and desist from committing crimes against children, against the elderly, against the disabled and against whistle blowers.

After Dr. Jorge Zamora Quezada was convicted of healthcare fraud, Assistant U.S. Attorney General, Brian A. Benczkowski of the Justice Department's Criminal Division stated:

"The conduct in this case was heinous," "Dr. Zamora-Quezada falsely diagnosed vulnerable patients including the young, elderly and disabled, with life-long diseases requiring invasive treatments that those patients did not in fact need." Zamora Quezada convicted of multiple counts of healthcare fraud; wife acquitted, the McAllen Monitor Jan. 16, 2020 at 1A, 7A.

However, Mr. Benczkowski omits the fact that the U.S. Attorney for the Southern District of Texas, Ryan K. Patrick recused himself from the prosecution of Dr. Zamora in response of evidence proving:

- 1). That the prosecution of Dr. Zamora was an attempt to intimidate and silence other doctors, who like Dr. Zamora, are perceived to have the expertise to diagnose the harm being caused on children by exposure to the wireless/microwave radiation at school;
- 2). Proving the collusion of Ryan Patrick's Dad, the Texas Lt. Governor, Dan Patrick and the Governor of Texas, Greg Abbott, the Texas Attorney General, Ken Paxton, U.S. District Judges, Ricardo H. Hinojosa, Randall Crane and Micaela Alvarez with the Secretary of the U.S. Dept. of Education and others to conceal that children, the elderly, and the disabled are <sup>being</sup> massively misdiagnosed and subjected to unnecessary and heinous invasive treatments that amount to torture;

35

- 3). And proving that those in charge of educating and protecting our children manipulated more than 25 Judges to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal:
- i). That children, the elderly, and the disabled are being exposed to harmful radiation, including radiation above the federal safety limits, and to the same wireless/microwave radiation that has caused harm to teachers, to fire fighters, and to police officers and other adults;
- ii). To conceal that the radiation at school is increasing by more than 500% the children's risk of cancer and increasing by more than 450% the risk of dying to children suffering from life-threatening illnesses;
- iii). To conceal that the wireless/microwave radiation at school is causing children Electrohypersensitivity, and brain, eye, blood, nerve, heart, and DNA damage and other catastrophic harm and disabilities that defeat the purpose of education; (See [wearetheevidence.org](http://wearetheevidence.org))
- iv). To conceal that Greg Abbott and Dan Patrick lowered the academic standards in the State of Texas to allow the fabrication of grades to conceal the harm being caused on children's brains and bodies by the wireless/microwave radiation at school;
- v). And to conceal that under the excuse of national security, the future of our children, the future of our country, and the future of our national security are being sold to the wireless lobby as detailed by the Petition to Impeach 3 Federal Judges and by the Criminal Complaint submitted to your office and posted on Sept. 2019 on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

LETTER TO THE EDITOR

THE ROOT CAUSE OF PERVASIVE JUDICIAL CORRUPTION: FEDERAL AND STATE AGENTS.

Recently, an attorney testified in federal Court how for decades, the Judiciary has replaced the rule of law for the "Valley Law" meaning, cash for Court rulings, judgments, dismissals, bonds, sentences, appeals, etc.

Delgado gets 5 years, The McAllen Monitor Sept. 26, 2019 at 1A, 4A.

However, this criminal corruption is not restricted to the Judiciary, but it is rooted on the federal and State agents that corrupt the Judges. Specific, concrete, and undisputed evidence on the record has proven that the same federal and State agents in charge of educating and protecting our children are the same agents manipulating the Courts to conceal that bullying is provoking mass shootings and other tragedies, and the same agents that manipulated more than 25 Judges to conceal that the wireless/microwave radiation at school is causing children Electrohypersensitivity and other catastrophic harm and disabilities that defeat the purpose of education, and to conceal that the future of our children and the future of our country and of our national security are being sold to the wireless lobby as detailed on the Petition to Impeach 3 Federal Judges and on the Complaint of Violation of Children's Rights submitted to the U.S. Attorney General and to other authorities, and posted on Sept. 2019 on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org) THE COMBINATION OF THIS CORRUPTION HAS LEFT OUR CHILDREN AND THE DISABLED DEFENSELESS AGAINST THESE ATROCITIES.

SHARING THIS INFORMATION CAN SAVE CHILDREN'S LIVES.

Specific, concrete, and undisputed medical, scientific, and legal evidence on the record has proven how federal and State agents in collusion with more than 25 Judges engaged in falsification of government records, in fabrication of testimony and of medical evidence, in disability discrimination and retaliation against children, and in perjury and fraud on the Courts to conceal:

That a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal that the wireless/microwave radiation at school is causing children Electrohypersensitivity and other catastrophic harm and disabilities that defeat the purpose of education; (See [wearetheevidence.org](http://wearetheevidence.org))

RE: THE ROOT CAUSE OF SHOOTING TRAGEDIES: GOVERNMENT SPONSORED BULLYING.

JILLIAN PETERSON  
Dept. of Criminology  
Hamline University.

JAMES DENSLEY  
Dept. of Criminal Justice  
Metropolitan State University.

Dear professors, this is in response to your article "What we've learned from studying mass shootings" which details your 2-year study founded by the US Nat. Inst. for Justice, a research arm of the US. Dept. of Justice.

According to my law and government professors, historically, and under the excuse of national security, federal and state agencies have used mobing to silence and retaliate against those who denounce injustice, and against their families. Mobing is also known as Bullying and Organized Stalking and Harassment, and also as Russian Roulette for the crazies that participate in bullying to see who gets killed.

More than 20 years of studying bullying has confirmed my professors claims and has confirmed that government-sponsored bullying is provoking many or most of the shooting tragedies. This is self-evident by the fact that the bullies are not prosecuted and by the swift intervention of federal and state agents to vanish the evidence showing the motive that provoked the tragedies, and to blame them on a mental, random problem.

During the Obama Administration I submitted a complaint to the US Attorney General and to the US Dept. of Homeland Security detailing how federal agents, under the excuse of national security were concealing that bullying was provoking shooting and other tragedies. Mendoza v Sharyland Ind. School District Case No. 7:11-cv-29 (S.D. TX. 2011) Dock. 91, App 3-308.

Although you point to bullying as the trauma that provokes the shooting tragedies, unless the root cause is clearly identified to our legislators and decision makers, these crimes against innocent people will continue unaddressed and undeterred. Respectfully, 

2202 E. 28th St. Mission, Texas 78574 Tel. (956) 583-7012.

GOVERNMENT SPONSORED BULLYING IS THE MOST SERIOUS TERRORISM THREAT TO OUR DEMOCRACY, TO OUR COUNTRY AND TO OUR NATIONAL SECURITY. (A Summary)

Bullying includes the same micro-aggressions used by the FBI, the CIA and the NSA to silence the disabled and to retaliate against those who denounce injustice, including flash mobs, high-speed tailgating and road harassment, and any conceivable aggression to isolate and bankrupt the victims emotionally, socially and economically. (Children have been picked-up dead from the pavement in this area). Government sponsored bullying includes attempts to derail the victims' daily activities, attempts to frame into a crime or into involuntary commitment, and attempts to provoke the target into suicide and/or violence.

Bullyies come from all walks of life, from students, teachers, pilots, pastors, doctors, attorneys, and even legislators and Judges. Many engage in bullying as a hobby, specially those with mental problems and who are easily deluded in believing that they are undercover agents. On many cases, the disabled and whistle blowers are selected for bullying target practice. Bullyies who "score" may be rewarded with money, drugs, raises, and even a night at a topless bar. Bullyies are promised immunity if caught breaking the law. As a bully stated: "With national security, we can get away with murder." To facilitate bullying, the target is demonized as a child molester, mentally insane and dangerous, unpatriotic, or as a spy and terrorist. Bullying is a copy cat of the mobing used by Hitler for oppression of the disabled and of the unpopular. Government organized bullying is not only the most serious terrorist threat, but has suverted our democracy into a police State and into a de facto oligarchy.

DISCLAIMER: Nothing in this Summary, either by implication or otherwise threatens or advocates violence. I believe that eventually, honest prosecutors and Courts will bring bullyies and their sponsors to justice.

# Unprecedented U.S. survey tracks scope of stalking

>> Tens of thousands among 3.4 million victims leave homes, lose jobs, live in fear

By DAVID CRAIG  
THE ASSOCIATED PRESS

NEW YORK — By the tens of thousands, victims of stalking lose their jobs, flee their homes and fear for their safety, according to a new federal survey providing the most comprehensive data ever on a crime affecting an estimated 3.4 million Americans a year.

About 11 percent of the victims said they had been stalked for five or more years, and one in seven said the stalking compelled them to move out of their home, according to the report by the Justice Department's Bureau of Justice Statistics. It covered a 12-month period in 2005-06.

The study was described as a groundbreaking effort to analyze the scope and varying forms of stalking, which had not been featured in previous versions of the National Crime Victimization Survey.

The number of victims was up sharply from a more limited 1995-96 study commissioned by the Justice Department that estimated 1.4 million Americans a year were targeted by stalkers. Both surveys concluded that women more than twice as likely to be victimized as men.

In the span between the two surveys, e-mail and text messaging emerged as common tactics for stalkers.

"The prevalence of these electronic devices gives stalker another tool in his tool kit, makes it easier to stalk and increases victims' fear," said Cindy Dyer, director of the federal Office on Violence Against Women. "It doesn't increase the number of stalking offenders, but it sure makes their job easier."

The Bureau of Justice Statistics defined stalking as a course of conduct, directed at a specific person on at least two separate occasions, that would cause a reasonable person to feel fear. The most commonly reported types of stalking were unwanted phone calls (66 percent), unsolicited letters or e-mail (31 percent), or having rumors spread about the victim (36 percent).

More than one-third of the victims reported being followed or spied upon; some said they were tracked by electronic monitoring, listening devices or video cameras. About 21 percent said they had been attacked by their stalker — with the forms of assault ranging from a slap to rape.

Nearly 75 percent of victims knew their stalker in some capacity — most commonly a former spouse or ex-boyfriend/girlfriend, sometimes a relative or co-worker.

"The public tends to perceive of stalking as something that happens to celebrities who have a stranger follow them around," said report co-

author Katrina Baum. "This study tells us that stalking is not a stranger phenomenon."

People who were divorced or separated were more vulnerable to stalking than other marital categories, and those aged 18-24 were more likely to be stalked than older people.

Victims reported suffering a range of emotions because of the stalking. Their most common fears included not knowing what would happen next

(46 percent) and fearing the stalking would continue indefinitely (29 percent). Nine percent of the victims said their worst fear was death.

## ARE DEAD IMMIGRANTS VICTIMS OF ELECTRONIC TERRORISM?

The State of Michigan became the first in the nation to criminalize with up to life without parole an electronic aggression and after evidence on the federal record proved that a radiation aggression caused me a life-threatening Electrohypersensitivity and other severe physical harm. (1)

Radiation aggressions can be aerial, land based and by satellite. For decades, directed radiation, including microwaves and invisible lasers have been used for surveillance and as a weapon to harm unsuspected victims. (2)

Evidence on the record shows that the same microwave radiation used to harm employees of the U.S. embassy in Moscow may be the same directed radiation used to harm employees of the US embassies in Cuba and in China (3)

Counsel of record for the U.S. Attorney General claimed that directed radiation, including X-rays can be used for surveillance of homes with children and pregnant women; claimed that private individuals may also be using these deadly technologies; and claimed that the government has no duty to protect people from these acts of terrorism. (4)

Thousands of immigrants have died attempting to enter the U.S. (5)

Because the U.S. government, State governments and hate groups have been attempting to stop immigration by all means necessary, then it is very likely that deadly radiation weapons are being used with impunity to murder unsuspected immigrants and others.

I am willing to testify before any Court of law as to the facts that are of my personal knowledge detailed herein, by phone, health permitting.

PROTECTING THE RIGHTS OF ACCUSED MASS SHOOTER, RAUL LOPEZ CAN BE A STRONG DETERRENT FOR THE BULLYIES THAT ARE PROVOKING MASS SHOOTINGS AND OTHER TRAGEDIES AGAINST CHILDREN AND AGAINST OTHERS.

As detailed on the Request to Recuse the DA from the prosecution of Mr. Lopez (Posted on Sept. 2019 on the Case Law Section of wirelesswatchblog.org) as in the Lopez case, evidence shows that mass shootings and other tragedies are being provoked by government sponsored bullying. Bullyies' favorite targets are the disabled, and after the shooting tragedy, Lopez' family claimed that Lopez was a victim of bullying.

According to experts, bullying can be the trauma provoking mass shootings. See The Root Cause of Shooting Tragedies: Government Sponsored Bullying, Attached herein. At his arraignment, Lopez told the Court that he had been declared mentally incompetent, and his attorney said that Lopez was receiving medication in jail. Accused HLE-B shooter to raise insanity defense, the McAllen Monitor Oct. 23, 2019 at 3A,4A.

A medical expert may conclude that the prescribed medication before the tragedy was an involuntary intoxication that caused or contributed to the Lopez tragedy. According to Dr. Peter R. Breggin, a psychiatrist who has testified as an expert in similar cases, involuntary intoxication occurs when the patient is unaware that the prescribed medication can cause involuntary violence. Medication Madness (2008) pg 13.

Also, a medical expert can prevent that Mr. Lopez be over drugged during his trial, as has occurred in similar cases to conceal that government sponsored bullying is provoking mass shootings and other tragedies.

Furthermore, jury selection should be aimed to prevent that bullyies be selected as jurors. Finally, evidence shows that the Judge on the Lopez case has conflict of interests and should be recused as detailed by Should Judge Mancias Be Recused From the Lopez Case? attached herein.

SHOULD STATE DISTRICT JUDGE FERNANDO MANCIAS BE RECUSED FROM THE LOPEZ CASE? Evidence on the record shows that former 93rd District Court Judge, Rudy Delgado was replaced from the Raul Lopez mass shooting case to conceal that government sponsored bullying is provoking mass shootings against children.

On the Spring of 1998, while I was doing a law internship with the Hidalgo County Criminal District Attorney, a defendant accused of sexual assaults against children shouted to the then 93rd District Court Judge, Eduardo Aparicio "What are you looking at, funny looking idiot." Judge Aparicio ordered the defendant removed from the Courtroom.

At several times, I heard that this defendant was a member of a local hate group and that Judge Aparicio was being harassed in retaliation.

According to one of my professors and to a FBI agent, Judge Aparicio and Judge Mancias were on the list of 98 federal bribery indictments, and that the indictments were to be used by the feds for extortion/manipulation.

A news paper article detailed how Judge Aparicio, before committing suicide, shared with Judge Delgado how harassment can destroy a life.

After the Lopez case was assigned to Judge Delgado, Judge Delgado resigned to face federal bribery charges, and the Governor of Texas, Greg Abbott appointed Jaime Tijerina to the 93rd District Court. Evidence on the record shows the collusion of Abbott with the Texas Rangers and with federal agents to conceal that government sponsored bullying is provoking mass shootings, and the Texas Attorney General, Ken Paxton admitted in Court his attempts to conceal with my murder the collusion of Abbott with Tijerina and the Hidalgo County DA Ricardo P. Rodriguez Jr. to conceal that the microwave radiation at school is causing children Electrohypersensitivity EHS, and other severe harm and disabilities that defeat the purpose of education. Mendoza v. Paxton, Case No. F-1591-11-A 92 nd District Court.

Judge Mancias ignored my written Request to access by phone the criminal proceedings against Mr. Raul Lopez as accommodation to my life-threatening EHS in violation of federal Disability law.

I am willing to testify in Court to these facts, by phone, health permitting.

LETTER TO THE EDITOR

IS J. MANUEL BANALES QUALIFIED TO BE A JUDGE?

The Texas Attorney General admitted in Court his attempts to conceal with my murder the collusion of the Governor of Texas, Greg Abbott with Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr., with Judge Banales, and with federal agents and others on the fraud on the Courts to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal:

- i). That school children are being exposed to harmful radiation, including to radiation above the federal safety limits and to the same wireless/microwave radiation that has caused harm to teachers, to fire fighters, and to police officers and to other adults;
- ii). That the wireless/microwave radiation at school is causing children Electrohypersensitivity, and brain, eye, bleed, nerve, heart, and DNA damage and other severe harm and disabilities that defeat the purpose of education;
- iii). That the lowering of academic standards and the manipulation of grades have been to conceal the harm being caused on children's brains and bodies by the wireless/microwave radiation at school;
- iv). And to conceal that under the excuse of national security, the future of our children, and the future of our country and of our national security are being sold to the wireless lobby as detailed by the specific, concrete, and undisputed evidence on the record cited on the Petition to Impeach 3 Federal Judges and other Criminal Complaints submitted to federal authorities and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

WERE THESE INDIVIDUALS ENTITLED TO BE JUSTICES OF THE 13TH COURT OF APPEALS?

Specific, concrete, and undisputed evidence on the record has proven that Justices of the 13th Court of Appeals Rogelio Valdez, Dori Contreras Garza, Rose Vela, Nelda V. Rodriguez, Gina V. Benavides, Nora L. Longoria, Jaime E. Tijerina and Gregory Perkes committed fraud on their Court to conceal that the wireless/microwave radiation at school is causing children severe harm and disabilities that defeat the purpose of education.

Cases Nos. 13-12-00253; 13-14-00420; and 13-14-00451.

Furthermore, the Texas Attorney General, Ken Paxton admitted in Court his attempts to conceal with my murder the collusion of the Governor, Greg Abbott with federal agents and with more than 25 Judges to conceal:

- i). That school children are being exposed to harmful radiation, including radiation above the federal safety limits and to the same wireless/microwave radiation that has caused harm to teachers, to fire fighters, to police officers and to other adults;
- ii). To conceal that the wireless/microwave radiation at school is causing children Electrohypersensitivity, and brain, eye, blood, nerve, heart and DNA damage and other catastrophic harm and disabilities that defeat the purpose of education;
- iii). That the lowering of academic standards and the fabrication of grades have been to conceal the harm being caused on children's brains and bodies by the radiation at school;
- iv). And to conceal that under the excuse of national security, the future of our children, the future of our country, and the future of our national security are being sold to the wireless lobby as detailed on the Petition to Impeach 3 Federal Judges and on other Criminal Complaints submitted to federal authorities and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

ARE THESE INDIVIDUALS ENTITLED TO BE JUSTICES OF THE TEXAS SUPREME COURT?

Specific, concrete, and undisputed evidence on the record proves that the Texas Supreme Court Chief Justice, Nathan Hecht, and Justices Deborah Lerman, John P. Devine, Paul W. Green, Jeff Boyd, and Eva Guzman committed fraud on their Court to conceal that the wireless/microwave radiation at school is causing children harm and disabilities that defeat the purpose of education. Cases Nos. 08-410, 09-0602, and 14-0784.

Furthermore, the Texas Attorney General, Ken Paxton admitted in Court his attempts to conceal with my murder the collusion of the Governor of Texas, Greg Abbott with federal agents and with more than 25 Judges to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal:

- i). That school children are being exposed to harmful radiation, including radiation above the federal safety limits and to the same wireless/microwave radiation that has caused harm to teachers, to fire fighters, to police officers and to other adults;

ARE THESE INDIVIDUALS ENTITLED TO BE FEDERAL JUDGES?

Specific, concrete, and undisputed evidence on the record proves the collusion of U.S. District Judges Ricardo M. Hinojosa, Randall Crane and Micaela Alvarez and U.S. Magistrate Judges Peter Ormsby and Dorina Ramos, with the Governor of Texas, Greg Abbott; with the Texas Attorney General, Ken Paxton; with the Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez; with District Judge, Jaime Tijerina; with Justices of the 13th Court of Appeals and of the Texas Supreme Court; and with federal agents and others in falsification of government records, in fabrication of testimony and of medical evidence, in disability discrimination and retaliation against children and against the disabled, and in perjury and fraud on the Courts to conceal:

- i). That a massive medical malpractice and a massive Medicaid and Medicare fraud are concealing that the wireless/microwave radiation at school is causing children Electrohypersensitivity and other catastrophic harm and disabilities that defeat the purpose of education;
- ii). To conceal that government sponsored bullying and technologies reserved for the military, including wireless/radiation surveillance are being used to silence the disabled and to retaliate against whistle blowers and against others who denounce injustice;
- iii). And to conceal that under the excuse of national security, the future of our children, the future of our country, and the future of our national security are being sold to the wireless lobby as detailed on the Petition to Impeach 3 Federal Judges and on other Criminal Complaints submitted to federal authorities and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

**IS LYNN N. HUGES ENTITLED TO BE U.S. DISTRICT JUDGE?**

Specific, concrete, and undisputed evidence on the record proves how Judge Hughes committed fraud on his Court to conceal the collusion of U.S. District Chief Judges, Ricardo W. Hinojosa and Robert Henes Bell with U.S. Magistrate Judges Joseph Scoville and Dorina Ramos to conceal:

- i). That members of the Judiciary operating a law school committed fraud of millions of dollars of federal funds while giving law degrees to those affiliated to the FBI and to other government entities;
- ii). To conceal that government sponsored bullying is provoking mass shootings and other acts of terrorism;
- iii). And to conceal that government sponsored bullying and technologies reserved for the military, including wireless/X-ray surveillance are being used to silence the disabled and to retaliate against whistle blowers and others who denounce injustice, as detailed by Mendoza v. The Thomas M. Cooley Law School et al, Case No. M-99-77 (S.D. TX. 1999); Case No. 5:01-cv-93 (W.D. MI, 2001); and Case No. 02-2095 (6th Cir. 2002); Mendoza v. IS BRENT CAVANAUGH ENTITLED TO BE JUSTICE OF THE U.S. SUPREME COURT?

Specific, concrete, and undisputed evidence on the record has proven the collusion of Justice Cavanaugh with U.S. District Chief Judge, Ricardo H. Hinojosa, with the Governor of Texas, Greg Abbott, and with federal agents and others in fraud on the Courts to conceal:

- i). That members of the judiciary incited a government sponsored bullying and a radiation surveillance in retaliation for denouncing their fraud of millions of dollars in federal funds while giving law degrees to those affiliated with the FBI and the CIA;
- ii). To conceal that the radiation at school is causing children Electre-Hypersensitivity and other severe and catastrophic harm that defeats the purpose of education;

LETTER TO THE EDITOR

U.S. DISTRICT JUDGE, RICARDO M. HINOJOSA SHOULD BE RECUSED FROM THE CASE AGAINST DR. JORGE ZAMORA QUEZADA.

Specific, concrete, and undisputed legal, medical and scientific evidence on the record proves the participation of Judge Hinojosa with federal and State agents on the persecution of Dr. Zamora to intimidate and silence doctors from diagnosing the harm being caused on children by the wireless/microwave radiation at school.

At several times I have been told that Dr. Zamora and/or his staff were advising patients to avoid using cell phones to prevent aggravation of their health conditions. The symptoms of the illnesses diagnosed and treated by Dr. Zamora and the symptoms of Electrohypersensitivity EHS, are similar or the same. EHS is caused and aggravated by the same radiation reaching children at school. Then, it was just matter of time before a crime was fabricated to silence Dr. Zamora.

I have been homebound for more than 7 years with a life-threatening EHS. Exposure to the same wireless/microwave radiation reaching children at school causes me among other things, swelling of vital organs; swelling of face, head and eyes; symptoms of heart attack and of stroke; rashes and loss of skin; flu and allergy symptoms; and vision, speech, concentration and breathing problems. I have been violently ill several times. I am in pain all the time. This is a horrible way to die.

My EHS has been recognized by federal and State agencies and by Courts as a physical medical condition and as a disability. EHS proves conclusively that the wireless/microwave radiation at school is causing children harm and disabilities that defeat the purpose of education.

Children, teachers, doctors, attorneys, scientists and even a Director of the World Health Organization are suffering from EHS.

See [wearetheevidence.org](http://wearetheevidence.org)

Despite that Electrohypersensitivity is reaching epidemic proportions, most doctors are in the dark or in denial and continue misdiagnosing, misedicating and mistreating the harm being caused on children by the wireless/microwave radiation at school.

Specific, concrete, and undisputed evidence on the record has proven that Judge Hinojosa is one of the more than 25 Judges that federal and State agents manipulated to commit fraud on their Courts to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal:

- i). That school children are being exposed to harmful radiation, including radiation above the federal safety limits and to the same wireless/microwave radiation that has caused harm to teachers, to fire fighters, to police officers and to other adults;
- ii). To conceal that the wireless/microwave radiation at school is causing children EHS and brain, eye, blood, nerve, heart, and DNA damage and other severe harm and disabilities that defeat the purpose of education;
- iii). And to conceal that under the excuse of national security, the future of our children and the future of our country and of our national security are being sold to the wireless lobby as detailed on the Petition to Impeach 3 Federal Judges and on other Criminal Complaints submitted to federal authorities and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

For these reasons, the recusal of Judge Hinojosa is necessary to save children's lives. I am willing to testify by phone before any Court of law as to the facts stated herein. (Health permitting)

RE: OPEN REQUEST TO THE DIRECTOR OF THE TEXAS RANGERS, STEVEN McCRAW TO  
CEASE AND DESIST FROM HIS PARTICIPATION ON THE CRIMES BEING COMMITTED  
AGAINST CHILDREN AND AGAINST THE DISABLED, AND FOR HIS RESIGNATION.

Dear Mr. McCraw, on your newspaper Commentary you wrote:

"Our children are our most precious asset, and their safety is of paramount importance to the future of our state and country."

"Schools are a place for young minds to grow, explore and learn, so they may become knowledgeable and confident citizens who will make our world a better place."

"Too ofetn in recent years, schools have become a place where tragedy has unfolded." Students safety reminders as students return to the classroom, the McAllen Monitor Aug. 28, 2018 at 10 A.

However, you omit your participation with the Governor of Texas, Greg Abbott, and with FBI agents, school officials and others on the attempts to conceal that bullying is provoking the mass shootings and other tragedies as a Russian Roulette just for the macabre excitement of seeing who gets injured as evidenced by the swift intervention of the Texas Rangers and FBI agents to conceal the motive that caused the tragedies and to blame them on to an isolated, random mental problem.

As you are fully aware, under the excuse of national security, Abbott, and federal agents are attempting to conceal these macabre Russian Roulett@s because bullying is not restricted to schools, and because bullying is the instrument used by state and federal agencies to silence and to retaliate against the disabled and against those who denounce injustice.

As you are aware, the Texas Attorney General, Ken Paxton admitted in Court his attempts to conceal with my murder the collusion of Abbott with federal agents, with school officials and with more than 25 Judges on the fraud on the Courts to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal:

- i). That school children are being exposed to power levels of radiation above the federal safety limits and to the same wireless/microwave radiation that has caused harm to teachers, to fire fighters, and to police officers and to other adults;
- ii). That the radiation at school is increasing by more than 500% the children's risk of cancer and increasing by more than 450% the risk of dying to children suffering from life-threatening illnesses;
- iii). That the microwave radiation at school is causing children Electro-hypersensitivity EHS, and brain, eye, blood, nerve, heart and DNA damage and other severe harm and disabilities that defeat the purpose of education;
- iv). That Abbott and the Lt. Governor, Dan Patrick lowered the academic standards, manipulated grades and silenced doctors to conceal the harm being caused on children by the microwave radiation at school;
- v). And to conceal that under the excuse of national security, the future of our children and of our national security are being sold to the wireless lobby as detailed on the Petition to Impeach 3 Federal Judges submitted to the U.S. House of Representatives, to the U.S. Attorney General and to the U.S. Dept. of Education and on other Criminal Complaints posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org) FAILURE TO SPECIFICALLY DISPUTE THE FACTS

STATED HEREIN CONFIRMS YOUR PARTICIPATION ON THE CRIMES AGAINST CHILDREN AND AGAINST THE DISABLED DETAILED HEREIN, WHICH MERIT YOUR RESIGNATION.

Dear gentlemen,

I respectfully request to train medical students and doctors on  
Electrohypersensitivity and on other harm caused by exposure to wireless/  
microwave radiation.

Attached is a copy of the Root Cause of Suicide on Emergency Responders  
citing to medical, legal and scientific evidence on the record proving  
that doctors' lack of training in Electrohypersensitivity and on other  
harm caused by exposure to wireless/microwave radiation is causing  
irreversible and severe harm to our children, to our emergency responders  
and to others.

Please share this vital evidence with medical schools and with medical  
faculty and students. Our children and our emergency responders cannot  
defend themselves from wireless/microwave aggressions. If more evidence  
is needed, I will be happy to oblige.

Your prompt response to this Request can save lives.

RE: THE ROOT CAUSE OF SUICIDE ON EMERGENCY RESPONDERS. (Amended Nov. 2019)  
Jan. 2020

TRANSCRIPT OF COMMENT BY PHONE TO CITY AND COUNTY OFFICIALS IN PUBLIC MEETINGS.

Dear Ladies and gentlemen,

I have been homebound for more than 7 years with a life-threatening Electrohypersensitivity EHS. Exposure to the same wireless/microwave radiation reaching police officers at work, including the microwave radiation emitted by cell phones, wireless computers and radar, causes me among other things, swelling of vital organs and symptoms of heart attack and of stroke. I have a history of life-threatening swelling of heart; my rashes and loss of skin have been life-threatening; and the swelling inside my skull has been so severe as to push an eye out its socket. I am in pain all the time. At times, I struggle to breathe even with oxygen. Everyday is a different torture. This is a horrible way to die. Medical and legal evidence of my EHS is attached as Exhs. <sup>Appx. G-9.</sup> A to E.

My EHS has been recognized by federal and State agencies and by Courts as a physical medical condition and as a disability. EHS proves conclusively that the microwave radiation reaching police officers at work causes severe physical harm and disabilities. id.

The same microwave radiation reaching police officers at work has caused EHS and other severe harm and disabilities to children, teachers, doctors, attorneys, scientists, fire fighters, police officers and even to a Judge and to a General Director of the World Health Organization.

See [wearetheevidence.org](http://wearetheevidence.org)

Exposure to power levels of radiation above the federal safety limits causes harm even to healthy and strong adults. (1)

The cellphones and other wireless devices used by police officers emit radiation above the federal safety limits. (2)

Chronic exposure to radiation increases by more than 150% the risk of suicide. (3)

Out of 55 police officers that routinely used wireless devices on their laps, 53 suffered testicular cancer and some had to be castrated. (4)

Police officers are exposed at work to more than 250,000 uW/m<sup>2</sup> (micro-Watts per square meter) of microwave radiation and exposure to less than 150,000 uW/m<sup>2</sup> can cause EHS, and brain, eye, blood, nerve, heart and DNA damage even to the children of police officers. (5)

Exposure to less than 10,000 uW/m<sup>2</sup> of microwave radiation breaks the brain blood-barrier to allow toxics on the blood stream, including pain <sup>and the mercury on vaccines</sup> killers to enter and damage the brain, which in turn can cause anxiety, depression, aggressivness and impairment of judgment in emergencies. (6)

Microwave radiation has caused fire fighters symptoms of brain damage, including confusion, inability to focus "brain fog" and depression. (7)

Despite that the harm caused by radiation is reaching epidemic proportions, most doctors are in the dark or in denial and continue misdiagnosing, mismeicating and mistreating the symptoms of this harm. (8)

Officers with suicidal tendencies keep them to themselves for fear of losing their gun, their job and even their license. To make things worse, Nobody is protecting our police officers from the harm being caused by exposure to microwave radiation. (9)

**PRACTICAL MEASURES TO PREVENT SUICIDE ON EMERGENCY RESPONDERS INCLUDE:**

- A. Using the same mitigating technologies used by the Secret Service and by the Border Patrol;
- B. Measuring officers' exposure to radiation at work and at home;
- C. Training officers to avoid unnecessary exposures to radiation at work and at home; and
- D. Periodic medical examinations by doctors with expertise in Electro-hypersensitivity and in the harm caused by radiation.

Sharing this information with police officers and with fire fighters can save lives. Our emergency responders cannot defend themselves from microwave aggressions. If more information is needed, I will be happy to oblige. **SHARING THIS INFORMATION CAN SAVE LIVES.**

Respectfully submitted,

NOTES  
(THE EVIDENCE OF HARM)

Appx 12

I. Section I of the Bioinitiative Report (2007) pg 6. The organs first to be damaged by exposure to microwave radiation are the brain, eyes, <sup>blood,</sup> and testes. Lucinda Grant, Microwave Sickness Part 5 (1996, 1997) citing Soviet Research on Neural Effects of Microwaves, Washington DC: LOC 1996. One hour of exposure of animals to power levels of microwave radiation above the safety limits during 100-200 days caused thickening and distortion of nerves, although the animals appeared healthy after exposure. Grant, Part 2, id, citing Letavet, A.A. and Z.V. Gordon eds., The Biological Action of Microwaves.

2. Cellphones emit power levels of microwave radiation more than 5 times the federal safety limits. Popular cellphones tested for radiofrequency radiation, the McAllen Monitor Aug. 25, 2019 at 11A. <sup>Appx 14</sup>

On Oct. 2015, San Francisco U.S. District Judge, Edward Chen found that cell phones emit power levels of radiation above the federal safety limits. See Open Letter to the Judiciary, Exh. G. <sup>Appx 23</sup> The federal safety limits for ELF radiation is 904 mG., and the occupational exposure levels range from 2 to 10 mG., Section I of the Bioinitiative Report (2007) pgs 8, 11.

Cell phones emit more than 975 mG of ULF/ELF radiation. L. Wardell and Carlberg, Mobile Phones, Cordless Phones and the Risk of Brain Cancer, Intl. Journal of Oncology 35 n 1, July 2009.

Wireless computers and other wireless devices used by police officers also emit power levels of microwave radiation above the federal safety limits, and the FCC and FDA have refused to protect the people from exposure to harmful radiation. Exhs. J1 - J4. <sup>Appx 15-18</sup>

- 3). Garleigh Cooper, Cell Phones and the Dark Deception (2009) pg 97, citing Perry F.S. et al, Environmental Power Frequency Magnetic Fields and Suicide (1981). Out of 6,000 workers exposed to occupational levels of ELF radiation (2-10 mG) 536 workers died by suicide, Savitz et al, 2000. The rate of suicide on teenagers, who also are being exposed to levels of radiation above the federal safety limits, has increased to more than 50%, EJ Dickson, "Teen Suicide is on the Rise and No One Knows Why" Rolling Stone Oct. 21, 2019.

Chronic exposure to the same microwave radiation reaching police officers at work can cause anxiety, depression, aggressiveness and suicide. Martin Pall, Microwave Frequency Electromagnetic Fields (EMF's) Produce Widespread Neuropsychiatric Effects Encluding Depression, Journal of Chemical Neuroanatomy 75 pt. B (2016): 43-51. The U.S. Naval Medical Research Institute cites to <sup>n</sup>hundreds of studies documenting how the same power levels of microwave radiation reaching police officers at work can cause anxiety, depression, aggressiveness and other neurological damage that can lead to suicide, Research Report 2, Project MCH2.524015-00043, Oct. 1971.

- 4). Out of 55 cases of testicular cancer among <sup>o</sup>police officers, 53 routinely placed the radar gun in their lap. Roland A. Giroux, Daubert v. Merrell Dow: Is This What the EMF Doctor Ordered? 12 Pace Envtl. Rev. 393 (1994) Note 94.

By the time police officers sought funding for a study, the number of police officers with testicular cancer increased to 189. Microwave News Sept/Oct 1992. It appears that the wireless lobby derailed the funding on the causes of testicular cancer. However, 7 years ago, a study found that only 4 hours of exposure to the microwave radiation emitted by a laptop caused DNA damage to human sperm, which is a marker for pre-cancer. Avendano et al, (2012).

5. Attached is a description of more than 70 peer-reviewed scientific studies documenting the harm that can be caused by the same power levels of microwave radiation reaching police officers at work.

Exhs. F1 - F4, Attached Herein.

The Bioinitiative Reports 2007 and 2012, and the Biological and Health Effects of Microwave Radio Frequency Transmissions by Dr. Paul Dart et al (2013), collectively cite to more than 2000 peer-reviewed scientific studies documenting the harm caused by exposure to the same microwave radiation reaching police officers at work.

Exposure to microwave radiation can cause severe harm to the unborn children of police officers. Kerry Crofton PhD, citing among other studies, Razavinasab et al, (2014); Lowenthal et al, (2007); Infante et al, (2003); Nakamichi et al, (2009); Bellieni et al, (2012) and others, pg 27, 41. See Exh. J2, Attached herein. *Appx 15*

In my family, several children were born with brain damage. The common thing in these children is that their mothers were users of cell phones while pregnant. The number of children with brain damage has increased from 1 in 10,000 to 1 in less than 50, and experts warn that the use of microwave devices by children and pregnant women is bound to leave no child without brain damage, and that by the time parents become aware of this danger, we are bound to lose many many children. Crofton, id, pgs 14, 15, 39.

Oregon declared an emergency to prevent or reduce the harm that can be caused on children by the microwave radiation at school.

8. A medical doctor testified to the massachusetts legislature how if her children had not been diagnosed with Electrohypersensitivity, her children could have spent the rest of their lives misdiagnosed, mis-medicated and mistreated for the harm caused by the microwave radiation at school; how her son, because of his aggressivness, could have spent the rest of his life on a mental hospital; and how her children are the tip of the iceberg of the millions of children that are now being mis-diagnosed, mismedicated and mistreated for the harm caused by the microwave radiation at school. Specific, concrete, and undisputed medical, legal and scientific evidence on the record has proven that State and federal agents manipulated more than 25 Judges to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal that the microwave radiation at school is causing children EHS, and brain, eye, blood, nerve, heart and DNA damage and other severe harm and disabilities that defeat the purpose of education as detailed on the Petition to Impeach 3 Federal Judges submitted to the U.S. House of Representatives, to the U.S. Attorney General; and to the U.S. Dept. of Education and Posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)
