

OPEN REQUEST TO THE TEXAS MEDICAL BOARD (AMENDED MARCH 5, 2022)

RE: REQUEST TO TRAIN DOCTORS ON THE HARM AND DISABILITIES CAUSED BY RADIATION AS REQUIRED BY THE AMERICANS WITH DISABILITIES ACT AND BY SECTION 504 OF THE REHABILITATION ACT.

**SHERIF Z. ZAAFRAN, M.D., CHAIR OF THE TEXAS MEDICAL BOARD
TELEPHONE NUMBER: (512) 305-7010**

EMAIL: Screen-CIC@TMB.state.tx.us

VICE PRESIDENT KANDACE B. FARMER, D.O.

SECRETARY-TREASURER MICHAEL COKINOS

EXECUTIVE DIRECTOR STEPHEN BRINT CARLTON, J.D.

MEDICAL DIRECTOR ROBERT BREDT, M.D.

Devinder S. Bhatia, M.D.	Ada L. Booth, M.D.	James S. Distefano, D.O.
Jayaram B. Naidu, M.D.	Manuel Quinones, Jr., M.D.	Ebony Todd, J.D.
LuAnn Morgan	Arun Agarwal	Tomeka M. Herod
David G. Vanderweide, M.D.	Sharon J. Barns	Robert Gracia
George I. De Loach, D.O. P.A.	Robert D. Martinez, M.D.	Jason K. Tibbels, M.D.

Dear Ladies and Gentlemen:

I respectfully request your office to train doctors on Electrohypersensitivity and on other harm caused by radiation on the ground that most doctors are reliant on the FDA claim that this radiation is harmless; on the ground that a federal Court found the FDA claims to be false; and on the ground that training doctors on the harm caused by radiation is necessary to prevent immense pain and suffering and to save the lives of thousands of children and of other defenseless and unsuspecting victims as detailed by the Statement of Physical Disabilities posted on the case law section of J. Mendoza at WirelessWatchblog.org.

On August 13, 2021, and in response to more than 11,000 pages of medical, scientific and legal evidence of the widespread harm caused by Microwave Radiation, including EHS, the U.S. Court of Appeals for the D.C. Circuit rejected the FDA allegations that wireless-microwave-radiation is harmless and ordered the FCC to explain why they ignore this evidence of harm, and especially on children. Children's Health Defense, et al v. the Federal Communication Commission, Case No 20-1025.

In limiting the FCC's ruling, the Court described the catastrophic harm caused on the EHS by the massive unrestricted deployment of wireless-microwave technologies citing in part: **“That the Telecommunications Act should not be interpreted to injure an**

identifiable segment of the population, exiled them from their homes and their city, leave them no place where they can survive and allowed them no remedy under City, State or Federal law or constitutions.” Page 28. Id. (Emphasis added)Dafna Tachover, an Attorney suffering from EHS and who for many years has been exposing on her website the harm caused on children by radiation, was on the team of attorneys in this landmark case. “Historic Win”: CHD Win Case Against FCC on Safety Guidelines for 5-G and Wireless. Children's Health Defense Team. 8/13/2021. See: WeAreTheEvidence.org. Appxs 13a, 13b, 13c, Id.

“Attorney Dafna Tachover, CHD's Director of 5-G and Wireless Harm's Project who initiated and led the case for CHD, said:”

“The FCC will finally have to recognize the immense suffering by the millions of people who have already been harmed by the FCC's and FDA's unprecedented failure to protect public health. Finally the truth is out. I am hopeful that following this decision, the FCC will do the right thing and halt any further deployment of 5-G.” Appx 13b, Id. Emphasis added.

On December 21, 2021, Americans For Responsible Technology representing more than 150 organizations submitted a Petition to the U.S. Department of Health and Human Services to declare an imminent “Health” Hazard detailing with the Court's ruling how most physicians are reliant on the FDA's false, misleading and fraudulent claims to the detriment of millions of children and of other defenseless and unsuspecting victims. See EHT.org.

THE ELECTROHYPERSENSITIVITY EHS, PROVES CONCLUSIVELY THAT MICROWAVE/WIRELESS RADIATION AT SCHOOL IS CAUSING CHILDREN CATASTROPHIC HARM AND DISABILITIES THAT DEFEAT THE PURPOSE OF EDUCATION.

A doctor testified to the Massachusetts Legislature how if her children had not been diagnosed with EHS, her children could have spent the rest of their lives misdiagnosed and mistreated for the harm caused on them by the microwaves/wireless radiation at school. The doctor testified in essence how her son because of his aggressiveness could have spent the rest of his life in a mental hospital and how her children are the tip of the iceberg of the thousands, if not millions of children that are being misdiagnosed, mistreated and institutionalized for the harm caused on them by the compulsory and unnecessary exposures to microwave radiation at school. Appxs 21-24, 27, Id.

For the most part, I have been home-bound for more than ten years with life-threatening Electrohypersensitivity EHS, which is caused and aggravated by the same radiation reaching children at school. Please see doctor's letter and pictures of the harm caused by

exposure to radiation. Appxs. 1, 2a, 2b, 2c, to the Statement of Physical Disabilities posted on the case law section of J. Mendoza at WirelessWatchBlog.org.

Exposure to the same radiation reaching children at school, including the radiation emitted by power lines, electric motors and transformers, fluorescent lights, cellphones and cell towers, Wi-Fi, microwave/wireless computers and transmitters, video display screens, radar, etc, causes me among other things, swelling of vital organs; swelling of face, head and eyes; symptoms of heart attack and stroke; rashes and loss of skin; flu and allergy symptoms; joint and muscle pain; extreme weakness and fatigue; painful cramps; internal bleeding; and stomach, sleeping, vision, hearing, speech, memory, concentration and breathing problems. Please see the medical, scientific and legal evidence of my EHS attached as appendices 1-10; 14a, 14b. Id.

I cannot be inside my home but for a few minutes at a time, and I stay in a metal room and in other places in the back yard. Even the small amounts of radiation reaching my place aggravate my condition. I have been violently ill several times. At times, I struggle to breathe even with oxygen. I am sleep-deprived and in pain all the time. Every day it is a different torture. This is a horrible way to die. Id.

Doctors with expertise in Environmental Medicine diagnosed my EHS and my EHS has been recognized by federal and State agencies, and by courts as a physical medical condition and disability. Id; Appxs. 27-60, Id.

The cellphones and other wireless devices used by children emit power levels of microwave radiation above the federal safety limits which cause severe harm even to healthy and strong adults, including the symptoms and signs of EHS. See Conclusive Evidence on the Record of Harm in Children by Microwave Radiation in Schools. Appxs. 11, 12. See also Open Letter to the Judiciary and Read the Fine Print. Appxs 11, 15, 25, 26, 36, Id.

Thousands of peer-reviewed scientific studies document the harm caused by exposure to even low levels of radiation, including the symptoms of EHS. Appxs. 9-15. See also Magda Havas, San Francisco, EarthLink Wi-Fi Network (2007); The Bioinitiative Report 2007, 2012, 2014, 2020.

It is estimated that without knowing it, millions are suffering from EHS. Children, teachers, doctors, attorneys, and even a judge and a general director of the World Health Organization are suffering from EHS. See Summary of EHS by Dr. Erica Mallery-Blythe, Appx 5; see Appxs 16-20.

The symptoms and signs of EHS can be confounded with symptoms and signs of most illnesses, including ADHD, PTSD, autism, dyslexia, heart attack and stroke, multiple

sclerosis, fibromyalgia, hypothyroidism, Parkinson's, Alzheimer's, rheumatoid arthritis, chronic fatigue syndrome, diabetes, anxiety, and major depression and suicidal tendencies. See Electrohypersensitivity-EHS Awareness, Appxs 14-a, 14-b. See the harm caused by Microwaves on parents and on the unborn, Appx 26, Id.

The American Academy of Environmental Medicine has trained doctors to recognize the symptoms that disappear by reducing exposure to radiation. Letter of AAEM to the Los Angeles Unified School District dated March 19, 2013, appxs 39, 40, Id.

Despite that cellphones and other wireless devices used by our children at school emit power levels of radiation that cause harm even to adults; despite the thousands of studies of the harm caused by radiation, including the symptoms of EHS; despite that EHS is recognized as a physical medical condition by federal and state agencies and by courts; and despite that EHS is reaching pandemic proportions most doctors are in the dark or in denial and continue misdiagnosing and mistreating with harmful drugs, deadly pain killers and harmful invasive procedures symptoms and signs that disappear with reducing exposure to radiation. Appxs 1-60, Id.

For these reasons, and as accommodations to children and others suffering from EHS, as required by Section 504 of the Rehabilitation Act and by The Americans With Disabilities Act (as amended), I respectfully request your office to train doctors on the harm caused by microwave/wireless radiation including EHS.

Your prompt response to this matter can prevent immense pain and suffering, and can save the lives of thousands, if not millions, of children and of other defenseless and unsuspecting victims as detailed by the Statement of Physical Disabilities and other medical, scientific and legal evidence posted on the case law section of J. Mendoza at WirelessWatchblog.org.

I am willing to testify under penalty of perjury before any tribunal to the facts that are of my personal knowledge and as stated herein. (By phone health permitting due to the fact that I have been home bound for more than ten years with a life-threatening EHS)

Respectfully,
Jesus Mendoza
