

The Octopus of Global Control – A Nut Shell Review of Charlie Robinson's Book

This book is a brilliant description of how the Deep State is manipulating the people, legislators, judges, and even the Executive to engage in self destruction. The Octopus of Global Control details with factual evidence how hatred, incredulity and stupidity are not an accident, but the product of a decades long and of well-planned indoctrination and brainwashing courtesy of the Deep State mercenaries, including the paranoid and schizophrenic psychopaths of the American “SS, KGB and Gestapo” (the FBI, CIA, NSA) and of other treasonous depravity and cowardice. This book is a life saving read for the God-loving; for those attempting to conceal the harm caused to our children by microwave radiation at school; for the vile participating in Government Sponsored Hate Group Bullying and in radiation aggressions; for the victims of these atrocities, and for those who have blind faith in the media, doctors, scientists, for hire attorneys and public officials. The Octopus of Global Control makes very clear that unless the people wake up and put aside their racial, political and other differences the Deep State will continue leading the people and our country to self destruction. If you miss the facts stated in The Octopus of Global Control, you are missing a big chunk of what life is really all about.
