

Feb. 2020 A

RE: COMPLAINT OF CRIMINAL VIOLATION OF CIVIL RIGHTS.

Priority mail  
Return Receipt No.

Honorable Michael Morowitz, Inspector General  
for the U.S. Department of Justice.

7019 0700 0000 77972491  
Received on Feb. 7, 2020.

Dear Inspector General, I respectfully request your office to investigate and prosecute this Complaint of Criminal Violation of children, and of the disabled civil rights, on the ground that the U.S. Attorney General, William Barr refused to consider specific, concrete, and undisputed medical, scientific, and legal evidence on the record proving the collusion of the Trump Administration with the Governor of Texas, Greg Abbott, with federal and State agents and prosecutors, and with members of the judiciary to conceal:

- i). That a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal that the wireless/microwave radiation at school is causing children Electrohypersensitivity and other severe and catastrophic harm and disabilities that defeat the purpose of education; (See [wearetheevidence.org](http://wearetheevidence.org))
- ii). To conceal that government sponsored bullying is provoking mass shootings and other acts of terrorism against children and others;
- iii). And to conceal that under the excuse of national security, the future of our children, the future of our country, and the future of our national security are being sold to the wireless Lobby as detailed by the evidence attached herein, and by the Petition to Impeach 3 Federal Judges and by other Criminal Complaints submitted to federal authorities and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org) Please share this Criminal Complaint with the relevant Congressional Committees.

YOUR PROMPT RESPONSE TO THIS MATTER CAN SAVE CHILDREN'S LIVES.

Respectfully,

*Jesus Mendez* Jan. 2020.  
2202 E. 28th St. Mission, Texas 78574 Tel. (956) 583-7012.

EVIDENCE ON THE RECORD PROVING HOW THE U.S. ATTORNEY GENERAL,  
WILLIAM BARR IS COMMITTING CRIMES AGAINST CHILDREN, AGAINST THE  
DISABLED, AGAINST THE ELDERLY, AND AGAINST WHISTLE BLOWERS.

APPENDIX  
NO.

- A). Request to the U.S. Attorney General, William Barr  
to cease and desist from committing crimes against  
children, against the disabled, against the elderly,  
and against whistle blowers..... 1
- (A copy of the Criminal Complaint of Violation of  
Children and of the Disabled Constitutional Rights  
submitted to William Barr and Barr's Response are  
attached herein as Appxs. 70-90).
- B). Open Letter to President Donald Trump to protect  
our children, to protect our country, and to  
protect our national security..... 2a
- C). A Letter to the Editor citing to specific, concrete,  
and undisputed medical, scientific, and legal evidence  
on the record proving how those in charge of educating  
and protecting our children manipulated more than 25  
Judges to conceal that a massive medical malpractice and  
a massive Medicaid and Medicare fraud are in use to conceal  
that school children are being exposed to harmful radiation,  
including radiation above the federal safety limits and to  
the same wireless/microwave radiation that has caused harm to  
teachers, to fire fighters, to police officers and to other  
adults; and to conceal that the radiation at school is causing  
children harm and disabilities that defeat the purpose of  
education..... 3

- D). MY STATEMENT OF PHYSICAL DISABILITIES detailing with undisputed medical, scientific, and legal evidence on the record how Electrohypersensitivity EHS, also proves conclusively that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal that the radiation at school is causing children EHS, and brain, eye, blood, nerve, heart and DNA damage and other catastrophic harm and disabilities that defeat the purpose of education..... 4-27
- E). A Request to Dr. John Prescott, Chief Academic Officer of the Association of American Medical Colleges; to Dr. Sherif Zaafran, Executive Director of the Texas Medical Board; and to Dr. John H. Kruse, Dean of the UTRGV School of Medicine to train doctors and medical students on EHS and on other harm caused by exposure to wireless/microwave radiation, on the ground that their lack of training is causing severe and irreversible harm to children, to emergency responders and to other adults..... 28
- F). The Root Cause of Suicide on Emergency Responders details with medical, scientific and legal evidence on the record how the same wireless/microwave radiation reaching children at school is the same type of radiation causing police officers severe physical harm, including suicide..... 29-35

G). Request to Protect Disabled Children submitted to the U.S. Attorney for the Western District of Texas, John Bash; to the U.S. Attorney for the Eastern District of Texas, Mary Ann Cozby; and to the U.S. Attorney for the Northern District of Texas, Nealy Cox on the ground that the same actors attempting to conceal the harm being caused on children by the radiation at school, including the U.S. Attorney for the Southern District of Texas, Ryan K. Patrick; the Texas Lt. Governor, Dan Patrick; the Governor of Texas, Greg Abbott; the Texas Attorney General, Ken Paxton; the Director of the Texas Rangers, Steven McCraw; the Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr., and the FBI Special Agent in Charge in San Antonio, Texas Christopher Combs and others are the same actors attempting to conceal that government sponsored bullying is provoking mass shootings and other acts of terrorism..... 36-41

FLIERS AND LETTERS TO THE EDITOR INCLUDING:

H). Is Ryan K. Patrick entitled to be U.S. Attorney?.....	42
I). Is Dan Patrick entitled to be Texas Lt. Governor?.....	43
J). Is Greg Abbott entitled to be Governor of Texas?.....	44
K). Is Ken Paxton entitled to be Texas Attorney General?.....	45
L). Is Steven McCraw entitled to be the Director of the Texas Rangers?.....	46
M). Is Christopher Combs entitled to be FBI Special Agent?.....	47
N). Are John Bash, Mary Ann Cozby and Nealy Cox entitled to be U.S. Attorneys?.....	48

O). Is Ricardo F. Rodriguez Jr. entitled to be Hidalgo County Criminal District Attorney?; Is Jaime Tijerina entitled to be Justice of the 13th Court of Appeals?; and Is J. Manuel Banales entitled to be a Judge? details with evidence on the record how the Texas Attorney General Ken Paxton admitted in Court his attempts to conceal with my murder the collusion of the Governor of Texas, Greg Abbott with Rodriguez, Tijerina and Banales to conceal the harm being caused on children by the radiation at school.....49-51

P). Are these Individuals Entitled to be Justices of the 13th Court of Appeals details with evidence on the record how Paxton admitted in Court to conceal with my murder the collusion of Abbott with Chief Justice, Rogelio Valdez, and with Justices Deri Contreras Garza, Rose Vela, Nelda V. Rodriguez; Gina V. Benavides; Nora L. Longoria, and Gregory Perkes on the fraud on their Court to conceal the harm being caused on children by the wireless/microwave radiation at school..... 52

Q). Are These Individuals Entitled to be Justices of the Texas Supreme Court? details with evidence on the record how Paxton admitted in Court his attempts to conceal with my murder the collusion of Abbott with Chief Judge, Nathan Heckt, and Justices Deborah Lerman; John P. Devine; Paul W. Green; Jeff Boyd; and Eva Guzman on the fraud on the Court to conceal the harm being caused on children by the wireless/microwave radiation at school..... 53

R). Are These Individuals Entitled to be Federal Judges?

details with evidence on the record how the Texas Attorney General, Ken Paxton admitted in Court his attempts to conceal with my murder the collusion of the Governor of Texas, Greg Abbott with U.S. District Judges, Ricardo H. Hinojosa, Randall Crane and Micaela Alvarez; with Justices of the 13th Court of Appeals and of the Texas Supreme Court, and with federal agents and others in falsification of government records, in fabrication of testimony and of medical evidence, in disability discrimination and retaliation against children and against the disabled, and in perjury and fraud on the Courts to conceal the harm being caused on children by the microwave radiation at school..... 54

S). Should U.S. District Judge, Ricardo H. Hinojosa be Recused

Recused from the Case Against Dr. Jorge Zamora Quezada details with evidence on the record proving that Judge Hinojosa is one of the more than 25 Judges that federal and State agents manipulated to commit fraud on their Courts to conceal the harm being caused on children by the microwave radiation at school, and proving that the prosecution of Dr. Zamora is an attempt to intimidate and silence other doctors from denouncing that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal the harm being caused on children by the microwave radiation at school..... 55, 56

T). Is Lynn N. Huges Entitled to be a Federal Judge?  
cites to evidence on the record proving the collusion  
of U.S. District Judge, Huges with U.S. District Judge,  
Ricardo Hinojosa and others in disability discrimination  
and retaliation and in fraud on the Courts to conceal  
that government sponsored bullying and technologies  
reserved for the military, including wireless/X-ray  
surveillance are being used to silence the disabled  
and to retaliate against whistle blowers..... 57

U). Is Brentt Cavanaugh Entitled to Be Justice of the U.S.  
Supreme Court? cites to specific, concrete, and  
undisputed medical, scientific, and legal evidence  
on the record proving the collusion of Judge Cavanaugh  
with U.S. District Judges, Ricardo H. Hinojosa, Randall  
Crane, and Micaela Alvarez and others in disability  
discrimination and retaliation against children and  
against the disabled and in fraud on their Courts to  
conceal that under the excuse of national security,  
government sponsored bullying and technologies reserved  
for the military, including wireless/X-ray surveillance  
are being used to silence the disabled and to retaliate  
against whistle blowers..... 58

V). The Open Request to the Director of the Texas Rangers, Steven McCraw to cease and desist from his Participation on the Crimes Being Committed Against Children and Against the Disabled cites to evidence on the record proving McCraw's collusion with the Governor of Texas, Greg Abbott, with FBI agents, and with school officials and others to conceal the harm being caused on children by the microwave radiation at school and to conceal that government sponsored bullying is provoking mass shootings and other tragedies and acts of terrorism against children and against others..... 59,60

W). The Most Serious Threat for Our Children, for Our Country and for Our National Security cites to evidence on the record proving the collusion of federal and State agents with more than 25 Judges to conceal the harm being caused on children by the microwave radiation at school; to conceal that government sponsored bullying is provoking mass shootings and other acts of terrorism; and to conceal that technologies reserved for the military including wireless/X-ray surveillance are being used to silence the disabled and to retaliate against whistle blowers..... 61

- X). The Root Cause of Pervasive Judicial Corruption:  
cites to evidence on the record proving how  
federal and State agents are manipulating Judges  
to commit fraud on their Courts to conceal the harm  
being caused on children by the microwave radiation  
at school; and to conceal that government sponsored  
bullying is provoking mass shootings and other acts  
of terrorism..... 62
- Y). The Root Cause of Shooting Tragedies: Government  
Sponsored Bullying details with evidence how  
government sponsored bullying is the trauma provoking  
mass shootings and other tragedies..... 63
- Z). Government Sponsored Bullying Is The Most Serious  
Terrorism Threat to Our Democracy, to Our Country,  
and to Our National Security details how government  
sponsored bullying includes attempts to derail the  
victims's daily activities; attempts to frame into  
a crime or involuntary commitment; and attempts to  
provoke the target into suicide and/or violence..... 64
- ZI). "Unprecedented U.S. survey tracks scope of stalking"  
details how for more than 10 years the government has been  
fully aware that tens of thousands among the 3.4 million  
victims of bullying leave homes, lose jobs, live in fear..... 65  
See Donald Jeffries, "Bullyocracy" (2020) & David Lawson, Terrorist  
Stalking in America (2001).

- Z2). Doctors' Most Guarded Secret details how most doctors' diagnosis, medication and treatment are based on probabilities, on trial and error, and at times on wild guesses, and details how this massive medical malpractice and Medicare and Medicare fraud is conclusively proven by Electrohypersensitivity..... 66,67
- Z3). Parents' Alert III details how the same depravity and cowardice that poisoned children's milk, injected women and toddlers with Plutonium, and burned alive more than 50 children in Waco, Texas is the same depravity and cowardice that under the excuse of national security are manipulating the Courts to conceal that children are being tortured, maimed and killed by the microwave radiation at school..... 68
- Z4). Parents' Alert IV details how government sponsored bullying is provoking mass shootings against our children, and how this government sponsored terrorism, like the microwave radiation at school is a clear and present danger for our children..... 69
- Z5). Excerpts of Criminal Complaint of Violation of Children and of the Disabled Constitutional Rights submitted to the Texas Attorney General, William Barr..... 70-90  
(Complete Criminal Complaint is posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org) on Sept. 2019)
- Z6). Barr's Response to the Criminal Complaint..... 91,92.

RE: REQUEST TO CEASE AND DESIST FROM COMMITTING CRIMES AGAINST CHILDREN,  
AGAINST THE ELDERLY, AGAINST THE DISABLED AND AGAINST WHISTLE BLOWERS.

WILLIAM BARR,  
U.S. ATTORNEY GENERAL.

Dear U.S. Attorney General, I respectfully request your office to cease and desist from committing crimes against children, against the elderly, against the disabled and against whistle blowers.

After Dr. Jorge Zamora Quezada was convicted of healthcare fraud, Assistant U.S. Attorney General, Brian A. Benczkowski of the Justice Department's Criminal Division stated:

"The conduct in this case was heinous," "Dr. Zamora-Quezada falsely diagnosed vulnerable patients including the young, elderly and disabled, with life-long diseases requiring invasive treatments that those patients did not in fact need." Zamora Quezada convicted of multiple counts of healthcare fraud; wife acquitted, the McAllen Monitor Jan. 16, 2020 at 1A, 7A.

However, Mr. Benczkowski omits the fact that the U.S. Attorney for the Southern District of Texas, Ryan K. Patrick recused himself from the prosecution of Dr. Zamora in response of evidence proving:

- 1). That the prosecution of Dr. Zamora was an attempt to intimidate and silence other doctors, who like Dr. Zamora, are perceived to have the expertise to diagnose the harm being caused on children by exposure to the wireless/microwave radiation at school;
- 2). Proving the collusion of Ryan Patrick's Dad, the Texas Lt. Governor, Dan Patrick and the Governor of Texas, Greg Abbott, the Texas Attorney General, Ken Paxton, U.S. District Judges, Ricardo H. Hinojosa, Randall Crane and Micaela Alvarez with the Secretary of the U.S. Dept. of Education and others to conceal that children, the elderly, and the disabled are <sup>being</sup> massively misdiagnosed and subjected to unnecessary and heinous invasive treatments that amount to torture;

- 3). And proving that those in charge of educating and protecting our children manipulated more than 25 Judges to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal:
- i). That children, the elderly, and the disabled are being exposed to harmful radiation, including radiation above the federal safety limits, and to the same wireless/microwave radiation that has caused harm to teachers, to fire fighters, and to police officers and other adults;
- ii). To conceal that the radiation at school is increasing by more than 500% the children's risk of cancer and increasing by more than 450% the risk of dying to children suffering from life-threatening illnesses;
- iii). To conceal that the wireless/microwave radiation at school is causing children Electrohypersensitivity, and brain, eye, blood, nerve, heart, and DNA damage and other catastrophic harm and disabilities that defeat the purpose of education; (See [wearetheevidence.org](http://wearetheevidence.org))
- iv). To conceal that Greg Abbott and Dan Patrick lowered the academic standards in the State of Texas to allow the fabrication of grades to conceal the harm being caused on children's brains and bodies by the wireless/microwave radiation at school;
- v). And to conceal that under the excuse of national security, the future of our children, the future of our country, and the future of our national security are being sold to the wireless lobby as detailed by the Petition to Impeach 3 Federal Judges and by the Criminal Complaint submitted to your office and posted on Sept. 2019 on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

Please forward a copy of this Request to President Donald Trump and to the relevant Congressional Committees.

Respectfully,  23 Jan., 2020.  
Jesus Mendoza  
2202 E. 28th St. Mission, Texas 78574 Tel. (956)583-7012.

OPEN LETTER  
TO DONALD J. TRUMP, PRESIDENT  
OF THE UNITED STATES OF AMERICA

Dear President Trump, this is an urgent request to protect our children, to protect our country, and to protect our national security. Specific, concrete, and undisputed evidence on the record has proven that the same way federal agents committed fraud on the Courts to conceal that wireless/radiation surveillance and bullying are used to retaliate against whistle blowers, is the same way federal and State agents are manipulating the Courts to conceal that government sponsored bullying is provoking mass shootings and other tragedies and to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal:

- i). That school children are being exposed to harmful radiation, including radiation above the federal safety limits and to the same wireless/microwave radiation that caused harm to teachers, to fire fighters, to police officers and to other adults;
- ii). To conceal that the wireless/microwave radiation at school is causing children Electrohypersensitivity, and brain, eye, blood, nerve, heart and DNA damage and other catastrophic harm and disabilities that defeat the purpose of education;
- iii). And to conceal that under the excuse of national security, the future of our children, the future of our country, and the future of our national security, are being sold to the wireless lobby as detailed on the Petition to Impeach 3 Federal Judges and on other Criminal Complaints submitted to federal authorities and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

Your prompt response to this Request can save children's lives.

Respectfully,

*Jesus Mendoza Jan. 2020.*  
Jesus Mendoza  
2202 E. 28th St. Mission, Texas 78574 Tel. (956)583-7012.

*Appx. 2a*

SPECIFIC, CONCRETE, AND UNDISPUTED EVIDENCE ON THE RECORD HAS PROVEN THAT A MASSIVE MEDICAL MALPRACTICE AND A MASSIVE MEDICAID AND MEDICARE FRAUD ARE IN USE TO CONCEAL THAT THE WIRELESS/MICROWAVE RADIATION AT SCHOOL IS CAUSING CHILDREN HARM THAT DEFEATS THE PURPOSE OF EDUCATION.

- i). It is a fact that exposure to power levels of radiation above the federal safety limits causes severe harm even to healthy and strong adults, Pg 6 of Section I of the Bioinitiative Report (2007); *Appx 27b, 27c*
- ii). It is a fact that cell phones and other wireless devices used by children at school emit power levels of wireless/microwave radiation above the federal safety limits, Sam Roe, Popular cellphones tested for radiofrequency radiation, the McAllen Monitor Aug. 25, 2019 at IIA; *Appx 27d*
- iii). It is a fact that chronic exposure to power levels of wireless/microwave radiation below the federal safety limits can cause children Electrohypersensitivity EHS, and other catastrophic harm and disabilities that defeat the purpose of education, Section I of the Bioinitiative Reports 2007, 2012, the Paul Dart Report 2013.

(See [weartheevidence.org](http://weartheevidence.org))

- iv). It is a fact that despite that EHS is reaching epidemic proportions, most doctors are in the dark or in denial, and continue misdiagnosing mismeasuring and mistreating the harm being caused on children by the wireless/microwave radiation at school, See [weartheevidence.org](http://weartheevidence.org)
- v). And it is a fact that those in charge of educating and protecting our children manipulated more than 25 Judges to conceal that under the excuse of national security, the future of our children, the future of our country, and the future of our national security are being sold to the wireless lobby as detailed by the Petition to Impeach 3 Federal Judges and by other Criminal Complaints submitted to federal authorities and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

SHARING THIS INFORMATION CAN SAVE CHILDREN'S LIVES.

Respectfully, Jesus Mendoza Tel. (956) 583-7012

*Appx. 3*

RE: STATEMENT OF PHYSICAL DISABILITIES.

"Being so severely electro-hypersensitive is like being a hermit in an infernal hell." San Fco. EarthLink Wi-Fi Network (2007) pg 25.

For the most part, I have been Homebound for more than 7 years with life-threatening Electrohypersensitivity EHS, and Chemical Hypersensitivity CHS, immunological/neurological physical health conditions and disabilities. See Exhibits A,B,C,D, and E attached herein.

Exposure to the same radiation reaching children at school, including the radiation emitted by power lines, electric transformers and motors, fluorescent lights, Wi Fi transmitters, wireless computers, cell phones and cell towers and radar, causes me among other things, pain; swelling of vital organs and swelling of face, head and eyes; symptoms of heart attack and of stroke; rashes and loss of skin; flu and allergy symptoms; joint and muscle pain; extreme weakness and fatigue; tremors and involuntary movements; internal bleeding; and stomach, sleeping, vision, hearing, memory, concentration, speech and breathing problems. Exposure to chemical odors found inside schools and in other places causes me the same health effects. The delayed effects of exposure to radiation and chemicals have been catastrophic. I have a medical history of life-threatening swelling of heart; my rashes and loss of skin have been life-threatening; and the swelling inside my skull has been so severe as to push an eye out of its socket. See Exhibits D1 and D2, attached herein.

Appx. 4

I cannot be inside my home, but for a few minutes at a time and I stay in a small metal room and in other places in the backyard. Even the small amounts of radiation reaching my place aggravate my health condition. To ameliorate the symptoms of my EHS and CHS, I use shielding of eyes and of the thoracic box most of the time, and at times, I use shielding of head, face and hands. I have been violently ill several times. At times, I struggle to breathe even with oxygen. I collapsed several times. I am sleep deprived and in pain all the time. This is a horrible way to die.

My EHS and CHS have been recognized by federal and State agencies and by Courts as physical medical conditions and as disabilities. Electrohypersensitivity EHS, proves conclusively that the wireless/microwave radiation at school is causing children harm and disabilities that defeat the purpose of education. See Exhibits A to I attached herein.

EHS is reaching epidemic proportions. Children, teachers, doctors, attorneys, a Judge, and even a former Director of the World Health Organization are suffering from EHS. See [wearetheevidence.org](http://wearetheevidence.org)

Despite that EHS is reaching epidemic proportions, most doctors are in the dark or in denial, and continue misdiagnosing, miscalculating and mistreating the harm being caused on children by the wireless/microwave radiation at school. EHS proves conclusively that most doctors are committing massive medical malpractice and massive Medicaid and Medicare fraud as detailed on the Complaint of Criminal Violation of Children and of the Disabled Rights submitted to the U.S. Attorney General and posted on Sept. 2019 on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org) Appx 5

Respectfully submitted,

*Jesus Mendoza*  
Jesus Mendoza  
2202 E. 28th St. Mission, Texas 78574 Tel. (956)583-7012.

## ATTACHMENTS

### EXHIBITS

- A). A doctor's letter detailing my life-threatening Electrohyper-sensitivity EHS, and Chemical Hypersensitivity CHS, and detailing how the same radiation reaching children at school causes me pain;; swelling of vital organs; breathing problems; and speech, concentration and memory problems.
- B). The Physician Statement of Disability issued by the Texas Dept. of Aging and Disability Services and signed by my doctor stating as medical diagnosis "Highly sensitive to electricity" and detailing some of the major life activities and functions substantially limited when exposed to radiation.
- C). Excerpts of a Decision of the Social Security Administration finding my electromagnetic sensitivity a medically determinable and severe impairment.
- D). Pictures showing some of the effects caused by exposure to radiation and chemicals, including life-threatening rashes and loss of skin, and and facial and head swelling, and showing how the swelling inside my skull is pushing an eye out of its socket.
- E). A description of Electrohypersensitivity by Dr. Erica Mallery-Blythe.
- F). Citation and description of more than 70 peer-reviewed scientific studies documenting the symptoms of EHS and of the harm being caused on children by the wireless/microwave radiation at school.
- G). Open Letter to the Judiciary detailing with medical, legal and scientific evidence the harm being caused on children by exposure to wireless/microwave radiation.
- H). Oregon Senate Bill 283 Declares an Emergency to Protect Children from the Microwave Radiation at School.
- I). The testimony of a doctor to the Massachusetts Legislature detailing how if her children had not been diagnosed with EHS, her children could have spent the rest of their lives misdiagnosed, mismedicated and mistreated for the harm caused by the wireless/microwave radiation at school; detailing how her son, because of his aggressivness, could have spent the rest of his life on a mental hospital; and detailing how her children are the tip of the iceberg of the millions of children that are now being misdiagnosed, mismedicated and mistreated for the har caused by the wireless/microwave radiation at school.

The medical and other documentation attached herein is non-confidential and can be shared as evidence of the harm being caused on children and on others by exposure to wireless/microwave radiation.

**RE: Jesus Mendoza**

To Whom It May Concern:

The above patient has been under my care for many years. He is currently suffering from severe hypersensitivities to chemical fumes, odors, and a life-threatening electro-hypersensitivity. .

It is medically necessary that he be allowed to appear by phone for court. Please allow him to have phone conferencing as he is unable to tolerate the building. If this patient appears in person in court, his speech, concentration, memory, and hearing will be severely impaired. If he is confined inside a building or in other places where there is radiation, he could suffer irreversible harm including death.

Exposure to sources of radiation emitted by power lines, electric transformers and motors, computers, fluorescent lights, and wireless devices, causes Mr. Mendoza severe pain, swelling of vital organs, breathing difficulties; as well as speech, concentration, memory, and hearing deficits. Also, exposure to some chemicals, fumes, and odors can cause the same health effects as listed.

If you have any questions regarding this please, please feel free to contact my office.

Sincerely Yours,

Alfred R. Johnson, D.O.

SOCIAL SECURITY ADMINISTRATION  
Office of Hearings and Appeals

DECISION

IN THE CASE OF

Jesus Mendoza  
(Claimant)

CLAIM FOR

Period of Disability,  
Disability Insurance Benefits, and  
Supplemental Security Income

FINDINGS

After careful consideration of the entire record, the Administrative Law Judge makes the following findings:

2. The claimant has not engaged in substantial gainful activity since August 31, 2000, although he continues to engage in work activity.
3. The claimant's electromagnetic sensitivity is a severe impairment, based upon the requirements in the Regulations (20 CFR §§ 404.1521 and 416.921).

# Appendix 1. Electromagnetic hypersensitivity (EHS): excerpts from a summary by Dr Erica Mallery-Blythe<sup>80</sup>

EHS is characterized by an awareness of/adverse response to even extremely weak electromagnetic fields (far below current safety levels) of varying frequencies, intensities and waveforms. It has been demonstrated to be an "environmentally inducible bona-fide neurological syndrome". It is a primary physical issue, not a psychological one. Conscious perception can vary with age, gender and physiology. Effects can occur even in those not experiencing symptoms at a cellular level, and it is possible that everybody could potentially develop EHS as every cell in our body is dependent on electrical signals.

**Common symptoms:** Headaches, dizziness, sleep disturbance, sensory up-regulation, dermatological issues, palpitations, visual/auditory disturbances, membrane sensitivity, muscle twitching, hyperactivity/fatigue, memory/concentration disturbance and anxiety (psychiatric symptoms such as anxiety and depression are likely to be secondary to the physiological effects rather than a primary cause).

**Exposure-induced:** EHS is a cumulative, exposure-triggered condition, and exposures are rising rapidly. If EHS is unmanaged and there is general deterioration, there will be reaction to an increasingly broad range of frequencies at increasingly low intensities. The number of devices triggering symptoms will increase, symptomatic distances will decrease and irreversibility will become more likely.

The number of people with EHS symptoms who have not yet linked them to exposure is likely to be far higher than the estimated 4–10% of the population reported by several countries. Given the ubiquity of exposure in all environments, it can be difficult for people to notice the association. **Extrapolated figures suggest that 50% of the population may be affected by 2017.** With enough exposure, it is possible that EHS could manifest in all members of the population. Many children are affected but undiagnosed. They are more likely to develop EHS since their exposure is higher and their systems are developing.

**Socioeconomic impact of EHS and human rights:** EHS is already affecting a very large number of people, many of whom are unable to work due to their condition, resulting in lost revenue. An extra burden is placed on healthcare agency resources due to inappropriate diagnosis and management of common symptoms. In more severe cases, individuals are forced to live in extreme isolation, poverty and poor health, with some living in cars and tents, which can also prove threatening to health and life, especially in extreme temperatures. They cannot access basic, life-sustaining public amenities, such as grocery stores and healthcare facilities, which constitutes a clear breach of their human rights.

*"I have been contacted on a daily basis by individuals with EHS, medical practitioners, school and parent groups, legal representatives, the media and political bodies looking for medical advice on EHS or the health effects of EMF in general. This is an increasingly demanding task and therefore I have founded a medical doctors' organisation entitled PHIRE (Physicians' Health Initiative for Radiation and Environment) in order to increase the available support for those requesting it" (<http://phiremedical.org/>).*

OPEN LETTER TO PARENTS, SCHOOL OFFICIALS, DOCTORS, ATTORNEYS, LEGISLATORS AND TO FEDERAL AND STATE LAW ENFORCEMENT AND INVESTIGATIVE AGENCIES.

FEDERAL AND STATE LITIGATION HAS PROVEN THAT A MASSIVE MEDICAL MALPRACTICE AND A MASSIVE MEDICAID AND MEDICARE FRAUD ARE IN USE TO CONCEAL THAT SCHOOL CHILDREN ARE BEING EXPOSED TO POWER LEVELS OF RADIATION EXCEEDING THE FEDERAL SAFETY LIMITS AND TO THE SAME MICROWAVE RADIATION THAT HAS CAUSED HARM TO TEACHERS, TO FIREFIGHTERS, TO POLICE OFFICERS AND TO OTHER ADULTS; AND TO CONCEAL THAT THE MICROWAVE RADIATION AT SCHOOL IS CAUSING CHILDREN ELECTRO-HYPERSENSITIVITY, AND BRAIN, EYE, BLOOD, NERVE, HEART AND DNA DAMAGE AND OTHER SEVERE HARM AND DISABILITIES THAT DEFEAT THE PURPOSE OF EDUCATION AS EXPLAINED ON THE PETITION TO IMPEACH 3 FEDERAL JUDGES SUBMITTED TO THE U.S. HOUSE OF REPRESENTATIVES, TO THE U.S. ATTORNEY GENERAL, AND TO THE U.S DEPT. OF EDUCATION AND POSTED ON THE CASE LAW SECTION OF [wirelesswatchblog.org](http://wirelesswatchblog.org)

The wireless devices used inside schools are exposing children to more than 250,000 uW/m<sup>2</sup> of microwave radiation. Below, some of the scientific studies on the record proving the harm being caused on children by the microwave radiation at school.

uW/m<sup>2</sup>

20	<u>Altpeter 1995, 1997</u> - Sleep disorders, abnormal blood pressure, weakness, fatigue, limb pain, digestive problems, fewer school children promoted.
30-200	<u>Heinrich 2010</u> - Headaches, irritation and concentration problems in school children.
30-500	<u>Thomas 2010</u> - Short term exposures caused sleep problems in school children.
50	<u>Mohler 2010</u> - Chronic exposure caused sleep problems.
50-400	<u>Thomas 2008</u> - Headaches and concentration problems in adults.
60-100	<u>Buchner 2012</u> - Long term effects on the immune system.
100	<u>Kolbun 1987</u> - Human sensation.
100-500	<u>Hutter 2006</u> - Headaches, concentration and sleeping problems.
500-1,100	<u>Navarro 2003</u> - Fatigue, headaches, sleeping problems.
150-2,300	<u>Aughner 2009</u> - Changes in mental state, prevented refined word choices, calmness, stupefied, zoned-out.
165-4,400	<u>Oberfeld 2004</u> - Fatigue, depressive tendency, sleeping disorders, concentration problems, cardio-vascular problems, significant increase in breast cancer and brain tumors.
300-500	<u>Rassoul 2000</u> - Headaches, memory changes, depressive symptoms, sleeping problems.
500-1,000	<u>Khurana 2010</u> - Increased neuro - cardio symptoms, and increased cancer.
500-1,000	<u>Kundi 2009</u> - Headaches, fatigue, concentration and sleeping problems.
638	<u>Papageorgio 2011</u> - Decreased cognitive function.
1,300	<u>Zwamborn 2003</u> - Decreased cognition and well being.
1,600	<u>Kolodinski 2006</u> - Problems of memory, attention and motor function of children.
2,100	<u>Ridervold 2008</u> - Headaches in only 45 minutes of exposure to cell phone radiation.
3,800	<u>Schwartz 1990</u> - Effect on heart function.

Appx. 13

Exh F1

uW/m2

3,000	<u>Wolf 2004</u> - Ten times risk of cancer with short latency.
2,000-80,000	<u>Hoking 1996</u> - Two-fold increase in leukemia in children.
2,000-80,000	<u>Hoking 2000</u> - Decreased survival in children with leukemia.
5,000	<u>Alberts 1997</u> , <u>Oscar and Hawkin 1997</u> , <u>Neilly and Lin 1986</u> - Breakdown of the Brain-Blood Barrier allowing the entry of toxics into the nervous system.
5,000-10,000	<u>Avendano 2012</u> - 4-hour exposure to the microwaves emitted by a Wi-Fi laptop caused DNA damage to human sperm.
8,000-100,000	<u>Akoev 2002</u> - Changes in behavior.
10,000	<u>Elititi 2007</u> - 50 minutes of exposure caused loss of well being to electro-sensitive patients.
10,000	<u>Persson 1997</u> - Toxic leakage of the Blood-Brain Barrier.
10,000	<u>Simonenko 1998</u> - Headaches, dizziness, irritability, fatigue, weakness, insomnia, chest pain, stomach and breathing problems.
10,000	<u>Novoselova 1999</u> - Affected functions of the immune system.
13,000-57,000	<u>Dolk 1997</u> - Leukemia, skin melanoma, bladder cancer,
20,000	<u>Mann 1996</u> - Effects in immune system.
20,000	<u>Frey 1963, 1969, 1971, 1973, 1988</u> ; <u>Justenson 1979</u> ; <u>Olsen 1980</u> ; <u>Wieske 1963</u> ; <u>Lin 1978</u> - Microwave hearing-clicking, buzzing, chirping, hissing, or high-pitched tones. (Tinnitus)
20,000-40,000	<u>D'Inzeo 1998</u> - Effects in physical and behavioral functions.
25,000	<u>Wolke 1996</u> - Calcium concentration in heart muscle.
40,000	<u>Chiang 1989</u> - Altered white blood cells in school children.
40,000	<u>Tattersall 2001</u> - Effects in memory and learning.
40,000 to	<u>Chiang 1989</u> - Memory impairments, slowed motor skills and retarded learning in children.
150,000	<u>Boscolo 2001</u> - Immune function decreased,
50,000	<u>Belokrinitskiy 1982</u> - Biochemical and histological changes in liver, kidney, and in brain tissue.
50,000	<u>Dumanisky 1974</u> - Impaired nervous system activity.
52,500	<u>Kewee 2001</u> - 20 minutes of exposure induced stress response.
60,000	<u>Phillips 1998</u> - DNA damage.
87,500	<u>Marinelli 2004</u> - 2-12 hours of exposure caused DNA damage, linked to tumor aggression.
100,000	<u>Belokrinitskiy 1982</u> - Brain damage.
100,000	<u>Shutenko 1981</u> - Redistribution of metals in brain, lungs, heart, liver, kidney, spleen, bones, blood, skin and muscles.
100,000	<u>Navakatikian 1994</u> - Changes in behavior.
100,000	<u>Richter 2000</u> - Increased risk of cancer with short latency.
150,000	<u>Polonga-Moraru 2004</u> - Eye damage.

## OPEN LETTER TO THE JUDICIARY.

Dear Judge, scientific evidence has proven that unlimited use of wireless devices is causing children Electrohypersensitivity EHS, brain damage, and other severe physical harm. Please consider the following facts when adjudicating cases of child misbehavior, since orders limiting the use of wireless devices can protect our children and can prevent recidivism.

- A) Use of cell phones is exposing children to microwave and ULF/ELF radiation at power levels exceeding the federal safety guidelines which cause harm even to adults. (1)
- B) Exposure to this radiation has caused harm to teachers, to fire fighters, to police officers and to other adults. (2)
- C) Use of wireless devices is exposing children to more than 250,000 uW/m<sup>2</sup> of microwave radiation, and exposure to less than 150,000 uW/m<sup>2</sup> of microwave radiation can cause EHS, and brain, eye, blood, nerve, heart, and DNA damage even to adults. (3)
- D) Chronic exposure to the radiation emitted by wireless devices increases by 500% the children's risk of cancer and increases by 450% the risk of dying to children suffering of life-threatening illnesses. (4)
- E) Addiction to wireless devices increases by more than 150% the risk of suicide and can cause the same problems caused by the use of drugs. (5)
- F) In my family, several children were born with brain damage. The common thing in these children is that their mothers were users of cell phones while pregnant. The number of children with brain damage has increased from 1 in 10,000 to 1 in 50, and experts warn that the use of microwave devices by children and pregnant women is bound to leave no child without brain damage, and that by the time parents become aware of this danger, we are bound to lose many children. (6)

Consideration of these facts during your efforts to protect our children is highly appreciated. If more evidence is necessary, I will be happy to oblige.

Respectfully,

*Jesus Mendoza*

10/10/10

OREGON SENATE BILL 283 DECLARES AN EMERGENCY TO PREVENT OR REDUCE THE HARM THAT CAN BE CAUSED ON CHILDREN BY THE MICROWAVE RADIATION AT SCHOOL.

"Senate Bill 283 directs the Oregon Health Authority to ensure a study of peer-reviewed, independently-funded scientific studies on the impact of exposure to microwave radiation, particularly exposure to children that results from use of wireless network technologies in schools." David Morrison, Wireless Education Action, News Letter dated June 25, 2019.

"The bill also '...directs the Oregon Health Authority to develop recommendations to schools in this state for practices and alternative technologies that reduce students' exposure to microwave radiation that Oregon Health Authority report identifies as harmful.'" id;

"The first Education Committee hearing (scroll down to SB 283) on March 27th, 2019 included Dr. Paul Dart from Eugene, Dr. Paul Heroux from McGill University in Montreal, a 14 year old minor with microwave sickness acquired in school, David Morrison, a parent & Cindy Franklin, California Brain Tumor Association." id;

Legislators were informed of cancer clusters in schools, and heard testimony from teachers, and students sickened by microwave exposure. For over 60 years, thousands of studies, (by all branches of the U.S. military and NASA), showing biological effects of microwave radiation have been ignored by regulatory agencies prior to introducing wireless devices to the market. Brain cancer is now the leading cause of death for adolescents

Appx. 18

EyH 1

"The American Cancer Society, the California Medical Association, the American Academy of Pediatrics, hundreds of scientists and medical professionals internationally have issued warnings against using radiation emitting devices in schools." id;

"In addition to the brief summary above, since 2013, commercial insurance companies no longer insure for 'harm from hazardous effects' of wireless technology. The commercial insurance policy held by Portland Public Schools contains the disclaimer." id.

SHARING THIS INFORMATION WITH PARENTS, SCHOOL OFFICIALS, DOCTORS, ATTORNEYS AND LEGISLATORS CAN SAVE CHILDREN'S LIVES.

OUR CHILDREN CANNOT DEFEND THEMSELVES FROM THIS ATROCITY.

Respectfully, Juan Mendez Tel. (956) 583-7012.

Other States attempting to prevent or reduce the harm that can be caused on children by the microwave radiation at school, include Maryland, Massachusetts, and California.

Dear Esteemed Legislators and Public Servants,

I commend you for addressing the concerns of your highly educated constituents about the health hazards of wireless technology in the classroom. Thank you for your careful consideration of H. 2030 and S. 2079 to ensure safe use of technology in our schools and classrooms.

Despite industry campaigns to create controversy in the peer reviewed literature via "creative study design"<sup>1</sup>, the current weight of the evidence demonstrates obvious harm from wireless technologies. The sum of quality, peer reviewed evidence amassed since the 1950's is so great, that denial of this evidence is like denying of the laws of gravity.

As a former medical school assistant professor and internist, I have spent the bulk of my 20-year career caring for extremely sick, hospitalized patients, and teaching medical students and residents clinical medicine. I have published in the peer reviewed literature, served as a peer

---

<sup>1</sup> Many industry funded studies are of short duration, and/or low levels of radiation exposure. Short duration studies would not be powered to prove an endpoint like cancer, which takes a long time to develop in a given patient.

Appx. 20

Exh I1

reviewer, and taught hundreds of medical students and residents how to critically evaluate the medical literature. I have read extensively on the health impacts of electromagnetic fields (EMF's), and am highly qualified to opine on this topic.

This testimony, however, I write as the mother of two electrosensitive children who have been harmed by wireless technology, and are no longer able to attend school. By telling our story, I hope to prevent other children and their families from being harmed as we have: physically, socially, emotionally and mentally, and to give you an understanding of the human consequences of omnipresent Wi-fi and radiofrequency radiation (RFR) in our schools.

I am a law abiding, tax-paying resident of XXXXXXXXXX. Yet, my children ages 6 and 9, with physician diagnosed electromagnetic intolerance, have absolutely no access to an education, in either public or private school. In August 2017 both kids became ill in their respective classrooms, after only 3 days of school, and were unable to return. I am currently not able to find a school (without Wi-fi and not under a cell tower) that doesn't make them ill. As a result, they will need to be homeschooled this year, unless the school district reconsiders our request for 504 accommodations that was denied last month.

#### My daughter:

In May of 2016, my 2<sup>nd</sup> grade daughter reported immediate onset dizziness, nausea, and vertigo whenever the smart board was used in her classroom. With longer exposures (i.e. when the teacher screened movies on the smart board), she reported confusion, with very intense nausea and dizziness. As the year progressed, she developed short term memory loss and had marked behavioral changes. The first week of summer, she attended a camp under multiple cell towers, and after only 2 hours, she developed what was later recognized as acute radiation toxicity. She manifested all the school symptoms, plus more severe neuropsychiatric issues, many of which lasted for months, including: hyper-somnolence, akathisia, a tic disorder, extreme emotional lability/crying for no apparent reason, outbursts of anger and chronic dizziness. During this period, she was acutely sensitive to cell phone radiation/Wi-Fi/ cell towers/and other types of RFR. Of note, when levels of RFR were subsequently measured in her classroom, the power density was extremely high: 125,000  $\mu\text{W}/\text{M}^2$ , a level clearly associated with many ill health effects, including DNA damage, behavioral changes, and concentration difficulties). She has recovered, thankfully, but she remains sensitized to RFR when exposed. After only 3 days in school this year she was too dizzy and nauseous to return to the school she loved.

#### My son:

In December 2016, after starting a new school, my son developed new onset, autism-like behavioral changes that were progressive. With each passing week at the new school, he became progressively more aggressive and violent, attacking his sister many weeknights by punching and kicking her for no apparent reason. He also regressed developmentally and was no longer willing to dress/undress or wash himself. He had frequent headaches and severe difficulties with concentration most days after coming home from school. After two months of school, he began attacking other family members, including me, and his grandmother who lived with us. He had fits of rage in which he was very difficult to restrain physically. During these fits, he was often destructive. In February, he kicked a sliding glass shower door so hard it broke, and

App<sup>2</sup>x. 21

Eyh I<sub>2</sub>

later fell on my foot crushing several toes. In early March, after our daughter offhandedly mentioned that the school bus made her very dizzy, we decided to experiment and see if taking both kids off the bus would change anything. Both kids were angry about this decision, but shockingly, after 24 hours of not riding the bus, my son's violence and aggression stopped entirely. There was no further aggression in the home, apart from several episodes that occurred after heavy radiation exposures outside the home, and once the school year was over, my son was back to his normal, sweet self. After only 2 days of restarting school last month, my son immediately became aggressive towards his sister.

#### **Background:**

Both kids are developmentally normal and completely healthy. When they are exposed to RFR, they become very ill, both in different ways. We were only able to connect my son's behavior with RFR exposure because of his sister's observations. In 2016 we noticed that every time we would go to certain stores, like Home Depot or Target, my son would walk in the store behaving normally, but after a few minutes, he would go crazy: kicking, yelling, throwing himself on the floor. It got so bad that I made a point of never going to those places with him because it was too embarrassing. One day his sister said, "You understand what is happening here, right mom? Whenever I get dizzy in a store, he gets crazy – it's the radiation!" Indeed, as we subsequently observed our son in various environments, her observation was correct.

#### **We know RFR is the problem because our home is a white zone:**

Our home has been free of RFR since my daughter was diagnosed in 2016. We removed our Smart meter, cancelled the alarm service, exchanged Wi-fi for a wired ethernet connection, and made the other necessary changes to create an environment that would allow our daughter to heal from radiation toxicity. We do not use cell phones anywhere near the kids, and keep them in airplane mode most of the day. We bought low EMF<sup>2</sup> cars, that we personally measured before buying, to ensure the kids wouldn't be exposed to RF or heavy magnetic fields in the car. Since most Americans live in homes/drive cars that are electromagnetically polluted and kids carry phones that irradiate them 24/7, it is very difficult for parents to make a connection between behavioral changes and/or health issues and RFR. Simply put, parents never get to see what their kids are like when unexposed, even for even a few days.

#### **We are the tip of the iceberg:**

Had we not figured out that RFR was the cause of my son's behavioral changes and violent aggression, he undoubtedly would have ended up institutionalized and medicated. Possibly for life. Currently, there are many kids being medicated for psychiatric conditions, who may not have any medical problem aside from physiologic manifestations of non-ionizing radiation exposure(RFR).

#### **Next steps:**

Massachusetts has an incredible opportunity to lead the nation in creating solutions for safe technology use in school. You have seen the catastrophe of the opioid crisis, and I am grateful

---

<sup>2</sup> EMF-electromagnetic field

for how quickly you developed the political will to address it. Wi-fi in schools is hazardous to the cells in every one of our children and staff members, regardless of whether they can "feel it" or not. I urge you to take swift political action to protect our school children and staff now, at the start of this school year. I assure you that it will be easier and more cost effective to act now, before the onslaught of lawsuits begins (filed by parents of injured children, teachers, and school bus drivers<sup>3</sup> injured at school and in the workplace), than after countless people are injured. We can connect you with experts to help your schools develop a short-term plan to reduce all non-emergency-related exposures in school, and long-term plans to remove Wi-fi and establish hard-wired infrastructure. Thank you for your careful consideration of this urgent health matter. Please report out of committee favorably and promptly H.230 *An Act relative to best management practices for wireless in schools and public institutions of higher education* and S.2079 *An Act reducing non-ionizing radiation exposure in schools*. Please don't hesitate to contact me if I can provide additional information.

Respectfully,

XXXXXXXXXXXX, MD

---

<sup>3</sup> Bus drivers worldwide are being exposed to extremely high levels of RFR, quickly making bus driving a risky occupation because: 1) Passengers carry multiple cell phones, and operate them inside an enclosed metal space (the bus) which greatly amplifies the emitted radiation. 2) Cell phones, if used inside a vehicle that is moving rapidly, emit even greater amounts of RFR when searching for the next cell tower. 3) Some buses even have Wi-fi, again if in an enclosed metal space, which will reflect and amplify the RFR. Our children's school bus carried only elementary schoolers, with only 3 or 4 cell phones, but the result was a very high level of RFR for the driver and students. A similar bus carrying high schoolers would probably have 10 or 20 cell phones turned on at any given time, leading to extreme exposure levels for the driver. Please consider school bus policies that will protect the drivers and passengers, in addition to in-school policies:

# FCC Cell Phone Safety Limit Enforcement Probed

10.01.2017 by emily Category [Electromagnetic Health Blog](#)

## Press Release

Below is an inquiry letter sent by attorneys Swankin & Turner to the Federal Communications Commission (FCC) on behalf of the National Institute for Science, Law & Public Policy and Environmental Health Trust questioning the adequacy of the FCC's enforcement of its existing cell phone radiation limits.

### Swankin & Turner Inquiry Letter to the Federal Communications Commission (PDF)

The letter suggests as many as 75% of cell phones on the market today may possibly exceed the FCC's exposure limit.

Examples of how cell phone commonly exceed the safety limit were provided in Exhibit A to the letter. The Swankin & Turner inquiry letter to the FCC raised other equally important issues regarding FCC oversight of cell phones and wireless transmitting devices, including how the FCC considers its current safety limit to protect children given the psSAR assessment methodology the FCC uses was never intended to protect children.

Children absorb twice as much radiation into the brain compared to adults, but the FCC evidences no concern, and young children are using cell phones emitting a level of microwave radiation established for a grown adult.

Swankin & Turner Partner, James S. Turner, Esq., asked,

***"Given the well established greater absorption of radiation in children, and the fact that cell phone manufacturers do not presently offer cell phone models with a low psSAR for children, my clients wish to know how well the FCC considers its present guidelines to protect children."***

Additional issues raised in the inquiry letter relate to the adequacy of the FCC's oversight of the pre-market psSAR assessment process, and post-market psSAR surveillance, as well as regarding the respective roles of the FCC and FDA with regard to cell phone safety and regulation. Clarity was requested on where exactly responsibility for assuring devices conform to the 1.6 W/kg psSAR limit resides.

No acknowledgment of receipt or reply from the FCC has been received four months after the inquiry was submitted to the FCC's General Counsel, Howard Symons, Esq. and Associate Chief Counsel in the Office of Engineering and Technology, Bruce Romano, Esq., with copies to all FCC Commissioners, including FCC Chairman, Tom Wheeler.

The National Institute for Science, Law and Public Policy and Environmental Health Trust suggest media investigate this. Thank you for your attention.

## Press Release

### Health Policy Groups Question FCC's Allowing Manufacturer Violation of Its Cell Phone Microwave Radiation Exposure Limit

*Majority of cell phones on market may exceed FCC's stated  
RF safety limit of 1.6 W/kg, experts warn*

**Washington, D.C., January 10, 2017.** The Federal Communications Commission (FCC)'s General Counsel, Howard Symons, Esq., and Associate Chief Counsel in the Office of Engineering and Technology, Bruce Romano, Esq., have offered no acknowledgement or reply to an inquiry posing questions about whether the FCC is adequately enforcing its existing cell phone radiation safety limits.

The inquiry letter to the FCC from Swankin & Turner in Washington, D.C. was sent September 9, 2016 on behalf of the National Institute for Science, Law & Public Policy (NISLAPP) and the Environmental Health Trust (EHT). Now four months later, the FCC's lack of reply to important questions contained in the letter raises serious concerns of regulatory responsibility and competency.

The inquiry letter to the FCC suggests as many as 75% of cell phones on the market today may possibly exceed the FCC's exposure limit of 1.6 W/kg peak spatial Specific Absorption Rate (psSAR), due to a +/-30% margin of error (or uncertainty factor) in the Institute of Electrical and Electronic Engineers (IEEE) methodology for assessing psSAR (on which the FCC's exposure limits are substantially based). Any phone with a psSAR of greater than 1.231 W/kg with the 30% uncertainty factor could theoretically exceed the 1.6 W/kg FCC limit.

Examples of how various popular phones brands, and wireless transmitting devices (WTDs) such as tablets, may easily exceed the FCC's limit, with psSARs as high as 2.08 W/kg, were included with the letter as Exhibit A.

The inquiry letter to the FCC from Swankin & Turner also posed other questions regarding FCC oversight of cell phone and wireless transmitting devices, including how the FCC considers its current safety limit to protect children if the psSAR assessment methodology the FCC uses was never intended to protect children.

L. Lloyd Morgan, Senior Research Fellow, Environmental Health Trust, says, "We urge the media, all cell phone users and public health officials to contact the FCC, as well as members of Congress, demanding a response to this important letter of inquiry. It appears many cell phones on the market should never have been certified."

Camilla Rees, Senior Policy Advisor, National Institute for Science, Law & Public Policy, says, "The FCC has failed to protect children, despite scientific evidence there is significantly greater absorption of cell phone radiation in the brain and bone marrow of the skull in children, compared to adults. So the question of how the FCC considers its safety limits to protect children calls for an immediate and urgent reply. An entire generation looks to be at risk."

Dr. Devra Davis, PhD, President of the scientific and policy research organization, Environmental Health Trust, adds, "The issues raised in this inquiry letter highlight the FCC's failures to protect public health. We urge FCC leadership in the new Administration to come to the table with integrity to see that the important questions raised here are answered thoroughly, and that steps are taken to assure compliance with the FCC's psSAR microwave radiation safety limit."

Sage Associates  
USA**

**Prepared for the BioInitiative Working Group  
August 2007**

Appx 276

These proposals reflect the evidence that a positive assertion of safety with respect to chronic exposure to low-intensity levels of ELF and RF cannot be made. As with many other standards for environmental exposures, these proposed limits may not be totally protective, but more stringent standards are not realistic at the present time. Even a small increased risk for cancer and neurodegenerative diseases translates into an enormous public health consequence. Regulatory action for ELF and preventative actions for RF are warranted at this time to reduce exposures and inform the public of the potential for increased risk; at what levels of chronic exposure these risks may be present; and what measures may be taken to reduce risks.

### C. Problems with Existing Public Health Standards (Safety Limits)

Today's public exposure limits for telecommunications are based on the presumption that heating of tissue (for RF) or induced electric currents in the body (for ELF) are the only concerns when living organisms are exposed to RF. These exposures can create tissue heating that is well known to be harmful in even very short-term doses. As such, thermal limits do serve a purpose. For example, for people whose occupations require them to work around radar facilities or RF heat-sealers, or for people who install and service wireless antenna tower, thermally-based limits are necessary to prevent damage from heating (or, in the case of power-frequency ELF from induced current flow in tissues). In the past, scientists and engineers developed exposure standards for electromagnetic radiation based what we now believe are faulty assumptions that the right way to measure how much non-ionizing energy humans can tolerate (how much exposure) without harm is to measure only the heating of tissue (RF) or induced currents in the body (ELF).

In the last few decades, it has been established beyond any reasonable doubt that bioeffects and some adverse health effects occur at far lower levels of RF and ELF exposure where no heating (or induced currents) occurs at all; some effects are shown to occur at several hundred thousand times below the existing public safety limits where heating is an impossibility.

**It appears it is the INFORMATION conveyed by electromagnetic radiation (rather than heat) that causes biological changes - some of these biological changes may lead to loss of wellbeing, disease and even death.**

Effects occur at non-thermal or low-intensity exposure levels thousands of times below the levels that federal agencies say should keep the public safe. For many new devices operating with wireless technologies, the devices are exempt from any regulatory standards. The existing standards have been proven to be inadequate to control against harm from low-intensity, chronic exposures, based on any reasonable, independent assessment of the scientific literature. It means that an entirely new basis (a biological basis) for new exposure standards is needed. New standards need to take into account what we have learned about the effects of ELF and RF (all non-ionizing electromagnetic radiation and to design new limits based on biologically-demonstrated effects that are important to proper biological function in living organisms. It is vital to do so because the explosion of new sources has created unprecedented levels of artificial

# Popular cellphones tested for rad

BY SAM ROE  
CHICAGO TRIBUNE

The Apple iPhone 7 was set to operate at full power and secured below a tub of clear liquid, specially formulated to simulate human tissue.

With the push of a button, a robotic arm swung into action, sending a pencil-thin probe dipping into the tub. For 18 minutes, it repeatedly measured the amount of radiofrequency radiation the liquid was absorbing from the cellphone.

This test, which was paid for by the Tribune and conducted according to federal guidelines at an accredited lab, produced a surprising result: Radiofrequency radiation exposure from the iPhone 7 — one of the most popular smartphones ever sold — measured over the legal safety limit and more than double what Apple reported to federal regulators from its own testing.

The Federal Communications Commission, which is responsible for regulating phones, states on its website that if a cellphone has been approved for sale, the device "will never exceed" the maximum allowable exposure limit. But this phone, in an independent lab inspection, had done exactly that.

The Tribune tested three more brand-new iPhone 7s at full power, and these phones also measured over the exposure limit. In all, 11 models from four companies were tested, with varying results.

The Tribune's testing, though limited, represents one of the most comprehensive independent investigations of its kind, and the results raise questions about whether cellphones always meet safety standards set up to protect the public.

After reviewing the lab reports from the Tribune's tests, the FCC said it would take the rare step of conducting its own testing over the next couple of months.

"We take seriously any claims on non-compliance with the RF (radiofrequency) exposure standards and will be obtaining

Lead technical engineer Jay Moulton places a cellphone in the testing position at the lab in San Marcos, Calif.

and testing the subject phones for compliance with FCC rules," agency spokesman Neil Grace said.

The Tribune set out a year ago to explore an important question: Are cellphones as safe as manufacturers and government regulators say?

Though it's unclear whether radiofrequency radiation from cellphones can increase cancer risk or lead to other harm, that question is increasingly pressing given the widespread use of cellphones today. Many children and teenagers may face years of exposure.

The newspaper's testing was not meant to rank phone models for safety — only 11 models were examined, and in most cases just one device was tested. Nor is it possible to know whether any of the cellphones that tested above limits could cause harm. Two of the phone manufacturers, including Apple, disputed the Tribune's results, saying the lab used by the newspaper had not tested the phones the same way they do

Appx 27 E  
But the results of the Tribune's investigation contribute to an ongoing debate about the possible risks posed by radiofrequency radiation from cellphones, and they offer evidence that existing federal standards may not be adequate to protect the public.

Industry officials and manufacturers emphasize that before a new model can be brought to market, a sample phone must be tested and comply with an exposure standard for radiofrequency radiation. But manufacturers are allowed to select the testing lab and only a single phone needs to pass in order for millions of others to be sold.

Companies testing a new phone for compliance with the safety limit also are permitted to position the phone up to 25 millimeters away from the body — nearly an inch — depending on how the device is used. That's because the testing standards were adopted in the 1990s, when people frequently carried cellphones on belt clips.

# phones tested for radiofrequency radiation

testing the subject phones compliance with FCC rules," agency spokesman Neil Grace said. The Tribune set out a year ago to explore an important question: Are cellphones as safe as manufacturers and government regulators say? Though it's unclear whether radiofrequency radiation from cellphones can increase cancer risk or lead to other harm, that question is increasingly pressing given the widespread use of cellphones by many children and teenagers, who may face years of exposure. The newspaper's testing was meant to rank phone models for safety — only 11 models were examined, and in most cases just one device was tested. Nor is it possible to know whether any of the cellphones that tested above the safety limit could cause harm. Two of the phone manufacturers, including Apple, disputed the Tribune's results, saying the lab used the newspaper's testing method differently than they do.

But the results of the Tribune's investigation contribute to an ongoing debate about the possible risks posed by radiofrequency radiation from cellphones, and they offer evidence that existing federal standards may not be adequate to protect the public. Industry officials and manufacturers emphasize that before a new model can be brought to market, a sample phone must be tested and comply with an exposure standard for radiofrequency radiation. But manufacturers are allowed to select the testing lab, and only a single phone needs to pass in order for millions of others to be sold. Companies testing a new phone for compliance with the safety limit also are permitted to position the phone up to 25 millimeters away from the body — nearly an inch — depending on how the device is used. That's because the testing standards were adopted in the 1990s, when people frequently carried cellphones on belt clips.

In one phase of the Tribune testing, all phones were positioned at the same distance from the simulated body tissue that the manufacturers chose for their own tests — from 5 to 15 millimeters, depending on the model. Apple, for instance, tests at 5 millimeters. But people now often carry phones closer to the body in their pockets, which increases their potential exposure to radiofrequency radiation. To assess this kind of exposure, the Tribune asked its lab to conduct a second phase of testing, placing the phones 2 millimeters away from the simulated body — closer than any of the manufacturers' own tests and far less than the maximum distance allowed by the FCC. The 2-millimeter distance was chosen to estimate the potential exposure for an owner carrying the phone in a pants or shirt pocket. Under those conditions, most of the models tested yielded results that were over the expo-

sure limit, sometimes far exceeding it.

At 2 millimeters, the results from a Samsung Galaxy S8 were more than five times the standard.

The Government Accountability Office, Congress' research arm, recommended in 2012 that the FCC reassess the exposure limit and its testing requirements, saying that because phones weren't measured while against the body, authorities could not ensure exposures were under the standard.

Seven years later — after a lengthy period of public comment — the FCC came to its conclusion. The agency announced this month that the existing standard sufficiently protects the public and should remain in place.

Few other government officials have acted in recent years to address the possible risks of radiofrequency radiation from cellphones. But in California, the state Public Health Department in 2017 issued rare guidance on how concerned consumers could reduce exposure.

Among other advice: Don't carry cellphones in pockets.

Apple, Samsung respond. When informed of the Tribune's test results and provided with the laboratory's 100-page lab report, Apple disputed the findings, saying they were not performed in a way that properly assesses iPhones.

The Tribune's tests were conducted by RF Exposure Lab, a facility in San Marcos, Calif., that is recognized by the FCC as accredited to test for radiofrequency radiation from electronic devices. For 15 years, the lab has done radiation testing for wireless companies seeking government approval for new products.

Lab owner Jay Moulton said all the Tribune's tests were done in accordance with detailed FCC rules and guidelines.

"We're not doing anything extraordinary or different here," Moulton said. Any qualified lab "should be able to grab a phone off the shelf and test it to see if it meets requirements."

RE: REQUEST TO TRAIN MEDICAL STUDENTS AND DOCTORS ON ELECTROHYPER-  
SENSITIVITY AND ON OTHER HARM CAUSED BY EXPOSURE TO WIRELESS/  
MICROWAVE RADIATION.

DR. JOHN PRESCOTT, CHIEF  
ACADEMIC OFFICER.  
Association of American  
Medical Colleges.  
655 K. St. N.W. Suite 100  
Washington D.C. 2000-2399.

SHERIF ZAAFRAN  
EXECUTIVE DIRECTOR  
Texas Medical Board  
333 Guadalupe Tower  
Suite 610, Austin, TX.  
78701.

DR. JOHN H. KROUSE  
Dean, UTRGV School  
of Medicine.  
1210 West Schunior St.  
Edinburg, TX. 78541.

Dear gentlemen,

I respectfully request to train medical students and doctors on  
Electrohypersensitivity and on other harm caused by exposure to wireless/  
microwave radiation.

Attached is a copy of the Root Cause of Suicide on Emergency Responders  
citing to medical, legal and scientific evidence on the record proving  
that doctors' lack of training in Electrohypersensitivity and on other  
harm caused by exposure to wireless/microwave radiation is causing  
irreversible and severe harm to our children, to our emergency responders  
and to others.

Please share this vital evidence with medical schools and with medical  
faculty and students. Our children and our emergency responders cannot  
defend themselves from wireless/microwave aggressions. If more evidence  
is needed, I will be happy to oblige.

Your prompt response to this Request can save lives.

Respectfully submitted,

*Jesus Mendoza 8 Nov, 2019*

*Appx. 28*

RE: THE ROOT CAUSE OF SUICIDE ON EMERGENCY RESPONDERS. (Amended ~~Nov. 2019~~  
Jan. 2020)

TRANSCRIPT OF COMMENT BY PHONE TO CITY AND COUNTY OFFICIALS IN PUBLIC MEETINGS.

Dear Ladies and gentlemen,

I have been homebound for more than 7 years with a life-threatening Electrohypersensitivity EHS. Exposure to the same wireless/microwave radiation reaching police officers at work, including the microwave radiation emitted by cell phones, wireless computers and radar, causes me among other things, swelling of vital organs and symptoms of heart attack and of stroke. I have a history of life-threatening swelling of heart; my rashes and loss of skin have been life-threatening; and the swelling inside my skull has been so severe as to push an eye out its socket. I am in pain all the time. At times, I struggle to breathe even with oxygen. Everyday is a different torture. This is a horrible way to die. Medical and legal evidence of my EHS is attached as Exhs. A to E.

My EHS has been recognized by federal and State agencies and by Courts as a physical medical condition and as a disability. EHS proves conclusively that the microwave radiation reaching police officers at work causes severe physical harm and disabilities. id.

The same microwave radiation reaching police officers at work has caused EHS and other severe harm and disabilities to children, teachers, doctors, attorneys, scientists, fire fighters, police officers and even to a Judge and to a General Director of the World Health Organization.

See [wearetheevidence.org](http://wearetheevidence.org)

Appx. 29.

(2100 400 500000)

Exposure to power levels of radiation above the federal safety limits causes harm even to healthy and strong adults. (1)

The cellphones and other wireless devices used by police officers emit radiation above the federal safety limits. (2)

Chronic exposure to radiation increases by more than 150% the risk of suicide. (3)

Out of 55 police officers that routinely used wireless devices on their laps, 53 suffered testicular cancer and some had to be castrated. (4)

Police officers are exposed at work to more than 250,000 uW/m<sup>2</sup> (micro-Watts per square meter) of microwave radiation and exposure to less than 150,000 uW/m<sup>2</sup> can cause EHS, and brain, eye, blood, nerve, heart and DNA damage even to the children of police officers. (5)

Exposure to less than 10,000 uW/m<sup>2</sup> of microwave radiation breaks the brain blood-barrier to allow toxics on the blood stream, including pain killers to enter and damage the brain, which in turn can cause anxiety, depression, aggressivness and impairment of judgment in emergencies. (6)

Microwave radiation has caused fire fighters symptoms of brain damage, including confusion, inability to focus "brain fog" and depression. (7)

Despite that the harm caused by radiation is reaching epidemic proportions, most doctors are in the dark or in denial and continue misdiagnosing, misedicating and mistreating the symptoms of this harm. (8)

Officers with suicidal tendencies keep them to themselves for fear of losing their gun, their job and even their license. To make things worse, Nobody is protecting our police officers from the harm being caused by exposure to microwave radiation. (9)

**PRACTICAL MEASURES TO PREVENT SUICIDE ON EMERGENCY RESPONDERS INCLUDE:**

- A. Using the same mitigating technologies used by the Secret Service and by the Border Patrol;
- B. Measuring officers' exposure to radiation at work and at home;
- C. Training officers to avoid unnecessary exposures to radiation at work and at home; and
- D. Periodic medical examinations by doctors with expertise in Electro-hypersensitivity and in the harm caused by radiation.

Sharing this information with police officers and with fire fighters can save lives. Our emergency responders cannot defend themselves from microwave aggressions. If more information is needed, I will be happy to oblige. **SHARING THIS INFORMATION CAN SAVE LIVES.**

Respectfully submitted,

*Jesus Mendoza*  
Jesus Mendoza

UNIVERSITY OF CALIFORNIA LIBRARY

NOTES  
(THE EVIDENCE OF HARM)

Appx. 27c.

I. Section I of the Bioinitiative Report (2007) pg 6. The organs first to be damaged by exposure to microwave radiation are the brain, eyes, and testes. Lucinda Grant, Microwave Sickness Part 5 (1996,1997) citing Soviet Research on Neural Effects of Microwaves, Washington DC: LOC 1996. One hour of exposure of animals to power levels of microwave radiation above the safety limits during 100-200 days caused thickening and distortion of nerves, although the animals appeared healthy after exposure. Grant, Part 2, id, citing Letavet, A.A. and Z.V. Gordon eds., The Biological Action of Microwaves.

2. Cellphones emit power levels of microwave radiation more than 5 times the federal safety limits. Popular cellphones tested for radiofrequency radiation, the McAllen Monitor Aug. 25, 2019 at HIA. Appx 27 d.

On Oct. 2015, San Francisco U.S. District Judge, Edward Chen found that cell phones emit power levels of radiation above the federal safety limits. See Open Letter to the Judiciary, Exh. G. The federal safety limits for ELF radiation is 904 mG., and the occupational exposure levels range from 2 to 10 mG., Section I of the Bioinitiative Report (2007) pgs 8,11.

Cell phones emit more than 975 mG of ULF/ELF radiation. L. Hardell and Carlberg, Mobile Phones, Cordless Phones and the Risk of Brain Cancer, Intl. Journal of Oncology 35 n 1, July 2009.

Wireless computers and other wireless devices used by police officers also emit power levels of microwave radiation above the federal safety limits, and the FCC and FDA have refused to protect the people from exposure to harmful radiation. Exhs. J1-J4.

- 3). Carleigh Cooper, Cell Phones and the Dark Deception (2009) pg 97, citing Perry F.S. et al, Environmental Power Frequency Magnetic Fields and Suicide (1981). Out of 6,000 workers exposed to occupational levels of ELF radiation (2-10 mG) 536 workers died by suicide, Savitz et al, 2000. The rate of suicide on teenagers, who also are being exposed to levels of radiation above the federal safety limits, has increased to more than 50%, EJ Dickson, "Teen Suicide is on the Rise and No One Knows Why" Rolling Stone Oct. 21, 2019.

Chronic exposure to the same microwave radiation reaching police officers at work can cause anxiety, depression, aggressiveness and suicide. Martin Fall, Microwave Frequency Electromagnetic Fields (EMF's) Produce Widespread Neuropsychiatric Effects Including Depression, Journal of Chemical Neuroanatomy 75 pt. B (2016): 43-51. The U.S. Naval Medical Research Institute cites to hundreds of studies documenting how the same power levels of microwave radiation reaching police officers at work can cause anxiety, depression, aggressiveness and other neurological damage that can lead to suicide, Research Report 2, Project MCH2.524015-00043, Oct. 1971.

- 4). Out of 55 cases of testicular cancer among police officers, 53 routinely placed the radar gun in their lap. Roland A. Giroux, Daubert v. Merrell Dow: Is This What the EMF Doctor Ordered? 12 Pace Envtl. Rev. 393 (1994) Note 94.

By the time police officers sought funding for a study, the number of police officers with testicular cancer increased to 189. Microwave News Sept/Oct 1992. It appears that the wireless lobby derailed the funding on the causes of testicular cancer. However, 7 years ago, a study found that only 4 hours of exposure to the microwave radiation emitted by a laptop caused DNA damage to human sperm, which is a marker for pre-cancer. Avendano et al, (2012).

5. Attached is a description of more than 70 peer-reviewed scientific studies documenting the harm that can be caused by the same power levels of microwave radiation reaching police officers at work. Exhs. *F1-f4*, Attached herein.

The Bioinitiative Reports 2007 and 2012, and the Biological and Health Effects of Microwave Radio Frequency Transmissions by Dr. Paul Dart et al (2013), collectively cite to more than 2000 peer-reviewed scientific studies documenting the harm caused by exposure to the same microwave radiation reaching police officers at work.

Exposure to microwave radiation can cause severe harm to the unborn children of police officers. Kerry Crofton PhD, citing among other studies, Razavinasab et al, (2014); Lowenthal et al, (2007); Infante et al, (2003); Nakamichi et al, (2009); Bellieni et al, (2012) and others, pg 27, 41. See Exh. *J2*, Attached herein.

In my family, several children were born with brain damage. The common thing in these children is that their mothers were users of cell phones while pregnant. The number of children with brain damage has increased from 1 in 10,000 to 1 in less than 50, and experts warn that the use of microwave devices by children and pregnant women is bound to leave no child without brain damage, and that by the time parents become aware of this danger, we are bound to lose many many children. Crofton, id, pgs 14,15,39.

See Open Letter to the Judiciary, Exh. *G*. Oregon declared an emergency to prevent or reduce the harm that can be caused on children by the microwave radiation at school. See Exh.

ON THE PROGRESS OF THE DISTRICT OF COLUMBIA

RE: REQUEST TO INVESTIGATE WHETHER CLAIMS AGAINST THE FEDERAL GOVERNMENT  
AND AGAINST ACADEMY AND AGAINST WAL MART ARE FRAUDULENT.

JOHN BASH  
U.S. ATTORNEY FOR THE WESTERN DISTRICT  
OF TEXAS.

Dear U.S. Attorney,

I respectfully request your office to investigate whether claims against the federal government and against Academy and Wal-Mart are fraudulent, on the ground that specific, concrete, and undisputed evidence on the record has proven that the same actors attempting to conceal that the wireless/microwave radiation at school is causing children Electrohypersensitivity and other severe harm and disabilities that defeat the purpose of education, including the Governor of Texas, Greg Abbott; the Texas Attorney General, Ken Paxton; the Director of the Texas Rangers, Steven McCraw; the Texas Lt. Governor, Dan Patrick; the U.S. Attorney for the Southern District of Texas Ryan K. Patrick; the FBI Special Agent in Charge in San Antonio Texas, Christopher Combs; and the Criminal District Attorney in Hidalgo County, Ricardo P. Rodriguez Jr. are the same actors attempting to conceal that bullying is provoking mass shootings and other tragedies; on the ground that while innocent victims may seek compensation even from bullies, bullies cannot seek damages for harm that they provoked in the first place; and on the ground that an investigation and prosecution of those provoking violence can serve as a strong deterrent to prevent more tragedies as detailed on the Complaint of Criminal Violation of Children and Disabled Rights submitted to the U.S. Attorney General and posted on Sept. 2019 on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

If more evidence is needed, I will be happy to oblige.

Respectfully submitted,

*Jesus Mendoza* 8 Nov. 2019

RE: REQUEST TO PROTECT DISABLED CHILDREN.

NEALY COX, U.S. ATTORNEY  
FOR THE NORTHERN DISTRICT OF TEXAS.

Dear U.S. Attorney,

I respectfully request your office to protect our disabled children on the ground that the same actors attempting to conceal that bullying is provoking mass shootings and other tragedies are the same actors that manipulated more than 25 Judges to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal that the wireless/microwave radiation at school is causing children Electro-hypersensitivity, and brain, eye, blood, nerve, heart, and DNA damage and other severe harm and disabilities that defeat the purpose of education as detailed by specific, concrete, and undisputed medical, scientific, and legal evidence on the record cited on the Petition to Impeach 3 Federal Judges and on the Complaint of Criminal Violation of Children and of the Disabled Rights posted on Sept. 2019 on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

Please refer this Criminal Complaint and the attached Request to Investigate Whether Claims Against the Federal Government and Against Academy and Wal-Mart are fraudulent to other authorities that may also have jurisdiction on this criminal activity.

If more evidence is needed, I will be happy to oblige.

Respectfully submitted,

*Jesus Mendoza*

RE: CRIMINAL COMPLAINT OF VIOLATION OF CHILDREN AND OF DISABLED  
CONSTITUTIONAL RIGHTS.

Received on 27 Sept. 2019  
by Certified Mail Return  
Receipt No.

WILLIAM BARR,  
U.S. ATTORNEY GENERAL  
SPECIAL PROSECUTIONS, CIVIL RIGHTS DIVISION.  
950 Pennsylvania Ave. N.W.  
Washington, D.C. 20530-00-01.

7019 0700 0000 7797 2507

Dear U.S. Attorney General,

I respectfully request your office and investigation and prosecution of this Criminal Complaint of Violation of Children and of Disabled Constitutional Rights.

The attached Request to Hidalgo County Criminal District Attorney, Ricardo P. Rodriguez Jr. to recuse himself from the prosecution of Raul Lopez, who has been charged with a mass shooting, cites to evidence on the record proving the criminal collusion of Mr. Rodriguez with the Governor of Texas, <sup>\*</sup>the Texas Lt. Governor, Dan Patrick, the Texas Attorney General, Ken Paxton, the Director of the Texas Rangers, Steven McCraw, and with federal agents and others on the attempts to conceal that bullying is provoking mass shootings and other tragedies. \*(Greg Abbott)

Specific, concrete and undisputed legal, medical, and scientific evidence on the record has proven that Paxton admitted in Court his attempts to conceal with my murder the collusion of Abbott with Mr. Rodriguez, and with members of the judiciary and others on the attempts to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal:

\* Greg Abbott

Appx. 70.

1. The first part of the paper is devoted to the study of the properties of the function  $f(x)$  defined by the equation

$$f(x) = \int_0^x \frac{1}{1+t^2} dt, \quad (1)$$

where  $x$  is any real number.

- i). That school children are being exposed to harmful radiation, including microwave radiation above the federal safety limits which causes harm even to healthy and strong adults;
- ii). That school children are being exposed to the same microwave radiation that has caused harm to teachers, to fire fighters, to police officers and to other adults;
- iii). That the radiation at school is increasing by more than 500% the children's risk of cancer and increasing by more than 450% the risk of dying to children suffering from life-threatening illnesses
- iv). That the radiation at school is causing children Electrohyper-sensitivity, and brain, eye, blood, nerve, heart, and DNA damage and other severe harm and disabilities that defeat the purpose of education.
- v). That the radiation at school is responsible for the poor academic performance, for the increasing number of children suffering from learning and behavioral disabilities, for the millions of visits to the school nurse, for the millions of student and teacher absences for health reasons, for the increasing number of children collapsing in class and committing suicide, and for the increasing number of children suffering from life-threatening and from terminal illnesses;
- vi). That the switch from wired to wireless Internet in schools was not to improve education, but for illicit enrichment;

- vii). That Greg Abbott and Dan Patrick lowered the academic standards in the State of Texas, and manipulated grades and the number of children with disabilities to conceal the harm being caused on our children's brains and bodies by the microwave radiation at school;
- viii). That Abbott and federal agents manipulated more than 25 Judges to comit fraud on their Courts to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are masking the harm being caused on children by the microwave radiation at school;
- ix). That taking advantage of the pervasive corruption in this area, Greg Abbott, Dan Patrick and the Obama Administration started with our children an extremely dangerous and suicidal experiment bound to cause harm even to the children of our children and even to generations to come;
- x). And to conceal that under the excuse of national security, the future of our children, the future of our country, and the future of our national security are being sold to the wireless lobby as detailed by specific, concrete, and undisputed legal, medical, and scientific evidence on the record cited on the Petition to Impeach 3 Federal Judges submitted to the U.S. House of Representatives, to the U.S. Attorney General, and to the U.S. Dept. of Education and posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

Attached is evidence of the collusion of the U.S. Attorney for the Southern District of Texas, Ryan Patrick, the son of the Texas Lt. Governor, Dan Patrick, with U.S. District Judge, Ricardo H. Hinojosa, U.S. Magistrate Judge, Peter E. Ormsby, U.S. District Judge, Randall Crane, and U.S. District Judge, Micaela Alvarez in the malicious persecution of a doctor perceived to have the expertise to diagnose the harm being caused on children by the microwave radiation at school, to silence and to intimidate other doctors from denouncing the harm being caused on children by the radiation at school.

For all these reasons, and as accommodation to my disability, and to the disabilities of others similarly situated, I respectfully request an investigation and prosecution of the crimes against children and against the disabled detailed herein.

Your prompt response to this Criminal Complaint can save children's lives and can be a strong deterrent to the ongoing criminal activity against children and against the disabled.

Respectfully submitted,

*Jesus Mendoza*  
Jesus Mendoza

2202 E. 28th St. Mission, Texas 78574 Tel. (956) 583-7012.

**DISCLAIMER:**

Nothing in this Criminal Complaint, by implication or otherwise, conveys that I believe or advocate violence as evidenced by my years of litigation denouncing the atrocities being committed against children and against the disabled.

## ATTACHMENTS

- 1). Recusal Request to Hidalgo County Criminal District Attorney and Exhibits A-K.
2. Documents submitted on July 11, 2018 to Assistant U.S. Attorney in Mcallen, Texas Andrew Swartz, including a Request to Forward a Request to U.S. Attorney Ryan Patrick to recuse himself from the case against Dr. Jorge Zamora Quezada; Complaints of Medicaid and Medicare fraud to FBI Special Agent in Charge in San Antonio Texas, Christopher Combs, to Agent in Charge of the U.S. Dept. of Health and Human Services, Office of the Inspector General, Dallas Region, C.J. Porter, and to the Acting Assistant Attorney General of the Justice Dept., Criminal Division, John Cronan; and a Request to U.S. District Chief Judge, Ricardo H. Hinojosa and U.S. Magistrate Judge, Peter E. Ormsby to recuse themselves from the case against Dr. Zamora. Exhs. L-Q.

These documents detail the criminal collusion of Abbott, Patrick, Paxton with federal agents and members of the judiciary and others on the fraud on the Courts to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are masking the harm being caused on children by the microwave radiation at school

- 3). A Request to the Director of the Texas Rangers, Steven McCraw to refer my Criminal Complaint to the FBI and to the CIA after he indicated that federal agents were involved in this criminal activity. Exh. R.

4). A Criminal Complaint of Medicaid and Medicare Fraud submitted to Assistantt U.S. Attorney Andrew Swartz on March 11, 2019 including a Request for Resignation to U.S. Attorney Ryan Patrick and a Request to foward the Criminal Complaint to:

special Agent in Charge, in San Antonio Texas, Christopher Combs;

Agent in Charge of the U.S. Dept. of Health and Human Servibes Office of the Inspector Gen eral in Dallas, Texas, C.J. Porter;

To the Secretary of the U.S. Dept. of Education, Bettsie DeVos;

To the Assistant U.S. Attorney Gen eral, Matt M. Dummermuth;

To the Inspector Gen eral of the U.S. Dept. of Education, Sandra Bruce

To the U.S. Attorney General, William Barr;

And to the Inspector General of the U.S. Dept. of Justice, Michael Horowitz. Exhs. S,T.

RE: RECUSAL REQUEST TO HIDALGO COUNTY CRIMINAL DISTRICT ATTORNEY,  
RICARDO P. RODRIGUEZ JR.

RICARDO P. RODRIGUEZ JR.

HIDALGO COUNTY CRIMINAL DISTRICT ATTORNEY.

Dear Mr. Rodriguez,

I respectfully request your recusal from the prosecution of Raul Lopez, Case Nos. CR-0083-17-B, CR-1762-18-B, on the ground that evidence on the record shows that your family and yourself, in collusion with the Governor of Texas, Greg Abbott, the Lt. Governor, Dan Patrick, the Texas Attorney General, Ken Paxton, the Texas Rangers and federal agents are attempting to conceal that bullying is provoking shooting and other tragedies; on the ground that I have children that can become innocent victims of bully provoked shootings; and on the ground that an honest and independent prosecutor is necessary to bring bullies and their sponsors to justice as explained herein.

Evidence proves that you are attempting to conceal that bullying provoked the Lopez mass shooting. Yourself and your sister (449th District Judge) attended and participated on the Conference "Active Threat, Active Shooter: When Despair Turns to Anger, on the Path to Violence" in which an expert explained to you how bullying is provoking mass shootings and other tragedies and that at least 75% of the mass shooters were provoked by bullying. Yet, you are not investigating or prosecuting the bully/es that provoked the Lopez tragedy despite that Lopez relatives have claimed that Lopez was bullied. See Active shooter protocols discussed at the latest DHR conference, Progress Times 8/9/2019, at III.

*Apix 76.*  
1 of 5

Other evidence proving your collusion to conceal that government sponsored bullying is provoking shooting and other tragedies includes the fact that neither your office, nor the Texas Rangers or the FBI investigated whether the child shoot dead by police after he brought a toy gun to school and the child that fell to his death from a school bus were proked by bullying. Another case of government sponsored bullying is the case of Micah Gary Joel Rolph, a teacher who was bullied by students and by school officials and even beaten by the school police to the complacence of the Texas Rangers and the FBI. Former RGC teacher alleges beating by school police, the McAllen Monitor Aug. 8, 2019.

As you are aware, bullying is so pervasive in this area that an FBI agent testified in federal Court that himself and others feared for their safety when they beecame victims of school officials' sponsored bullying.

The McAllen Monitor, Editorial Sept. 13, 2013 at 7B.

Abbot's office did not allow me to explain to parents, by phone on a Conference, how bullying is provoking the mass shootings and other tragedies and Abbott's Report does not include measures to prevent bullying. After two mass shootings within a month in the State of Texas, and to conceal that bullying is provoking mass shootings, Abbott's only specific proposed measure was to expedite execution of the mass shooters. Loaded issue, No special session on guns, The Monitor, Sept. 5, 2019 at 8A. (Evidencing the fraud on the Courts to conceal the cause of mass shootings).

During the Obama Administration I submitted a Complaint to the U.S. Attorney General and to the U.S. Dept. of Homeland Security detailing how federal agents, under the excuse of national security were concealing that bullying was provoking shooting and other tragedies. See The Root Cause of Mass Shootings: Government Sponsored Bullying, Exh. K attached herein.

• *Conclude the presentation by summarizing the key points and the proposed solution.*

Evidence on the record has proven your collusion with Abbott, and with school officials and members of the judiciary in falsification of records, in perjury and in fraud on the Courts to conceal disability discrimination and retaliation against my children and against myself; to prevent expert medical care for my children's Electrohypersensitivity EHS; and to conceal that the wireless/microwave radiation at school is causing children EHS, and brain, eye, blood, nerve, heart and DNA damage and other severe harm and disabilities that defeat the purpose of education. Because of your fraud on your Court, the EHS of my youngest child is now as in my case, Life-threatening. See Exhs. A-J, attached herein.

As you are fully aware, I have been homebound for more than 7 years with life-threatening EHS. Exposure to the same microwave radiation reaching children at school causes me among other things, swelling of vital organs and symptoms of heart attack and of stroke. I have been violently ill several times. At times, I struggle to breathe even with oxygen. I am in pain all the time. This is a horrible way to die. My EHS has been recognized by federal and State agencies and by Courts as a physical medical condition and as a disability. EHS proves conclusively that the microwave radiation at school is causing children harm and disabilities that defeat the purpose of education. See Exhs. A-J. See [wearetheevidence.org](http://wearetheevidence.org)

The Texas Attorney General, Ken Paxton has admitted in Court the seriousness and legitimacy of my EHS and has admitted his attempts to conceal with my murder your collusion with Abbott, with school officials, and with members of the judiciary to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are masking the the harm being caused on children by the microwave radiation at school.

To conceal the harm being caused on children by the radiation at school, your sister did not allow me to explain to parents of the Edinburg ISD how school children are being exposed to the same microwave radiation that has caused harm to teachers, to fire fighters and to police officers and to other adults.

I am not dealing with allegations. The specific, concrete, and undisputed legal, medical and scientific evidence proving your crimes against children and against the disabled is cited on the Petition to Impeach 3 Federal Judges submitted to the U.S. House of Representatives; to the U.S. Attorney General; and to the U.S. Dept. of Education which is posted on the Case Law Section of [wirelesswatchblog.org](http://wirelesswatchblog.org)

I can testify on a Court of law and under penalty of perjury to the facts proving your crimes against children and against the disabled.

(By phone, Health permitting)

For all these reasons, and as accommodation to my disability, I am requesting your recusal from the case against Raul Lopez and to assign an independent prosecutor.

Respectfully submitted,

 17 Sept. 2019  
Jesus Mendoza  
2202 E. 28th St. Mission, Texas 78574 Tel. (956) 583-7012

**DISCLAIMER:**

Nothing in this Request, by implication or otherwise, conveys that I advocate or believe in violence, as evidenced by my litigation denouncing the atrocities against children and against the disabled. I believe that eventually, prosecutors with integrity will bring bullies and their sponsors to justice.

## ATTACHMENTS

### EXHIBITS

- A). A doctor's letter detailing my life-threatening Electrohyper-sensitivity EHS, and Chemical Hypersensitivity CHS, and detailing how the same radiation reaching children at school causes me pain, swelling of vital organs; breathing problems; and speech, concentration and memory problems.
- B). The Physician Statement of Disability issued by the Texas Dept. of Aging and Disability Services detailing major life activities and functions substantially limited when exposed to radiation.
- C). Excerpts of a Decision of the Social Security finding my electro-magnetic sensitivity a medically determinable and severe impairment.
- D). Pictures showing some of the effects caused by exposure to radiation and chemicals, including life-threatening rashes and loss of skin and facial swelling; and how the swelling inside my skull is so severe as to push an eye out of its socket.
- E). Citation and description of more than 70 peer-reviewed scientific studies documenting the symptoms of EHS and of the harm being caused on children by the microwave radiation at school.
- F). Open Letter to the Judiciary detailing with legal, medical, and scientific evidence the harm being caused on children by radiation.
- G). Read the Fine Print detailing how cell phones and other wireless devices emit power levels of microwave radiation that cause harm even to adults, and how this radiation can cause harm even to the children of our children. Cell phones can emit more than 5 times the federal safety limits. Popular cellphones tested for radio-frequency radiation, the McAllen Monitor Aug. 25, 2019 at 11A.
- H). A description of Electrohypersensitivity by Dr. Ericall Mallery-Blythe
- I). Oregon Senate Bill 283 Declares an Emergency to Protect Children from the Microwave Radiation at School.
- J). The testimony of a medical doctor to the Massachusetts Legislature detailing how if her children had not been diagnosed with EHS, her children could have spent the rest of their lives, misdiagnosed, mismedicated, and mistreated for the harm caused by the microwave radiation at school; how her son, because of his aggressivness, could have spent the rest of his life on a mental hospital; and how her children are the tip of the iceberg of the millions of children that are now being misdiagnosed, mismedicated and mistreated for the harm caused by the microwave radiation at school.
- K). The Root Cause of Mass Shootings: Government Sponsored Bullying.

The medical and other documentation attached herein is non-confidential and can be shared as evidence of the harm being caused on children by the microwave radiation at school.

U.S. Department of Justice  
Civil Rights Division

168-74-0/673087

Special Litigation Section - PHB  
950 Pennsylvania Avenue, NW  
Washington, DC 20530

October 01, 2019

Jesus Meudoza  
2202 E. 28th Street  
Mission, TX 78574

Dear Mr. Meudoza:

Thank you for your letter. The Special Litigation Section relies on information from community members to identify civil rights violations. Each week, we receive hundreds of reports of potential violations. We collect and analyze this information to help us select cases, and we may also use this information as evidence in an existing case. We will review your letter to decide whether it is necessary to contact you for additional information. We do not have the resources to follow-up on every letter.

The Special Litigation Section is one of several Sections in the Civil Rights Division. We work to protect civil rights in four areas: 1) the rights of people in state or local institutions, including: jails, prisons, juvenile detention facilities, and health care facilities for persons with disabilities (including whether persons in health care facilities should be getting services in the community instead); 2) the rights of people who interact with state or local police or sheriffs' departments; 3) the rights of people to have safe access to reproductive health care clinics or religious institutions; and 4) the rights of people to practice their religion in state and local institutions. We are not authorized to address issues with federal facilities or federal officials.

If your concern is not within this Section's area of work, you may wish to consult the Civil Rights Division web page to find the correct section: [www.justice.gov/crt](http://www.justice.gov/crt).

The Special Litigation Section only handles cases that arise from widespread problems that affect groups of people. We do not assist with individual problems. We cannot help you recover damages or any personal relief. We cannot assist in criminal cases, including wrongful convictions, appeals or sentencing.

If you have an individual problem or seek compensation or some other form of personal relief, you may wish to consult a private attorney or a non-profit or legal aid organization for

Appx 91

assistance. There are only two areas in which we can assist an individual or address a single incident: 1) we may be able to assist you if you are being prevented from practicing your religion in a prison, jail, mental hospital or other facility operated by or for a state or local government; 2) we may be able to assist you if you have experienced force or the threat of force when accessing a reproductive health care facility or religious institution.

For more information about the Special Litigation Section or the work we do, please visit our web page:  
[www.justice.gov/crt/about/spl/](http://www.justice.gov/crt/about/spl/).

Sincerely,

/s/

Steven H. Rosenbaum  
Section Chief  
Special Litigation Section
