

RE: REQUEST TO PROTECT OUR CHILDREN FROM THE HARM CAUSED BY MICROWAVE RADIATION.

DR. MIGUEL A. CARDONA
COMMISSIONER OF THE CONNECTICUT
DEPARTMENT OF EDUCATION.

miguel.cardona@ct.gov

Dear Dr. Cardona,

Congratulations. I just learned that President elect Joe Biden intends to appoint you to the Secretary of the U.S. Department of Education.

More than 3 years of litigation generated evidence proving the collusion of the governor of Texas, Greg Abbott with school officials and with members of the judiciary on the fraud on the Courts to conceal that the wireless/microwave radiation at school is causing children Electrohypersensitivity EHS, and brain, eye, blood, nerve, heart and DNA damage and other catastrophic and irreversible harm and disabilities that defeat the purpose of education as detailed by the evidence cited on the flier Parents Alert XII attached herein.

Last year, Pegam Scott, a Chicago-based law firm filed a federal law suit with evidence proving that the cell phones used by children emit more than 5 times microwave radiation than allowed by federal law. It is a fact that even short doses of radiation above the federal safety limits causes harm even to adults, and that exposure to levels of microwave radiation below the federal safety limits breaks the blood brain barrier to allow toxics on the blood stream enter and damage the brain. Medication, including the mercury in vaccines are toxics on the blood stream.

Because of the impending massive vaccination, it is now more critical to protect our children from exposures to harmful radiation, especially children with EHS and with other pre-existing health conditions.

For these reasons, I would like to know what can you do to protect our children from the harm caused by wireless/microwave radiation.

Your prompt response to this matter can save children's lives.

Respectfully submitted,

Jesus Mendoza 23 Dec, 2020.
Jesus Mendoza

PARENTS' ALERT XII.

GREG ABBOTT'S FRAUD ON THE COURTS TO CONCEAL THAT MICROWAVES; DIRECTED RADIATION SURVEILLANCE; AND GOVERNMENT SPONSORED BULLYING ARE MAIMING AND TORTURING TO DEATH CHILDREN, TEACHERS, AND OTHER INNOCENT, DEFENSELESS AND UNSUSPECTING VICTIMS AT SCHOOL AND EVEN ON THE PRIVACY OF THEIR HOME.

I have been homebound for more than 7 years with a life-threatening Electrohypersensitivity EHS, which is caused and aggravated by the same microwaves and radiation surveillance reaching children at school.

Exposure to radiation causes me among other things, swelling of vital organs and swelling of head, face and eyes; symptoms of heart attack and of stroke; rashes and loss of skin; flu and allergy symptoms; and speech, concentration and breathing problems.

I cannot stay in my home, but for a few minutes at a time, and I stay in a small metal room and in other places in the backyard. Even the low levels of radiation reaching my place aggravate my EHS. I have been violently ill several times. At times, I struggle to breathe even with oxygen. I collapsed several times. I cannot be taken to a hospital for emergency care without aggravating my EHS. I am sleep deprived and in pain all the time. Everyday is a different torture. This is a horrible way to die.

Evidence on the federal record proves that my EHS was caused by a retaliatory radiation surveillance which uses the same radiation used for surveillance in schools. My EHS has been recognized by federal and State agencies and Courts as a physical medical condition and as a disability.

It is estimated that without knowing, more than 50% of the population is already suffering symptoms of EHS. Children, teachers, doctors, attorneys, and even a Director of the World Health Organization are suffering from EHS. See weartheevidence.org

Despite that EHS is reaching pandemic proportions, most doctors are in the dark or in denial and continue misdiagnosing and mistreating with harmful drugs and unnecessary invasive procedures symptoms and signs that disappear with just reducing exposure to microwave radiation.

(See Appxs. 1 - 5 attached herein)

On November 2016, the Texas Attorney General, Ken Paxton admitted in open Court that because of my life-threatening EHS, incarceration is for me a death sentence, and then in response to counter lawsuits, Paxton admitted that he attempted to enforce by incarceration fraudulent child support orders to conceal with my murder the collusion of the Governor of Texas Greg Abbott with the Hidalgo County Criminal District Attorney, Ricardo Rodriguez and others on the attempts to conceal that a massive medical malpractice and a massive Medicaid and Medicare fraud are in use to conceal that the microwave radiation at school is causing children EHS and brain, blood, eye, nerve, heart and DNA damage and other catastrophic and irreversible harm and disabilities that defeat the purpose of education, and to conceal that exposure to microwave radiation is also maiming and torturing to death teachers, fire fighters, police officers and other unsuspecting victims. Mendoza v Paxton 92nd Dist Ct. Case No F-1591-11-A. FURTHERMORE, EVIDENCE ON THE RECORD PROVES HOW UNDER FABRICATED EXCUSES OF NATIONAL SECURITY, ABBOTT, PAXTON, AND RODRIGUEZ, IN COLLUSION WITH FEDERAL AGENTS AND PROSECUTORS ENGAGED IN OTHER ACTS OF DOMESTIC TERRORISM INCLUDING:

- 1). Attempts to conceal that government sponsored bullying/hate groups are provoking children and the mentally disabled to commit mass shootings and other acts of terrorism to justify the massive and harmful directed radiation surveillance of schools and even of homes;
- 2).. Attempts to conceal that government sponsored bullying/hate groups and harmful radiation surveillance are being used to maim and torture to death those who denounce government corruption and even in the privacy of their homes;
- 3).. And attempts to conceal that the future of our children and the future of our country and of our national security are being sold to the Deep-State Wireless, to the Big Pharma and to the Medical Industrial Complexes.

(As detailed by the Petition to Impeach 3 Federal Judges, by the Relevant Evidence to the Patrick Crusius Case; and by the Criminal Complaint of Domestic Terrorism against Abbott, Paxton, and Rodriguez and others submitted to federal authorities and posted on the Case Law Section of wirelesswatchblog.org

SHARING THIS INFORMATION WITH PARENTS, TEACHERS, DOCTORS, ATTORNEYS, JUDGES, AND LEGISLATORS CAN SAVE MILLIONS OF LIVES. Respectfully,

Jesus Mendoza

June 2002

Gro Harlem Brundtland, Director of World Health Organization: "Cell Phones, Computers Make Me Ill"

"It's not the sound, but the waves I react to. My hypersensitivity has gone so far that I even react to mobile phones closer to me than about four meters," says Gro Harlem Brundtland.

She is the Director-General of the World Health Organization (WHO), and she was talking to Aud Dalsegg, who interviewed her for the cover story of the Norwegian newspaper *Dagbladet* on March 9, 2002.

The former Prime Minister of Norway never owned a mobile phone herself, but she often received calls on her associates' phones. Now she says there is reason to be cautious about the technology.

"In the beginning I felt a local warmth around my ear," she told Dalsegg. "But the problem grew worse, and turned into a strong discomfort and headaches every time I used a mobile phone." At first she tried to avoid the pain by cutting her calls short, but this did not work. Nor was it sufficient to stop using the phones herself, because everyone around her, including at her workplace at the WHO in Geneva, uses them.

"I gradually understood that I had developed a sensitivity to this type of radiation.

"And in order not to be suspected of being hysterical—that someone should believe that this was only something I imagined—I have made several tests: People have been in my office with their mobile phone hidden in their bag or pocket. Without my knowing whether it was off or on, we have tested my reactions. I have always reacted when the phone has been on—never when it is off. So there is no doubt."

As for wireless home phones, Brundtland said, "I get an instant reaction if I touch such a phone."

She also spoke about her reactions to computers:

"If I hold a laptop in order to read what is on the screen, it feels as if I get an electric shock up through my arms. So I must keep portable computers away from me. I have a regular desktop computer in my office, but only the secretary uses it. I have not noticed the same symptoms near it, but I turn it off as soon as I come in."

The headaches she gets from mobile phone radiation subside about a half hour to an hour after the exposure stops, she said.

A medical doctor and master of public health, Brundtland gained international recognition in the 1980s for championing the principle of sustainable development as chair of the World Commission on Environment and Development (the Brundtland Commission). In October 1996 she stepped down as Prime Minister of Norway, after being head of her government for more than ten years. She has headed the World Health Organization since July 12, 1998.

Brundtland was careful, in the interview, to say that the danger from mobile phones has not been scientifically proven: "We do not at present have enough scientific evi-

Ex-WHO General-Director and Ex-Prime Minister of Norway Wireless Technology Has Negative Health Effects. There Is No Doubt.

On Friday the 14th of August 2015, retired WHO General-Director and Prime Minister of Norway, Dr. Gro Harlem Brundtland, was interviewed by the Norwegian newspaper Aftenposten (<http://www.aftenposten.no/nyheter/iriks/Brundtland---Min-kropp-har-reagert-pa-mobilstraling-i-25-ar-8125147.html>). One of the issues raised in the interview was her current thoughts on wireless radiation. Her statement was crystal clear. Above is the relevant clip from the interview, subtitled in English by Citizens' Radiation Protection, Norway. We are grateful to Gro, for her clear and honest response.

Ex-WHO General Director Warns: "Wireless Tech..."

Plenary Session presentation by

German judge is electrosensitive, seeks refuge in EMF-White Zone

An electrosensitive judge from Augsburg finds refuge in the Wehra Valley (German Black Forest).

An electrosensitive (EHS) judge from Augsburg finds refuge in the Wehra Valley (German Black Forest)

Rain splattered on the roof of the little white camper. Although Barbara has turned up the heater, the cold of winter creeps along the ground and relentlessly wraps around our feet. Barbara Domberger is on a forced vacation in Wehra Valley. The rugged gorge is one of the few havens left for the electrosensitive.

She recalls she once still had a few secluded holiday areas where she could retire, but gradually, they have disappeared. "The digital network is currently our biggest problem," she says. The 43-year-old District Judge is on the run - from harmful emitters, mostly microwaves from mobile phone networks. "I've become electrosensitive," she says.

The judge is convinced: when she's exposed to artificial electromagnetic fields for too long, like those from cordless phones or wireless Internet connections, she gets sick. She feels artificially invaded, unable to sleep and concentrate. "And all my muscles harden." Her family doctor says it's from too much stress.

It took three or four years of suffering before an old school friend put her on the right track, says Domberger. Back then the concept of electrical sensitivity was unknown. That's changed: Domberger has read many studies on her condition and has developed contacts with people who share her plight. She chairs the Munich Society for the electrosensitive and mobile-phone injured.

Barbara Domberger in his camper

She is very convincing when she easily refutes the arguments of the mobile phone industry. She knows that many prefer sticking her with a psychosomatic label. If that was the case, then how can one explain that her heart rate changes as soon as she enters a room filled with radiation? Domberger says it's a clear medical evidence.

Fear of radiation dominates her life. The once-successful young woman had to abandon her condominium with 17 a square-meter rooftop terrace near downtown Augsburg. "The apartment couldn't be shielded," she says. Her furniture is stored. She's looking for a small apartment in low-radiation area, which she could shield with special reflective paint.

She only goes out when necessary. For shopping, of course. But a movie or the theater? "I used to like going to restaurants," says Domberger. Today, she even turns down birthday invitations, because almost everyone has a cordless phone at home. "I miss the contact with ordinary people," she says with a sigh.

Since January 2010, the District Judge is on sick leave. The state of Bavaria is considering putting her on permanent disability.

Barbara Domberger was in charge of the elderly and disabled. She'd love to work again. "Being a judge was my dream job." For eight years, she worked at the District Court of Augsburg, and before that six years as a prosecutor, also for the Federal Ministry of Justice. Now she's fighting for electrosensitivity to be recognized as a disease and to obtain help for those affected.

Today she's resting in the Wehra Valley. "Here I feel really good, as I did before," she says with a smile.

Very little radiation gets through where she parked her white camper, as opposed to airports or railway stations. A holiday trip in the hot South? Only by car. For longer trips, she bought a special blouse, woven with reflective silver fiber. It cost her 90 Euros. "Most people with EHS can't afford it," says Domberger who asked us not to divulge the exact location of her retreat.

OPEN LETTER TO THE JUDICIARY.

Dear Judge,, scientific evidence has proven that unlimited use of wireless devices is causing children Electrohypersensitivity EHS, brain damage,, and other severe physical harm. Please consider the following facts when adjudicating cases of child misbehavior, since orders limiting the use of wireless devices can protect our children and can prevent recidivism.

- A) Use of cell phones is exposing children to microwave and ULF/ELF radiation at power levels exceeding the federal safety guidelines which cause harm even to adults. (1)
 - B) Exposure to this radiation has caused harm to teachers, to fire fighters,, to police officers and to other adults. (2)
 - C) Use of wireless devices is exposing children to more than 250,000 uW/m² of microwave radiation,, and exposure to less than 150,000 uW/m² of microwave radiation can cause EHS,, and brain, eye, blood, nerve, heart,, and DNA damage even to adults. (3)
 - D) Chronic exposure to the radiation emitted by wireless devices increases by 500% the childrens risk of cancer and increases by 450% the risk of dying to children suffering of life-threatening illnesses. (4)
 - E) Addiction to wireless devices increases by more than 150% the risk of suicide and can cause the same problems caused by the use of drugs. (5)
 - F) In my family, several children were born with brain damage. The common thing in these children is that their mothers were users of cell phones while pregnant. The number of children with brain damage has increased from 1 in 10,000 to 1 in 50,, and experts warn that the use of microwave devices by children and pregnant women is bound to leave no child without brain damage,, and that by the time parents become aware of this danger, we are bound to lose many children. (6)
- Consideration of these facts during your efforts to protect our children is highly appreciated. If more evidence is necessary, I will be happy to oblige.

Respectfully,, 

Tel. (956)583-7012

THE EVIDENCE

- 1) On Oct. 2015,, U.S. District Judge Edward Chen corroborated the fact that cell phones emit power levels of microwave radiation exceeding the federal safety guidelines. Cell phones emit more than 975 mG,, L. Mardell and Carlberg,, Mobile Phones, Cordless Phones and the Risk of Brain Cancer, Intl. Journal of Oncology 35: n 11 (July 2009). These levels cause harm even to adults, The Bioinitiative Report (2007) pgs 6-9.

Appendix 1. Electromagnetic hypersensitivity (EHS): excerpts from a summary by Dr Erica Mallery-Blythe⁸⁰

EHS is characterized by an awareness of/adverse response to even extremely weak electromagnetic fields (far below current safety levels) of varying frequencies, intensities and waveforms. It has been demonstrated to be an "environmentally inducible bona-fide neurological syndrome". It is a primary physical issue, not a psychological one. Conscious perception can vary with age, gender and physiology. Effects can occur even in those not experiencing symptoms at a cellular level, and it is possible that everybody could potentially develop EHS as every cell in our body is dependent on electrical signals.

Common symptoms: Headaches, dizziness, sleep disturbance, sensory up-regulation, dermatological issues, palpitations, visual/auditory disturbances, membrane sensitivity, muscle twitching, hyperactivity/fatigue, memory/concentration disturbance and anxiety (psychiatric symptoms such as anxiety and depression are likely to be secondary to the physiological effects rather than a primary cause).

Exposure-induced: EHS is a cumulative, exposure-triggered condition, and exposures are rising rapidly. If EHS is unmanaged and there is general deterioration, there will be reaction to an increasingly broad range of frequencies at increasingly low intensities. The number of devices triggering symptoms will increase, symptomatic distances will decrease and irreversibility will become more likely.

The number of people with EHS symptoms who have not yet linked them to exposure is likely to be far higher than the estimated 4–10% of the population reported by several countries. Given the ubiquity of exposure in all environments, it can be difficult for people to notice the association. Extrapolated figures suggest that 50% of the population may be affected by 2017. With enough exposure, it is possible that EHS could manifest in all members of the population. Many children are affected but undiagnosed. They are more likely to develop EHS since their exposure is higher and their systems are developing.

Socioeconomic impact of EHS and human rights: EHS is already affecting a very large number of people, many of whom are unable to work due to their condition, resulting in lost revenue. An extra burden is placed on healthcare agency resources due to inappropriate diagnosis and management of common symptoms. In more severe cases, individuals are forced to live in extreme isolation, poverty and poor health, with some living in cars and tents, which can also prove threatening to health and life, especially in extreme temperatures. They cannot access basic, life-sustaining public amenities, such as grocery stores and healthcare facilities, which constitutes a clear breach of their human rights.

"I have been contacted on a daily basis by individuals with EHS, medical practitioners, school and parent groups, legal representatives, the media and political bodies looking for medical advice on EHS or the health effects of EMF in general. This is an increasingly demanding task and therefore I have founded a medical doctors organisation entitled PHIRE (Physicians' Health Initiative for Radiation and Environment) in order to increase the available support for those requesting it" (<http://phiremedical.org/>).

⁸⁰ See: <http://www.lemfa.org/wp-content/pdf/Mallery-Blythe-v1-EESC.pdf>; includes 72 pages of scientific references.

OPEN LETTER TO PARENTS, SCHOOL OFFICIALS, DOCTORS, ATTORNEYS, LEGISLATORS AND TO FEDERAL AND STATE LAW ENFORCEMENT AND INVESTIGATIVE AGENCIES.

FEDERAL AND STATE LITIGATION HAS PROVEN THAT A MASSIVE MEDICAL MALPRACTICE AND A MASSIVE MEDICAID AND MEDICARE FRAUD ARE IN USE TO CONCEAL THAT SCHOOL CHILDREN ARE BEING EXPOSED TO POWER LEVELS OF RADIATION EXCEEDING THE FEDERAL SAFETY LIMITS AND TO THE SAME MICROWAVE RADIATION THAT HAS CAUSED HARM TO TEACHERS, TO FIREFIGHTERS, TO POLICE OFFICERS AND TO OTHER ADULTS; AND TO CONCEAL THAT THE MICROWAVE RADIATION AT SCHOOL IS CAUSING CHILDREN ELECTRO-HYPERSENSITIVITY, AND BRAIN, EYE, BLOOD, NERVE, HEART AND DNA DAMAGE AND OTHER SEVERE HARM AND DISABILITIES THAT DEFEAT THE PURPOSE OF EDUCATION AS EXPLAINED ON THE PETITION TO IMPEACH 3 FEDERAL JUDGES SUBMITTED TO THE U.S. HOUSE OF REPRESENTATIVES, TO THE U.S. ATTORNEY GENERAL, AND TO THE U.S DEPT. OF EDUCATION AND POSTED ON THE CASE LAW SECTION OF wirelesswatchblog.org

The wireless devices used inside schools are exposing children to more than 250,000 uW/m2 of microwave radiation. Below, some of the scientific studies on the record proving the harm being caused on children by the microwave radiation at school.

uW/m2

20	<u>Altpeter 1995, 1997</u> - Sleep disorders, abnormal blood pressure, weakness, fatigue, limb pain, digestive problems, fewer school children promoted.
30-200	<u>Heinrich 2010</u> - Headaches, irritation and concentration problems in school children.
30-500	<u>Thomas 2010</u> - Short term exposures caused sleep problems in school children.
50	<u>Mohler 2010</u> - Chronic exposure caused sleep problems.
50-400	<u>Thomas 2008</u> - Headaches and concentration problems in adults.
60-100	<u>Buchner 2012</u> - Long term effects on the immune system.
100	<u>Kolbun 1987</u> - Human sensation.
100-500	<u>Hutter 2006</u> - Headaches, concentration and sleeping problems.
500-1,100	<u>Navarro 2003</u> - Fatigue, headaches, sleeping problems.
156-2,100	<u>Augner 2009</u> - Changes in mental state, prevented refined word choices, calmness, stupefied, zoned-out.
165-4,400	<u>Oberfeld 2004</u> - Fatigue, depressive tendency, sleeping disorders, concentration problems, cardio-vascular problems, significant increase in breast cancer and brain tumors.
300-500	<u>Ressoul 2000</u> - Headaches, memory changes, depressive symptoms, sleeping problems.
500-1,000	<u>Khurana 2010</u> - Increased neuro - cardio symptoms, and increased cancer.
500-1,000	<u>Kundi 2009</u> - Headaches, fatigue, concentration and sleeping problems.
638	<u>Papageorgio 2011</u> - Decreased cognitive function.
1,300	<u>Zambrano 2003</u> - Decreased cognition and well being.
1,600	<u>Kolodinski 2006</u> - Problems of memory, attention and motor function of children.
2,100	<u>Ridervold 2008</u> - Headaches in only 45 minutes of exposure to cell phone radiation.
3,800	<u>Schwartz 1990</u> - Effect on heart function.

uW/m2

3,000	<u>Wolf 2004</u> - Ten times risk of cancer with short latency.
2,000-80,000	<u>Hokins 1996</u> - Two-fold increase in leukemia in children.
2,000-80,000	<u>Hokins 2000</u> - Decreased survival in children with leukemia.
5,000	<u>Alberts 1997, Osoar and Hawkin 1997, Neilly en lin 1986</u> - Breakdown of the Brain-Blood Barrier allowing the entry of toxics into the nervous system.
5,000-10,000	<u>Avendano 2012</u> - 4-hour exposure to the microwaves emitted by a Wi-Fi laptop caused DNA damage to human sperm.
8,000-100,000	<u>Akoev 2002</u> - Changes in behavior.
10,000	<u>Elititi 2007</u> - 50 minutes of exposure caused loss of well being to electro-sensitive patients.
10,000	<u>Persson 1997</u> - Toxic leakage of the Blood-Brain Barrier.
10,000	<u>Simonenko 1998</u> - Headaches, dizziness, irritability, fatigue, weakness, insomnia, chest pain, stomach and breathing problems.
10,000	<u>Novoselova 1999</u> - Affected functions of the immune system.
13,000-57,000	<u>Dolk 1997</u> - Leukemia, skin melanoma, bladder cancer,
20,000	<u>Mann 1996</u> - Effects in immune system.
20,000	<u>Frey 1963, 1969, 1971, 1973, 1988; Justenson 1979; Olsen 1980; Wieske 1963; Lin 1978</u> - Microwave hearing-clicking, buzzing, chirping, hissing, or high-pitched tones. (Tinnitus)
20,000-40,000	<u>D'Inzeo 1998</u> - Effects in physical and behavioral functions.
25,000	<u>Wolke 1996</u> - Calcium concentration in heart muscle.
40,000	<u>Chiang 1989</u> - Altered white blood cells in school children.
40,000	<u>Tattersall 2001</u> - Effects in memory and learning.
40,000 to 150,000	<u>Chiang 1989</u> - Memory impairments, slowed motor skills and retarded learning in children.
50,000	<u>Roscolo 2001</u> - Immune function decreased,
50,000	<u>Belokrinitskiy 1982</u> - Biochemical and histological changes in liver, kidney, and in brain tissue.
50,000	<u>Dumanisky 1974</u> - Impaired nervous system activity.
52,500	<u>Kewee 2001</u> - 20 minutes of exposure induced stress response.
60,000	<u>Phillips 1998</u> - DNA damage.
87,500	<u>Marinelli 2004</u> - 2-12 hours of exposure caused DNA damage, linked to tumor aggression.
100,000	<u>Belokrinitskiy 1982</u> - Brain damage.
100,000	<u>Shutenko 1981</u> - Redistribution of metals in brain, lungs, heart, liver, kidney, spleen, bones, blood, skin and muscles.
160,000	<u>Navakatikian 1994</u> - Changes in behavior.
100,000	<u>Richter 2000</u> - Increased risk of cancer with short latency.
150,000	<u>Folonga-Moraru 2004</u> - Eye damage.
